93.762 A Comprehensive Approach to Good Health and Wellness in Indian County financed solely by Prevention and Public Health

Tribal Wellness,

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Sections 301(a) and 317 (k) of the Public Health Service Act, {42 U.S.C. section 241(a) and 247 (k) and Title IV Section 4002 Prevention and Public Health Fund. Public Service Act

OBJECTIVES:

This five-year funding opportunity offers support to prevent heart disease, diabetes and associated risk factors in American Indian and Alaska Native (AI/AN) communities through a holistic approach to population health and wellness. There will be two components to this funding opportunity announcement. Component One will fund 12 AI/AN tribes, one within each of the 12 Indian Health Service (IHS) areas, who will use a combination of community chosen and culturally adapted policies, systems, and environmental changes to increase access to fresh, healthy traditional foods, and offer alternatives to less healthy packaged and processed foods high in sodium and fat. Component One will also strive to promote programs to increase physical activity, health education, and team based strategies to strengthen community-clinical linkages promoting lifelong health and preventing chronic diseases such as diabetes, heart disease, and stroke. Awardees will customize environmental approaches for their communities to foster sustainability, broaden community and cross-sector partnerships, and demonstrate population change to promote health and reduce risk factors that lead to chronic disease. Component Two awardees will be Tribal organizations, as set forth in 25 U.S.C., Section 1603, and other Tribal-Serving Organizations. Twelve Tribal Organizations will receive funding (no more than one in each Area) to provide Technical Assistance, Training, and Resources to AI/AN tribes and villages within their IHS areas to promote community chosen and culturally adapted policies, systems, and environmental changes. These changes will lead to sustainable increased access to fresh, healthy traditional foods, decreased access to less healthy packaged and processed foods, increased physical activity, health education, as well as strengthened community-clinical linkages to promote lifelong health and prevent chronic diseases such as diabetes, heart disease, and stroke.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Component One awardees can potentially use assistance to apply a combination of community chosen and culturally adapted policies, systems, and environmental changes to increase access to fresh, healthy traditional foods and healthy beverages, such as water, and offer alternatives to less healthy packaged, processed foods high in sodium and fat, and less healthy beverages. Component One will also implement policy, systems, and environmental changes that increase physical activity, health education, and team-based strategies to strengthen community-clinical linkages promoting lifelong health and preventing chronic diseases such as diabetes, heart disease, and stroke. Awardees will customize environmental approaches for their communities to foster sustainability, broaden community and cross-sector partnerships, and demonstrate target/intended population change to promote health and reduce risk factors that lead to chronic disease. Component Two awardees can potentially use assistance to provide Technical Assistance, Training, and Resources (including funding for contracts with designated area tribes or villages) to AI/AN tribes and villages within their IHS areas to promote community chosen and culturally adapted policies, systems, and environmental changes. These

changes will lead to sustainable increased access to fresh, healthy traditional foods and beverages, decreased access to less healthy processed foods and beverages, increased physical activity, reduced commercial tobacco use, health education, as well as strengthened community-clinical linkages to promote lifelong health and prevent chronic diseases such as diabetes, heart disease, and stroke. Applicants must submit an itemized budget narrative, which may be scored as part of the Organizational Capacity of Awardees to Execute the Approach. When developing the budget narrative, applicants must consider whether the proposed budget is reasonable and consistent with the purpose, outcomes, and program strategy outlined in the project narrative. The budget must include: Salaries and wages, Fringe benefits, Consultant costs, Equipment, Supplies, Travel, Other categories, Total Direct costs, Total Indirect costs, Contractual costs

Applicant Eligibility:

Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Eligibility: Federally recognized American Indian Tribes and Alaska Native Villages and Corporations which meet the definition set forth in 25 U.S.C. Section 1603. Tribal organizations, as set forth in 25 U.S.C. Section 1603. Urban Indian Organizations that meet the definition set forth in 25 U.S.C., section 1603. Tribal college or university as set forth in section 1059c (b) of title 20. Tribal epidemiology Centers as set forth in 25 U.S.C. Section 1621m

Beneficiary Eligibility:

Individual/Family; Anyone/general public; Native American Organizations; Preschool; Child (6-15); Youth (16-21); Senior Citizen (60+); Unemployed; Welfare Recipient; Pension Recipient; Moderate Income; Low Income; Rural; Federally Recognized Indian Tribal Governments; Federally recognized Indian Tribal Government, Individual/Family, Native American Organization, Pre-school, infant, Child, Youth, Senior Citizen, unemployed, welfare recipient, pension recipient, moderate income, low income, rural

Credentials/Documentation:

Applicants should document the need for assistance, state the objectives of the project, outline the method of operations, describe evaluation procedures, and provide a budget with justification of funds requested. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. n/a

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. a. Data Universal Numbering System: All applicant organizations must obtain a Data Universal Numbering System (DUNS) number. A DUNS number is a unique nine-digit identification number provided by Dun & Bradstreet (D&B). It will be used as the Universal Identifier when applying for federal awards or cooperative agreements. The applicant organization may request a DUNS number by telephone at 1-866-705-5711 (toll free) or internet at <http://fedgov.dnb.com/webform/displayHomePage.do>. The DUNS number will be provided at no charge. If funds are awarded to an applicant organization that includes sub-awardees, those sub-awardees must provide their DUNS numbers before accepting any funds. b. System for Award Management (SAM): The SAM is the primary registrant database for the federal government and the repository into which an entity must submit information required to conduct business as an awardee. All applicant organizations must register with SAM, and will be assigned a SAM number. All information relevant to the SAM number must be current at all times during which the applicant has an application under consideration for funding by CDC. If an award is made, the SAM information must be maintained until a final financial report is submitted or the final payment is received, whichever is later. The SAM registration process usually requires not more than five business days, and registration must be renewed annually. Additional information about registration procedures may be found at www.SAM.gov. c. Grants.gov: The first step in submitting an application online is registering your organization at www.grants.gov, the official HHS E-grant Web site. Registration information is located at the Get Registered option at www.grants.gov. All applicant organizations must register at www.grants.gov. The one-time registration process usually takes not more than five days to complete.

ASSISTANCE LISTINGS DESCRIPTIONS

Applicants must start the registration process as early as possible.2.Request Application Package: Applicants may access the application package at www.grants.gov.3.Application Package: Applicants must download the SF-424, Application for Federal Assistance, package associated with this funding opportunity at www.grants.gov. If Internet access is not available, or if the online forms cannot be accessed, applicants may call the CDC PGO staff at 770-488-2700 or e-mail PGO PGOTIM@cdc.gov for assistance. Persons with hearing loss may access CDC telecommunications at TTY 1-888-232-6348.

Award Procedure:

Awardees will receive an electronic copy of the Notice of Award (NoA) from CDC PGO. The NoA shall be the only binding, authorizing document between the awardee and CDC. The NoA will be signed by an authorized GMO and e-mailed to the awardee program director. Any applicant awarded funds in response to this FOA will be subject to the DUNS, SAM Registration, and Federal Funding Accountability And Transparency Act Of 2006 (FFATA) requirements.Unsuccessful applicants will receive notification of these results by e-mail with delivery receipt or by U.S. mail.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 120 to 180 days.

Appeals:

Not Applicable.

Renewals:

From 120 to 180 days. Renewals will be based upon availability of funding and satisfactory programmatic progress. Project period is for 5 years with 12 month budget periods.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Five year project period with 12 month budget periods Method of awarding/releasing assistance: lump sum.

Reports:

Semi-annual reports from each entity awarded a cooperative agreement or contract, summarizing the activities undertaken and identifying any sub-grants or sub-contracts awarded (including the purpose of the award and the identity of the recipient), to be posted not later than 30 days after the end of each 6-month period. Congress directed HHS to provide information on activities and programs supported with resources from the Prevention and Public Health Fund (PPHF) to a public website. <http://www.hhs.gov/open/records> and reports/prevention/index.html Reporting provided continuous program monitoring and identifies success and challenges that awardees encounter throughout the project period. Also, reporting is a requirement for awardees who want to apply for yearly continuation of funding. Awardees must submit an Annual Performance Report via www.grants.gov 120 days before the end of the budget period. The report must not exceed 45 pages excluding administrative reporting; attachments are not allowed, but Web links are allowed. This report must include the following: performance measures, evaluation results, work plan, successes, challenges, DC program support needs, and administrative reporting. The annual FFR form (SF-425) is required and must be submitted through eRA Commons within 90 days after each budget period ends. The report must include only those funds authorized and disbursed during the timeframe covered by the report. The final report must indicate the exact balance of unobligated funds, and may not reflect any unliquidated obligations. The final FFR expenditure data and the Payment Management Systems (PMS) cash transaction data must correspond; no discrepancies between the data sets are permitted. Failure to submit the required information by the due date may affect adversely the future funding of the project. If the information cannot be provided by the due date, awardees are required to submit a letter of explanation and include the date by which the information will be provided. Awardees must provide a more detailed evaluation and performance measurement plan within the first six months of the project. This more detailed plan must be developed by awardees as part of first-year project activities, with

support from CDC. This more detailed plan must build on the elements stated in the initial plan, and must be no more than 25 pages. At a minimum, and in addition to the elements of the initial plan, this plan must: Indicate the frequency that evaluation and performance data are to be collected. Describe how data will be reported. Describe how evaluation findings will be used to ensure continuous quality and program improvement.Describe how evaluation and performance measurement will yield findings that will demonstrate the value of the FOA (e.g., effect on improving public health outcomes, effectiveness of FOA as it pertains to performance measurement, cost-effectiveness, or cost-benefit). Describe dissemination channels and audiences (including public dissemination).Describe other information requested and as determined by the CDC program. When developing evaluation and performance measurement plans, applicants are encouraged to use the Introduction to Program Evaluation for Public Health Programs: A Self-Study Guide, available at: <http://www.cdc.gov/eval/guide/index.htm>

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Financial records, supporting documents, statistical records, and all other records pertinent to the project must be kept readily available for review by personnel authorized to examine PHS grant accounts. Records must be maintained for a minimum of 3 years after the end of the budget period. If questions still remain, such as those raised as a result of an audit, records must be retained until completion or resolution of any audit in process or pending resolution. Property records must be retained in accordance with PGS Grants Policy Statement requirements.

93.764 PPHF- Cooperative Agreements to Implement the National Strategy for Suicide Prevention (Short Title: National Strategy Grants)

FEDERAL AGENCY:

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES
ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF
AUTHORIZATION:

Section 520 of the Public Health Service Act

OBJECTIVES:

The purpose of this program is to support states in implementing the 2012 National Strategy for Suicide Prevention (NSSP) goals and objectives focused on preventing suicide and suicide attempts among working-age adults 25-64 years old in order to reduce the overall suicide rate and number of suicides in the U.S. nationally.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Develop and implement a plan for rapid follow-up of adults who have attempted suicide or experienced a suicidal crisis after discharge from emergency departments and inpatient units. This should include care transition and care coordination services. Establish follow-up and care transition protocols to help ensure patient safety, especially among high risk adults in health or behavioral health care settings who have attempted suicide or experienced a suicidal crisis, including those with serious mental illnesses. The plan should establish follow-up and care transition protocols to help ensure patient safety, especially among high risk adults including those with serious mental illness. The plan should include how you will work with medical professionals including, but not limited to, primary care and emergency department personnel and ensure the transfer of relevant demographic and treatment information between the medical provider and the behavioral health entity. Provide, or assure provision of, suicide prevention training to community and clinical service providers and systems serving adults at risk. Incorporate efforts to reduce access to lethal means among individuals with identified suicide risk. This effort will be done within all appropriate federal, state, and local laws. Work across state departments and systems in order to implement comprehensive suicide prevention. Relevant state agencies should include, but are not limited to, agencies responsible for Medicaid; health, mental health, and substance abuse; justice; corrections; labor; veterans affairs; and the National Guard. Collaborate with mental health and substance abuse service settings, primary care and specialty behavioral health settings, integrated primary/behavioral health care delivery settings, emergency departments, and Lifeline crisis centers. In addition to the health care sector, include other relevant sectors such as workplace or justice settings. Develop a plan to ensure coordination across sectors. Incorporate the input of suicide attempt and suicide loss survivors, including family members and friends. Demonstrate the impact of grant activities on adult suicide deaths and attempts within key sectors, including health and behavioral health, by utilizing timely surveillance data at the beginning, during, and at the end of their grant. Modify your efforts as needed during the grant cycle based on this surveillance data. Grantees must screen and assess clients for the presence of co-occurring mental and substance use disorders and use the information obtained from the screening and assessment to develop appropriate treatment approaches for the persons identified as having such co-occurring disorders, including identifying, assessing, and treating their suicide risk. Develop partnerships in order to implement collaboration activities described above in section 2.1, Required Activities. Adopting and/or enhancing your computer system, management information system (MIS), electronic health records (EHRs), etc., to document and manage client needs, care process, integration with related support services, and outcomes. Training/workforce development to help your staff or other providers in the community identify mental health or substance abuse issues or provide effective services consistent with the purpose of the grant program. Please note that

ASSISTANCE LISTINGS DESCRIPTIONS

grantees will be asked to demonstrate the impact of grant activities by measuring the competence/confidence of health and behavioral health clinical staff at the beginning, during, and end of their grant. Impact of grant activities on skills in the following areas must be measured: assessment of suicide risk and protective factors, formulation of a risk summary to inform the choice of intervention, use of best-practice interventions to ensure safety including lethal means safety, treatment of suicide risk, and follow-up to ensure continuity of care. Develop a plan for assuring that suicide prevention activities supported by this grant program will be sustained post-grant cycle.

93.767 Children's Health Insurance Program

(CHIP).

FEDERAL AGENCY:

CENTERS FOR MEDICARE AND MEDICAID SERVICES, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Title XXI of the Social Security Act as amended by the Children's Health Insurance Program Reauthorization Act of 2009 (CHIPRA; Public Law 111-003), the Affordable Care Act (ACA; Public Law 111-148 taken together with Public Law 111-152), the Medicare Access and CHIP Reauthorization Act (MACRA) (Public Law 114-10), the Healthy Kids Act of 2018 (Public Law 115-120) and the Advancing Chronic Care, Extenders, and Social Security (ACCESS) Act (Public Law 115-123).

OBJECTIVES:

To provide funds to States to enable them to maintain and expand child health assistance to uninsured, low income children, and at a state option, low-income pregnant women and legal immigrants, primarily by three methods: (1) obtain health insurance coverage that meets the requirements in Section 2103 relating to the amount, duration, and scope of benefits; (2) expand eligibility for children under the State's Medicaid program; and (3) reduce the number of children eligible for Medicaid, CHIP and insurance affordability programs under the ACA, who are not enrolled and improve retention of those who are already enrolled. This solicitation addresses the third objective and seeks applications for the Connecting Kids to Coverage Outreach and Enrollment Grants Focused on Increasing Enrollment of eligible children, as provided under the Section 2113 of the Social Security Act, amended by section 303 of the MACRA. A total of \$29,800,000 million is available for grants to eligible entities, including states, local governments, schools, health care providers, community-based, non-profit organizations and Indian tribes or tribal consortiums, tribal organizations, urban Indian organizations receiving funds under title V of the Indian Health Care Improvement Act (25 U.S.C. 1651 et seq.), Indian Health Service providers; to the extent that a cooperative agreement awarded to such an entity is consistent with the

ASSISTANCE LISTINGS DESCRIPTIONS

requirements of Section 1955 of the Public Health Service Act (42 U.S.C. 300x-65) relating to a grant award to nongovernmental entities; and/or elementary or secondary schools. These grants will support outreach strategies aimed at increasing enrollment of eligible children in Medicaid and the Childrens Health Insurance Program (CHIP), emphasizing activities tailored to communities where eligible children and families reside and enlisting community leaders and programs that serve eligible children and families. They also will fund activities designed to help families understand new application procedures and health coverage opportunities, including Medicaid, CHIP and insurance affordability programs under the ACA. Refer to the funding opportunity announcement (Agency Funding Opportunity Number: CMS-XXX-XX-XXX, Competition ID Number: CMS-XXX-XX-XXX-XXXXXX) for additional information. In addition the Centers for Medicare & Medicaid Services (CMS) will also be announcing a separate FOA exclusively for Indian health care providers and tribal entities under which \$3.7 million will be made available for outreach and enrollment cooperative agreements. Indian health care providers and tribal entities are permitted to apply for either or both funding opportunities as long as the work described is different in each proposal.

TYPES OF ASSISTANCE:

Formula Grants, Formula Grants (Apportionments)

USES AND USE RESTRICTIONS:

No State is eligible for payments for child health assistance for coverage provided prior to October 1, 1997. Standards used to determine eligibility may include those related to geographic areas to be served by the plan. Age, income and resources, residency, disability status (as long as the standard does not restrict eligibility), access to or coverage under other health coverage, and duration of eligibility are factors. Standards may not discriminate on the basis of diagnosis. Eligibility standards must not cover higher-income children without covering lower-income children, and must not deny eligibility based on a child having a pre-existing medical condition. The State must ensure that only targeted low-income children are furnished child health assistance under the plan. Children found through screening to be eligible for Medicaid are to be enrolled in Medicaid. The insurance provided using Federal funds under the State plan does may not substitute for coverage under group health plans. Coordination with other public and private programs providing creditable coverage for low-income children should occur. Child Health Assistance (other than Medicaid), must consist of any of the following: Benchmark coverage; benchmark equivalent coverage (which can be FEHBP-equivalent coverage); State employee coverage or coverage offered through the HMO with the largest insured commercial non-Medicaid enrollment in the State; existing comprehensive State-based coverage; or Secretary-approved coverage. A State child health plan must include a description of the amount (if any) of cost-sharing and must be in accordance with a public schedule. Cost-sharing may be varied in a way that does not favor higher-income children over lower-income children. No cost-sharing is permitted for well-baby and well-child care, including age-appropriate immunizations. Cost-sharing for children at 150 percent of poverty must be consistent with Medicaid; Cost-sharing for children at 150 percent of poverty and above must be based on an income-related sliding scale. The aggregate cost sharing for all children in a family cannot exceed 5 percent of the family's income. The State child health plan may not impose pre-existing condition exclusions for covered benefits. Funds provided to a State under this Title may only be used to carry out the purposes of this Title. Health insurance coverage provided may include coverage of abortion only if necessary to save the life of the mother or if the pregnancy is the result of an act of rape or incest. States may spend up to 10 percent of their total CHIP expenditures (Federal and State) on non-benefit activities, including: outreach conducted to identify and enroll eligible children in CHIP; administration costs; health services initiatives; and other child health assistance. These expenditures are matched at the enhanced CHIP matching rate and counted against both the 10 percent limit and the allotment. Monetary amounts provided by the Federal government or services assisted or subsidized to any extent by the Federal government, may not be included in determining the amount of nonfederal contributions required for State matching purposes. All Connecting Kids to Coverage- awardees must adhere to all HHS terms and conditions regarding uses and exclusions of funds. All awardees will receive this information in their award packages.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of

higher education and hospitals; U.S. Territories and possessions (includes institutions of higher education and hospitals); Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); States with an approved child health plan under this title [42 U.S.C. Section 1397aa et seq.]; local governments; Indian tribes or tribal consortium, tribal organizations, urban Indian organizations receiving funds under title V of the Indian Health Care Improvement Act (25 U.S.C. 1651 et seq.), or Indian Health Service providers; federal health safety net organizations; national, state, local, or community-based public or nonprofit private organizations, including organizations that use community health workers or community-based doula programs; faith-based organizations or consortia, to the extent that a cooperative agreement awarded to such an entity is consistent with the requirements of Section 1955 of the Public Health Service Act (42 U.S.C. 300x-65) relating to a grant award to nongovernmental entities; and/or elementary or secondary schools may apply. Range of Approval/Disapproval Time:

Other. Section 2106 of the Law, specifies that a State plan is considered approved unless the Secretary notifies the State in writing, within 90 days after receipt of the plan, that the plan is disapproved (and the reasons for disapproval) or that specific additional information is needed. Informal clarification and discussion between the State and the DHHS review team is permitted and encouraged during the review period. This does not stop the "90-day clock." The 90-day review period may be stopped by formal written requests for additional information and clarification. The 90-day review period may be stopped as many times as necessary to obtain completed information necessary to disapprove or approve the plan. The 90-day

ASSISTANCE LISTINGS DESCRIPTIONS

period will resume when the finalized additional information is received by CMS.

Appeals:

Other. If a State wishes to appeal a disapproval, it may petition for a reconsideration of this decision within 60 days after the date of receipt of the disapproval letter, by submitting a written request for reconsideration to the project officer and the regional office. States also have the option to submit a new application following the disapproval, starting a new 90-day review clock.

Renewals:

Other. An approved State child health plan shall continue in effect unless the State amends that plan or the Secretary finds substantial noncompliance of the plan in accordance with the requirements of Title XXI.

Formula and Matching Requirements:

Statutory Formula: Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. Statutory Formula: The Connecting Kids to Coverage project grant program has no statutory formula. Matching Requirements: The Connecting Kids to Coverage project grant program has no matching requirements. This program has MOE requirements, see funding agency for further details. Additional Information: This program has MOE requirements, see funding agency for further details..

Length and Time Phasing of Assistance:

Federal funds are obligated to the Connecting Kids to Coverage grantees by issuing grant awards. To ensure that all of the appropriated funds are available to States, CMS will issue cooperative grant awards for one year from the award date to all grantees selected. Awardees must meet all reporting deadlines and demonstrate strong performance to be eligible for a non-competing continuation award for subsequent budget periods. Method of awarding/releasing assistance: lump sum.

Reports:

For the Connecting Kids to Coverage Outreach and Enrollment Grants, the following reports are required: Semi- Annual and a Final Progress Report with templates for grantee performance monitoring are provided by the evaluation contractor. Federal Financial Reports (FFR) report cash transaction data, expenditures, and any program income generated on a quarterly basis.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Grantees must include an assurance that they will collect and verify application and enrollment data as an important measure of program performance, in order to enable the Secretary to monitor grant program administration and compliance and to evaluate and compare the effectiveness of awardees.

93.772 Tribal Public Health Capacity Building and Quality Improvement Umbrella Cooperative Agreement

Tribal Umbrella CoAg,

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Executive Order 13175, Public Health Service Act, 42 USC Code 247(b)(k)(2).

OBJECTIVES:

This program's ultimate outcomes are 1) decreased morbidity and mortality among AI/ANs; 2) advanced capacity of Indian Country to identify, respond to, and mitigate public health threats; 3) improved capacity of the workforce to deliver essential public health services; 4) increased culturally-appropriate practice-based evidence programs and policies that are effective and sustainable throughout Indian Country; and 5) improved capacity to collaboratively and strategically address AI/AN health needs and advance health equity.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Historically, tribal public health systems have been separated from the larger US public health system, which has led to limited strategic partnerships with federal, state, and local partners; underdeveloped infrastructure; data access barriers; and diminished public health workforce. Tribal health systems provide public health services across the United States and are central to reducing health disparities in tribal nations. Building tribal public health infrastructure enhances Indian Country's capacity to prevent disease, promote health, and prepare for and respond to emerging threats and chronic challenges. Implementation of business practice improvements leading to efficiencies and cost savings; education/training of workforce; integration of technology in data collection and information systems, implementation of culturally adapted and traditional evidence-based public health programs, policies and services; development of capacity to meet national standards; development of strategic partnerships to enhance capacity to implement evidenced-based public health intervention strategies; improvement responsiveness to disease trends through culturally relevant public health communication tools; and improvement in quality, availability and accessibility of public health tools and resources.

Applicant Eligibility:

Federally Recognized Indian Tribal Governments; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, 65 FR 67, 249, issued by President Clinton on November 6, 2000, and the Presidential Memorandum for the Heads of Executive Departments and Agencies on Tribal Consultation, 74 FR 57881, signed by President Obama on November 5, 2009 [<http://www.gsa.gov/portal/content/101569>] encourage strengthening intergovernmental relations between the federal government and AI/AN tribal nations. As such, eligibility for this CoAg is limited to federally recognized American Indian and Alaska Native (AI/AN) tribal nations and regional tribally designated organizations. AI/AN tribal nations have the right of self-determination and governance over their citizens. In addition, AI/AN tribal nations and regional tribally designated organizations have a unique understanding of AI/AN cultures, fluency in Native languages, knowledge of indigenous history and traditional practices. These entities are the best qualified to address AI/AN public

ASSISTANCE LISTINGS DESCRIPTIONS

health needs in an efficient, effective, and culturally-appropriate manner. AI/AN tribal public health infrastructure and capacity initiatives and quality improvements are more likely to be sustained when they begin as tribal initiatives rather than as external initiatives. This CoAg will further efforts in Indian Country by supporting a culturally-appropriate approach advocated for and by the CDC/ATSDR Tribal Advisory Committee, tribal public health practitioners and partners. Direct funding will support tribal governments and tribal-serving organizations in making sound and efficient public health planning and resource allocation. The funding method for this CoAg will allow for more programs in CDC to provide direct funding to Indian Country in order to improve tribal public health systems and reach the outcomes stated in the logic model.

Beneficiary Eligibility:

Native American Organizations; American Indian; Federally Recognized Indian Tribal Governments; Eligible applicants should be able to demonstrate tribal affiliation including (1) a record of effectively working with American Indian and Alaska Native populations (2) an ability to methodically and efficiently reach tribal members in American Indian and Alaska Native communities and (3), if recipient is a tribally owned and operated organization, it should provide a letter of approval from Tribal council for the proposed program.

Credentials/Documentation:

An applicant must be in one of the applicant types listed here to be eligible for funding. Federally recognized AI/AN tribal nations must demonstrate support from the tribe by providing an official letter from a currently elected tribal leader, or a tribal resolution. Regional AI/AN tribally designated organizations must demonstrate support in the form of tribal resolutions or letters of support from currently elected tribal leaders from at least half of the tribes within the organization's service area. Official email correspondence from elected leaders will be accepted. Files should be named "Tribal Support", and uploaded as PDFs at www.grants.gov. CDC will consider any application that does not include this documentation as non-responsive and it will not receive further review. Please note the following NOFO-specific terms: Federally recognized AI/AN tribal nations refers to Native American tribal governments (Federally recognized) and American Indian or Alaska Native tribal governments (federally recognized). Regional AI/AN tribally designated organizations refer to Native American tribal organizations (other than federally recognized tribal governments) and American Indian or Alaska Native tribally designated organizations. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Each application should address one of the following target population categories: 1) Category A: HHS Regions I, II, III, and IV; 2) Category B: HHS Regions V, VI, and VII; and 3) Category C: HHS Regions VIII, IX, and X. Applications should reflect one or more of the seven collaboratively identified Tribal practices around health and wellness. Each applicant identifies the practices, which will guide their programmatic approach: (1) Family and community activities that connect cultural teachings to health and wellness. (2) Seasonal cultural and traditional practices that support health and wellness. (3) Social and cultural activities that promote community wellness. (4) Tribal, intertribal, governmental, and nongovernmental collaborations that strengthen well-being. (5) Intergenerational learning opportunities that support well-being and resilience. (6) Cultural teachings and practices about traditional healthy foods to promote health, sustenance, and sustainability. (7) Traditional and contemporary physical activities that strengthen well-being.

Award Procedure:

This funding opportunity will use a two-part strategy. Funding Strategy 1: Initial Funding - Responsive applications submitted under this funding opportunity will be reviewed objectively as described in the Review and Selection Process section of this NOFO. Awards under Funding Strategy 1 will support building capacities and capabilities. Applicants selected for Funding Strategy 1 will become part of a group of organizations that are eligible for funding under Funding Strategy 2. Funding Strategy 2: CIO Project Plans - The second funding strategy is subject to the availability of appropriated funds and agency priorities. To maximize CDC's program priorities and health system needs in Indian Country, applicants funded under Funding Strategy 1 will be eligible to apply for additional funding under

Funding Strategy 2. Under Funding Strategy 2, CDC will publish and compete CIO project plans according to geographic categories. The plans will be published on www.grants.gov as a supplement to CDC-RFA-OT18-1803. Organizations will submit "Work Plans in Response to CIO Project Plans" that are relevant to the geographic category and target population for which they were awarded funding under Funding Strategy 1.

CRITERIA FOR SELECTING PROPOSALS:

As specified in the funding opportunity announcement OT18-1803, Section II E, application review and Selection Process. An objective review panel with experience working with tribes or tribal organizations will evaluate complete applications. Reviewers will be primarily selected from a pool of CDC subject matter experts with demonstrated experience working with tribes or in tribal settings to establish cultural competence. The specific objective reviewer scores will be used to produce a rank order of proposals. However, proposals may be funded out of rank order based upon the following criteria: health conditions and geographical diversity of populations that the applicants will directly serve.

93.773 Medicare Hospital Insurance

(Medicare Part A),

FEDERAL AGENCY:

CENTERS FOR MEDICARE AND MEDICAID SERVICES, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Affordable Care Act (Public Law 111-148), American Recovery and Reinvestment Act of 2009, Public Law 111-5, Title XVIII of the Social Security Act, Health Care and Education Reconciliation Act (Public Law 111-152)

OBJECTIVES:

To provide hospital insurance protection for covered services to persons age 65 or above, to certain disabled persons and to individuals with chronic renal disease.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Insurance

USES AND USE RESTRICTIONS:

Hospital insurance benefits are paid to participating hospitals, inpatient rehabilitation facilities, skilled nursing facilities, home health agencies, and hospice agencies. Payments are made in order to cover the prospective payment amount or reasonable cost of medically necessary services furnished to individuals who are entitled under this program. In limited circumstances, Medicare will also pay for certain aspects of receiving care in an inpatient religious non-medical health care setting.

Applicant Eligibility:

Individual/Family; Specialized group (e.g. health professionals, students, veterans); Persons age 65 or over and certain disabled persons are eligible to receive hospital insurance benefits. Nearly all individuals who had reached the age of 65 before 1968 are eligible for Part A, including people not eligible for cash Social Security benefits. A person reaching the age of 65 from 1968 to the present, and who is not eligible for social security benefits, needs to have accumulated work credits (amount dependent on age) to qualify for hospital insurance benefits. Hospital insurance (Medicare Part A) is also available to persons aged 65 and over through payment of a monthly premium, which is currently \$413 per month, effective January 1, 2017. A reduced Part A premium of \$227 per month is applied to persons with 30 to 39 quarters in which they have paid into the social security system. This reduced Part A premium applies to their spouse, surviving spouse or divorced spouse as well. Federal employees began contributing toward Medicare hospital insurance coverage in 1983. Employees who have worked in the federal government prior to this year are still eligible to receive credit for prior non-contributory quarters of Federal employment. State and local government employees not already in Social Security-covered positions and who were hired on or after April 1, 1986 also contribute toward Medicare hospital insurance coverage. Although states may request agreements to cover individuals employed prior to April 1, 1986, no credit is given toward establishing Medicare entitlement for prior employment. Persons under the age of 65 who have been entitled to Social Security or Railroad Retirement disability benefits for at least 29 months are also eligible to receive hospital insurance benefits, as are any individuals who have been diagnosed with End Stage Renal Disease (ESRD).

Beneficiary Eligibility:

Individual/Family; Disabled (e.g. Deaf, Blind, Physically Disabled); Physically Afflicted (e.g. TB, Arthritis, Heart Disease); Mentally Disabled; Senior Citizen (60+); Pension Recipient; Persons age 65 or over and qualified disabled persons.

93.774 Medicare Supplementary Medical Insurance

(Medicare Part B).

FEDERAL AGENCY:

CENTERS FOR MEDICARE AND MEDICAID SERVICES, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Social Security Act Title XVIII, Section 1831.

OBJECTIVES:

To provide medical insurance protection for covered services to persons age 65 or over, to certain disabled persons and to individuals with end-stage renal disease.

Enrollment in Part B is voluntary.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Insurance

USES AND USE RESTRICTIONS:

Managed care benefits are paid on the basis of Medicare capitation rates. Fee-for-service benefits are paid on the basis of fee schedules or other approved amounts for services furnished by physicians and other suppliers of medical services to aged or disabled enrollees. Benefits are paid on the basis of prospective payment systems for certain covered services furnished by participating providers such as hospitals and home health agencies.

Applicant Eligibility:

Individual/Family; Specialized group (e.g. health professionals, students, veterans); All persons who are eligible for premium-free hospital insurance benefits (see 93.773), and persons age 65 and older who reside in the United States and are either citizens or aliens lawfully admitted for permanent residence who have resided in the United States continuously during the five years immediately preceding the month in which the application for enrollment is filed, may voluntarily enroll for Part B supplementary medical insurance (SMI). The beneficiary pays a monthly premium and an annual deductible. Beginning in calendar year 2008, the Part B premiums have been set based upon beneficiary income. The calendar year 2018 premiums range from \$134.00 to \$428.60 per month. The annual deductible is \$183.00. Some States and other third parties may pay the SMI PART B premium on behalf of qualifying individuals.

Beneficiary Eligibility:

Individual/Family; Disabled (e.g. Deaf, Blind, Physically Disabled); Physically Afflicted (e.g. TB, Arthritis, Heart Disease); Mentally Disabled; Senior Citizen (60+); Pension Recipient; All persons who qualify for hospital insurance, and those who do not qualify for hospital insurance but meet eligibility requirements and choose to purchase Part "B".

OBJECTIVES:

The Centers for Medicare & Medicaid Services (CMS) conducts research, demonstrations, and evaluations in support of CMS' key role as a beneficiary-centered purchaser of high-quality health care at a reasonable cost. These grants are awarded are in the form of research grants and cooperative agreements; Hispanic health services grants; historically black colleges and university grants. For fiscal years 2010 and 2011, CMS research, demonstrations and evaluations will focus on expanding agency efforts to improve the efficiency of payment, delivery, access and quality of our health care programs that serve millions of beneficiaries.

ASSISTANCE LISTINGS DESCRIPTIONS

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants

USES AND USE RESTRICTIONS:

Under all authorizations, all applications must meet standards of excellence in research or evaluation design. Funds may not be used for construction or renovation of buildings. Funds authorized by Section 1115 of the Social Security Act are limited to State agencies administering the Medicaid program. The research issues and/or hypotheses identified by a project should be clearly stated and realistic and should reflect the issues of interest to CMS and, where appropriate, HHS, Federal Government, and the broader health services research community. The research design should clearly identify the measures that will be collected and analyzed to address the issues and/or hypotheses. These proposed measures should reflect concepts and variables that are consistent with the stated issues and hypotheses. The research design should also address the reliability of measures i.e., a measurement should not change when the concept being measured remains constant in value. A common reliability concern is the level of inter-rater reliability of an instrument, determined by the extent to which two or more persons measuring the same characteristic would assign the same score. The research design should address the validity of proposed measures i.e., the extent to which differences in scores on variable or the measuring instrument represent true differences in the characteristic we are trying to measure, rather than constant or random errors or the influence of other factors.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Other private institutions/organizations; Grants or cooperative agreements may be made to private, or public agencies or organizations, including State agencies that administer the Medicaid program. CRITERIA FOR SELECTING PROPOSALS:

The review process for grants/cooperative agreements consists of initially screening applications for completeness and relevancy to CMS priority areas. If the application is not relevant to CMS priority areas, it will be returned to the applicant. If accepted as submitted it will be reviewed and evaluated. The review will be conducted by a panel of not less than three experts. CMS Project Officer will coordinate the panel's review, but will not vote. This individual will also prepare the panel's recommendation to the Director, Office of Research, Development, and Information (ORDI). The panel's recommendations will contain numerical ratings, rankings of applications, and a written assessment of each application. The recommendations will be based on published criteria as stated in the Federal Register. The review process for applications is also stated in the Federal Register Announcement.

93.780 Grants to States for Operation of Qualified High-Risk Pools

FEDERAL AGENCY:

CENTERS FOR MEDICARE AND MEDICAID SERVICES, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Executive Order State High Risk Pool Funding Extension Act of 2006, Public Law 109-171, Trade Act of 2002; (Public Law 107-210); Deficit Reduction Act of 2005; (Public Law 109-171); Public Law (109-172)

OBJECTIVES:

To assist States in the operation of a qualified high-risk health insurance pool by providing Federal funding (for up to appropriate funding levels) of losses incurred by the pool for a given State fiscal year.

TYPES OF ASSISTANCE:

Formula Grants, Formula Grants (Apportionments)

USES AND USE RESTRICTIONS:

A State must have a qualified high-risk pool (as defined in section 2744(c)(2) of the Public Health Service Act) that has incurred a loss in order to be eligible for a grant.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); A State must meet all of the following requirements to be eligible for a grant: 1) the State is operating a qualified high-risk pool as defined in section 2744(c)(2) of the Public Health Service Act; 2) the pool restricts premium charged under the pool to no more than 200 percent for applicable standard risk rates for the State; 3) the pool offers a choice of two or more coverage options through the pool; 4) the pool has in effect a mechanism reasonably designed to ensure continued funding of losses incurred by the State; and 5) Grant Awards: FY 2012 - The Consolidated Appropriations Act, 2012. (Public Law 112-74), provided \$43.197 million to 31 States; FY 2013 - The Consolidated and Continuing Appropriations Act, 2013 (Public Law 113-6), which provided \$41.756 million to 31 States; and in FY 2014 - The Consolidated Appropriations Act, 2014 (Public Law 113-76), which provided \$20.419 million to only 26 States. It must be noted, the State High Risk Pool Grant Program officially ends on 09/30/2015. All States which received an award between FY 2012 and FY 2014 were federally qualified States currently receiving a HRP Grant award as a supplemental (extension) award to their 2008 Operational Losses.

Beneficiary Eligibility:

State; State Agency.

Credentials/Documentation:

Federal funds must go to a designated State Agency or its partner agencies. Individuals must meet State requirements. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. N/A

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The standard application form SF-424 and related forms, as furnished by CMS, must be used for this program. These forms may be downloaded from the following Web site, www.cms.hhs.gov/researchers/priorities/grants.asp. In addition to the standard forms some additional information regarding the history and description of the qualified high-risk pool, accounting of risk pool losses, and contact person information is also required. Please refer to the following Web site for additional information: www.cms.hhs.gov/HighriskPools. Applicants are required to submit an original and two copies of the application to the Gabriel Nah, Grants Management Specialist, (Gabriel.Nah@cms.hhs.gov), Centers for Medicare and Medicaid Services (CMS), Office of Acquisition and Grants Management (OAGM) 200 Independence Ave., S.W., Room 739H, Washington, DC 20201

Award Procedure:

The Centers for Medicare and Medicaid Services (CMS) will make a decision for each application received. Each applicant will receive written notification of CMS's decision. Applicants approved for a grant award must submit a letter of acceptance to CMS within 30 days of the date of the award, agreeing to the terms and conditions of the award letter.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Under the original legislation, a total of \$80,000,000 has been made available for the qualified high-risk pool operation grant program. \$40,000,000 was made available for obligation from FY 2003-FY 2004 and another \$40,000,000 was made available for obligation from FY 2004-FY 2005. Under the provisions of section 6202 of the Deficit reduction Act, \$75,000,000 was made available in FY 2006 for this activity. The Consolidated Appropriations Act of 2008 made available \$49,126,500. The Omnibus Appropriations Act of 2009 made available \$75,000,000. The Consolidated Appropriations Act of 2010 made available \$55,000,000. Sections 1119 and 1818 of the Full-Year Continuing Appropriations Act, 2011 authorized \$54,890,000. The Consolidated Appropriations Act of 2012 made available \$44,000,000. Method of awarding/releasing assistance: lump sum.

Reports:

Grant awardees may be required to submit quarterly progress and financial reports to CMS. At a maximum, a grantee would have to complete 8 reports per year if requested. It is anticipated that grantees may only need to file semi-annually, thus 4 reports per year. Refer to 45 CFR part 92.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503 All fiscal transactions identifiable to Federal financial assistance are subject to

93.787 Title V Sexual Risk Avoidance Education Program (Discretionary Grants)

Title V SRAE - Discretionary Grants,

FEDERAL AGENCY:

ADMINISTRATION FOR CHILDREN AND FAMILIES, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Bipartisan Budget Act of 2018 (Pub. L. No. 115-123), Title V, Section 2954, Public Law 113-93, The Bipartisan Budget Act of 2018, Section 50502, Public Law 115-123

OBJECTIVES:

The purpose of the Title V Sexual Risk Avoidance Education (Title V SRAE) program is to provide messages to youth that normalizes the optimal health behavior of avoiding non-marital sexual activity. Title V SRAE is a prevention education program targeted to youth ages 10 to 19. Programmatic services must be medically accurate and complete; age-appropriate; based on adolescent learning

and developmental theories for the age group receiving the education; and culturally appropriate, recognizing the experiences of youth from diverse communities, backgrounds, and experiences. Education on sexual risk avoidance must address each of the following topics: (A) The holistic individual and societal benefits associated with personal responsibility, self-regulation, goalsetting, healthy decision making, and a focus on the future. (B) The advantage of refraining from non-marital sexual activity in order to improve the future prospects and physical and emotional health of youth. (C) The increased likelihood of avoiding poverty when youth attain self-sufficiency and emotional maturity before engaging in sexual activity. (D) The foundational components of healthy relationships and their impact on the formation of healthy marriages and safe and stable families. (E) How other youth risk behaviors, such as drug and alcohol usage, increase the risk for teen sex. (F) How to resist and avoid, and receive help regarding, sexual coercion and dating violence, recognizing that even with consent teen sex remains a youth risk behavior.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Title V SRAE funding will be used to award competitive grants. A set-aside of 20% (\$15,000,000) of the \$75,000,000 appropriation will fund program support activities and \$60,000,000 for formula and competitive grants. Funds (approximately \$10,000,000) allocated for states that do not apply for Title V State SRAE funding shall be used to fund Title V Competitive SRAE grants. Funds (\$15,000,000) shall be reserved for program support that may be provided directly or through a competitive award process. Program support includes research, training and technical assistance, a national evaluation, and the collection of information on programs and activities. A grant (cooperative agreement) for a National SRA Resource Center will be awarded, out of the set-aside for program support, at approximately \$2,300,000.

Applicant Eligibility:

Government - General; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Non-Government - General; Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; State; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Faith-based and community organizations that meet the eligibility requirements are eligible to receive awards under the Competitive Title V SRAE Discretionary Grants and National SRA Resource Center funding opportunity announcements.

Beneficiary Eligibility:

Child (6-15); Youth (16-21); Title V SRAE Discretionary Grant Program will fund States and other entities to provide youth ages 10 to 19 with education on sexual risk avoidance (meaning voluntarily refraining from sexual activity).

Credentials/Documentation:

Non-profit organizations must submit proof of non-profit status. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants can access and apply for these funding opportunities at Grants.gov. Application requirements and procedures will be listed in the funding opportunity announcement, which can be found at Grants.gov or on the ACF website at: <https://ami.grantsolutions.gov/>.

Award Procedure:

Two discretionary Funding Opportunity Announcements (FOAs) will be published in FY2018. The first FOA is to award funds to entities in the states that did not receive FY2018 Title V SRAE funding. A second FOA will be published for eligible applicants from public and private organizations and entities for the development of a National SRA Resource Center. Applications will be reviewed by an Objective Review Committee which applies the criteria given in the FOA in order to derive priority scores. The review panels will consist of expert peer

93.791 Money Follows the Person Rebalancing Demonstration

(Money Follows the Person Demonstration),

FEDERAL AGENCY:

CENTERS FOR MEDICARE AND MEDICAID SERVICES, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Section 6071, Deficit Reduction Act of 2005, Public Law 109-171; Section 2403, Affordable Care Act, Public Law 111-148

OBJECTIVES:

The Money Follows the Person (MFP) Rebalancing Demonstration, authorized by section 6071 of the Deficit Reduction Act of 2005 (P.L. 109-171), was designed to assist States to balance their long-term care systems and help Medicaid enrollees transition from institutions to the community. Congress initially authorized up to \$1.75 billion in Federal funds through Fiscal Year (FFY) 2011. With the subsequent passage of the Patient Protection and Affordable Care Act (P.L. 111-148) in 2010, Section 2403 extended the program through September 30, 2016. An additional \$2.25 billion in Federal funds was appropriated through FFY 2016. Any funds remaining at the end of each fiscal year carry over to the next fiscal year, and can be used to make grant awards to current grantees until FY 2016. Any unused grant funds in 2016 can be used until 2020. No additional funding will be available after the final 2016-2020 awards are made; however, grantees will submit documentation to identify projected costs and justify expenditures on an annual basis. Grantees can request to continue transitioning MFP participants until December 31, 2018 with services being provided and eligible for enhanced match through December 31, 2019. All claiming of services must be finalized by September 30, 2020. The MFP Demonstration supports State efforts to rebalance their long-term support system so that individuals have a choice of where they live and receive services. MFP program goals are (1) increase the use of home and community-based services (HCBS) and reduce the use of institutionally-based services; (2) eliminate barriers in State law, State Medicaid plans, and State budgets that restrict the use of Medicaid funds to let people get long-term care in the settings of their choice (3) strengthen the ability of Medicaid programs to provide HCBS to people who choose to transition out of institutions, and (4) put procedures in place to provide quality assurance and improvement of HCBS. The demonstration provides for enhanced Federal Medical Assistance Percentage (FMAP) for 12 months for qualified home and community-based services for each person transitioned from an institution to the community during the demonstration period. Eligibility for transition is dependent upon residence in a qualified institution for more than 90 consecutive days. However, days that an individual was residing in the institution for the sole purpose of receiving short-term rehabilitation services that are reimbursed under Medicare are excluded and will not be counted toward the 90-day requirement. The State must continue to provide community-based services after the 12-month period for as long as the person needs community services and is Medicaid eligible. Under the demonstration, the State must propose a system of Medicaid home and community-based care that will be sustained after the demonstration period and is deemed qualified by the Secretary. Specifically, the program must be conducted in conjunction with a

ASSISTANCE LISTINGS DESCRIPTIONS

"qualified HCBS program" which is a program that is in operation (or approved) in the State for such individuals in a manner that assures continuity of Medicaid coverage of services in the qualified HCBS program for eligible individuals. States may also propose to enhance the services they will provide during the demonstration period to achieve greater success with transition. States will be required to participate in a national qualitative and quantitative evaluation conducted by CMS. Data collected on a national level will help evaluate the core objectives of the statute.

TYPES OF ASSISTANCE:

Formula Grants (Apportionments), Project Grants

USES AND USE RESTRICTIONS:

Indirect Costs: The provisions of the 2 CFR 225 (formerly OMB Circular A-87) govern reimbursement of indirect costs under this solicitation. A copy of OMB Cost Principles for State, Local, and Indian Tribal Governments is available online at http://www.whitehouse.gov/sites/default/files/omb/assets/omb/fedreg/2005/083105_a87.pdf.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Applicants for this Demonstration Grant must be any single State Medicaid Agency, State Mental Health Agency, or instrumentality of the State. Only one application can be submitted for a given State. By "State" we refer to the definition provided under 45 CFR 74.2 as "any of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any agency or instrumentality of a State exclusive of local governments." By "territory or possession", we mean Guam, the U. S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands.

Beneficiary Eligibility:

State; As defined in Section 6071(b)(2) of the DRA and amended by Section 2403 of the Affordable Care Act, the term eligible individual means an individual in the State who, immediately before beginning participation in the MFP demonstration project: (i) resides (and has resided, for a period of not less than 90 consecutive days in an inpatient facility; (ii) is receiving Medicaid benefits for inpatient services furnished by such inpatient facility; and (iii) with respect to whom a determination has been made that, but for the provision of home and community-based long-term care services, the individual would continue to require the level of care provided in an inpatient facility and, in any case in which the State applies a more stringent level of care standard as a result of implementing the State plan option permitted under section 1915 (i) of the Social Security Act, the individual must continue to require at least the level of care which had resulted in admission to the institution.

Credentials/Documentation:

Applications can only be submitted by the single State Medicaid agency. A cover letter must accompany the application. The cover letter must be signed by the State Medicaid Director, and must indicate the title of the project, the principal contact person, the amount of funding requested, and the names of the major partners actively collaborating in the project. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

Award Procedure:

An independent review of all applications will be conducted by a panel of experts including members of the disability community, advocates, providers and staff from State and Federal agencies including CMS. The review panel will assess each application to determine the merits of the proposal and the extent to which it

further the purposes of the demonstration program. The panel will evaluate each application for further review by CMS. CMS reserves the right to request that States revise or otherwise modify certain sections of their proposals based on the recommendations of the panel and the budget. A low score in one or two areas, even if offset by high scores in other areas, may result in a rejection of the proposal. Final approval of demonstration projects will be made by the Administrator of CMS after consideration of the comments and recommendations of the review panelists, program office recommendations, and the availability of funds. CMS reserves the right to approve or deny any or all proposals for funding. CMS seeks to achieve reasonable balance among the grants to be awarded in a particular category in terms of key factors such as geographic distribution and broad target group representation. CMS may redistribute grant funds (as detailed in the "Award Information" section of this solicitation) based upon the number and quality of applications received. (e.g., to adjust the minimum or maximum awards permitted or adjust the aggregate amount of Federal funds allotted to a particular category of grants).

Deadlines:

November 01, 2009. January 7, 2011 The deadline for applications is January 7, 2011, (11:59pm Eastern Standard Time).

Range of Approval/Disapproval Time:

Other. Successful applicants will receive a Financial Assistance Award (FAA) signed and dated by the CMS Grants Management Officer. The FAA is the document authorizing the grant award and will be sent through the U.S. Postal Service to the applicant organization as listed on its SF 424. Any communication between CMS and applicants prior to issuance of the FAA is not an authorization to begin performance of a project. Unsuccessful applicants will be notified by letter, sent through the U.S. Postal Service to the applicant organization as listed on its SF 424.

Appeals:

Other. Appeals are governed by the Code of Federal Regulations, Title 45--Public Welfare, Subtitle A Department of Health and Human Services, Part 16 Procedures of the Departmental Grant Appeals Board.

Renewals:

Other. Any funding allocated for the Federal match for home and community-based services provided under the demonstration for the first year of this grant that remain unspent will be carried over to the next year of the Grant.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. A State receiving an award under this solicitation will receive reimbursement for home and community-based services provided under the demonstration on a quarterly basis at the following Federal Medical Assistance Percentage (FMAP) rates: The FMAP rate will be adjusted to reflect the increased FMAP available to States through the American Recovery and Reinvestment Act of 2009 each quarter from October 1, 2008 and extended by passage of Education, Jobs and Medicaid Assistance Act (P.L. 111-226) of 2010 through June 30, 2011 (increased rate). The funding for the increased FMAP will be provided from Money Follows the Person grant demonstration appropriations. The enhanced FMAP provided by the DRA of 2005 (Enhanced Rate increased up to 50% of the State Match capped at 90%) will be applied to the Recovery Act increased quarterly FMAP. Service Category Match rate for a 12-month demonstration period for "Qualified HCB program" services and HCB Demonstration services are at the Increased and Enhanced Match Rate. Supplemental Demonstration services will be provided at the Increased Rate only for the Recovery Act period. Administrative costs will be reimbursed according to the requirements of CFR 42, 433.15. At the end of the Recovery Act period, the yearly-published FMAP Rate in the Federal Register will be used to determine the Enhanced Rate and the State match requirements for the prior quarters to the Recovery Act period and subsequent quarters until the end of the demonstration. This program has MOE requirements, see funding agency for further details. Total expenditures under the State Medicaid program for home and community-based long-term care services will not be less for any fiscal year during the MFP demonstration project than for the greater of such expenditures for fiscal year 2005 or any succeeding fiscal year before the first of the year of the MFP demonstration project. REGULATIONS, GUIDELINES, AND LITERATURE:

To promote effective outcomes from the demonstration, the statute provides waiver authority for four provisions of title XIX of the Social Security Act, to the extent necessary to enable a State initiative to meet the requirements and accomplish the purposes of the demonstration. These provisions are: (1) Statewide (Section 1902(a)(1) of the Social Security Act) - in order to permit implementation of a State initiative in a selected area or areas of the State; (2) Comparability (Section 1902(a)(10)(B)) - in order to permit a State initiative to assist a selected category or categories of individuals enrolled in the demonstration; (3) Income and Resource

Eligibility (Section 1902(a)(10)(C)(i)(III)) - in order to permit a State to apply institutional eligibility rules to individuals transitioning to community-based care; and (4) Provider agreement (Section 1902(a)(27)) - in order to permit a State to implement self-direction services in a cost-effective manner for purposes of this demonstration program. By "State" we refer to the definition provided under 45 CFR 74.2 as any of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any agency or instrumentality of a State exclusive of local governments. By "territory or possession", we mean Guam, the U. S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. CMS will reimburse States for home and community-based services provided under the demonstration on a quarterly basis at a rate equal to the State's Federal Medical Assistance Percentage (FMAP) or the State's Enhanced FMAP, as specified in the solicitation. Administrative costs will be reimbursed according to the requirements of 42 CFR 433.15. A complete electronic application package, including all required forms, for this demonstration grant is available at https://apply.grants.gov/forms_apps_idx.html Standard application forms and related instructions are available online at <http://gsa.gov/forms>. Standard forms are available as detailed in, Section V.A, Address to Request Application Package. The following standard forms must be completed with an original signature and enclosed as part of the proposal: SF 424: Official Application for Federal Assistance (see Note below*) SF 424A: Budget Information SF 424B: Assurances - Non-Construction Programs SF LLL: Disclosure of Lobbying Activities PHS-5161-1 (7/00) Additional Certifications - can be found at the following website: http://apply.grants.gov/forms/sample/SSA_additionalassurances_VI.0.pdf Usual Requirements that must be adhered to by law and regulation: Specific administrative and policy requirements of grantees as outlined in 45 CFR 74 and 45 CFR 92, apply to this grant opportunity. All grantees receiving awards under these grant programs must meet the requirements of: Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, The Age Discrimination Act of 1975, Hill-Burton Community Service nondiscrimination provisions, and Title II Subtitle A of the Americans with Disabilities Act of 1990.

93.799 CARA Act Comprehensive Addiction and Recovery Act of 2016

CARA - Comprehensive Addiction and Recovery Act Enhancement Grant,
FEDERAL AGENCY:

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES
ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF
AUTHORIZATION:

CARA Act - Comprehensive Addiction and Recovery Act of 2016, Title 1, Section 103, Public Law 114-198, 42 USC Code 201.

OBJECTIVES:

The purpose of this program is to prevent and reduce the abuse of opioids or methamphetamines and the abuse of prescription medications among youth ages 12-18 in communities throughout the United States. Grants awarded through the CARA Act are intended as an enhancement to current or formerly funded Drug-Free Communities (DFC) Support Program grant award recipients as established community-based youth substance use prevention coalitions capable of effecting community-level change. For the purposes of this FOA and the DFC Support Program, a coalition is defined as a community-based formal arrangement for cooperation and collaboration among groups or sectors of a community in which each group retains its identity, but all agree to work together toward a common goal of building a safe, healthy, and drug-free community. CARA grant award recipients, also referred to as recipients, are expected to conduct the day-to-day

operations of the grant program. CARA recipients are not permitted to serve as a conduit for CARA funds passing through them or to another agency. Coalitions receiving CARA Act funds, as current or formerly funded DFC recipients, are expected to work with leaders in their communities to identify and address local youth opioid, methamphetamine, and/or prescription medication abuse and create sustainable community-level change. Additionally, recipients are expected to implement comprehensive community-wide strategies.

TYPES OF ASSISTANCE:

Project Grants (Discretionary), Salaries and Expenses

USES AND USE RESTRICTIONS:

Allowable Activities CARA grants awarded through this program are intended to: Enhance the ability of established community organizations to create community-level change regarding opioids or methamphetamines and the abuse of prescription medications. Strengthen collaboration among communities, the federal government, state, local, and tribal governments to reduce the use of opioids or methamphetamines and the abuse of prescription medications among youth within the area served by the coalition. Enhance intergovernmental cooperation and coordination on the issue of opioids or methamphetamines and the abuse of prescription medications among youth. Develop a comprehensive community-wide action plan to address the issue of opioids or methamphetamines and the abuse of prescription medications among youth. The types of activities that are expected and allowable include, but are not limited to: data collection to better understand the current local youth opioid, methamphetamine, and/or prescription medication abuse issues in the community; community education on the dangers of opioid, methamphetamine, and/or prescription medication abuse; prescriber education and training; awareness and availability of naloxone/narcan policies; increase awareness and availability of safe storage and prescription drug disposal options; promotion of proper usage of Prescription Drug Monitoring Programs (PDMP); and/or seek specialized training and technical assistance to help increase the effectiveness of community anti-drug coalitions.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Federally Recognized Indian Tribal Governments; The statutory authority for this program, 42 USC 1536 of the Comprehensive Addiction and Recovery Act, limits eligibility to domestic public and private nonprofit entities that are current or former Drug-Free Communities (DFC) Support Program recipients. Eligible applicants are community-based coalitions addressing local youth opioid, methamphetamine, and/or prescription medication abuse. The purpose of this program is to prevent and reduce the abuse of opioids or methamphetamines and the abuse of prescription medications among youth ages 12-18 in communities throughout the United States

Beneficiary Eligibility:

Youth (16-21); The purpose of this program is to prevent and reduce the abuse of opioids or methamphetamines and the abuse of prescription medications among youth ages 12-18 in communities throughout the United States*For the purposes of this FOA, youth is defined as individuals 18 years of age and younger.

93.800 Organized Approaches to Increase Colorectal Cancer Screening

Organized Approaches to Increase Colorectal Cancer Screening Program - DP15-1502,

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Authorized under section 301(a) of the Public Health Service Act, [42 U.S.C. section 241(a)], as amended.

OBJECTIVES:

The purpose of the program is to increase CRC screening rates among an applicant-defined target population of persons 50-75 years of age within partner health system(s), defined geographical areas, or disparate populations. This program will fund implementation of EBIs and other strategies in partnership with health systems with the goal of instituting organized screening programs. In addition, this program will fund a small number of awardees to pay for direct screening and follow-up services for a limited number of individuals that belong to the Program Priority Population.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

This program will fund implementation of EBIs and other strategies in partnership with health systems with the goal of instituting organized screening programs. In addition, this program will fund a small number of awardees to pay for direct screening and follow-up services for a limited number of individuals that belong to the Program Priority Population. Component 1: Health Systems Change to Increase and Improve Colorectal Cancer (CRC) Screening. To increase capacity and support organized CRC screening, awardees must partner with health systems, such as federally qualified health centers (FQHCs), health plan clinic networks, large physician practices, Medicaid, Medicare, and insurance plans that serve the applicant-defined target population to: a) implement EBIs identified in The Community Guide to increase CRC screening and b) measure outcomes for evaluation. To increase CRC screening and follow-up rates, awardee activities that

ASSISTANCE LISTINGS DESCRIPTIONS

may be funded include, but are not limited to: formally partnering with an FQHC to implement a provider-oriented intervention such as provider reminders, formally partnering with a state primary care association to create or modify FQHC operational models, or formally partnering with an insurer to implement client-oriented EBIs such as client reminders. Component 2 - CRC Screening Delivery to Improve Access to the Underserved (Optional): Awardees must use an active, existing organized screening provision program to provide CRC screening and diagnostic follow-up services for the programs priority population as described above. Applicants must demonstrate an existing clinical and programmatic infrastructure and currently provide colorectal screening and follow-up services to the programs priority population.

93.809 National Organizations for Chronic Disease Prevention and Health Promotion

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Section 301(a) and 317(k)(2) of the Public Health Service Act [42 U.S.C. Section 241(a) and 247b (k)(2)] as amended

OBJECTIVES:

The purpose of the funding is to develop effective state chronic disease prevention and health promotion programs through cross-cutting activities supportive of all chronic disease programs, focusing on Training and Technical Assistance, Performance Monitoring and Evaluation, Innovation and Leadership and Development.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Applicants must adhere to all CDC guidelines regarding allowable and unallowable expenses.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Eligible applicants that can apply for this funding opportunity are national organizations whose primary focus is on health education, chronic disease prevention and health promotion, and related public health training and who are of the type listed below: National organizations that work specifically with state and territorial health departments and that have organizational units focusing on state-based public health issues and reducing chronic diseases and their associated risk factors, are uniquely qualified to successfully implement the activities of this FOA because they have the knowledge, experience, and skills in working on reducing the burden of chronic diseases and on implementing policy, systems, and environmental changes that address chronic disease risk factors in states and community settings that no other national organization entities have. Focusing on these types of national organizations provides CDC the greatest potential to successfully implement the activities of this FOA. National organizations with health departments as their members are uniquely qualified to respond to the burden of chronic diseases in their communities through their vast experience of continuous implementation of evidence and practice-based interventions, implementation of self-management educational activities, and having the local, state, and territorial public health infrastructure in place to provide the proper foundation and support for programs that focus on reducing the chronic disease burden across the nation.

Beneficiary Eligibility:

Anyone/general public; This cooperative agreement will support the development of effective state chronic disease prevention and health promotion programs through cross-cutting activities supportive of all chronic disease programs. This FOA will serve to improve the effectiveness of chronic disease prevention and health promotion programs by focusing on cross-cutting activities that are supportive of all Chronic Disease Programs; better identify major

components/priority areas based on the needs of the NCCDPHP that will serve as the core functions; increase the effectiveness of CDCs work with state chronic disease programs, so that work with state programs is more effective; and to experience the collective benefit of having strong state chronic disease programs by allowing for better coordination of efforts and greater utilization of resources, increase efficiency and minimize duplication of efforts

Credentials/Documentation:

Applicants should document the need for assistance, state objectives of the project, address the background, approach strategies and evaluation methods of the project/program, and provide a budget with justification of funds. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

All applications will be reviewed initially for completeness by CDC PGO staff and will be reviewed jointly for eligibility by the CDC NCCDPHP and PGO.

Incomplete applications and applications that do not meet the eligibility criteria will not advance to Phase II review. Applicants will be notified that their applications did not meet eligibility or published submission requirements. b. Phase II Review A review panel will evaluate complete, eligible applications in accordance with the criteria below. i. Approach. ii. Evaluation and Performance Management. iii. Applicants Organizational Capacity to Implement the Approach. Phase III Review The Selecting Official shall rely on the rank order established by the objective review as the primary factor in making awards. However, in order to maximize the reach and impact of federal funding and an effort to strive for greater health equity, the Selecting Official may depart from the rank order to achieve a more balance and equitable approach award that demonstrates health equity throughout the approach, performance, evaluations and organizational capacity, in order to meet a more valued, equitable and comprehensive decision.

Range of Approval/Disapproval Time:

From 90 to 120 days.

Appeals:

Not Applicable.

Renewals:

From 120 to 180 days. Renewals will be based upon the availability of funding and satisfactory programmatic progress. Project period is for 4 years with 12 month budget periods

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

12-month budget period within a 5-year project period Method of awarding/releasing assistance: lump sum.

Reports:

Semi-annual reports from each entity awarded a grant, cooperative agreement, or contract, summarizing the activities undertaken and identifying any sub-grants or sub-contracts awarded (including the purpose of the award and the identity of the recipient), to be posted not later than 30 days after the end of each 6-month period. Congress directed HHS to provide information on activities and programs supported with resources from the Prevention and Public Health Fund (PPHF) to a public website <http://www.hhs.gov/open/recordsandreports/prevention/index.html> Reporting provides continuous program monitoring and identifies successes and challenges that awardees encounter throughout the project period. Also, reporting is a requirement for awardees who want to apply for yearly continuation of funding. Awardees must submit an Annual Performance Report via www.grants.gov 120 days before the end of each budget period. The report must not exceed 45 pages excluding administrative reporting; attachments are not allowed, but Web links are allowed. This report must include the following: performance measures, evaluation results, work plan, successes, challenges, CDC program support needs, and administrative reporting. The annual FFR form (SF-425) is required and must be submitted through eRA Commons within 90 days after each budget period ends. The report must include only those funds authorized and disbursed during the timeframe covered by the report. The final report must indicate the exact balance of unobligated funds, and may not reflect any unliquidated obligations. The final FFR expenditure data and the Payment Management Systems (PMS) cash transaction data must correspond; no discrepancies between the data sets are permitted. Failure to submit the required information by the due date may affect adversely the future funding of the project. If the information cannot be provided by the due date, awardees are required to submit a letter of explanation and include the date by which the information will be provided Awardees should have already provided (unless supplemental funding is awarded in other years that would require this as new) a more detailed evaluation and performance measurement plan within the first six months of this project. This more detailed plan must be developed by awardees as part of first-year project activities, with support from CDC, must build on the elements stated in the initial plan, and must be no more than 25 pages. Awardees are required to submit performance measures annually as a minimum, and may require reporting more frequently. Performance measure reporting is limited to data collection. When funding was awarded initially, CDC program specified required reporting

frequency, data fields, and format.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Financial records, supporting documents, statistical records, and all other records pertinent to the project must be kept readily available for review by personnel authorized to examine PHS grant accounts. Records must be maintained for a minimum of 3 years after the end of a budget period. If questions still remain, such as those raised as a result of an audit, records must be retained until completion or resolution of any audit in process or pending resolution. Property records must be retained in accordance with PHS Grants Policy Statement requirements.

An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. n/a

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications must be submitted electronically at www.Grants.gov. Electronic applications will be considered as having met the deadline if the application has been successfully made available to CDC for processing from [Grants.gov](http://www.Grants.gov) on the deadline date. The application package can be downloaded from www.Grants.gov. Applicants can complete the application package off-line, and then upload and submit the application via the [Grants.gov](http://www.Grants.gov) Web site. The applicant must submit all application attachments using a PDF file format when submitting via [Grants.gov](http://www.Grants.gov). Directions for creating PDF files can be found on the [Grants.gov](http://www.Grants.gov) Web site. Use of file formats other than PDF may result in the file being unreadable by staff. Applications submitted through [Grants.gov](http://www.Grants.gov) (<http://www.grants.gov>), are electronically time/date stamped and assigned a tracking number. The tracking number serves to document submission and initiate the electronic validation process before the application is made available to CDC for processing.

Award Procedure:

All eligible applications will be initially reviewed for completeness by the Procurement and Grants Office (PGO) staff. In addition, eligible applications will be jointly reviewed for responsiveness by NCCDPHP and PGO. Incomplete

applications and applications that are non-responsive to the eligibility criteria will not advance through the review process. Applicants will be notified that the application did not meet eligibility and/or published submission requirements. An objective review panel will evaluate complete and responsive applications according to the criteria listed in Section V. Application Review Information, subsection entitled Criteria. Applications will be funded in order by score and rank determined by the review panel. CDC will provide justification for any decision to fund out of rank order. Successful applicants will receive a Notice of Award (NoA) from the CDC Procurement and Grants Office. The NoA shall be the only binding, authorizing document between the recipient and CDC. The NoA will be signed by an authorized Grants Management Officer and e-mailed to the program director. A hard copy of the NoA will be mailed to the recipient fiscal officer identified in the application.

AUTHORIZATION:

Public Health Service Act Sections 301(a)[42 U.S.C. 241(a)] and 317(k)(2)[42 U.S.C. 247b(k)(2)]

OBJECTIVES:

This ELC Competing Supplement addresses priority domestic capacity building around Ebola and other emerging and highly-infectious diseases. The Competing Supplement (1) provides additional resources to accelerate ELC activities around infection control assessment and response, laboratory safety, and global migration, border interventions, and migrant health; and (2) aligns with ELC's existing purpose which is to protect the public health and safety of the American people by enhancing the capacity of public health agencies to effectively detect, respond, prevent and control known and emerging (or re-emerging) infectious diseases. This is accomplished by providing financial and technical resources to (1) strengthen epidemiologic capacity; (2) enhance laboratory capacity; (3) improve information systems; and (4) enhance collaboration among epidemiology, laboratory, and information systems components of public health departments.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Financial and technical resources are intended to be utilized for non-research activities that (1) strengthen epidemiologic capacity; (2) enhance laboratory capacity; (3) improve information systems; and (4) enhance collaboration among epidemiology, laboratory, and information systems components of public health departments. Activities may include those that enable a public health organization to establish and maintain a capable and qualified workforce, achieve modern and well-equipped public health laboratories, implement up-to-date health information systems, and institute systems that foster communication and appropriate integration across epidemiology, laboratory, and health information systems. Federal Financial Assistance (FA) and Direct Assistance (DA) are authorized.

Applicant Eligibility:

U.S. Territories and possessions; State; Eligible applicants consist of state, local, and U.S. territory/possession governments currently funded under CK14-1401. Specifically, these include: all 50 states, Washington, D.C., 5 largest local health departments (Chicago, Illinois; Houston, Texas; Los Angeles, California; New York City, New York; Philadelphia, Pennsylvania;), the Commonwealth of Puerto Rico, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau or their bona fide agents.

Beneficiary Eligibility:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funds may be used to implement two components Component 1 and Component 2 across MS's 18-county Delta Region: Component 1 is to implement or strengthen policy, system, and environmental (PSE) strategies to: increase environments that promote, support, or reinforce physical activity and healthy foods and beverages, particularly those with low or no sodium; and to increase tobacco- and smoke-free environments. Component 2 is to implement or strengthen health systems strategies and community-clinical linkage strategies-- In their proposed budget, Mississippi Department of Health / Mississippi Delta Health Collaborative must allocate more funding (i.e., at least 60% of their proposed budget) towards Component 2 (health systems strategies and community-clinical linkage strategies) than Component 1 (policy, system, and environmental strategies).-- Mississippi Department of Health / Mississippi Delta Health Collaborative must sub-award 50% of award funds to local entities to contribute to the work, must provide leadership and technical assistance to selected MS Delta communities, and must ensure overall coordination.-- Mississippi Department of Health / Mississippi Delta Health Collaborative should allocate between 5% - 10% of their total funding award to evaluation and performance monitoring.-- In order to maximize the reach of federal funding, Mississippi Department of Health / Mississippi Delta Health Collaborative must ensure that efforts are complementary and not duplicative of other efforts in the 18-county MS Delta Region, such as State Public Health Actions (DP13-1305), Partnerships to Improve Community Health (PICH) (DP14-1417), and Racial and Ethnic Approaches to Community Health (REACH) (DP14-1419).

Applicant Eligibility:

State; The Mississippi Department of Health / Mississippi Delta Health Collaborative is uniquely qualified positioned to carry out the activities outlined in this FOA because:-- To meet Congressional intent detailed in the FY 2015 Appropriations language, CDC needs to continue supporting the Mississippi Department of Health / Mississippi Delta Health Collaborative's work related to policy, systems, and environmental approaches, as well as community-clinical linkages for the prevention and control of chronic diseases, such as heart disease and stroke.-- The Mississippi Department of Health's mission is to promote and protect the health of the citizens of Mississippi. In addition, The Mississippi

ASSISTANCE LISTINGS DESCRIPTIONS

Department of Health is designated as the sole and official agency to administer and supervise all health planning responsibilities for the state, as established by Section 41-7-171 et seq., of the Mississippi Code 1972. Therefore they are uniquely qualified to identify those areas of greatest need in the state; develop strategies to reduce barriers and deficiencies in the state's public health care system; and establish policies to encourage the provision of appropriate and quality care in the public and private health care system. Through its program, the Mississippi Delta Health Collaborative, reach of the Mississippi Department of Health is further extended to address health issues of rural areas of the state (i.e., the 18-county MS Delta Region). The MS Delta Region bears a disproportionate burden of heart disease and stroke, and related conditions as compared to the rest of Mississippi and to the nation. -- Mississippi Delta Health Collaborative has provided leadership and coordination of heart disease and stroke prevention and control efforts in communities across the MS Delta Region. Also, by directly engaging, and providing funding and technical assistance to community organizations to promote coordination of public health efforts, the Mississippi Delta Health Collaborative is poised to expeditiously and successfully implement strategies related to policy, systems, and environmental approaches; health systems; and community-clinical linkages to prevent and control heart disease and stroke in the MS Delta Region

Beneficiary Eligibility:

Anyone/general public; Local; The ultimate benefits of this program will be received by the general and priority adult populations in a local, rural area of Mississippi (i.e., the MS Delta Region) who have high blood pressure, and experience health disparities associated with high blood pressure. Priority adult populations are those adult population subgroups in the MS Delta Region who experience racial/ethnic and socioeconomic disparities, including inadequate access to care and poor quality of care. Strategies related to the prevention and control of heart disease and stroke will be implemented and tailored to meet the unique local needs of the MS Delta Region and to achieve the greatest impact.

Credentials/Documentation:

This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. n/a

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The awardee will be subject to a term and condition that applies the terms of 48 CFR section 3.908 to the award and requires that grantees inform their employees in writing (in the predominant native language of the workforce) of employee whistleblower rights and protections under 41 U.S.C. 4712 -- The awardee is subject to the DUNS, SAM Registration, and Federal Funding Accountability And Transparency Act Of 2006 (FFATA) requirements.

Award Procedure:

-- Financial assistance from this FOA will be provided only to the Mississippi Department of Health / Mississippi Delta Health Collaborative. Successful applicants will receive a Notice of Award (NOA) from the CDC Procurement and Grants Office. The NOA shall be the only binding, authorizing document between the recipient and CDC. The NoA will be signed by an authorized Grants Management Officer and e-mailed to the program director. A hard copy of the NoA will be mailed to the recipients fiscal officers identified in the applications.

93.817 Hospital Preparedness Program (HPP) Ebola Preparedness and Response Activities

FEDERAL AGENCY:

IMMED OFFICE OF THE SECRETARY OF HEALTH AND HUMAN SERVICES, HEALTH AND HUMAN SERVICES, DEPARTMENT OF AUTHORIZATION:

Title VI of Division G of the Consolidated and Continuing Appropriations Act, 2015 and Public Health Service Act, Section 311 (42 U.S.C. 243)

OBJECTIVES:

This program covers two separate, but related projects: Part A Health Care System Preparedness for Ebola and Part B Development of a Regional Network for Ebola Patient Care. The purpose of this program is to (1) improve healthcare system preparedness for Ebola and (2) develop a regional hospital network for Ebola patient care.

TYPES OF ASSISTANCE:

Formula Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Part A - Health Care System Preparedness for Ebola Through Part A, HHS will provide funding to all 62 Hospital Preparedness Program (HPP) awardees to support state- or jurisdiction-designated Ebola treatment centers, assessment hospitals, and health care coalitions for overall health care system preparedness. Jurisdictions may use a portion of the funding to: compensate health care facilities for Ebola preparedness activities undertaken since July 2014, build additional capabilities to ensure the nations health care system and health care workers are ready to safely and successfully identify, isolate, assess, transport, and treat patients under investigation with Ebola or confirmed to have Ebola, and be well prepared for a future Ebola-like event. Applicants should review the individual funding opportunity announcement document for specific information about the use of funds for this program. Part B - Development of a Regional Network for

Ebola Patient Care HHS will award funding through Part B of the FOA to up to 10 Hospital Preparedness Program (HPP) awardees (although the decision has been made for Region 4 and Region 7 facilities) to develop a regional network for Ebola patient care, including the establishment of approximately ten regional Ebola and other special pathogen treatment centers with significantly enhanced Ebola and other infectious disease capabilities that will accept a confirmed Ebola patient from their region, across the U.S., or medically evacuated from West Africa, as necessary. All HPP jurisdictions are eligible to apply for Part B funding. HPP will award a maximum of 10 awards through Part B (two sole source awards for [1] the Georgia Department of Public Health to support the Emory University Hospital, Atlanta, GA to serve as the Region 4 regional Ebola and other special pathogen treatment center and [2] the Nebraska State Department of Health and Human Services to support the Nebraska Medicine - Nebraska Medical Center, Omaha, NE to serve as the Region 7 regional Ebola and other special pathogen treatment center) and up to eight additional competitive awards for the remaining HHS regions.

Applicant Eligibility:

Section 739 and Section 740(c) of the Public Health Service Act (42 USC 293c and 293 d), (Educational Assistance in the Health Professions Regarding Individuals from Disadvantaged Backgrounds) as amended by Section 5402 of the Affordable Care Act (P.L. 111-148).

OBJECTIVES:

The Health Careers Opportunity Program (HCOP) program strives to develop a more competitive applicant pool to build diversity in the health professions. The program's goal is to provide students from economically and educationally disadvantaged backgrounds who are interested in pursuing a health profession to develop the needed skills to compete for, enter, and graduate from a health or allied health professions program, graduate program in behavioral and mental health, and/or programs for the training of physician assistants. IHCOOP strives to improve retention, matriculation and graduation rates by implementing tailored enrichment programs designed to address the academic and social needs of trainees from disadvantaged backgrounds. It also provides opportunities for community-based health professions training, emphasizing experiences in underserved communities. HCOP focuses on three key milestones of education: (1) graduation from high school; (2) retention and graduation from college; and (3) acceptance, retention, and completion of a health careers degree program.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Section 739 provides for assisting individuals from disadvantaged backgrounds to undertake education to enter a health or allied health profession. Grant funds may be used for: (1) recruitment; (2) facilitating entry; (3) counseling, mentoring and other services; (4) preliminary education and health research training; (5) financial aid information dissemination; (6) primary care exposure activities; (7) development of a more competitive applicant pool; (8) stipends; and (9) scholarships. Restricted Uses: Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Eligible applicants include accredited schools of medicine, osteopathic medicine, public health, dentistry, veterinary medicine, optometry, pharmacy, allied health, chiropractic, podiatric medicine, public and nonprofit private schools that offer graduate programs in behavioral and mental health, programs for the training of physician assistants, and other public or private nonprofit health or educational entities including community, technical and tribal colleges. HCOP grant programs may only operate in the fifty (50) states, the District of Columbia, Commonwealth of Puerto Rico, Commonwealth of Northern Mariana Islands, the U.S. Virgin Islands, Guam, American Samoa, the Republic of Palau, Republic of the Marshall Islands, and the Federated States of Micronesia. Federally Recognized Indian Tribal Government and Native American Organizations may apply if they are otherwise eligible.

Beneficiary Eligibility:

Individual/Family; Student/Trainee; U.S. Citizen; Unemployed; Moderate Income; Low Income; Eligible participants of the HCOP grant program must a) meet the definition of economically disadvantaged; b) be from an educationally disadvantaged background; and c) express an interest in pursuing a health degree program. Individuals must be U.S. citizens, non-citizen nationals, or foreign nationals who possess a visa permitting permanent residence in the United States. An individual will be determined to be disadvantaged if he or she comes from a background that has inhibited the individual from obtaining the knowledge, skills, and abilities required to enroll in and graduate from a health professions school or program providing education or training in an allied health profession; or comes

CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by nonfederal reviewers for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; and (5) Support Requested. See the most recent Notice of Funding Opportunity for detailed selection criteria.

93.827 Educating State-level Stakeholders on Strategies to Address Winnable Battles in Public Health

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Sections 311 and 317(k)(2) of the Public Health Service Act, [42 U.S.C. Sections 243 and 247b(k)(2)]

OBJECTIVES:

The purpose of this project is to reduce the burden of leading causes of death and disability by providing capacity building assistance to states to address priority health issues. Using CDC's Winnable Battle Initiative as a framework, the project is intended to help increase the uptake of interventions known to successfully address high burden health issues by helping decision makers prioritize issues to address, and educating them on the interventions with the best evidence to support them. The activities to be implemented through this project will contribute to the ultimate reduction of health, financial and social costs of these health challenges across the nation.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

In 2010, CDC launched the Winnable Battles (WB) Initiative to focus attention both on a set of public health challenges with large scale impact on death and disability, and on an approach to prioritizing and addressing high-impact health problems. The focus areas of the Winnable Battles were determined based on the magnitude

of the health problems, and that each has evidence-based interventions or best practices which, if implemented, could result in measurable impact in a relatively short time. By identifying priority strategies and clear targets and working closely with states and other partners, CDC has focused on making significant progress in these health areas. The Winnable Battles identified by CDC are: Tobacco- Tobacco use is the leading preventable cause of disease, disability, and death in the U.S. Nutrition, Physical Activity, and Obesity- More than 72 million adults and 12 million youth in the U.S. are obese Food Safety- Foodborne diseases sicken 1 out of 6 Americans each year Healthcare- Associated Infections (HAIs)- 1 out of 20 hospitalized patients contracts an HAI Motor Vehicle Safety- Motor vehicle crashes are a leading cause of death among Americans ages 1 to 54 Teen Pregnancy- The U.S. has one of the highest rates of teen pregnancy of any developed nation in the world HIV- More than 1 million people in the U.S. are living with HIV Progress in reducing the burden of these health challenges is dependent upon implementation of strategies that are known to positively impact each Winnable Battle focus area, yet many of these known interventions are underutilized. Oftentimes, those in the position to adopt and implement policies and practices that can make a difference are unfamiliar with the interventions, and are unclear about their potential effectiveness and the value they may yield in terms of return on investment. This project is intended to help increase the uptake of interventions known to successfully address health issues with high burdens, by helping policy makers prioritize the issues to address, and educating them on the interventions with the best evidence to support them. The activities to be implemented through this project will contribute to the ultimate reduction of health, financial and social costs of these health challenges across the nation.

Applicant Eligibility:

Anyone/general public; Applicants should be sufficiently connected to state executive branch and/or legislative branch members across the United States in order to accomplish the goal of working with a geographically diverse set of states from all regions of the U.S. Further, the applicant must be well versed both in public health issues such as CDC Winnable Battles and in how states approach and implement policies and practices that impact public health.

Length and Time Phasing of Assistance:

Financial assistance is available for a 12 month budget period and 5 year project period. Method of awarding/releasing assistance: lump sum.

Reports:

Federal Financial Reporting (FFR) (required) The annual FFR form (SF-425) is required and must be submitted through eRA Commons 90 days after the end of the calendar quarter in which the budget period ends. The report must include only those funds authorized and disbursed during the timeframe covered by the report. The final FFR must indicate the exact balance of unobligated funds, and may not reflect any unliquidated obligations. There must be no discrepancies between the final FFR expenditure data and the Payment Management Systems (PMS) cash transaction data. Failure to submit the required information by the due date may adversely affect the future funding of the project. If the information cannot be provided by the due date, awardees are required to submit a letter of explanation to PGO and include the date by which the Grants Officer will receive information.

Final Performance and Financial Report (required) This report is due 90 days after the end of the project period. CDC programs must indicate that this report should not exceed 40 pages. This report covers the entire project period and can include information previously reported in APRs. At a minimum, this report must include the following: Performance Measures Awardees must report final performance data for all process and outcome performance measures. Evaluation Results Awardees must report final evaluation results for the project period for any evaluations conducted. Impact/Results/Success Stories Awardees must use their performance measure results and their evaluation findings to describe the effects or results of the work completed over the project period, and can include some success stories. Additional forms as described in the Notice of Award (e.g., Equipment Inventory Report, Final Invention Statement). Awardee Evaluation and Performance Measurement Plan (required) With support from CDC, awardees must elaborate on their initial applicant evaluation and performance measurement plan. This plan must be no more than 20 pages; awardees must submit the plan 6 months into the award. This plan should provide additional detail on the following: The frequency that evaluation and performance data are to be collected. How data will be reported. How evaluation findings will be used for continuous quality and program improvement. How evaluation and performance measurement will yield findings to demonstrate the value of the FOA (e.g., improved public health outcomes, effectiveness of FOA, cost-effectiveness or cost benefit). Dissemination channels and audiences. Other information requested as determined by the CDC program.

Annual Performance Report (APR) (required) The awardee must submit the APR via www.grants.gov 120 days before the end of the budget period. This report must not exceed 45 pages excluding administrative reporting. Attachments are not allowed, but weblinks are allowed. This report must include the following: Performance Measures: Awardees must report on performance measures for each budget period and update measures, if needed. Evaluation Results: Awardees must report evaluation results for the work completed to date (including findings from process or outcome evaluations). Work Plan: Awardees must update work plan each budget period to reflect any changes in project period outcomes, activities, timeline, etc. Successes Awardees must report progress on completing activities and progress towards achieving the project period outcomes described in the logic model and work plan. Awardees must describe any additional successes (e.g. identified through evaluation results or lessons learned) achieved in the past year. Awardees must describe success stories. Challenges Awardees must describe any challenges that hindered or might hinder their ability to complete the work plan activities and achieve the project period outcomes. Awardees must describe any additional challenges (e.g., identified through evaluation results or lessons learned) encountered in the past year.

CDC Program Support to Awardees Awardees must describe how CDC could help them overcome challenges to complete activities in the work plan and achieving project period outcomes.

Administrative Reporting (No page limit) SF-424A Budget Information-Non-Construction Programs. Budget Narrative Must use the format outlined in "Content and Form of Application Submission, Budget Narrative" section. Indirect Cost Rate Agreement. The awardee must submit the Annual Performance Report via www.grants.gov 120 days before the end of the budget period.

Performance Measure Reporting (optional) CDC programs may require more frequent reporting of performance measures than annually in the APR. If this is the case, CDC programs must specify reporting frequency, data fields, and format for awardees at the beginning of the award

period.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

CBA for High-Impact HIV Prevention,

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Section 318b and 318c

OBJECTIVES:

To reduce morbidity and mortality by preventing cases and complications of HIV and other sexually transmitted diseases by building the capacity of healthcare organizations, community based organizations, and State and local health departments. Grants and cooperative agreements may be for (1) training, technical assistance, or information dissemination; (2) HIV testing and diagnosis; (3) interventions and strategies that support targeted HIV prevention and the HIV care continuum; and (4) use of data for program quality improvement. Project grants under Section 318c awarded to State and local health departments emphasize the development and implementation of nationally uniform prevention and control programs which focus on disease intervention activities designed to reduce the incidence of these diseases, with applied research, demonstration, and public and professional education activities supporting these basic program activities authorized under Section 318b of the Public Health Service Act.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

93.837 Cardiovascular Diseases Research

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF
AUTHORIZATION:

Public Health Service Act, Section 301, 422 and 487, as amended, Public Laws 78-410 and 99-158, 42 U.S.C. 241, 42 U.S.C. 285, and 42 U.S.C. 288, as amended; Small Business Reauthorization Act of 2000, Public Law 106-554.

OBJECTIVES:

To foster heart and vascular research in the basic, translational, clinical and population sciences, and to foster training to build talented young investigators in these areas. Small Business Innovation Research (SBIR) program: To stimulate technological innovation; use small business to meet Federal research and development needs; foster and encourage participation in innovation and entrepreneurship by socially and economically disadvantaged persons; and increase private-sector commercialization of innovations derived from Federal research and development funding. Small Business Technology Transfer (STTR) program: To stimulate technological innovation; foster technology transfer through cooperative R&D between small businesses and research institutions, and increase private sector commercialization of innovations derived from federal R&D.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Grants may support stipends, research expenses, supplies, travel, and research training tuition as required to perform the research effort. Restrictions or limitations are imposed against the use of funds for entertainment, foreign travel, general-purpose equipment, alterations and renovations, and other items not regularly required for the performance of research. Individual predoctoral and

ASSISTANCE LISTINGS DESCRIPTIONS

postdoctoral national research service awards (NRSAs) are made directly to individuals through their universities for research training in heart and vascular diseases. NRSA awards may be made to eligible institutions to enable them to appoint individuals selected by the institution selected by the institution for research training. Certain service and payback provisions may apply to postdoctoral individuals upon termination of the award or termination of the appointment. SBIR Phase I awards (of approximately 6-months' duration) are to establish the scientific and technical merit of the proposed research effort, and feasibility of ideas that appear to have commercial potential. Phase II awards are for the continuation of research initiated in Phase I that meets particular program needs and exhibits potential for commercial application. STTR Phase I awards (normally of 1-year duration) are to establish the scientific and technical merit of the proposed cooperative research effort between a small business and non-profit research institution, and feasibility of ideas that appear to have commercial potential. Phase II awards are for the continuation of research initiated in Phase I that meets particular program needs and exhibits potential for commercial application. Fast-Track is an option whereby Phase I and Phase II SBIR or STTR projects are submitted and reviewed concurrently with the aim of reducing or eliminating the funding gap between Phase I and Phase II. While the intent of the SBIR/STTR programs is commercialization (Phase III), no SBIR/STTR funds are allowed for commercialization activities such as patents; market and sales; market research; business development/product development/market plans; legal fees, travel and other costs including labor relating to license agreements and partnerships.

Applicant Eligibility:

Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Individual/Family; Small business (less than 500 employees); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Any nonprofit organization engaged in biomedical research and institutions or companies organized for profit may apply for almost any kind of grant. Only domestic, non-profit, private or public institutions may apply for NRSA Institutional Research Training Grants. An individual may apply for an NRSA or, in some cases, for a research grant if adequate facilities to perform the research are available. SBIR grants can be awarded only to United States small business concerns (entities that are independently owned and operated for profit or owned by another small business that itself is independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees including affiliates). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. or its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. SBIR projects must be performed at least 67% by the applicant small business in Phase I and at least 50% of the Project in Phase II. STTR grants can be awarded only to United States small business concerns (entities that are independently owned and operated for profit and have no more than 500 employees) that formally collaborate with a university or other non-profit research institution in cooperative research and development. The principal investigator of an STTR award may be employed with either the small business concern or collaborating non-profit research institution as long as s/he has a formal appointment with or commitment to the applicant small business concern. At least 40% of the project is to be performed by the small business concern and at least 30% by the non-profit research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions.

Beneficiary Eligibility:

Individual/Family; Small business; Profit organization; Private nonprofit institution/organization; Public nonprofit institution/organization; Any nonprofit or for-profit organization, company or institution engaged in biomedical research. Only domestic for-profit small business firms may apply for SBIR and STTR programs.

Credentials/Documentation:

Individual NRSA awardees and Institutional NRSA trainees must be citizens or noncitizen nationals of the United States or have been admitted for permanent residency. Two levels of training are available: graduate level predoctoral training

and postdoctoral training. All potential trainees must possess a desire for training in one of the health or health-related areas specified by the National Institutes of Health. Each applicant must be sponsored by an accredited public or private nonprofit institution engaged in such training. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. For-profit organization costs are determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined in accordance with DHHS Regulations 45 CFR, Part 74, Subpart Q. For SBIR and STTR grants, the applicant organization (small business concern) must present a research plan that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. SBIR and STTR applicants must use the SF424 Research and Related (R&R) application for electronic submission through grants.gov. Electronic submission of NIH Research Performance Progress Reports (RPPR) apply for non-competing continuations (e.g., second year of Phase II). OMB Circular No. A-87 applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Visit the following link to obtain application information and instructions (<http://grants1.nih.gov/grants/funding/424/index.htm>)

Award Procedure:

All accepted applications are evaluated by an appropriate initial review group (study section). All grant applications receive a final secondary review by the National Heart, Lung, and Blood Advisory Council. Staff inform applicants of the results of the review. If support is contemplated, staff initiate preparation of awards for grants. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Records:

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 74.53 and 92.42 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 74.48 and 92.36 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 74.53(e), the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: (1) The scientific merit and general significance of the proposed study and its objectives; (2) the technical adequacy of the experimental design and approach; (3) the competency of the proposed investigator or group to successfully pursue the project; (4) the adequacy of the available and proposed facilities and resources; (5) the necessity of the budget components requested in relation to the proposed project; and (6) the relevance and importance to announced program objectives. The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the importance of the problem the proposed research will address; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation of the proposed research; (5) the potential of the proposed research for commercial application; (6) the appropriateness of the budget requested; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget requested for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) The adequacy of plans to include both genders and minorities and their subgroups as appropriate for the scientific goals of the research. Plans for the recruitment and retention of subjects will be evaluated; and (9) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

OBJECTIVES:

The Division of Lung Diseases supports research and research training on the causes, diagnosis, prevention, and treatment of lung diseases and sleep disorders. Research is funded through investigator-initiated and Institute-initiated grant programs and through contract programs in areas including asthma, bronchopulmonary dysplasia, chronic obstructive pulmonary disease, cystic fibrosis, respiratory neurobiology, sleep-disordered breathing, critical care and acute lung injury, developmental biology and pediatric pulmonary diseases, immunologic and fibrotic pulmonary disease, rare lung disorders, pulmonary vascular disease, and pulmonary complications of AIDS and tuberculosis. The Division is responsible for monitoring the latest research developments in the extramural scientific community as well as identifying research gaps and needs, obtaining advice from experts in the field, and implementing programs to address new opportunities. Small Business Innovation Research (SBIR) program: To stimulate technological innovation; use small business to meet Federal research and development needs; foster and encourage participation in innovation and entrepreneurship by socially and economically disadvantaged persons; and increase private-sector commercialization of innovations derived from Federal research and development funding. Small Business Technology Transfer (STTR) program: To stimulate technological innovation; foster technology transfer through cooperative R&D between small businesses and research institutions, and increase private sector commercialization of innovations derived from federal R&D.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Grants may support stipends, research expenses, supplies, travel, and research training tuition as required to perform the research effort. Restrictions or limitations are imposed against the use of funds for entertainment, foreign travel, general-purpose equipment, alterations and renovations, and other items not regularly required for the performance of research. Individual Predoctoral and Postdoctoral National Research Service Awards (NRSAs) are made directly to individuals for research training in specified biomedical shortage areas. Institutional NRSA awards may be made to eligible institutions to enable them to appoint individuals selected by the institution for research training. Certain service and payback provisions may apply to postdoctoral individuals upon termination of the award or termination of the appointment. SBIR Phase I awards (of approximately 6-months' duration) are to establish the scientific and technical merit of the proposed research effort, and feasibility of ideas that appear to have commercial potential. Phase II awards are for the continuation of research initiated in Phase I that meets particular program needs and exhibits potential for commercial application. STTR Phase I awards (normally of 1-year duration) are to establish the scientific and technical merit of the proposed cooperative research effort between a small business and non-profit research institution, and feasibility of ideas that appear to have commercial potential. Phase II awards are for the continuation of research initiated in Phase I that meets particular program needs and exhibits potential for commercial application. Fast-Track is an option whereby Phase I and Phase II SBIR or STTR projects are submitted and reviewed concurrently with the aim of reducing or eliminating the funding gap between Phase I and Phase II. While the intent of the SBIR/STTR programs is commercialization (Phase III), SBIR/STTR funds are generally not allowed for commercialization activities such as patent fees; market and sales; market research; business development/product development/market plans; legal fees, travel and other costs including labor relating to license agreements and partnerships.

Applicant Eligibility:

Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Individual/Family; Small business (less than 500 employees); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Any nonprofit organization engaged in biomedical research and institutions or companies organized for profit may

apply for almost any kind of grant. Only domestic, non-profit, private or public institutions may apply for NRSA Institutional Research Training Grants. An individual may apply for an NRSA or, in some cases, for a research grant if adequate facilities to perform the research are available. SBIR grants can be awarded only to United States small business concerns (entities that are independently owned and operated for profit, or owned by another small business that itself is independently owned and operated for profit and have no more than 500 employees including affiliates). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. or its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. SBIR projects are generally performed at least 67% by the applicant small business in Phase I and at least 50% of the Project in Phase II. STTR grants can be awarded only to United States small business concerns (entities that are independently owned and operated for profit and have no more than 500 employees) that formally collaborate with a university or other non-profit research institution in cooperative research and development. The principal investigator of an STTR award may be employed with either the small business concern or collaborating non-profit research institution as long as s/he has a formal appointment with or commitment to the applicant small business concern. At least 40% of the project is to be performed by the small business concern and at least 30% by the non-profit research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions.

Beneficiary Eligibility:

Individual/Family; Small business; Profit organization; Private nonprofit institution/organization; Health Professional; Education Professional; Public nonprofit institution/organization; Any nonprofit or for-profit organization, company or institution engaged in biomedical research. Only domestic for-profit small business firms may apply for SBIR and STTR programs.

Credentials/Documentation:

Individual NRSA awardees and Institutional NRSA trainees must be citizens or noncitizen nationals of the United States, or have been admitted for permanent residency. Two levels of training are available: graduate level predoctoral training and postdoctoral training. All potential trainees must possess a desire for training in one of the health or health-related areas specified by the National Institutes of Health. Each applicant must be sponsored by an accredited public or private nonprofit institution engaged in such training. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. For-profit organization costs are determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined in accordance with DHHS Regulations 45 CFR, Part 74, Subpart Q. For SBIR and STTR grants, the applicant organization (small business concern) must present a research plan that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. SBIR and STTR applicants must use the SF424 Research and Related (R&R) application for electronic submission through grants.gov. Electronic submission of NIH Research Performance Progress Reports (RPPR) apply for non-competing continuations (e.g., second year of Phase II). OMB Circular No. A-87 applies to this program. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Award Procedure:

All accepted applications are evaluated by an appropriate initial review group (study section). All grant applications receive a final secondary review by the National Heart, Lung, and Blood Advisory Council. Staff informs applicants of the results of the review. If support is contemplated, staff initiates preparation of awards for grants. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 74.53 and 92.42 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation,

claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 74.48 and 92.36 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 74.53(e), the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel records for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

OBJECTIVES:

The Division of Blood Diseases and Resources supports research and research training on the pathophysiology, diagnosis, treatment, and prevention of non-malignant blood diseases, including anemias, sickle cell disease, thalassemia; leukocyte biology, pre-malignant processes such as myelodysplasia and myeloproliferative disorders; hemophilia and other abnormalities of hemostasis and thrombosis; and immune dysfunction. Funding encompasses a broad spectrum of hematologic inquiry, ranging from stem cell biology to medical management of blood diseases and to assuring the adequacy and safety of the nation's blood supply. Programs also support the development of novel cell-based therapies to bring the expertise of transfusion medicine and stem cell technology to the repair and regeneration of human tissues and organs. Public Health Service Act, Section 301, 422 and 487, as amended, Public Laws 78-410 and 99-158, 42 U.S.C. 241, 42 U.S.C. 285, and 42 U.S.C. 288, as amended; Small Business Reauthorization Act of 2000, Public Law 106-554.

OBJECTIVES:

To foster latestage translation phase 4 (T4) research and facilitate the understanding of multi-level processes and factors associated with successful and sustainable integration of evidence-based interventions within specific clinical and public health settings related to heart, lung, and blood diseases and sleep diseases and disorders for diverse populations across the lifespan, including those that reduce health inequities within the U.S. and globally. Programs support the biomedical research workforce and career development and research dissemination including training of early-stage scientists and established investigators to conduct late-stage translation phase (T4) and implementation science research in heart, lung, and blood diseases and sleep disorders and research education. Small Business Innovation Research (SBIR) program: To stimulate technological innovation; use small business to meet Federal research and development needs; foster and encourage participation in innovation and entrepreneurship by socially and economically disadvantaged persons; and increase private-sector commercialization of innovations derived from Federal research and development

funding related to late-stage translation phase (T4) , including implementation science, research education, and research dissemination products, for both domestic and global health. Small Business Technology Transfer (STTR) program: To stimulate technological innovation; foster technology transfer through cooperative R&D between small businesses and research institutions, and increase private sector commercialization of innovations derived from federal R&D to late-stage translation phase (T4) research including implementation science, research education, and research dissemination products for both domestic and global health.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Grants may support stipends, research expenses, supplies, travel, and research training tuition as required to perform the research effort. Restrictions or limitations are imposed against the use of funds for entertainment, foreign travel, general-purpose equipment, alterations and renovations, and other items not regularly required for the performance of research. Individual Predoctoral and Postdoctoral National Research Service Awards (NRSAs) are made directly to individuals for research training in specified biomedical shortage areas. Institutional NRSA awards may be made to eligible institutions to enable them to appoint individuals selected by the institution for research training. Certain service and payback provisions may apply to postdoctoral individuals upon termination of the award or termination of the appointment. SBIR Phase I awards (of approximately 6-months' duration) are to establish the scientific and technical merit of the proposed research effort, and feasibility of ideas that appear to have commercial potential. Phase II awards are for the continuation of research initiated in Phase I that meets particular program needs and exhibits potential for commercial application. STTR Phase I awards (normally of 1-year duration) are to establish the scientific and technical merit of the proposed cooperative research effort between a small business and non-profit research institution, and feasibility of ideas that appear to have commercial potential. Phase II awards are for the continuation of research initiated in Phase I that meets particular program needs and exhibits potential for commercial application. Fast-Track is an option whereby Phase I and Phase II SBIR or STTR projects are submitted and reviewed concurrently with the aim of reducing or eliminating the funding gap between Phase I and Phase II. While the intent of the SBIR/STTR programs is commercialization (Phase III), SBIR/STTR funds are generally not allowed for commercialization activities such as patent fees; market and sales; market research; business development/product development/market plans; legal fees, travel and other costs including labor relating to license agreements and partnerships.

Applicant Eligibility:

Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Individual/Family; Small business (less than 500 employees); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Any nonprofit organization engaged in biomedical research and institutions or companies organized for profit may apply for almost any kind of grant. Only domestic, non-profit, private or public institutions may apply for NRSA Institutional Research Training Grants. An individual may apply for an NRSA or, in some cases, for a research grant if adequate facilities to perform the research are available. SBIR grants can be awarded only to United States small business concerns (entities that are independently owned and operated for profit, or owned by another small business that itself is independently owned and operated for profit and have no more than 500 employees including affiliates). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. or its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. SBIR projects are generally performed at least 67% by the applicant small business in Phase I and at least 50% of the Project in Phase II. STTR grants can be awarded only to United States small business concerns (entities that are independently owned and operated for profit and have no more than 500 employees) that formally collaborate with a university or other non-profit research institution in cooperative research and development. The principal investigator of an STTR award may be employed by either the small business concern or collaborating non-profit research

ASSISTANCE LISTINGS DESCRIPTIONS

institution as long as s/he has a formal appointment with or commitment to the applicant small business concern. At least 40% of the project is to be performed by the small business concern and at least 30% by the non-profit research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions.

Beneficiary Eligibility:

Individual/Family; Small business; Profit organization; Private nonprofit institution/organization; Health Professional; Education Professional; Graduate Student; Scientist/Researchers; Public nonprofit institution/organization; Any nonprofit or for-profit organization, company or institution engaged in biomedical research. Only domestic for-profit small business firms may apply for SBIR and STTR programs.

Credentials/Documentation:

Individual NRSA awardees and Institutional NRSA trainees must be citizens or noncitizen nationals of the United States, or have been admitted for permanent residency. Two levels of training are available: graduate level predoctoral training and postdoctoral training. All potential trainees must possess a desire for training in one of the health or health-related areas specified by the National Institutes of Health. Each applicant must be sponsored by an accredited public or private nonprofit institution engaged in such training. For-profit organization costs are determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. For SBIR and STTR grants, the applicant organization (small business concern) must present a research plan that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. SBIR and STTR applicants must use the SF424 Research and Related (R&R) application for electronic submission through grants.gov. Electronic submission of NIH Research Performance Progress Reports (RPPR) apply for non-competing continuations (e.g., second year of Phase II). OMB Circular No. A-87 applies to this program. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Grant applications are submitted electronically. Visit the following link to obtain application information and instructions (<http://grants1.nih.gov/grants/funding/424/index.htm>)

Award Procedure:

All accepted applications are evaluated by an appropriate initial review group (study section). All grant applications receive a final secondary review by the National Heart, Lung, and Blood Advisory Council. Staff inform applicants of the results of the review. If support is contemplated, staff will initiate preparation of awards for grants. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH.

Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 75.361 and 45 CFR 75.364 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. In accordance with 45 CFR 75.364, the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel records for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: (1) The scientific merit and general significance of the proposed study and its objectives; (2) the technical adequacy of the experimental design and approach; (3) the competency of the proposed investigator or group to successfully pursue the project; (4) the adequacy of the available and proposed facilities and resources; (5) the necessity of the budget components requested in relation to the proposed project; and (6) the relevance and importance to announced program objectives. The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the importance of the problem the proposed research will address; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation of the proposed research; (5) the potential of the proposed research for commercial application; (6) the appropriateness of the budget requested; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget requested for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) the adequacy of plans to include both genders and minorities and their subgroups as appropriate for the scientific goals of the research. Plans for the recruitment and retention of subjects will be evaluated; and (9) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

93.843 ACL Assistive Technology State Grants for Protection and Advocacy

FEDERAL AGENCY:

ADMINISTRATION FOR COMMUNITY LIVING (ACL), HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Section 5 of the Assistive Technology Act of 1998, as amended.

OBJECTIVES:

To support protection and advocacy services through the systems established to provide protection and advocacy services under the Developmental Disabilities Assistance and Bill of Rights Act for the purpose of assisting in the acquisition, utilization, or maintenance of assistive technology or assistive technology services for individuals with disabilities.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Funds may be used to support protection and advocacy services related to assistive technology services and devices. This program is subject to non-supplanting requirements and must use a restricted indirect cost rate that is referenced under 34 CFR 76-564-76.569.

Applicant Eligibility:

93.844 ACL Centers for Independent Living, Recovery Act

FEDERAL AGENCY:

ADMINISTRATION FOR COMMUNITY LIVING (ACL), HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Rehabilitation Act of 1973, as amended, Title VII, Chapter 1, Part C; American Recovery and Reinvestment Act of 2009 (ARRA), Public Law 111-5.

OBJECTIVES:

To provide independent living services to individuals with significant disabilities to assist them to function more independently in family and community settings, by developing and supporting a statewide network of centers for independent living.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Federal funds are used for the establishment and operation of centers for independent living which offer a combination of services. Services must include independent living core services, which include information and referral services, training in independent living skills, peer counseling, individual and systems advocacy, and as appropriate, a combination of any other independent living services specified in Title II of the Rehabilitation Act. Each center must have a governing board composed of a majority of persons with significant disabilities. The majority of the staff and individuals in decision making positions must be individuals with disabilities. Not less than 1.8 percent and not more than 2 percent of Federal funds appropriated for the program must be reserved to provide training and technical assistance through entities experienced in the operation of centers for independent living.

Applicant Eligibility:

Federal; none

Beneficiary Eligibility:

State; Beneficiary eligibility should reflect none

Credentials/Documentation:

Costs for States that administer these grants through the authorization in section 723 will be determined in accordance with OMB Circular No. A-87 for State and local governments. Costs for all other grantees will be determined in accordance with OMB Circular No. A-21 for educational institutions. OMB Circular No. A-87 applies to this program. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

93.846 Arthritis, Musculoskeletal and Skin Diseases Research

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Section 301, 437, 487, Public Law 78-410, 42 USC Code 241.

OBJECTIVES:

To support research relevant to arthritis, musculoskeletal and skin diseases, the National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS) supports research training and basic and clinical investigations including epidemiology and clinical trials in the areas of skin and rheumatic diseases and musculoskeletal diseases. The Division of Extramural Research promotes and supports basic, epidemiological, and clinical studies of skin and rheumatic and related diseases. Studies range from determining the underlying basis and mechanisms of disease (including large genetic studies), to translational and clinical research aimed at the diagnosis, treatment, prediction, and/or prevention of disease. The skin program supports research in normal and diseased skin including keratinocyte biology and wound healing, and disorders such as psoriasis, atopic dermatitis and other chronic inflammatory skin disorders; the vesiculobullous diseases such as pemphigus, bullous pemphigoid, and epidermolysis bullosa; acne, alopecia areata, vitiligo, and skin neoplasia. The rheumatic disease program supports research in the systemic autoimmune diseases and arthritides, including systemic lupus erythematosus (SLE), systemic scleroderma, autoimmune myositis, rheumatoid arthritis, juvenile idiopathic arthritis, spondyloarthropathies, vasculitis, gout, Sjogren's syndrome, and fibromyalgia syndrome. In addition, the Division supports studies on the extracellular matrix, including research on Marfan syndrome, keloid formation, and pseudoxanthoma elasticum. The Division also supports biopsychosocial research related to rheumatic, musculoskeletal, or skin diseases. Topics include behavioral interventions, pain mechanisms, neuroendocrine and neuroimmune mechanisms, behavioral and social research, and epidemiology. The Division also supports studies of the skeleton and associated connective tissues. Broad areas of interest include skeletal development, metabolism, mechanical properties, and responses to injury. Among these diseases and skeletal disorders are osteoporosis; osteogenesis imperfecta; Paget's disease of bone; vitamin D refractory diseases; and rickets and osteochondrodysplasias. Other areas of interest include treatment of acute and chronic injuries, including carpal tunnel syndrome, repetitive stress injury, low back pain and clinical and epidemiological studies of osteoarthritis. The Division supports development of new technologies with the potential to improve treatment of skeletal disorders and facilitate the repair of trauma in the normal skeleton. These include drugs and nutritional interventions, joint replacement, bone and cartilage transplantation, biomarkers and gene therapy. In addition, bioengineering, sports medicine and musculoskeletal fitness are areas of special research emphasis. The Division also encourages and supports research on skeletal muscle, its diseases and disorders, and its central role in human physiology and exercise. Topics include the molecular structure of muscle and the molecular mechanisms that produce force and motion. Muscle biophysics, cell biology, muscle biology, muscle disorders and therapies, musculoskeletal development, tissue reengineering, and regenerative medicine are encompassed in this area as well. The Division also supports research into the biology of cartilage, tendons, ligaments, menisci, and intervertebral discs, including pre-clinical studies on injury and disease conditions affecting these tissues. NIAMS participates in the Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs. The SBIR program is intended to increase private sector commercialization of innovations derived from Federal research and development; to increase small business participation in Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. The STTR program is intended to stimulate and foster scientific and technological innovation through cooperative research and development carried out between small business concerns

and research institutions; to foster technology transfer between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Research Grants provide funds for salaries, equipment, supplies, travel, and other expenses associated with scientific investigation relevant to program objectives. Individual National Research Service Awards (NRSAs) are made to individuals for research training in specified biomedical shortage areas. In addition, grants may be made to institutions to enable them to make NRSAs to individuals selected by them. Each individual who receives a NRSA is obligated upon termination of the award to comply with certain service and payback provisions. Small Business Innovation Research Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I that are likely to result in commercial products or processes. Only Phase I awardees are eligible to receive Phase II support. STTR Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential on Phase II application.

Applicant Eligibility:

Federal; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Individual/Family; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Research Grants: Individuals and public and private institutions, both nonprofit and for-profit, who propose to establish, expand, and improve research activities in health sciences and related fields. National Research Service Awards: Individuals must be nominated and sponsored by a public or private, for-profit or nonprofit institution having staff and facilities appropriate to the proposed research training program. All awardees must be citizens or have been admitted to the United States for permanent residence. To be eligible, predoctoral awardees must have completed the baccalaureate degree and postdoctoral awardees must have a professional or scientific degree (M.D., Ph.D., D.D.S., D.O., D.V.M., Sc.D., D. Eng., or equivalent domestic or foreign degree). Nonprofit domestic organizations may apply for the Institutional National Research Service grant. Small Business Innovation Research grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. or its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees) which partner with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council.

Beneficiary Eligibility:

Individual/Family; Private nonprofit institution/organization; Health Professional; Student/Trainee; Graduate Student; Scientist/Researchers; U.S. Citizen; Public nonprofit institution/organization; Research Grants: Although no degree of education is either specified or required, nearly all successful applicants have doctoral degrees in one of the sciences or professions. National Research Service

Awards: Predoctoral awardees must have completed the baccalaureate degree and postdoctoral awardees must have a professional or scientific degree.

Credentials/Documentation:

The cost principles for awards under this program are set forth in HHS regulations at 45 CFR 75, Subpart E and Appendix IX (hospitals) to Part 75. Commercial organizations are subject to the cost principles located at 48 CFR 31.2 Federal Acquisition Regulation. See the NIH Grants Policy Statement for further guidance on the applicability of cost principals

(<http://grants.nih.gov/grants/policy/nihgps/index.htm>). Requirements are specified in the application form. For-profit organizations' costs are determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined in accordance with HHS Regulations 45 CFR, part 75, Subpart Q. For SBIR and STTR grants, applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. Grant forms PHS 6246-1 and PHS 6246-2 are used to apply for SBIR Phase I and Phase II, respectively. Grant forms PHS 6246-3 and PHS 6246-4 are used to apply for STTR Phase I and Phase II, respectively. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Research grants: Applications must be prepared electronically through grants.gov (<http://www.grants.gov>) using the SF 424 (Research and Research-Related) or, for multi-project applications, submitted using ASSIST. FAQs to guide applicants can be found at http://grants.nih.gov/grants/electronicreceipt/faq_full.htm. Individual funding opportunity announcements will indicate the appropriate application options available. A listing of NIAMS and other funding opportunities can be found through the NIAMS web site (http://www.niams.nih.gov/Funding/Funding_Opportunities/filter.asp), through the Grants.gov web site (<http://www.grants.gov/>), or on the NIH Guide to Grants and Contracts (<http://grants1.nih.gov/grants/guide/index.html>). Electronic applications are submitted through the Grants.gov website or ASSIST as directed in the Funding Opportunity Announcement. For assistance contact GrantsInfo, Telephone: (301) 435-0714, Email: GrantsInfo@nih.gov. SBIR and STTR Grant Solicitations and SBIR Contract Solicitation may be obtained electronically through the NIH's "Small Business Research Funding Opportunities" web page at <http://grants1.nih.gov/grants/funding/sbir.htm>. A limited number of hard copies of these publications are produced. Subject to availability, they may be obtained by contacting the NIH support services contractor: Telephone: (301) 206-9385; Fax: (301) 206-9722; E-mail: a2y@cu.nih.gov. The Solicitations include submission procedures, review considerations, and grant application or contract proposal forms. SBIR and STTR grant applications should be submitted to the Center for Scientific Review, 6701 Rockledge Drive, Room 1040 - MSC 7710, Bethesda, MD 20892-7710. Application forms for SBIR and STTR grants may be obtained through the SBIR/STTR funding announcements posted on the Grants.gov sites and the NIH Guide to Grants and Contracts (see URLs listed above). All SBIR and STTR applications must be submitted electronically. Electronic applications are submitted through the Grants.gov website. The SBIR/STTR programs are subject to the provisions of 45 CFR, Part 75. Awards made under this program are subject to 2 CFR 200, as implemented by 45 CFR 75 Public Welfare, Uniform Administrative Requirements, Cost Principles and Audit Requirements for HHS Awards. The policies and procedures generally applicable to NIH grants are set forth in the NIH Grants Policy Statement (<http://grants.nih.gov/grants/policy/nihgps/index.htm>).

Award Procedure:

Following review by the appropriate study section and council, the successful applicant is notified by the National Institute of Arthritis and Musculoskeletal and Skin Diseases through a Notice of Grant Award. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the

proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 120 to 180 days. Research grants: From 6 to 9 months. National Research Service Awards: From 6 to 9 months. SBIR/STTR applications: About 7 to 12 months.

Appeals:

Other. A principal investigator may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. A description of the NIH Peer Review Appeal procedures is available on the NIH home page <http://grants.nih.gov/grants/guide/notice-files/not97-232.html> and at <http://grants.nih.gov/grants/guide/notice-files/not-od-11-064.html>.

Renewals:

Other. Research grants: renewals by competitive application and review. Extension by request and administrative action. National Research Service Awards: individual awards may be made for 1, 2, or 3 years. No individual may receive NIH fellowship support at the postdoctoral level for more than 3 years.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Research grants: Awards may be recommended for up to 5 years. Awards usually are made for 12-month budget periods. SBIR: Normally, Phase I awards are for 6 months; normally, Phase II awards are for 2 years. STTR: Normally, Phase I awards are for 1 year; normally, Phase II awards are for 2 years. Method of awarding/releasing assistance: other

Reports:

No reports are required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). For specific audit procedure guidance, please see 45 CFR 75. Foreign grantees are subject to the same audit requirements as for-profit (commercial) organizations.

Records:

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FFR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FFR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FFR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FFR to NIH. See 45 CFR 75 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 75 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 75, the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts,

transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel records for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: (1) The scientific merit and general significance of the proposed study and its objectives; (2) the technical adequacy of the experimental design and approach; (3) the competency of the proposed investigator or group to successfully pursue the project; (4) the adequacy of the available and proposed facilities and resources; (5) the necessity of the budget components requested in relation to the proposed project; and (6) the relevance and importance to announced program objectives. The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the technological innovation of the proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the adequacy and suitability of the facilities and research environment; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects and/or (b) protecting against or minimizing any adverse effect on the

environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget requested for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects and/or (b) protecting against or minimizing any adverse effect on the environment.

93.847 Diabetes, Digestive, and Kidney Diseases Extramural Research

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Sections 301, 405, 428, 431, 487, 491, 493, 495, and 498, as amended; Public Laws 78-410, 99-158, 100-607, 106-554, and 107-360; 42 U.S.C. 241, as amended; 42 U.S.C. 285c-2, 42 U.S.C. 285c-5, 42 U.S.C. 288; Small Business Research and Development Enhancement Act of 1992, Public Law 102-564.

OBJECTIVES:

(1) To promote extramural basic and clinical biomedical research that improves the understanding of the mechanisms underlying disease and leads to improved preventions, diagnosis, and treatment of diabetes, digestive, and kidney diseases.

Programmatic areas within the National Institute of Diabetes and Digestive and Kidney Diseases include diabetes, digestive, endocrine, hematologic, liver, metabolic, nephrologic, nutrition, obesity, and urologic diseases. Specific programs areas of interest include the following: (a) For diabetes, endocrine, and metabolic diseases areas: Fundamental and clinical studies including the etiology, pathogenesis, prevention, diagnosis, treatment and cure of diabetes mellitus and its complications; Normal and abnormal function of the pituitary, thyroid, parathyroid, adrenal, and other hormone secreting glands; Hormonal regulation of bone, adipose tissue, and liver; on fundamental aspects of signal transduction, including the action of hormones, coregulators, and chromatin remodeling proteins; Hormone biosynthesis, secretion, metabolism, and binding; and on hormonal regulation of gene expression and the role(s) of selective receptor modulators as partial agonists or antagonists of hormone action; and Fundamental studies relevant to metabolic disorders including membrane structure, function, and transport phenomena and enzyme biosynthesis; and basic and clinical studies on the etiology, pathogenesis, prevention, and treatment of inherited metabolic disorders (such as cystic fibrosis).

(b) For digestive disease and nutrition areas: Genetics and genomics of the GI tract and its diseases; Genetics and genomics of liver/pancreas and diseases; Genetics and genomics of nutrition; genetics and genomics of obesity; Bariatric surgery; Clinical nutrition research; Clinical obesity research; Complications of chronic liver disease; Fatty liver disease; Genetic liver disease; HIV and liver; Cell injury, repair, fibrosis and inflammation in the liver; Liver cancer; Liver transplantation; Pediatric liver disease; Viral hepatitis and infectious diseases; Gastrointestinal and nutrition effects of AIDS; Gastrointestinal mucosal and immunology; Gastrointestinal motility; Basic neurogastroenterology; Gastrointestinal development; Gastrointestinal epithelial biology; Gastrointestinal inflammation; Digestive diseases epidemiology and data systems; Nutritional epidemiology and data systems; Autoimmune liver disease; Bile, Bilirubin and cholestasis; Bioengineering and biotechnology related to digestive diseases, liver, nutrition and obesity; Cell and molecular biology of the liver; Developmental biology and regeneration; Drug-induced liver disease; Gallbladder disease and biliary diseases; Exocrine pancreas biology and diseases; Gastrointestinal neuroendocrinology; Gastrointestinal transport and absorption; Nutrient metabolism; Pediatric clinical obesity; Clinical trials in digestive diseases; Liver clinical trials; Obesity prevention and treatment; and Obesity and eating disorders. (c) For kidney, urologic and hematologic diseases areas: Studies of the development, physiology, and cell biology of the kidney; Pathophysiology of the kidney; Genetics of kidney

disorders; Immune mechanisms of kidney disease; Kidney disease as a complication of diabetes; Effects of drugs, nephrotoxins and environmental toxins on the kidney; Mechanisms of kidney injury repair; Improved diagnosis, prevention and treatment of chronic kidney disease and end-stage renal disease; Improved approaches to maintenance dialysis therapies; Basic studies of lower urinary tract cell biology, development, physiology, and pathophysiology; Clinical studies of bladder dysfunction, incontinence, pyelonephritis, interstitial cystitis, benign prostatic hyperplasia, urolithiasis, and vesicoureteral reflux; Development of novel diagnostic tools and improved therapies, including tissue engineering strategies, for urologic disorders; Research on hematopoietic cell differentiation; metabolism of iron overload and deficiency; Structure, biosynthesis and genetic regulation of hemoglobin; as well as Research on the etiology, pathogenesis, and therapeutic modalities for the anemia of inflammation and chronic diseases. (2) To encourage basic and clinical research training and career development of scientists during the early stages of their careers. The Ruth L. Kirschstein National Research Service Award (NRSA) funds basic and clinical research training, support for career development, and the transition from postdoctoral biomedical research training to independent research related to diabetes, digestive, endocrine, hematologic, liver, metabolic, nephrologic, nutrition, obesity, and urologic diseases. (3) To expand and improve the Small Business Innovation Research (SBIR) program. The SBIR Program aims to increase and facilitate private sector commercialization of innovations derived from Federal research and development; to enhance small business participation in Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. (4) To utilize the Small Business Technology Transfer (STTR) program. The STTR Program intends to stimulate and foster scientific and technological innovation through cooperative research and development carried out between small business concerns and research institutions; to foster technology transfer between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Project Grants provide funds for salaries, equipment, supplies, travel, and other expenses associated with scientific investigation relevant to program objectives. NRSA's are made directly to individuals for research training in specified biomedical shortage areas, or, to institutions to enable them to make NRSA's to individuals selected by them. Each individual who receives a NRSA is obligated upon termination of the award to comply with certain service and paycheck provisions. SBIR Phase I grants (of approximately 6-months duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I and that are likely to result in commercial products or processes. Only Phase I awardees are eligible to receive Phase II support. STTR Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential of the Phase II application.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; Individual/Family; Minority group; Small business (less than 500 employees); Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Project Grants: Universities, colleges, medical, dental and nursing schools, schools of public health, laboratories, hospitals, State and local health departments, other public or private institutions, both non-profit and for-profit, and individuals who propose to establish, expand, and improve research activities in health sciences and related fields. NRSA's: Support is provided for academic and research training only, in health and health-related areas that are periodically specified by the National Institutes of Health. To be eligible, predoctoral awardees must have completed the baccalaureate degree

ASSISTANCE LISTINGS DESCRIPTIONS

and postdoctoral awardees must have a professional or scientific degree (M.D., Ph.D., D.D.S., D.O., D.V.M., Sc.D., D.Eng., or equivalent domestic or foreign degree). Individuals must be nominated and sponsored by a public or nonprofit private institution having staff and facilities appropriate to the proposed research training program. All awardees must be citizens or have been admitted to the United States for permanent residence. Nonprofit domestic organizations may apply for the Institutional NRSA. SBIR and STTR grants can be awarded only to domestic small businesses that meet the following criteria: 1) Is independently owned and operated, is not dominant in the field of operation in which it is proposing, has a place of business in the United States and operates primarily within the United States or makes a significant contribution to the US economy, and is organized for profit; 2) Is (a) at least 51% owned and controlled by one or more individuals who are citizens of, or permanent resident aliens in, the United States, or (b) for SBIR only, it must be a for-profit business concern that is at least 51% owned and controlled by another for-profit business concern that is at least 51% owned and controlled by one or more individuals who are citizens of, or permanent resident aliens in, the United States. 3) Has, including its affiliates, an average number of employees for the preceding 12 months not exceeding 500, and meets the other regulatory requirements found in 13 C.F.R. Part 121. Business concerns are generally considered to be affiliates of one another when either directly or indirectly, (a) one concern controls or has the power to control the other; or (b) a third-party/parties controls or has the power to control both. STTR grants which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council.

Beneficiary Eligibility:

Individual/Family; Minority group; Small business; Private nonprofit institution/organization; Student/Trainee; Graduate Student; Scientist/Researchers; U.S. Citizen; Public nonprofit institution/organization; Health professionals, graduate students, health professional students, scientists, and researchers, any nonprofit or for-profit organization, company, or institution engaged in biomedical research. Project Grants: Although no degree of education is either specified or required, nearly all successful applicants have doctoral degrees in one of the sciences or professions. NRSA's: Predoctoral awardees must have completed the baccalaureate degree and postdoctoral awardees must have a professional or scientific degree.

Credentials/Documentation:

Each applicant for research projects must present a research plan and furnish evidence that scientific competence, facilities, equipment, and supplies are appropriate to carry out the plan. For SBIR and STTR grants, applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. Individual NRSA applications for postdoctoral training must include the candidate's academic record, research experience, citizenship, institutional sponsorship, and the proposed area and plan of training. Institutional Training grant applications for predoctoral and postdoctoral training must show the objectives, methodology and resources for the research training program; the qualifications and experience of directing staff; the criteria to be used in selecting individuals for stipend support; and a detailed budget and justification for the amount of grant funds requested. For-profit organizations' costs are determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined in accordance with HHS Regulations 45 CFR, Part 75, Subpart Q. For SBIR and STTR grants, applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. Grant form PHS 398 is used to apply for SBIR and STTR Phase I Phase II and Phase I/Phase II Fast Track. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Project Grants: Applications for Federal assistance must be submitted electronically through Grants.gov (<http://www.grants.gov>) using the SF424 Research and Related (R&R) forms and the SF424 (R&R) Application Guide. Applications may not be submitted in paper format. A registration process through Grants.gov is necessary before submission and applicants are highly encouraged to start the process at least four weeks prior to the grant submission date. Two steps are required for on time submission: (1) The application must be successfully received by Grants.gov no later than 5:00 p.m. local time (of the applicant institution/organization) on the submission/receipt date. (2) Applicants must complete a verification step in the eRA Commons within two business days of notification from NIH. Note: Since email can be unreliable, it is the responsibility of the applicant to periodically check on their application status in the Commons. The standard application forms, as furnished by PHS and required by 45 CFR Part 92, must be used for this program by those applicants that are State or local units of government. SBIR and STTR Grant Solicitations and SBIR Contract Solicitation may be obtained electronically through the NIH's "Small Business Funding Opportunities" home page at www.nih.gov/grants/funding/sbir.htm on the World Wide Web. The Solicitations include submission procedures, review considerations, and grant application or contract proposal forms.

Award Procedure:

Research Grant and Training Program applications are reviewed initially for scientific merit by an appropriate review panel, composed of scientific authorities, and by the National Diabetes and Digestive and Kidney Diseases Advisory Council composed of leaders in medical science, education, and public affairs. Approved applications will compete on a merit basis for available funds. The successful applicant is sent a Notice of Grant Award. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Project Grants: From 6 to 9 months. National Research Service Awards: From 6 to 9 months. SBIR/STTR applications: About 7-1/2 months.

Appeals:

Other. A principal investigator (P.I.) may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. A description of the NIH Peer Review Appeal procedures is available on the NIH home page <http://grants.nih.gov/grants/guide/notice-files/not97-232.html>.

Renewals:

Other. Project Grants: Renewals are determined by competitive application and review. Extensions considered upon request. Individual NRSA's: Awards may be made for 1, 2, or 3 years. No individual may receive NIH fellowship support at the postdoctoral level for more than 3 years.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Project Grants: Awards are usually made for a 12-month period with recommendation of up to 4 years of additional support. SBIR: Normally, Phase I awards are for 6 months; normally, Phase II awards are for 2 years. STTR: Normally, Phase I awards are for 1 year; normally, Phase II awards are for 2 years. Method of awarding/releasing assistance: other

Reports:

Project Grants: Expenditures and other financial records, including documents supporting accounting records and substantive charges to each grant, must be retained for 3 years from the day on which the grantee submits the last expenditure report for the report period. NRSA's: Documentation of expenditures and other fiscal records must be kept readily available for examination by authorized

Government personnel and must be retained for 3 years from the day on which the grantee submits the last expenditure report for the report period. Reports are required after termination of NRSAs to ascertain compliance with service and payback provisions. Annual and terminal progress reports, annual reports of inventions, and annual certification with respect to research involving human subjects are required. Reports of expenditures are required. NRSAs: Reports are required after termination of NRSAs to ascertain compliance with service and payback provisions.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). Foreign grantees are subject to the same audit requirements as for-profit (commercial) organizations.

Records:

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 75.53 and 92.42 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 75.48 and 92.36 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 75.53(e), the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel records for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

EXAMPLES OF FUNDED PROJECTS:

2017 ***** Division of Diabetes, Endocrinology, and Metabolic Diseases projects ***** Dabelea D, Stafford JM, Mayer-Davis EJ, and Pihoker C; for the SEARCH for Diabetes in Youth Research Group. Association of Type 1 Diabetes vs Type 2 Diabetes Diagnosed During Childhood and Adolescence With Complications During Teenage Years and Young Adulthood. JAMA 317: 825-835, doi: 10.1001/jama.2017.0686, 2017. Youth with type 2 diabetes develop complications more often than peers with type 1 diabetes: Researchers have found that teens and young adults with type 2 diabetes develop common diabetic complications more often than their peers with type 1 diabetes in the years shortly after diagnosis. These findings are from the SEARCH for Diabetes in Youth study, which is the largest study of its kind in the United States. SEARCH includes a geographically and racially/ethnically diverse group of children and adolescents who were under 20 years of age when they were diagnosed with type 1 or type 2 diabetes. As both types of diabetes are on the rise in young people, SEARCH researchers examined how quickly and how often those diagnosed in youth with type 1 or type 2 diabetes go on to develop the kidney, nerve, and eye diseases that are common diabetic complications, as well as several risk factors for heart disease. Included in the study were 1,746 youth diagnosed with type 1 diabetes and 272 diagnosed with type 2 diabetes between 2002 and 2015. All had participated in follow-up examinations that measured risk factors for complications, and had diabetes, on average, for just under 8 years when their diabetes complications were assessed. From this assessment data, and taking into account the different ages at which the youth were diagnosed, the researchers estimated the chances of youth with diabetes developing complications over time. They estimated that by about age 21, approximately 32 percent of participants with type 1 diabetes and 72 percent of participants with type 2 diabetes would have at least one complication from diabetes or would be at high risk for a complication. For those with type 2 diabetes, this included nearly 20 percent with a sign of kidney disease, 18 percent with nerve disease, and 9 percent with eye disease. For those with type 1 diabetes, this included about 6 percent with a sign of kidney disease, 9 percent with nerve

disease, and about 6 percent with eye disease. Measures for two risk factors for heart disease (hypertension and arterial stiffness) were greater for youth with type 2 diabetes than those with type 1 diabetes, but were close to equal between the two groups for a third risk factor (cardiovascular autonomic neuropathy). The researchers looked at factors including blood glucose (sugar) control, body mass index (a measure of weight relative to height), and blood pressure, but none of these factors explained the differences they observed, suggesting that more research into how and why diabetic complications occur in young people is needed. These findings also suggest that early monitoring of youth with both types of diabetes could result in earlier diagnosis and treatment of complications, which could ultimately contribute to better health over the lifespan. Nathan DM, Bebu I, Hainsworth D, Lachin JM. Frequency of Evidence-based Screening for Retinopathy in Type 1 Diabetes. *N Engl J Med*. 376: 1507-1516, doi: 10.1056/NEJMoa1612836, 2017. Personalizing Eye Exam Schedule for People with Type 1 Diabetes: Researchers have developed an evidence-based screening schedule for an eye disease (retinopathy) in people with type 1 diabetes, with the frequency of screening tailored to an individual's current level of eye disease and hemoglobin (Hb) A1c level, a measure of average blood glucose (sugar) control. Diabetes is the leading cause of new cases of blindness in adults. Vision loss, however, can be prevented if the damage is detected and treated in a timely manner. Currently, for people with type 1 diabetes, annual retinal examinations are recommended to screen for signs of retinopathy, starting 3 to 5 years after diagnosis. Previous results from NIDDK's landmark Diabetes Control and Complications Trial (DCCT) and its follow-up study, Epidemiology of Diabetes Interventions and Complications (EDIC), demonstrated that a period of intensive blood glucose control lowered the risk of complications, including those involving the eyes. This led researchers to ask whether an annual eye screening is necessary for people with type 1 diabetes who intensively control their blood glucose levels. In the over 30 years that DCCT/EDIC participants have been followed, data from approximately 24,000 eye examinations were collected along with information about each participant's eye health. From these data, DCCT/EDIC researchers modeled the likelihood that a person would progress from a lower level of retinopathy to very severe retinopathy in specific periods of time. They found that, for people with no or mild retinopathy, annual examinations might not be necessary. For people with moderate to severe retinopathy, however, more frequent examinations might be needed to detect retinopathy severe enough that timely treatment is needed to prevent vision loss. They also found that the risk of eye disease progression was closely related to the participants' HbA1c level. With the goal to limit the likelihood of progression to very severe retinopathy between examinations to approximately 5 percent, the scientists developed an eye examination schedule based on a person's current state of retinopathy and additionally on HbA1c level. Averaged over all levels of HbA1c, they estimated that a person could go 4 years between examinations if they had no initial retinopathy, 3 years if they had mild retinopathy, and 6 months if they had moderate retinopathy. For people with severe retinopathy, monitoring more frequently than every 3 months would be necessary to reduce the probability to approximately 15 percent of developing very severe retinopathy before their next examination. People at all levels of retinopathy with higher HbA1c levels were predicted to need more frequent eye exams, as they are at higher risk to develop eye disease. For example, the eye examination schedule for people at a current HbA1c level of 6 percent would be 5 years if they had no initial retinopathy, 5 years if they had mild retinopathy, 6 months if they had moderate retinopathy, and 3 months if they had severe retinopathy; whereas for people at a current HbA1c level of 10 percent, the corresponding schedule would be 3 years, 2 years, 3 months, and 1 month, respectively. Taking into consideration both the reduced number of screenings the scientists propose for people with no or mild retinopathy and the more frequent examinations needed for people with moderate or severe retinopathy, they also calculated how their schedule would affect the number of screenings overall for people with type 1 diabetes. They found that, over 20 years, screening according to their tailored examination schedule would, on average, result in a 58 percent reduction in number of exams overall, compared to annual screening for everyone. Combining this overall reduction with an approximate \$200 cost for screening and approximate 1 million people with type 1 diabetes, the scientists estimate that this screening schedule could result in a savings of approximately \$1 billion over 20 years. Although the additional screening for those with worse retinopathy would increase their screening burden, it could also increase the likelihood of detecting further progression of retinopathy, so that therapy proven to preserve vision can be delivered in the timeframe before

irreparable vision loss occurs. Importantly, this schedule has yet to be tested in real-life situations in people with type 1 diabetes. In addition, it is not known if it will be appropriate for people with type 2 diabetes, as it remains to be determined whether retinopathy progresses similarly in people with type 2 diabetes and people with type 1 diabetes. Regardless, this risk-based screening schedule has the potential to personalize treatment to reduce both undetected diabetic eye disease and the burden of annual retinal exams for some people, which may result in cost savings overall and better health for people with type 1 diabetes.

Deficiency in prohormone convertase PC1 impairs prohormone processing in Prader-Willi syndrome. *J Clin Invest* 127: 293-305, doi: 10.1172/JCI88648, 2017. An Enzyme Deficiency Contributes to Disease Symptoms in Prader-Willi Syndrome: Researchers have discovered a critical role for the enzyme prohormone convertase 1 (PC1) in the complex genetic disorder, Prader-Willi Syndrome (PWS). PWS is caused when a part of the genome is missing, resulting in several genes not passing down from a father to a child, leading to many detrimental effects on the infant's body that persist throughout adulthood. Beginning in childhood, affected individuals are often short in stature and develop insatiable appetites, which leads to chronic overeating, obesity, and an increased risk for diabetes and other disorders. Physical symptoms arise from poor regulation of various hormones, including insulin; growth hormone (GH); possibly the appetite-regulating hormone, ghrelin; and others. Most PWS instances are due to a large genetic deletion on chromosome 15. However, researchers identified five PWS patients with a smaller deletion, defining a critical region sufficient to cause the major PWS-associated traits. This region contains three genes, including one known as SNORD116. While none of the existing PWS mouse models develop obesity, mice lacking a paternal copy of Snord116 (referred to as Snord116 p-/m+ mice) develop many of the other clinical features exhibited in their human counterparts, including overeating, decreased body length, and hormone impairments. It is well-established that a part of the brain called the hypothalamus plays a crucial role in regulating appetite through production of and interactions with various hormones. To study how the PWS genetic deletions affect the brain, investigators generated brain cells (neurons) in the laboratory from another type of cell that, unlike neurons, can be obtained from patient volunteers. Using a technique developed by other researchers, they first reprogrammed samples of patients' skin cells to an early stage, stem cell-like (or pluripotent) state in the laboratory and then had them differentiate into (become) neurons. Because the induced pluripotent stem cell-derived (iPSC-derived) neurons contain the PWS patients' genetic material, scientists could study the effects of the gene deletion encompassing SNORD116. In addition, they studied male Snord116 p-/m+ mice. Analysis of human iPSC-derived neurons revealed that the gene PCSK1, which codes for the PC1 enzyme, had reduced activity, suggesting the possibility of PC1's involvement in the development of PWS. Furthermore, mice lacking paternal Snord116 had decreased PC1 levels compared to normal mice. PC1 processes prohormones (precursors to hormones) including proinsulin, pro-GH-releasing hormone, and proghrelin, into their bioactive forms: insulin, GH, and ghrelin, respectively. To determine if the hormonal impairments observed in PWS are a consequence of impaired prohormone processing by deficient PC1, researchers measured hormone levels in vivo in Snord116 p-/m+ mice and human PWS patients. Compared to normal mice, Snord116 p-/m+ mice exhibited increased levels of proinsulin, pro-GH-releasing hormone, and proghrelin, indicating an inability of PC1 to properly process the prohormones. The ratio of proinsulin to insulin in the blood of PWS patients was elevated, but not to the extent as that of a patient completely lacking PC1. These data suggest impaired PC1 activity due to paternal deletion of SNORD116 drives the hormonal features of PWS. This research highlights the effectiveness of a combined approach using human cells and blood samples along with mouse models to study a complex genetic disorder. While the findings contribute to a growing body of knowledge investigating how the loss of a gene alters hormone levels and function in PWS, more research is necessary to determine if other mechanisms are involved. and development of celiac disease. Science 356: 44-50, doi:

10.1126/science.aah5298, 2017. Uncovering Factors Linked to Celiac Disease: Two recent studies have provided important insights into celiac disease, including its prevalence in different areas of the United States and the possibility that a viral infection may trigger the disease in genetically susceptible people. The immune system is constantly poised to attack foreign material in the body, but, importantly, it will refrain from attacking benign substances, such as the food we ingest or the body's own cells. In people with celiac disease, however, the immune system in the small intestine treats gluten protein naturally found in wheat, barley, and rye as a foreign invader. The resulting immune response in the gut mistakenly identifies one of the body's own proteins as foreign, damaging the intestinal lining, interfering with nutrient absorption, and leading to bloating, diarrhea, and anemia. The two genetic variants that are known to convey risk for celiac disease are very common up to one-third of the U.S. population carries one of them. Yet only a small fraction of these people will develop the disease, meaning other genetic or non-genetic factors are likely involved. Some studies have sought to determine whether celiac disease is more common in some geographic regions than others, which could help pinpoint factors involved in the onset of the disease. In one such recent study, scientists combed through health data from 22,277 women, men, and children living in the United States who participated in a national health survey between 2009 and 2014. The survey included questionnaires, medical histories, and blood samples, allowing the researchers to determine the number of diagnosed celiac disease cases, as well as those that were previously undiagnosed but were detected in the serological tests performed during the survey. The researchers found that people living north of latitude 40 degree North (approximately the northern border of Kansas) were over five times as likely to have celiac disease as those living south of 35 degree North (approximately the southern border of Tennessee). People living in between these latitudes were also over three times as likely to have celiac disease as people living south of the 35 degree North line. The reasons for a higher frequency of celiac disease in northern states are not clear genetic or environmental factors could be involved but the trend does appear to be independent of race, ethnicity, socioeconomic status, and body mass index. The scientists also found that participants who had previously undiagnosed celiac disease that was detected during the survey had lower levels of vitamin B-12 and folate in their blood, likely reflecting a deficiency in the uptake of these nutrients because of intestinal damage. This deficiency was not observed in participants with diagnosed celiac disease, underscoring the importance of diagnosing the disease and undergoing proper treatment (i.e., avoiding gluten). Other studies have hinted that viral infections may contribute to the onset of celiac disease, but, until recently, direct evidence of a role for viruses has been lacking. A new study found that infection with a common virus, called a reovirus, may trigger celiac disease in people who are genetically susceptible to developing the disorder. People are typically exposed to reoviruses throughout their lives, but infections tend to go unnoticed because the viruses are cleared by the immune system, and any symptoms are usually mild. Nonetheless, the researchers thought that the immune responses evoked by these infections might lead to gluten intolerance in genetically susceptible people. To test this idea, the scientists first infected mice with two types of reoviruses that were originally isolated from humans, and they examined the effects on the immune systems of the mice. Both types of reoviruses infiltrated the intestinal cells, where they activated genes such as those involved in antiviral immunity. But one of the reovirus types, called TIL, evoked a more robust immune response and also activated genes in areas of the gut involved in regulating immune tolerance to ingested food. These changes appeared to disrupt the immune system by stimulating attack pathways while blocking suppression pathways, effectively interfering with the immune system's ability to develop tolerance to certain dietary proteins. Next, the scientists sought to determine whether an immune reaction to TIL could lead to gluten intolerance in mice genetically modified to carry a human genetic variant that confers susceptibility to celiac disease. Like the experiments in the non-genetically modified mice, the scientists found that a TIL infection in these celiac disease-prone mice stimulated the immune system and prevented the mice from developing tolerance to ingested gluten. Lastly, the scientists examined plasma samples from women and men with celiac disease and found they had higher levels of antibodies to reoviruses than people without the disease, providing evidence linking celiac disease to immune responses from reovirus infections. Similarly, people with high levels of reovirus antibodies were more likely to have celiac disease. Taken together, the results from these studies provide insight into factors that could be involved in triggering celiac disease in people who are at genetic risk, offering leads on potential approaches to disease prevention. More

work along these particular lines of research could shed light onto why celiac disease is more prevalent in northern areas of the United States and whether vaccination or other antiviral approaches may be effective in preventing the disease. *****Division of Kidney, Urologic, and Hematologic Diseases Projects***** Kim AR, Ullrich JC, Wilmes S, Sankaran VG. Functional Selectivity in Cytokine Signaling Revealed Through a Pathogenic EPO Mutation. Cell 168: 1053-1064.e15, doi: 10.1016/j.cell.2017.02.026, 2017. A Personalized Medicine Treatment Plan Developed After Identification of a Rare Pathogenic Mutation: After discovering a rare genetic mutation responsible for a previously unknown severe blood disorder in a 6-year old boy, researchers developed a personalized treatment plan for his newborn sibling, also born with the same blood disorder. Doctors at first diagnosed the boy when he was 1 year of age with Diamond-Blackfan anemia (DBA). DBA is a serious medical condition characterized by insufficient level of red blood cells, also known as anemia. Red cells carry oxygen from the lungs to the body's organs and tissues. The boy was given standard therapy for DBA. He was treated initially with blood transfusions, which provide a source of needed red cells, and then underwent a bone marrow transplant with a fully matched donor at 6 years of age. Although the doctors hoped the bone marrow transplant would be curative, as is typically the case for people with DBA, early signs showed that the transplant was not working as expected, and unfortunately the boy subsequently did not survive due to complications of the procedure. Clinical scientists became aware of this 6-year old boy while they were conducting research to discover yet unknown genetic causes of DBA. Given the unanticipated transplant outcome, the researchers were interested to learn the cause of the boy's severe anemia, thinking it might be different from typical DBA, and that new insights might help in developing a better treatment approach for others. An analysis of the boy's genes did not reveal mutations known to cause DBA but did identify, for the first time, a mutation in the gene encoding the small protein hormone erythropoietin (EPO). The genetic mutation alters one of the 160 amino acid building blocks of the EPO protein; it changes an arginine amino acid to a glutamine amino acid. EPO normally stimulates red cell production by interacting with other proteins, called EPO receptors, on the surface of early stage (progenitor) red cells in the bone marrow. The investigators determined that although mutant EPO had slightly less attraction for the EPO receptor than normal EPO had, the EPO mutation decreased its ability to remain attached to the EPO receptor, apparently resulting in significantly diminished ability to stimulate red cell proliferation (i.e., an increase in number of cells) in culture, as compared to normal EPO. These laboratory findings are consistent with the inability of mutant EPO to produce adequate levels of mature red cells in the young boy. While these research findings were undergoing review for publication, the researchers learned that the parents of the 6-year old boy had a newborn child, who also had anemia. Further testing confirmed that the newborn carried the same arginine to glutamine mutation in EPO. Equipped with new knowledge gained from research, the clinical scientists developed a treatment strategy. They obtained appropriate permissions to initiate a personalized medicine treatment plan consisting of injections of normal EPO produced in the laboratory, also called recombinant EPO. Recombinant EPO is used often to increase levels of red cells in patients whose red cells have been depleted by a different condition, for example as a result of kidney disease or chemotherapy for cancer. The researchers reasoned that recombinant normal EPO might also work for this child, by latching onto EPO receptors more productively than the child's own EPO, and thus restore red cell production. After 11 weeks of treatment, the child's red cell production had increased eliminating the need for blood transfusions. This study underscores the benefit of research to greatly improve the life of a patient. Additionally, this personalized medicine treatment plan potentially could help others with the same disorder. Insights into Salt Handling, Water Balance, and Blood Pressure Regulation by the Kidneys: Two studies in mice have shed light on the complex relationships between kidney physiology, salt intake, water balance, and hypertension. One of the kidney's critical functions is to achieve electrolyte balance in the body by controlling urine salt concentration and water retention. Impairment of this essential function can lead to hypertension (high blood pressure). Two recent reports explored the links between salt, hypertension, and kidney function using rodent model systems. Scientists have long believed that the body removes excess dietary salt through urination, leading to water loss that must

be replenished in other words, eating salty foods makes people thirsty. Recently, however, research has cast doubt on this simple relationship between salt and water consumption. In one previous study in 10 men, researchers found, surprisingly, that over time, increased salt consumption was associated with reduced water intake. In the present study, the team of researchers tested their previous observation experimentally using male mice that were fed either a low-salt diet with water or a high-salt diet with saline (salted water). Mice consuming a high-salt diet excreted more concentrated sodium in their urine than did mice on the lower-salt diet. Interestingly, over time the mice on a high-salt diet drank less fluid, retained more water, and consumed more food than did mice on a low-salt diet. These results raised an important question: how does the body remove excess salt without simultaneously expelling too much water? The scientists considered that urea, a biological chemical abundantly found in urine, could be a key factor because urea in the kidney is known to drive reabsorption of water from developing urine. They found that the kidneys of mice on a high-salt diet contained higher levels of urea compared with those on a low-salt diet, helping to explain the observed water retention. Further examination of the mice revealed that additional urea was produced by muscle and liver tissue in response to increased salt. The muscle tissue appeared to be breaking down some of its molecular components as fuel to generate energy, likely to compensate for the energy-intensive process of urea production. This need for additional energy could also help explain the increased appetite observed in mice fed a high-salt diet. Together, these results uncover a novel coordinated, energy-intensive response to dietary salt by the liver, muscles, and kidneys to elevate urea levels, thereby conserving water. In a separate study, scientists sought to gain a better understanding of the molecular basis of water maintenance and blood pressure regulation by the kidney. A segment of the nephron (the basic functional unit of the kidney) called the collecting duct fine-tunes the amounts of various essential substances, such as sodium, that can be retained in the body or excreted into the developing urine. The protein angiotensin II was previously shown to control water reabsorption in the collecting duct. To better understand angiotensin II's role in the kidney, the researchers genetically engineered mice to lack the gene encoding the type 1 angiotensin (AT1) receptor, its essential protein partner, specifically in the collecting ducts. AT1 receptor-deficient mice had the same blood pressure as normal mice, and both groups experienced hypertension similarly when they were fed high-salt diets. Mice were then administered angiotensin II, which is also known to induce hypertension. Blood pressure in normal mice predictably increased, but surprisingly, blood pressure in AT1 receptor-deficient mice rose even higher; this finding was unexpected because elimination of AT1 receptors was expected to prevent angiotensin II's ability to raise blood pressure. These AT1 receptor-deficient mice excreted less sodium than did normal mice when given angiotensin II, suggesting that the higher salt levels may have been responsible for the elevated blood pressure. The researchers then asked whether cyclooxygenase-2 (COX-2), a known regulator of angiotensin II function, was affected by AT1 receptor deficiency. Drugs that inhibit COX-2 function have been shown to influence blood pressure, leading the scientists to ask whether there could be a link between COX-2 and AT1 receptor activity in this segment of the kidney. They examined collecting ducts, and found that those of normal mice given angiotensin II contained higher levels of COX-2 than did their untreated counterparts, but the absence of AT1 receptors attenuated this response. Finally, the scientists again treated mice with angiotensin II to induce hypertension, but also administered a chemical inhibitor of COX-2 function. The COX-2 inhibitor eliminated the difference between AT1 receptor-deficient mice and normal mice, allowing the blood pressures of both groups to rise to similar levels, further implicating COX-2 as a mediator of angiotensin II-induced hypertension. Taken together, these results define a surprising, novel role in the collecting duct for the angiotensin II-AT1 receptor-COX-2 molecular pathway as a regulator of blood pressure. These studies in mice challenge long-standing views and reveal the complexity of the kidney's role in salt and water balance, and in blood pressure regulation. If the molecular pathways described are found to work similarly in people, these two studies could pave the way for a more detailed understanding of how the human body maintains water balance in response to salt intake, and could generate novel therapeutic approaches for reducing the risk of hypertension.

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: (1) The scientific merit and general significance of the proposed study and its objectives; (2) the technical adequacy of the experimental design and approach; (3) the

competency of the proposed investigator or group to successfully pursue the project; (4) the adequacy of the available and proposed facilities and resources; (5) the necessity of the budget components requested in relation to the proposed project; and (6) the relevance and importance to announced program objectives. The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the technological innovation of the proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the adequacy and suitability of the facilities and research environment; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget requested for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

93.850 Improving Epilepsy Programs, Services, and Outcomes through National Partnerships

Epilepsy Programs,
FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF
AUTHORIZATION:

This program is authorized under the sections 301(a) and 317(k)(2) of the Public Health Service Act, [42 U.S.C. 241(a) and 247b(k)(2), as amended]

OBJECTIVES:

The purpose of this program is to: Reduce the treatment gap (i.e., shortening the time to diagnosis, and increasing referral to specialty care) by improving professional education about epilepsy diagnosis, treatment, and management; Increase access to appropriate health care services, community resources, and self-management supports among people with epilepsy and their families; Improve the public's knowledge about, and attitudes toward, epilepsy to reduce epilepsy stigma; and Improve health, social participation, and quality of life for people with epilepsy.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Specific goals will be provided in a funding opportunity announcement. In general, assistance requested under this program will be used to: Assure a competent health professional workforce. Mobilize community partnerships to improve the delivery and coordination of epilepsy care. Inform and educate people about epilepsy, and empower people with epilepsy and their caregivers. Funds may be used for costs associated with planning, organizing, implementing, and evaluating program elements related to the objectives identified in 050 above. Recipients may expend funds for reasonable policies, systems, and program purposes, including personnel, travel, supplies, and services (including contractual).

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Anyone/general public; Open and full competition. However, to fulfill the requirements of the cooperative agreement, applicants must be able to demonstrate that their organization has specialized knowledge and experience addressing the complex and challenging health and social needs of individuals with epilepsy and their families. Applicants must also be able to

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. OMB Circular No. A-110 OMB Circular No. A-102

Award Procedure:

After review and approval, a Notice of Award is prepared and processed, along with appropriate notification to the public. The initial award provides funds for first budget period (12 months) and Notice of Award indicates support recommended for the remainder of project period, allocation of Federal funds by budget categories, and special conditions, if any. Applicants are encouraged to call CDC for programmatic technical assistance prior to the development and submission of their assistance application.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

12 budget period within a 5 year project period Method of awarding/releasing assistance: lump sum.

Reports:

Reporting on progress provides continuous program monitoring and identifies successes and challenges that awardees encounter throughout the project period. Also, reporting is a requirement for awardees who want to apply for yearly continuation of funding. Awardees must submit an Annual Performance Report via www.grants.gov 120 days before the end of each budget period. The report must not exceed 45 pages excluding administrative reporting; attachments are not allowed, but Web links are allowed. This report must include the following: performance measures, evaluation results, work plan, successes, challenges, CDC program support needs, and administrative reporting. The annual FFR form (SF-425) is required and must be submitted through eRA Commons within 90 days after each budget period ends. The report must include only those funds authorized and disbursed during the timeframe covered by the report. The final report must indicate the exact balance of unobligated funds, and may not reflect any unliquidated obligations. The final FFR expenditure data and the Payment Management Systems (PMS) cash transaction data must correspond; no discrepancies between the data sets are permitted. Failure to submit the required information by the due date may affect adversely the future funding of the project. If the information cannot be provided by the due date, awardees are required to submit a letter of explanation and include the date by which the information will be provided. Awardees must provide a more detailed evaluation and performance measurement plan within the first six months of the project. This more detailed

plan must be developed by awardees as part of first-year project activities, with support from CDC. This more detailed plan must build on the elements stated in the initial plan, and must be no more than 25 pages. Awardees are required to submit performance measures annually as a minimum, and may require reporting more frequently. Performance measure reporting is limited to data collection.

When funding is awarded initially, CDC programs will specify required reporting frequency, data fields, and format.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Financial records, supporting documents, statistical records, and all other records pertinent to the project must be kept readily available for review by personnel authorized to examine PHS grant accounts. Records must be maintained for a minimum of 3 years after the end of a budget period. If questions still remain, such as those raised as a result of an audit, records must be retained until completion or resolution of any audit in process or pending resolution. Property records must be retained in accordance with PHS Grants Policy Statement requirements.

93.851 Tracking Electronic Health Record

ASSISTANCE LISTINGS DESCRIPTIONS

Adoption and Capturing Related Insights in U.S. Hospitals

FEDERAL AGENCY:

IMMED OFFICE OF THE SECRETARY OF HEALTH AND HUMAN SERVICES, HEALTH AND HUMAN SERVICES, DEPARTMENT OF AUTHORIZATION:

Consolidated Appropriations Act 2017, Pub L No. 115-31, Division H, Title II and Title XXX, 3001 (c)(2) and 3011 of the Public Health Service Act.

OBJECTIVES:

Significant federal investments to accelerate the adoption of electronic health records (EHRs) and exchange of clinical data are now in place. It is critical to continue to track the adoption and use of EHRs and related insights to: (1) ascertain the status of adoption and evaluate existing and proposed policy decisions; (2) evaluate the impact of ONC programs and related incentives for meaningful use; and (3) make resources available to ONC and external researchers to assess the effects of health IT adoption and exchange on key aspects of care, such as quality and efficiency. The data generated under this funding opportunity will enable ONC and researchers to carry out these important activities for inpatient settings.

CRITERIA FOR SELECTING PROPOSALS:

The AHA has an ongoing data collection effort in place designed to capture information on the adoption and use of electronic health records, as well as users

ASSISTANCE LISTINGS DESCRIPTIONS

attitudes towards them in U.S. hospitals. Since 2008, ONC has supported the data collection and acquired the resulting data through a single-source cooperative agreement. The AHA Annual Survey of Hospitals collects data from more than 6,300 hospitals through the U.S. This data is a primary resource for government agencies and has been used by the Centers for Disease Control and Prevention, the U.S. Census Bureau, and CMS. The IT Supplement currently reaches more than 3,500 hospitals in the U.S. The IT Supplement is a separate collection effort from the AHAs general census tracking survey project that has been conducted continuously since 1946. Over this time span, the general census tracking survey has enjoyed an average response rate in excess of 75 percent. Such a high level of response is exceptional for a voluntary survey that includes both member and non-member hospitals. Building on the success of the general survey, the response rates for the IT Supplement have exceeded 60 percent each year since its inception, an exemplary response rate for a comparatively newer data collection effort. As the leading acute care hospital membership organization (approximately 80 percent of non-federal acute care hospitals are members), the AHA is uniquely suited to build on the response rate successes of prior years. Its credibility and reputation as a hospital advocacy and research center are unmatched by any other organization. In addition, the AHA has more than 60 years of experience in survey development and design and effective data collection through mail-based, and now Internet-based, efforts. In an effort to measure key components of interoperability, ONC has made it a priority to measure health care providers ability to electronically send, receive, find, and integrate information received from outside sources. Without funding to supplement the cost of data collection, the AHA would not conduct an IT survey of this scope. ONCs input on the survey instrument also allows the agency to track key performance measures regarding the interoperable exchange of health information by hospitals. The AHAs IT Supplement is the only known source that tracks key performance measures regarding the interoperable exchange of health information by hospitals. Our national progress on interoperability also has direct implications on the success of federal initiatives such as delivery system reform and achieving widespread interoperability as outlined in MACRA. Tracking and reporting on progress allows us to know where we are collectively starting from, how much progress we have made over time, and whether we have met important milestones. In addition, the AHAs IT Supplement has the capability to track specific functionalities included or under consideration for future inclusion in federal programs (such as meaningful use). ONCs ability to provide input on the content of the IT Supplement to measure interoperability and EHR functionalities is critical to informing and evaluating federal health IT policies and programs. This survey has served the public good in that it has been the foundation of important public research on EHR adoption, as well as examining the impact EHR use has on the quality and efficiency of care in inpatient settings. Examples of such studies include Holmgren et al. 2016, Lammers et al. 2016, Walker et al. 2016, and McLaughlin et al. 2015.

93.852 National Syndromic Surveillance Program Community of Practice (NSSP CoP)

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act , Title 42, Section 243, 247b(k)(2).

OBJECTIVES:

The purpose of the FOA is to fund an organization with extensive experience developing and supporting syndromic surveillance practice to develop, implement and maintain a community of practice for CDCs National Syndromic Surveillance Program.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Syndromic surveillance emphasizes the use of near real-time pre-diagnostic data, and statistical tools to detect and characterize unusual activity for further public health investigation or response. In 2015, CDC issued CDC-RFA-OE15-1502: The

National Syndromic Surveillance Program: Enhancing Syndromic Surveillance Capacity and Practice to fund about 25 health departments to elevate and strengthen the overall science and practice of syndromic surveillance. The purpose of NSSP is to strengthen the practice of syndromic surveillance at local and state public health agencies and to support the use of syndromic surveillance data for regional and national situation awareness. The purpose of this new FOA is to fund an organization to support the development, implementation, promotion, and ongoing maintenance of the NSSP Community of Practice (NSSP CoP). The purpose of the NSSP CoP is to promote the use and practice of syndromic surveillance among a broad range of public health practitioners and stakeholders interested in sharing knowledge to advance and improve syndromic surveillance use and practices. The NSSP CoP will focus on providing a peer-to-peer collaborative environment to foster and facilitate knowledge sharing and collaboration. Working together through the NSSP CoP will allow CDC to leverage the talents of a broad range of public health practitioners and stakeholders to enhance the nations electronic surveillance capacity.

The report must include only those funds authorized and disbursed during the timeframe covered by the report. The final FFR must indicate the exact balance of unobligated funds, and may not reflect any unliquidated obligations. There must be no discrepancies between the final FFR expenditure data and the Payment Management Systems (PMS) cash transaction data. Failure to submit the required information by the due date may adversely affect the future funding of the project. If the information cannot be provided by the due date, awardees are required to submit a letter of explanation to PGO and include the date by which the Grants Officer will receive information. Final Performance and Financial Report (required) This report is due 90 days after the end of the project period. CDC programs must indicate that this report should not exceed 40 pages. This report covers the entire project period and can include information previously reported in APRs. At a minimum, this report must include the following: Performance Measures Awardees must report final performance data for all process and outcome performance measures. Evaluation Results Awardees must report final evaluation results for the project period for any evaluations conducted. Impact/Results/Success Stories Awardees must use their performance measure results and their evaluation findings to describe the effects or results of the work completed over the project period, and can include some success stories. Additional forms as described in the Notice of Award (e.g., Equipment Inventory Report, Final Invention Statement). Awardee Evaluation and Performance Measurement Plan (required) With support from CDC, awardees must elaborate on their initial applicant evaluation and performance measurement plan. This plan must be no more than 20 pages; awardees must submit the plan 6 months into the award. This plan should provide additional detail on the following: The frequency that evaluation and performance data are to be collected. How data will be reported. How evaluation findings will be used for continuous quality and program improvement. How evaluation and performance measurement will yield findings to demonstrate the value of the FOA (e.g., improved public health outcomes, effectiveness of FOA, cost-effectiveness or cost benefit). Dissemination channels and audiences. Other information requested as determined by the CDC program. Annual Performance Report (APR) (required) The awardee must submit the APR via www.grants.gov 120 days before the end of the budget period. This report must not exceed 45 pages excluding administrative reporting. Attachments are not allowed, but web links are allowed. This report must include the following: Performance Measures: Awardees must report on performance measures for each budget period and update measures, if needed. Evaluation Results: Awardees must report evaluation results for the work completed to date (including findings from process or outcome evaluations). Work Plan: Awardees must update work plan each budget period to reflect any changes in project period outcomes, activities, timeline, etc. Successes Awardees must report progress on completing activities and progress towards achieving the project period outcomes described in the logic model and work plan. Awardees must describe any additional successes (e.g., identified through evaluation results or lessons learned) achieved in the past year. Awardees must describe success stories. Challenges Awardees must describe any challenges that hindered or might hinder their ability to complete the work plan activities and achieve the project period outcomes. Awardees must describe any additional challenges (e.g., identified through evaluation results or lessons learned) encountered in the past year. CDC Program Support to Awardees Awardees must describe how CDC could help them overcome challenges to complete activities in the work plan and achieving project period outcomes. Administrative Reporting (No page limit) SF-424A Budget Information-Non-Construction Programs. Budget Narrative Must use the format outlined in "Content and Form of Application Submission, Budget Narrative" section. Indirect Cost Rate Agreement.

Not more than thirty days after the Phase II review is completed, applicants will be notified electronically if their application does not meet eligibility or published submission requirements.

93.853 Extramural Research Programs in the Neurosciences and Neurological Disorders

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Small Business Research and Development Enhancement Act of 1992, Public Law 102-564, Public Health Service Act, Sections 301, 405, 408, 457, 458, 459, and 487, Public Law 78-410, 42 USC Code 241-285L-2.

OBJECTIVES:

ASSISTANCE LISTINGS DESCRIPTIONS

(1) To support extramural research funded by the National Institute of Neurological Disorders and Stroke (NINDS) including: basic research that explores the fundamental structure and function of the brain and the nervous system; research to understand the causes and origins of pathological conditions of the nervous system with the goal of preventing these disorders; research on the natural course of neurological disorders; research on mechanisms associated with stroke and other cerebrovascular disorders, effects of trauma to the nervous system, neuroplasticity and regeneration, and tumors of neural tissues; improved methods of disease prevention; new methods of diagnosis and treatment; clinical trials; drug development; development of neural prostheses for stroke and paraplegia; epidemiological research; and research training in clinical neuroscience. The Institute supports research on topics including but not limited to stroke; traumatic injury to the brain, spinal cord and peripheral nervous system; neurodegenerative disorders; brain tumors; development of artificial prosthetic devices to restore function to the damaged nervous system; convulsive disorders; infectious disorders of the brain and nervous system; immune disorders of the brain and nervous system, including multiple sclerosis; disorders related to sleep; and pain. Programmatic areas, which are primarily supported by the Division of Neuroscience, also include neurodevelopment, repair and plasticity, channels synapses and circuits, neurogenetics, neurodegeneration, neural environment, and systems and cognitive neuroscience. Extramural research is also supported by the Office of Training and Workforce Development, the Office of Programs to Enhance Neuroscience Workforce Development, the Office of International Activities, the Division of Extramural Activities, the Division of Translational Research, the Division of Clinical Research. (2) To expand and improve the Small Business Innovation Research (SBIR) program; to increase private sector commercialization of innovations derived from Federal research and development; to increase small business participation in Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. (3) To utilize the Small Business Technology Transfer (STTR) program; to stimulate and foster scientific and technological innovation through cooperative research and development carried out between small business concerns and research institutions; to foster technology transfer between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. The NINDS also participates in the Academic Research Enhancement Award (AREA) Program, which is intended to provide research support to institutions currently having little support from the National Institutes of Health (NIH) support.

TYPES OF ASSISTANCE:

Project Grants, Project Grants (Contracts)

USES AND USE RESTRICTIONS:

Research grants may be used to provide salaries, equipment, supplies, travel and other expenses for research. The grantee institution is obliged to expend grant funds prudently for the purposes stated in the application and award document. National Research Service Awards (NRSAs) are made directly to individuals for research training in specified biomedical shortage areas, or to institutions, to enable them to make NRSAs to individuals selected by them. Each individual who receives a NRSA may be obligated upon termination of the award to comply with service and payback provisions. Career Development Awards such as the Independent Scientist Awards (K02) provide support for newly independent scientists with health-related degrees who can demonstrate the need for a period of intensive research focus as a means of enhancing their research careers and facilitating their ability to obtain major NIH research awards. Mentored Clinical Research Scientist Development Awards (K08) provide support for clinically trained health professionals who need an additional period of sponsored research experience as a way to gain expertise in a research area new to the candidate or in an area that would demonstrably enhance the candidate's scientific career. The K01 and K22 Mentored Research Scientist Development Awards are used to promote diversity in neuroscience research and support an intensive supervised research career development experience for underrepresented, disabled or disadvantaged career neuroscientists. The Mentored Patient-Oriented Research Career Development Award (K23) provide support for a period of supervised study and research for clinically trained professionals who have the potential to develop into

productive clinical investigators. SBIR and STTR Phase I grants (of approximately 6-months to 2 years in duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants (of approximately 1 to 3 years in duration) are for the continuation of the research efforts initiated in Phase I that are likely to result in commercial products or processes. Phase II funding is based on results of research initiated in Phase I, scientific and technical merit, and commercial potential of Phase II application. Grant funds may be expended only for the purpose stated in the application and award document. The NINDS participates in the NIH SBIR/STTR "fast track" and Phase IIB initiatives.

Applicant Eligibility:

Interstate; Intrastate; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Sponsored organization; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; U.S. Territories and possessions; U.S. Territories and possessions (includes institutions of higher education and hospitals); Individual/Family; Minority group; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; State; Research Grants: Any public, private, nonprofit, or for-profit institution is eligible to apply. For-profit institutions are not eligible for Institutional National Research Service Awards but are eligible for Individual NRSAs. All proposals are reviewed for scientific merit, for evaluation of the qualifications of the investigators, for adequacy of the research environment, and for significance of the problem. Approved proposals compete for available funds. All Career Development Program awardees, with the exception of awardees of the Pathway to Independence Award (K99/R00), must be citizens or have been admitted to the United States for permanent residence. Candidates must be nominated for the program by a nonfederal public or private nonprofit institution located in the United States, its possessions or territories. To be eligible, postdoctoral NRSA trainees or fellows must have a professional or scientific degree (M.D., Ph.D., D.D.S., D.O., D.V.M., Sc.D., D. Eng., or equivalent domestic or foreign degree). SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the entire research must be performed in the United States. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council.

Beneficiary Eligibility:

U.S. Territories; Small business; Profit organization; Private nonprofit institution/organization; Quasi-public nonprofit organization; Other private institution/organization; Native American Organizations; Health Professional; Student/Trainee; Graduate Student; Scientist/Researchers; State; U.S. Citizen; Local; Public nonprofit institution/organization; Other public institution/organization; Federally Recognized Indian Tribal Governments; Health professionals, graduate students, health professional students, scientists, and researchers.

Credentials/Documentation:

Research grants are awarded to an institution in the name of an individual investigator. Persons qualified to carry out research related to the extramural programs described above may apply for funds to support their investigations. Mentored Career Development Program training must be conducted under the direction of a competent sponsor. National Research Service Awards: individual

ASSISTANCE LISTINGS DESCRIPTIONS

NRSA Fellowships for postdoctoral training: the candidate's academic record, research experience, citizenship, institutional sponsorship, and the proposed area and plan of training must be included in the application. Institutional Training Grants for predoctoral and postdoctoral training: the applicant institution must show the objectives, methodology and resources for the research training program; the qualifications and experience of directing staff; the criteria to be used in selecting individuals for stipend support; and a detailed budget and justification for the amount of grant funds requested. For-profit organizations' costs are determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined in accordance with HHS Regulations 45 CFR 75. For SBIR and STTR grants, the applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. Research grant applications that request \$500,000 or more in direct costs in any yearly budget period will not be accepted unless the NINDS has agreed to accept the application prior to submission (see <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-02-004.html>).

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 45 CFR 75 applies to this program. NIH has transitioned to the SF424 family of forms and electronic submission through Grants.gov for most research programs and funding mechanisms. All applications must be submitted in response to a specific funding opportunity announcement (FOA). The FOA will specify which forms should be used for submission.

Award Procedure:

Research Grant and Training Program applications are reviewed initially by technical panels, composed of scientific authorities, and by the National Advisory Neurological Disorders and Stroke Council composed of 18 leaders in medical science, education, and public affairs. Approved applications will compete on a merit basis for available funds. Formal award notices are transmitted to the grantee or awardee. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Research grants: Approximately 6 to 9 months. Career program: From 7 to 8 months. SBIR/STTR applications: Approximately 6 to 9 months. Institutional Training Grants: From 6 to 12 months.

Appeals:

Other. A principal investigator (P.I.) may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute, and subsequently, the P.I. and applicant institution may appeal to the NINDS appeals officer. A description of the NIH Peer Review Appeal procedures is available on the NIH home page <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>.

Renewals:

Other. By application and review in same manner as new applications. A P.I. should consult the specific FOA to determine if a particular grant is renewable.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Research grant awards are made for a 12-month period with recommendation of up

to 4 years of additional support, with limited exceptions for longer duration awards. Career Program awards provide support for 3 to 5 years. Training Program awards are usually for a 12-month period with recommendation of additional support of up to a total of 5 years for predoctoral training and no more than 3 years for postdoctoral training. SBIR: Normally, Phase I awards are for 6 months; normally, Phase II awards are for 2 years. STTR: Normally, Phase I awards are for 1 year; normally, Phase II awards are for 2 years. Method of awarding/releasing assistance: quarterly. Method of awarding/releasing assistance: quarterly

Reports:

Research Grants: annual and final progress reports, including a description of results, positive and negative, and a list of any publications. Career Development Program: awardee submits annual progress report. Termination notice, PHS 416-7, must be submitted upon completion of NRSA training. Reports are required after termination of National Research Service Awards to ascertain compliance with the service and payback provisions. A Financial Status Report must be submitted within 90 days after the close of each budget period for which an award has been issued. No cash reports are required. No expenditure reports are required. No performance monitoring is required. Research Grants: annual and final progress reports, including a description of results, positive and negative, and a list of any publications. Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the provisions of 45 CFR 75 nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 45 CFR 75. Records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). In accordance with 45 CFR 75, for-profit (commercial) organizations are subject to audit requirements for a non-Federal audit if, during its fiscal year, it expended \$750,000 or more under HHS awards and at least one award is a HHS grant or subgrant. The regulation incorporates the thresholds and deadlines of 45 CFR 75, but provides for profit organizations with two options for the type of audit that will satisfy the audit requirement: 1. a financial related audit of the HHS awards in accordance with Government Auditing Standards, or 2. an audit that meets the requirements of 45 CFR 75. In accordance with NIH Grants Policy Statement, Foreign grantees are subject to the same audit requirements as for-profit (commercial) organizations.

Records:

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from

the date of submission of the annual FSR to NIH. See 45 CFR 75 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 75 for record retention and access requirements for contracts under grants. In accordance with 45 CFR 75 of Federal Regulations, the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel records for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: (1) the scientific merit and general significance of the proposed study and its objectives; (2) the technical adequacy of the experimental design and approach; (3) the competency of the proposed investigator or group to successfully pursue the project; (4) the adequacy of the available and proposed facilities and resources; (5) the necessity of the budget components requested in relation to the proposed project; and (6) the relevance and importance to announced program objectives. The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) the soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the technological innovation of the proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the adequacy and suitability of the facilities and research environment; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) the degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget requested for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

AUTHORIZATION:

Small Business Research and Development Enhancement Act of 1992, Public Law 102-564, 42 USC Code 241. Public Health Service Act, Title IV, Section 301, Public Law 78-410

OBJECTIVES:

To assist public and private nonprofit institutions and individuals to establish, expand and improve biomedical research and research training in infectious diseases and related areas; to conduct developmental research, to produce and test research materials. To assist public, private and commercial institutions to conduct developmental research, to produce and test research materials, to provide research services as required by the agency for programs in infectious diseases, and controlling disease caused by infectious or parasitic agents, allergic and immunologic diseases and related areas. Projects range from studies of microbial physiology and antigenic structure to collaborative trials of experimental drugs and vaccines, mechanisms of resistance to antibiotics as well as research dealing with epidemiological observations in hospitalized patients or community populations and progress in allergic and immunologic diseases. Because of this dual focus, the program encompasses both basic research and clinical research. Small Business

ASSISTANCE LISTINGS DESCRIPTIONS

Innovation Research (SBIR) program expands and improves private sector participation in biomedical research. The SBIR Program intends to increase and facilitate private sector commercialization of innovations derived from Federal research and development; to increase small business participation in Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. The Small Business Technology Transfer (STTR) program stimulates and fosters scientific and technological innovation through cooperative research and development carried out between small business concerns and research institutions; to foster technology transfer between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. Research Career Development Awards support the development of scientists during the formative stages of their careers. Individual National Research Service Awards (NRSAs) are made directly to approve applicants for research training in specified biomedical shortage areas. In addition, Institutional National Research Service Awards are made to enable institutions to select and make awards to individuals to receive training under the aegis of their institutional program.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Beginning with fiscal year 1998, the direct costs awarded in the first year to a research project grant resulting from a competing renewal application will be limited to no more than a 20 percent increase over the direct costs awarded in the last non-competing year of that grant. Research grants provide funds for salaries, equipment, supplies, and travel. They also afford the collateral benefits of enriching the training experience of research workers. Grantees are expected to be judicious in using these funds. The application for a research grant sets forth specific terms and conditions and requires the signatures of the principal investigator and an official authorized to sign for the institution. Scientists and institutions are under an obligation to expend grant funds prudently for the purposes stated in the application and award document. For Research Career Development Awards (RCDAs) the scientists must demonstrate an outstanding research potential for independent research in the sciences related to transplantation, immunology, allergies, and immunological diseases. For National Research Service Awards (NRSAs), each individual who receives NRSA support is obligated upon termination of the award to comply with certain service and payback provisions. SBIR Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I and which are likely to result in commercial products or processes. Only Phase I awardees are eligible to receive Phase II support. STTR Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential of the Phase II application.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Individual/Family; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Universities, colleges, hospitals, laboratories, and other public or private nonprofit domestic institutions, including State and local units of government, and individuals are eligible to make application for grant support of research by a named principal investigator or a research career development candidate. For-profit organizations are also eligible, with the exception of NRSA. Individual NRSA awardees must be nominated and sponsored by a public or nonprofit private institution having staff and facilities appropriate to the proposed research training program. All NRSA awardees must be citizens or have been admitted to the United States for permanent residence. To be eligible, predoctoral candidates must have completed the baccalaureate degree, and postdoctoral awardees must have a professional or scientific degree (M.D., Ph.D., D.D.S., D.O., D.V.M., Sc.D.,

D.Eng., or equivalent domestic or foreign degree). SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is being proposed and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. or its possessions. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which researches proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council.

Beneficiary Eligibility:

Individual/Family; Profit organization; Private nonprofit institution/organization; Student/Trainee; Scientist/Researchers; State; Local; Public nonprofit institution/organization; Any nonprofit or for-profit organization, company, or institution engaged in biomedical research.

Credentials/Documentation:

Research grant applicants must define the objectives, methodology, and facilities for the program, and must present the program director's competence and scientific interest. For SBIR and STTR grants, applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. Grant forms PHS 6246-1 and PHS 6246-2 are used to apply for SBIR Phase I and Phase II, respectively. Grant forms PHS 6246-3 and PHS 6246-4 are used to apply for STTR Phase I and Phase II, respectively. Applicants for individual NRSAs must include their academic record, research experience, citizenship, institute sponsorship, and the proposed area and plan of training in their applications. The applicant for an institution must specify the objectives, methodology, and resources for the research training program, the qualifications experience of directing staff, the criteria to be used in selecting individuals for award, and a detailed budget justification for the amount of grant funds requested. For-profit organizations' costs are determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined by HHS Regulations HHS has implemented 2 CFR 200s administrative requirements, cost principles, and audit requirements under 45 CFR 75. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. NIH has transitioned to the SF424 family of forms and electronic submission through Grants.gov for most research programs and funding mechanisms. All applications must be submitted in response to a specific funding opportunity announcement (FOA). The FOA will specify which forms should be used for submission. Application forms and information concerning current areas of science being supported are available from the Division of Extramural Outreach and Information Resources, Office of Extramural Research, National Institutes of Health, 6701 Rockledge Drive, Room 6207, MSC 7910, Bethesda, MD 20892-7910. Telephone: (301) 435-0714. Fax: (301) 480-0525. E-mail: asknih@od.nih.gov. The standard application forms, as furnished by PHS and required by 45 CFR Part 92, must be used for this program. This program is subject to the provisions of 45 CFR, Part 92 for State and local governments and OMB Circular No. A-110 for nonprofit organizations. Completed applications should be submitted to the Center for Scientific Review, National Institutes of Health, Bethesda, MD 20892. SBIR and STTR Grant Solicitations and SBIR Contract Solicitation may be obtained electronically through the NIH's "Small Business Funding Opportunities" homepage at www.nih.gov/grants/funding/sbir.htm on the World Wide Web. A limited number of hard copies of these publications are produced. Subject to availability, they may be obtained by contacting the NIH support services contractor: telephone: (301)

ASSISTANCE LISTINGS DESCRIPTIONS

206-9385; fax: (301) 206-9722; E-mail: a2y@cu.nih.gov. The Solicitations include submission procedures, review considerations, and grant application or contract proposal forms. SBIR and STTR grant applications should be submitted to the Center for Scientific Review, 6701 Rockledge Drive, Room 1040 - MSC 7710, Bethesda, MD 20892-7710.

Award Procedure:

All accepted applications are reviewed for scientific merit by an appropriate initial review group and a national advisory council. If recommended for approval and a decision to make an award is made, a formal award notice will be sent to the applicant and applicant institution. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. New Non-AIDS research applications: February 1, June 1 and October 1. For Renewal and Supplemental Non-AIDS research grant applications: March 1, July 1, and November 1. For all AIDS research grant applications: January 2, May 1, September 1. Research Career Development Award programs: February 1, June 1, October 1. Individual NRSA: April 5, August 5, and December 5. Institutional NRSA: September 10. SBIR/STTR: April 1, August 1 and December 1.

Appeals:

Other. A principal investigator may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. Final decisions on unresolved appeals are made with the advice of the National Advisory Allergy and Infectious Diseases Council.

Renewals:

Other. Renewals of research grant support are by competitive application and review. The competitive application may request support for a segmental period of up to 5 years.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. This program has MOE requirements, see funding agency for further details. Additional Information: MOE requirements apply with allocations over \$100 million.

Length and Time Phasing of Assistance:

Research grant project periods average 4 years; they may not be extended beyond 7 years. (Project periods are generally composed of 1-year budget periods.) SBIR Normally, Phase I awards are for 6 months; normally, Phase II awards are for 2 years. STTR: Normally, Phase I awards are for 1 year; normally, Phase II awards are for 2 years. Annual progress reports with information on inventions and expenditures are required. Require quarterly expenditure reports and yearly or grant period reports of expenditures. At the end of the project we expect final expenditure reports. Yearly and final progress reports are monitored

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503 In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal government officials. HHS has implemented 2 CFR 200s administrative requirements, cost principles, and audit requirements under 45 CFR 75.

Records:

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms

of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH.

Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 75.53 and 92.42 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 74.48 and 92.36 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 74.53(e), the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel records for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: (1) The scientific merit and general significance of the proposed study and its objectives; (2) the technical adequacy of the experimental design and approach; (3) the competency of the proposed investigator or group to successfully pursue the project; (4) the adequacy of the available and proposed facilities and resources; (5) the necessity of the budget components requested in relation to the proposed project; and (6) the relevance and importance to announced program objectives.

ASSISTANCE LISTINGS DESCRIPTIONS

The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the technological innovation of the proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the adequacy and suitability of the facilities and research environment; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget requested for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Individual/Family; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Universities, colleges, hospitals, laboratories and other public or private nonprofit domestic institutions, including State and local units of government. Individuals are eligible to make application for grant support of research by a named principal investigator or a research career development candidate. For-profit organizations are also eligible, with the exception of NRSA. Individual NRSA awardees must be nominated and sponsored by a public or nonprofit private institution having staff and facilities appropriate to the proposed research training program. All NRSA awardees must be citizens or have been admitted to the United States for permanent residence. To be eligible, predoctoral candidates must have completed the baccalaureate degree and postdoctoral candidates must have a professional or scientific degree (M.D., Ph.D., D.D.S., D.O., D.V.M., Sc.D., D.Eng.), or must have an equivalent domestic or foreign degree. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is being proposed and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the

research must be performed in the U.S. or its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which researches proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council.

Beneficiary Eligibility:

Individual/Family; Profit organization; Private nonprofit institution/organization; Student/Trainee; Scientist/Researchers; State; Local; Public nonprofit institution/organization; Any nonprofit or for-profit organization, company, or institution engaged in biomedical research.

Credentials/Documentation:

Research grant applicants must define the objectives, methodology, and facilities for the program, and must present the program director's competence and scientific interest. For SBIR and STTR grants, applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. Grant forms PHS 6246-1 and PHS 6246-2 are used to apply for SBIR Phase I and Phase II, respectively. Grant forms PHS 6246-3 and PHS 6246-4 are used to apply for STTR Phase I and Phase II, respectively. Applicants for Individual NRSA must include their academic record, research experience, citizenship, institutional sponsorship, and the proposed area and plan of training in their applications. The applicant for an Institutional NRSA must specify the objectives, methodology, and resources for the research training program, the qualifications and experience of directing staff, the criteria to be used in selecting individuals for award, and a detailed budget and justification for the amount of grant funds requested. For-profit organizations' costs are determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined by HHS Regulations 45 CFR, Part 74, Subpart Q. 2 CFR 200, Subpart E - Cost Principles applies to this program.

CRITERIA FOR SELECTING PROPOSALS:

The National Partnership for Women & Families (National Partnership or NPWF) and the Office of the National Coordinator of Health IT (ONC) will work collaboratively to develop and incorporate questions into the National Cancer Institutes Health Information National Trends Survey (HINTS) and once the results of the NCI survey results are available, the National Partnership will review the results, and assist ONC with the reporting and dissemination of the results. The National Partnerships involvement will enable ONC to collect, analyze and report on information that will help us better understand individuals access to their electronic health information and the use of their health information including tools that enable them to collect, share and use their health information to monitor and manage health care needs for themselves and their loved ones. This cooperative agreement involves supporting ONCs efforts to measure and report on individuals access and use of their electronic health information. Working with ONC, the National Partnership will identify survey items, from its and ONCs past surveys, and help develop new survey items for inclusion in the HINTS survey. NCI will then conduct the HINTS survey including the added survey items. Once the HINTS survey results are available, the National Partnership will review and help interpret the survey results and assist ONC in the development of written data products, such as data briefs. Finally, the National Partnership will help disseminate the results through its various channels, including via webinars, blog posts and social media.

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Section 301 and Title IV of the Public Health Service Act, as amended.

OBJECTIVES:

The National Institute of General Medical Sciences (NIGMS) supports basic research that increases our understanding of biological processes and lays the foundation for advances in disease diagnosis, treatment, and prevention. NIGMS-funded scientists investigate how living systems work at a range of levels from molecules and cells to tissues and organs, in research organisms, humans, and populations. Additionally, to ensure the vitality and continued productivity of the research enterprise, NIGMS provides leadership in training the next generation of scientists, in enhancing the diversity of the scientific workforce, and in developing research capacity throughout the country.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

NIGMS is organized into divisions that support research and research training in a range of scientific fields. Major areas in which these units fund research are listed below their names: Division of Biophysics, Biomedical Technology, and Computational Biosciences Facilitates advances in basic biomedical research by supporting the development of biophysical and computational methods and tools for understanding basic biological questions; physical and theoretical methodologies, bioinformatics tools, and sophisticated quantitative approaches to lay a foundation for advances in disease diagnosis, treatment, and prevention in health and disease; and the creation of innovative tools and new technologies for the study of macromolecular, cellular, and organelle processes and function. The long-term goals of the division are to leverage data, methods, and technologies to answer fundamental biological questions, to develop a more robust computing infrastructure for the biomedical research community, and to promote and facilitate the development and use of new biophysical, computational, and experimental technologies in biomedical research. Division of Genetics and Molecular, Cellular, and Developmental Biology Supports research to understand the structure and function of cells and cellular components, and the cellular and molecular mechanisms that underlie inheritance, gene expression, and development. The results of this research form the foundation for advances in diagnosing, preventing, treating, and curing a wide variety of diseases. Most of the projects supported by the division make use of research organisms, which advance the general understanding of biological processes. In most cases, research whose overall goal is to gain knowledge about a specific organ or organ system or the pathophysiology, treatment, or cure of a specific disease or condition is not supported by the GMCDDB Division. Division of Pharmacology, Physiology, and Biological Chemistry Supports a broad spectrum of research aimed at improving the molecular-level understanding of fundamental biological processes and discovering approaches to their control. Research supported by the division takes a multifaceted approach to problems in pharmacology, physiology, biochemistry, and biological chemistry that are very basic in nature. The goals of supported research include an improved understanding of drug action and of anesthesia; mechanisms underlying responses to drugs; new methods and targets for drug discovery; advances in natural products synthesis; an enhanced understanding of biological catalysis; knowledge of metabolic regulation and fundamental physiological processes; and the integration and application of basic physiological, pharmacological, and biochemical research to clinical issues in anesthesia, clinical pharmacology, and trauma and burn injury. Research approaches are state-of-the-art and employ the optimal research organisms for the problems being addressed. Division for Research Capacity Building Supports research, research training, faculty development, and research infrastructure improvements in states that historically have not received significant levels of research funding from NIH. It also supports faculty research development at institutions that have a historical mission focused on serving students from underrepresented groups, research and research capacity building directed by Native American and Alaska Native tribal organizations, and conducts a science education program designed to improve life-science literacy. Division of Training, Workforce Development, and Diversity Supports programs that foster research training and the development of a strong and diverse biomedical research workforce. The division funds research

training, student development and career development activities through a variety of programs. In addition, it supports the NIH Common Fund initiative, Enhancing the Diversity of the NIH-Funded Workforce.

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Individual/Family; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; NIGMS trainees must be U.S. citizens, non-citizen nationals or permanent residents.

Beneficiary Eligibility:

Individual/Family; Profit organization; Private nonprofit institution/organization; Student/Trainee; Scientist/Researchers; U.S. Citizen; Public nonprofit institution/organization; Any nonprofit or for-profit organization, company or institution engaged in biomedical research.

Credentials/Documentation:

Each applicant for research projects must present a research plan and furnish evidence that scientific competence, facilities, equipment and supplies are appropriate to carry out the plan. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. NIH announces availability of funds for grant programs by issuing funding opportunity announcements in the NIH Guide for Grants and Contracts (<https://grants.nih.gov/grants/guide>) and on Grants.gov (<https://www.grants.gov>). Application packages must be downloaded from Grants.gov and the majority must be submitted through Grants.gov. This program is subject to the provisions of 45 CFR, Part 92 for state and local governments and 45 CFR, Part 72 for other organizations, as appropriate.

Award Procedure:

All accepted applications are reviewed for scientific merit by an appropriate initial review group and by a national advisory council. National Research Service Award (NRSA) applications for the support of individual fellows and other applications requesting less than \$50,000 direct costs per year are not reviewed by the council. All approved applications compete for available funds on the basis of scientific merit and program emphasis.

93.860 Emerging Infections Sentinel Networks

NA,

FEDERAL AGENCY:

ASSISTANCE LISTINGS DESCRIPTIONS

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act Sections 301(a)[42 U.S.C.241(a)], 317(k)(1)[42 U.S.C.247b(k)(1)], and 317(k)(2)[42 U.S.C.247b(k)(2)], as amended.

OBJECTIVES:

In its 1994 monograph, Addressing Emerging Infectious Disease Threats A Prevention Strategy for the United States, the Centers for Disease Control and Prevention (CDC) called for the establishment of provider-based Emerging Infections Sentinel Networks (EISNs) to monitor and evaluate conditions that are not covered by health department surveillance and that are likely to be seen by specific kinds of health providers. There are currently three provider-based networks established through CDCs EISN cooperative agreement programs: 1) Surveillance network of infectious disease specialists, 2) Global surveillance network of travel medicine clinics, and 3) Emergency department-based network of academically affiliated emergency departments for research on emerging infectious diseases. The first two networks (infectious disease specialists and travel medicine clinics) are non-research programs, and the third network (academically affiliated EDs) is a research program. These networks contribute to surveillance for emerging infectious diseases, including drug resistant, foodborne and waterborne, and vaccine-preventable or potentially vaccine-preventable diseases, and enhance information exchange leading to early identification of and response to trends and outbreaks. Objectives for the provider-based sentinel networks include the following:-To support linked groups of participating individuals or organizations in monitoring a variety of infectious disease problems and enhancing communication and collaboration among network members and the public health community;-To serve as readily accessible mechanisms to address urgent public health infectious disease problems rapidly; and-To improve understanding of specific public health issues, including, but not limited to, international travel, and enhance preparedness to meet new infectious disease threats among domestic and globally mobile populations.Additional objectives for the "research" EISN include:-To focus studies on the most important issues to be addressed by participating hospital EDs and CDC; and-To estimate the community burden of diseases.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Recipients may only expend funds for reasonable program purposes, including personnel, travel, supplies, and services, such as contractual. More detailed information regarding use of funding for specific projects/activities will be included in the published NOFOs for this program.

Applicant Eligibility:

Government - General; Federal; Interstate; Intrastate; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Sponsored organization; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; U.S. Territories and possessions (includes institutions of higher education and hospitals); Non-Government - General; Individual/Family; Minority group; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Other private institutions/organizations; State; Anyone/general public; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Eligibility for this program is open, however, only institutions/organizations that meet and can demonstrate the necessary qualifications described in the published NOFOs for this program should apply. Additional eligibility information is also described below:There are both research and non-research funding opportunities under this program. For the research opportunity, only organizations currently operating a nationwide provider-based sentinel network that link academically affiliated hospital emergency departments in monitoring a variety of infectious disease problems are eligible. For the non-research opportunity, only organizations currently operating provider-based sentinel networks that link groups of participating individuals or organizations organized around either infectious disease clinicians or travel medicine in

monitoring a variety of infectious disease problems are eligible. Applicants should refer to the published NOFOs for more information regarding applicant eligibility.

Beneficiary Eligibility:

Anyone/general public; Health Professional; - Health Professionals-

Anyone/general public

Credentials/Documentation:

Only organizations currently operating provider-based sentinel networks that link academically affiliated hospital emergency departments, or groups of participating individuals/organizations organized around either infectious disease clinicians or travel medicine, in monitoring a variety of infectious disease problems should submit an application. Applicants must provide documentation of the applicants qualifications, standing, and relationships in representing a group of academically affiliated hospital emergency departments or providers in a sentinel network. Include letters of support from network members. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Detailed instructions regarding application procedures and requirements will be included in the published NOFO for this program. Notice of Funding Opportunities (NOFO) for this listing will be posted on Grants.gov.

Award Procedure:

Applications that are complete and responsive will be evaluated for scientific and technical merit by an Objective Review Panel (for the non-research funding opportunity) or a Special Emphasis Panel (SEP) (for the research funding opportunity) in accordance with CDC review policies and procedures. CDC will not review incomplete and non-responsive applications. Complete and responsive applications will undergo the appropriate review process (Objective Review or SEP Review), receive a written critique and be scored according to the published review criteria. Any deviation from this process will be detailed in the published NOFO for this program. Successful applicants will receive a Notice of Award (NOA) from the CDC Office of Grants Services. The NOA shall be the only binding, authorizing document between the recipient and CDC. The NOA will be signed by an authorized Grants Management Officer. Initial award provides funds for the first budget period (usually 12 months) and the NOA will indicate support recommended for the remainder of the project period, allocation of Federal funds by budget categories, and special conditions, if any. Once competing applicants have been selected for the first year of funding in the project period, those selected will be eligible to submit annual non-competitive continuation applications for each successive budget period of the project period.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days.

Appeals:

Not Applicable.

Renewals:

From 60 to 90 days. Awards under this Program are typically issued for 1- to 5-year project periods. Renewals at the end of each project period are expected to be made available via publishing of a Renewal Competing Continuation NOFO with a complete application and review/award process as described above. Annual renewals within an awarded multi-year project period are made via a non-competitive process and are subject to the availability of funding.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Financial assistance is available for a 12-month budget period within project

periods ranging from one to five years. Method of awarding/releasing assistance: lump sum.

Reports:

No later than 10 days after the end of each calendar quarter, the recipients must submit a calendar quarter cash transaction report (SF-272 or top portion of the SF-425 Financial Report Form) to the Payment Management System (PMS). The reporting schedule is/will be based on the requirements listed in the published Notice of Funding Opportunity for this Program. Funded applicants must provide CDC with an Annual Progress Report (APR). Additionally, funded applicants must provide CDC with a Federal Financial Report (SF-425) no more than 90 days after the end of each budget period, and a final Performance and Federal Financial Report no more than 90 days after the end of the project period. All reports must be submitted to the Grants Management Specialist/Officer indicated in the NoA. Additional details regarding the reporting requirements for this program are/will be included in the published NOFOs. Federal Financial Reports (SF-425) are due no more than 90 days after the end of each budget period.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Financial records, supporting documents, statistical records, and all other records pertinent to the grant program must be retained for a minimum of 3 years after the end of the budget period, or until completion and resolution of any audit in process or pending resolution. 93.861 Strengthening the Public Health System in US-affiliated Pacific Islands (PPHF)

CBA to Strengthen Public Health Infrastructure and Performance in USAPIs,

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

This program is authorized under sections 307 and 317(k)(2) of the Public Health Service Act [42 USC 242(l) and 247(b)(k)(2), as amended]. In addition, this program is authorized under sections 311 and 1703 of Public Health Service Act [42 USC 243 and 300 u-2, as amended] and Section 4002 of the Patient Protection and Affordable Care Act, Public Law 111-148., Title IV, Section 4002, Public Law 111-148, 42 USC Code 242, 247.

OBJECTIVES:

The purpose of this funding initiative to ensure provision of capacity building assistance (CBA) to the USAPIs public health officials and public health systems. Capacity building efforts will support the formation of sound policies, strengthened organizational structures (e.g., governance, workforce recruitment/retention, and health services), effective management and revenue control, build jurisdictional partnerships, and address important cross-cutting issues such as health equity programs and services, and improved accountability measures for performance effectiveness and efficiency.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Project funds may be used for costs associated with planning, organizing, conducting and supporting capacity building assistance efforts in the USAPI as described in Section 050 above and through CDC allowable and unallowable expenses. Per CDC-RFA-OT16-1601 Funding Restrictions. Detailed budget restrictions will be specified in most recent Notice of Award.

Applicant Eligibility:

Other public institution/organization; The only eligible applicant for this award is the Pacific Island Health Officers Association (PIHOA), a 501(c)3 independent accrediting body that administers the national voluntary public health department accreditation program.

Beneficiary Eligibility:

U.S. Territories; Individual/Family; State; Local; Public nonprofit institution/organization; Governmental public health departments, workforce segments across governmental public health departments, and/or nongovernmental public health professionals in the US-Affiliated Pacific Islands (USAPI). The US-Affiliated Pacific Islands (USAPI) consist of three U.S. Flag Territories of American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands, as well as three sovereign states that have a Compact of Free Association with the United States (US)---Freely Associated States of the Republic of the Marshall Islands, Republic of Palau, and Federated States of Micronesia.

Credentials/Documentation:

The applicant must demonstrate 1) nonprofit 501(c)(3) or nonprofit 501(c)(6) IRS status (other than institutions of higher education); 2) a Pacific Islands regional scope of work; and 3) a public health charge or mission. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

Phase I Review: The eligible application will be initially reviewed for completeness by the CDC Procurement and Grants Office (PGO) staff. The eligible application will then be jointly reviewed for responsiveness by CDC OSTLTS and

ASSISTANCE LISTINGS DESCRIPTIONS

PGO. Incomplete and/or non-responsive applications that do not meet eligibility criteria will not advance to Phase II review and the applicant will be notified. Phase II Review: An objective review panel will evaluate the complete and responsive application according to the criteria listed in the FOA. The successful applicant will receive a Notice of Award (NoA) from the CDC Procurement and Grants Office. The NoA shall be the only binding, authorizing document between the recipient and CDC.

93.865 Child Health and Human Development Extramural Research

Child Health and Human Development,

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Section 301, 448 and 487, as amended, Public Laws 78-410 and 99-158, as amended, 42 U.S.C. 241; 42 U.S.C. 285g; 42 U.S.C. 288; Small Business Research and Development Enhancement Act of 1992, Public Law 102-564, Public Law 115-141

OBJECTIVES:

To conduct and support laboratory research, clinical trials, and studies with people that explore health processes. NICHD researchers examine growth and development, biologic and reproductive functions, behavior patterns, and population dynamics to protect and maintain the health of all people. To examine the impact of disabilities, diseases, and defects on the lives of individuals. With this information, the NICHD hopes to restore, increase, and maximize the capabilities of people affected by disease and injury. To sponsor training programs for scientists, doctors, and researchers to ensure that NICHD research can continue. By training these professionals in the latest research methods and technologies, the NICHD will be able to conduct its research and make health research progress until all children, adults, families, and populations enjoy good health. The mission of the NICHD is to ensure that every person is born healthy and wanted, that women suffer no harmful effects from reproductive processes, and that all children have the chance to achieve their full potential for healthy and productive lives, free from disease or disability, and to ensure the health, productivity, independence, and well-being of all people through optimal rehabilitation.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Grantee agrees to administer the grant in accordance with the regulations and policies governing the research grant programs of the Public Health Service as stated in the terms and conditions on the application for the grant. National Research Service Awards: Awarded to individuals for full-time research training in specified behavioral and biomedical shortage areas. Awardees may utilize some of their time in academic and clinical duties if such work is closely related to their research training. Awards may be made to institutions to enable them to make NRS awards to individuals selected by them. Each individual awardee is obligated upon termination of the award to comply with certain service and payback provisions. SBIR Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I and which are likely to result in commercial products or processes. STTR Phase I grants (normally of 1- year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed

ASSISTANCE LISTINGS DESCRIPTIONS

cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential on Phase II application.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Individual/Family; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Universities, colleges, medical, dental and nursing schools, schools of public health, laboratories, hospitals, State and local health departments, other public or private institutions, both nonprofit and for-profit, and individuals. National Research Service Award: Support is provided for academic and research training only, in health and health-related areas that are periodically specified by the National Institutes of Health. Individuals with a professional or scientific degree are eligible (M.D., Ph.D., D.D.S., D.O., D.V.M., Sc.D., D.Eng., or equivalent domestic or foreign degree). Predoctoral research training grants to institutions are also supported. Proposed study must result in biomedical or behavioral research training in a specified shortage area and which may offer opportunity to research health scientists, research clinicians, etc., to broaden their scientific background or to extend their potential for research in health-related areas. Applicants must be citizens of the United States or be admitted to the United States for permanent residency; they also must be nominated and sponsored by a public or private institution having staff and facilities suitable to the proposed research training. Domestic nonprofit organizations may apply for the institutional NRS grant. SBIR: SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. or its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council.

Beneficiary Eligibility:

Individual/Family; Private nonprofit institution/organization; Student/Trainee; Scientist/Researchers; State; U.S. Citizen; Local; Public nonprofit institution/organization; Any nonprofit or for-profit organization, company, or institution engaged in biomedical or biobehavioral research.

Credentials/Documentation:

Applicants should submit electronically via Grants.gov as directed in the relevant NIH Funding Opportunity Announcement. All required forms specified in the application kit are to be completed by the applicant and submitted with the application package. National Research Service Award: Individual Award: The applicant's academic record, research experience, citizenship, and institution sponsorship should be documented in the application. Institutional Award: the applicant organization must show the objectives, methodology, and resources for the research training program, the qualifications and experience of directing staff, the criteria to be used in selecting individuals for awards, and a detailed budget and justification for the amount of grant funds requested. For-profit organizations' costs are determined in accordance with 48 CFR, Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined by HHS Regulations, 45 CFR, Part 74, Subpart Q. For SBIR and STTR grants, applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. National Research Service Award: Prior to formal application, an individual must arrange for acceptance at a sponsoring institution by a sponsor who will supervise the training. Individuals must be sponsored by a domestic or foreign institution. SBIR/STTR: Same as for grants (above). Applications are submitted electronically via Grants.gov following the general guidance provided at: <http://grants.nih.gov/grants/forms.htm> and the specific instructions for the respective Funding Opportunities Announcement which may be found at: <http://grants.nih.gov/grants/guide/index.html>

Award Procedure:

Each application receives a dual scientific review by non-NIH scientists. Awards are issued by the Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD). National Research Service Awards: Applications are reviewed for scientific merit by an appropriate study section committee or by an institute review committee. If recommended for approval and a decision is made to make an award, a formal award notice will be sent to the applicant and sponsor. Institutional Awards are issued by the Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD). All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score compete for the available SBIR/STTR set-aside funds on the basis of scientific and technical merit and the commercial potential of the proposed research, program relevance, and program balance among the areas of research. Contact the headquarters or regional office, as appropriate, for application deadlines, or consult the specific Funding Opportunity Announcement listed in the NIH Guide for Grants and Contracts at: <https://grants.nih.gov/funding/searchGuide/nih-guide-to-grants-and-contracts.cfm>. General guidance about application due dates may be found at: <http://grants.nih.gov/grants/how-to-apply-application-guide/due-dates-and-submission-policies/standard-due-dates.htm>

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

ASSISTANCE LISTINGS DESCRIPTIONS

NIH requires that grantees periodically submit financial and progress reports. Other required reports may include annual invention utilization reports, lobbying disclosures, conflict of interest reports, audit reports, reports to the appropriate payment points (in accordance with instructions received from the payment office), and specialized programmatic reports. Grantees also are expected to publish the results of research in peer-reviewed journals and to provide information to the public on the objectives, methodology, and findings of their NIH-supported research activities, as specified in Administrative Requirements Availability of Research Results: Publications, Intellectual Property Rights, and Sharing Research Resources. The GMO is the official receipt point for most required reports. However, NIH has centralized the submission of annual progress reports; details are provided below. In addition, electronic submission through the eRA Commons is required for some annual progress reports and available for all closeout documents (final grant progress reports, final invention statements and certifications, and final financial status reports). When a paper non-competing continuation progress report is submitted, only a signed original is required; no copies are required. Submission of these reports to an address other than the centralized one may result in delays in processing of the non-competing continuation award or the submission being considered delinquent. FFRs must be electronically submitted to OFM (see Financial Reports below) through the eRA Commons eFFR feature unless otherwise indicated in the awards terms and conditions. Grantees are allowed a specified period of time to submit required financial and final progress reports (see 45 CFR parts 74.51 and 74.52, 92.40 and 92.41, and the discussion in this subsection). Failure to submit complete, accurate, and timely reports may indicate the need for closer monitoring by NIH or may result in possible award delays or enforcement actions, including withholding, removal of certain NIH Standard Terms of Award, or conversion to a reimbursement payment method (also see Administrative Requirements Enforcement Actions). The schedule for submission of the non-competing continuation progress report is discussed in the next subsection. The FFR has a dedicated section to report Federal cash receipts and disbursements. For domestic grantees this information is submitted quarterly directly to the PMS using the web-based tool. Quarterly reports are due 30 days following the end of each calendar quarter. The reporting period for this report continues to be based on the calendar quarter. Questions concerning the requirements for this quarterly financial report should be directed to the PMS. For awards issued to foreign institutions after October 1, 2012, even though payment is now through PMS, the requirement for quarterly cash reporting does not apply. These awards are now administered in PMS using subaccounts and payments will be specific to each grant at the time the grantee draws funds. Progress reports usually are required annually as part of the non-competing continuation award process. NIH may require these reports more frequently. The Non-Competing Continuation Progress Report (PHS 2590) or equivalent documentation (e.g., Research Performance Progress Report [RPPR]) must be submitted to, and approved by, NIH to non-competitively fund each additional budget period within a previously approved project period (competitive segment). Except for awards subject to SNAP, the progress report includes an updated budget in addition to other required information. NIH continues to transition to using the RPPR for progress reporting. The RPPR is a federal wide format for the submission of required annual or other interim performance reporting on grant and cooperative agreement awards. The transition to RPPR will be implemented in phases through a module in the eRA Commons. The RPPR is now required for all SNAP and fellowship awards. The PHS 2590 non-competing continuation progress report is currently required for all other NIH awards; however, the RPPR will eventually replace the PHS 2590 paper progress report. Reports of expenditures are required as documentation of the financial status of grants according to the official accounting records of the grantee organization. NIH requires all financial expenditure reports to be submitted using the Federal Financial Report (FFR) system located in the eRA Commons. This includes all initial FFRs being prepared for submission and any revised FSR/FFRs being submitted or re-submitted to NIH. The eRA Commons Federal Financial Report (FFR) system allows participants to view information on currently due and late expenditure reports and to submit these reports electronically to NIH. Paper expenditure reports are not accepted. Expenditure data submitted to NIH is initially reviewed and accepted by OFM. NIH IC grants management staff also review these expenditure reports. Except for awards under SNAP and awards that require more frequent reporting, the FFR is required on an annual basis. An annual FFR is required for awards to foreign organizations made prior to October 1, 2012 and Federal institutions made prior to October 1, 2013, whether or not they are under

SNAP. When required on an annual basis, the report must be submitted for each budget period no later than 90 days after the end of the calendar quarter in which the budget period ended. The reporting period for an annual FFR will be that of the budget period for the particular grant; however, the actual submission date is based on the calendar quarter. Failure to submit timely reports may affect future funding. The report also must cover any authorized extension in time of the budget period. If more frequent reporting is required, the NoA will specify both the frequency and due date. In lieu of the annual FFR expenditure data, NIH will monitor the financial aspects of grants under SNAP by using the information submitted directly to PMS. The GMO may review the report for patterns of cash expenditures, including accelerated or delayed drawdowns, and to assess whether performance or financial management problems exist. For these SNAP awards, FFR expenditure data is required only at the end of a competitive segment. It must be submitted within 90 days after the end of the competitive segment and must report on the cumulative support awarded for the entire segment. An FFR must be submitted at this time whether or not a competing continuation award is made. If no further award is made, this report will serve as the final FFR. The grantee institution is required to submit a progress report on an annual basis for each grant award, which includes monitoring of performance.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, grants and cooperative agreements are subject to inspection and audits by DHHS and other Federal officials.

Records:

Expenditures and other financial records must be retained for 3 years from the day on which the grantee submits the last expenditure report for the report period.

Obligations:

Project Grants FY 17 \$979,273,038.00; FY 18 est \$1,043,607,000.00; FY 19 est \$949,511,000.00;

Range and Average of Financial Assistance:

For research project grants, fiscal year 2018, range is \$50,000 to \$5,000,000; average is \$458,488. Individual research fellowship awards: Basic stipend (first year beyond the doctoral degree) of approximately \$45,000. The sponsoring institution will be provided, on application, with an allowance of up to approximately \$8,000 per year to help defray the cost of training. No dependency allowances. SBIR: Average Phase I awards are for approximately \$225,000 (grant activity R43 - for up to six months); Phase II awards may be made for amounts up to \$1,500,000 (grant activity R44 - for up to two years).

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: Budget Actuals: Fiscal year 2017 competing and noncompeting research project grants actuals were 1,655. Of this number, 86 were for SBIR/STTR awards. Exactly 49 research centers were awarded. A total of 401 other research grants were awarded. There were institutional training grants support provided for 439 trainees in fiscal year 2017. The individual training awards for fiscal year 2017 were 132. Fiscal Year 2018: Budget Estimate: Fiscal year 2018 competing and noncompeting research project grants estimates are 1,811. Of this number, 90 are expected to be SBIR/STTR awards. Approximately 54 research centers will be awarded. A planned 401 other research grants are anticipated to be awarded. There are projected institutional training grants to support 410 trainees that are planned to be awarded in fiscal year 2018. The individual training award are projected for fiscal year 2018 to be 175. Fiscal Year 2019: Budget Request: Fiscal year 2019 competing and noncompeting research project grants estimates are 1,732. Of this number, 78 are expected to be SBIR/STTR awards. Approximately 53 research centers will be awarded. A planned 343 other research grants are anticipated to be awarded. There are projected institutional training grants to support 420 trainees that are planned to be awarded in fiscal year 2019. The individual training award are projected for fiscal year 2019 to be 163.

EXAMPLES OF FUNDED PROJECTS:

2019 Reproductive Health, Pregnancy, and Perinatology The program in reproductive health, pregnancy, and perinatology supports basic, clinical, and translational research on gynecologic disorders, fertility and infertility, pregnancy, and newborn care. NICHD manages a broad research portfolio to understand, treat, and prevent common, painful, and costly reproductive health conditions, including uterine fibroids, vulvodynia, pelvic floor disorders, and endometriosis. For example, scientists recently compared two minimally invasive uterine fibroid procedures to assess their advantages and disadvantages from a patient perspective. Women undergoing one procedure reported experiencing more post-procedure pain, using more prescription medications, and having longer total recovery times. In addition, the other procedure had a shorter treatment time, often requiring only one visit. Millions of couples across the United States have difficulty conceiving or carrying a child, yet only limited information is available to understand the causes of infertility, minimize risk factors, and improve treatment options. For example, although there has been little research to support their use, tests to predict ovarian reserve (the number of a woman's remaining eggs before menopause) are routinely offered in many fertility clinics on the assumption that women with a lower ovarian reserve would be less likely to respond to treatment. However, researchers supported by both NICHD and the National Institute of Environmental Health Sciences (NIEHS) recently found that these tests do not appear to predict the short-term probability of conception among women from 30 to 44 years of age. NICHD-funded research is helping to save infants' lives not only in the United States but also around the world. Recently, NICHD-supported researchers demonstrated that daily doses of beneficial bacteria, or probiotics, reduced the rate of sepsis life-threatening infection of the bloodstream among newborns in India by 40 percent. The study is the first to show that probiotics therapy can prevent disease on a large scale, which could provide an inexpensive and effective way to reduce serious, widespread infection among newborns in developing countries. NICHD supports prevention research to help reduce rates of high-risk pregnancies and preterm birth, as well as the associated lifelong morbidities for mother and child. Preeclampsia, for example, is a dangerous condition that leads to high blood pressure in pregnant women, and can cause maternal mortality. It is a major cause of preterm birth, and is associated with long-term risk of heart disease in women. NICHD-supported scientists visualized and isolated individual cells of four different types in placental tissue from women who had had preterm births or severe preeclampsia, and subsequently compared the RNA molecules that the various cell types produced. In the placentas from women with preeclampsia, the researchers found abnormal levels of RNA molecules associated with immune function, cell growth, cell movement, hormone response, growth factors, formation of blood vessels, and molecular transport. These differences provide clues about molecular changes and altered cell functions associated with preeclampsia. In the future, developing new tests for these changes might help identify pregnant women who are at greater risk for this serious condition. Child Health Research on child health explores basic biological processes that control healthy or atypical development, translational

research from the bench to the bedside, behavioral and social science research, and clinical studies in pediatric pharmacology, infectious diseases, nutrition, endocrinology, trauma and critical illness, and other aspects of pediatric medicine. NICHD's basic research portfolio on developmental biology has led to a better understanding of normal embryonic development, as well as mechanisms that underlie causes of structural and functional birth defects. For example, 22q11.2 deletion syndrome is a rare disorder that occurs when a small portion of chromosome 22 is missing. Individuals with 22q11.2 deletion syndrome may experience a variety of symptoms, including intellectual disability, psychiatric disorders, and defects in the kidney and urinary tract systems. Scientists studied the genetic makeup of over 2,000 patients with kidney and urinary tract anomalies, compared to over 22,000 control subjects. The researchers found a particular gene that was missing. The researchers then used zebrafish and mouse models to show how this gene plays an important role in urinary tract development, pinpointing dysfunctional processes and ultimately paving the way for new treatments that may benefit both patients with 22q11.2 syndrome and other kidney conditions. NICHD supports and conducts domestic and international research related to the epidemiology, diagnosis, clinical manifestations, pathogenesis, transmission, treatment, and prevention of HIV infection, its complications, and other significant infectious diseases in infants, children, adolescents, and pregnant and non-pregnant women. Based on NICHD's initial work, current treatment regimens have all but eliminated HIV transmission from women to their offspring in the United States. However, children and youth who are infected must still take medications daily to control the virus. Many in this group have now reached adolescence or young adulthood and are transitioning into adult care. Researchers studied over 1,400 youth at different ages (7-12 years old, 13-17 years old, and 18-30 years old) who were infected with HIV at birth, measuring the participants' immune systems and amount of virus in their bodies. Over the following five-year period, the participants' immune systems declined, amount of viral load increased, and they became sicker. These findings suggest that healthcare providers need new ways to provide better, continuous care for these young people as they become young adults. Because children and infants differ physiologically from adults, medications developed and tested in adults often work differently in children. For example, health care providers often use combined antibiotics, such as piperacillin-tazobactam, to treat hospital-acquired severe infections in newborns. This combination is relatively safe in adults, but its effects on infants are unclear. Measuring the level of antibiotics in the blood provides information on exposure and clearance of the antibiotic from the baby. This is essential to determine the medications' relative safety. However, the small circulating blood volume in a baby makes measuring these levels difficult. Researchers examined data from over 700 infants who received piperacillin-tazobactam while hospitalized, used a mathematical model to simulate how the antibiotics were processed by the infants, and examined hospital medical records for adverse reactions. Their findings supported the safety of these antibiotics for infants. NICHD's child health program also supports research on child maltreatment and associated interventions. Child maltreatment may have lifelong effects, but removal from the abusive environment may also have negative effects. Researchers compared a home-visit program that videotaped parent-child interactions, reviewed the footage, and coached parents to become more sensitive to their child's social and emotional cues, with a telephone-based service and packets of information. Parents who received the video intervention scored higher on measures of engagement and sensitivity, compared to parents who received the telephone-based service. Foster care placements also were lower by more than double among parents who received the home-based intervention. Training and career development efforts are crucial for sustaining the child health research workforce. NICHD brings young scientists into pediatric research, including physician-scientists, behavioral and social science researchers, and basic scientists, through both individual and institutional training programs. In addition, loan repayment programs for pediatric research are an important mechanism for retaining clinical scientists in research careers. NICHD's efforts to support science training begin early in the career pipeline, including programs to enhance developmental biology research training for undergraduates. Former postdoctoral trainees from NICHD's pediatrics training programs are now researching ways to help children with learning disabilities, identify genetic causes of specific rare birth defects, and improve treatment for preterm babies. Intellectual and Developmental Disabilities Part of NICHD's legislative mandate is to encourage investigations of human development throughout the lifespan, with an emphasis on understanding intellectual and developmental disabilities (IDDs). The program on IDDs supports research and research training aimed at preventing and ameliorating

common and rare neuromuscular and neurodevelopmental disorders, such as Down syndrome, Fragile X syndrome, and Rett syndrome; inborn errors of metabolism; autism spectrum disorders; conditions currently or potentially detectable through newborn screening; and IDD that have no identified cause that are not associated with a specific syndrome. The Eunice Kennedy Shriver Intellectual and Developmental Disabilities Research Centers employ research technologies such as bioinformatics, biostatistics, genomics, proteomics, metabolomics, imaging, and behavioral testing to support a broad range of projects. The Centers for Collaborative Research in Fragile X, also known as the Fragile X Syndrome Research Centers, support research to improve the diagnosis and treatment of Fragile X syndrome (FXS) by stimulating multidisciplinary and multi-institutional research from the bench to the community. FXS is the most common inherited form of intellectual disability, occurring in about 1 in 4,000 males and 1 in 8,000 females. One Fragile X Center conducted a clinical trial of ganaxolone, a compound that has been used to reduce anxiety in animal models and to treat epilepsy and traumatic stress disorders in both adults and children. The researchers found that children with FXS who had a higher baseline anxiety or lower cognitive abilities showed improvements in attention, hyperactivity, and anxiety while taking ganaxolone, with no serious adverse effects. Autism spectrum disorder (ASD) is one of the more common IDDs, affecting as many as 1 in 68 children. NICHD supports a broad portfolio of research on ASD, encompassing research on genetic and other causes, especially including the interaction between genes and environmental exposures; comorbid conditions, including gastrointestinal dysfunction and mental illness; early screening and diagnosis; and developing effective interventions. An important component of NICHD's portfolio is the NIH Autism Centers of Excellence (ACE) Program, supported by NICHD along with National Institute on Deafness and Other Communication Disorders (NIDCD), NIEHS, National Institute of Mental Health (NIMH), and National Institute of Neurological Disorders and Stroke (NINDS). The ACE program is designed to build on discoveries from the last 10 years by supporting innovative, multi-disciplinary research that promises to yield interventions and services for people with ASD. For instance, siblings of children diagnosed with autism spectrum disorder have a higher risk of developing the disorder compared to those in the general population. Using MRI and a field of computer science called machine learning, ACE researchers have found that structural differences in the brains of 6 or 12-month old infants may help predict the development of autism spectrum disorder by two years of age among infants with a high familial risk. The IDD program emphasizes bringing resources, patients, and researchers together. DS-Connect is a research registry where people with Down syndrome (DS) and their families can connect with researchers and healthcare providers; express interest in participating in clinical studies on DS, including studies of new medications and other treatments; and take confidential health-related surveys aimed at understanding the health of people with DS across their lifespans. In searching for causes underlying IDDs, biomedical research has uncovered several diseases that could be related to a decrease in myelin in the brain. Vital to brain function, myelin is a substance that allows regions of the brain to communicate with each other. Angelman syndrome results in delays in development, speech impairment, problems with balance, and microcephaly, a condition in which a child's head is much smaller than expected. Analyzing brain structure with MRI in a mouse model of Angelman syndrome, researchers found that the overall volume of white matter was decreased, which can lead to microcephaly. A mouse model of tuberous sclerosis complex (TSC), which affects 1 in 6,000 newborns worldwide, showed that deleting the genes affecting TSC stops the development of oligodendrocytes, the cells that produce myelin in the brain. Comparing the postmortem brains of individuals who did or did not have DS, researchers found differences in over 1,400 genes; many genes that were less expressed in individuals with DS were involved in the development of oligodendrocytes and production of myelin. Demography and Behavior The program in demography and behavior includes NICHD's portfolio on behavioral and social influences on health. Results from an NICHD-supported study of youth aging out of foster care suggest that foster children's experiences vary significantly in the type and number of adverse events that happen to them early in life, and these variations could help predict different pathways for subsequent health, psychosocial, and other outcomes. Researchers found that youth who had large numbers of adverse events related to their parents or caregivers such as physical or sexual abuse, neglect, or mental illness of a caregiver had significantly higher rates of mental health treatment than children without these specific experiences. In contrast, children who had large numbers of adverse events related to emotional trauma from events in their

environment such as witnessing violence or experiencing a fire or natural disaster were more likely to report drug and alcohol abuse symptoms and criminal behavior. Both types of adverse events in childhood were associated with poorer outcomes in adulthood, but the trajectories differed depending on the types of events experienced in childhood. Health disparities research cuts across all NICHD's programs, and is a key component of many of the Institute's demographic and behavioral studies. A recent NICHD-supported study documented disparities in race and family income in the use of early intervention services among toddlers with developmental delays. The NICHDs Learning Disabilities Research Centers support research to identify genetic and neurobiological characteristics of children, adolescents, and adults with learning disabilities; develop and validate classification systems for learning disabilities; expand knowledge about ways to improve comprehension for individuals who struggle with reading; assess the impact of attention-deficit/hyperactivity disorder (ADHD) on reading; and investigate the relationship between executive function skills and learning. Complementing the Centers, the NICHDs Learning Disabilities Innovation Hubs focus on understudied research topics that address the causes, symptoms, and treatments of learning disabilities that impact reading, writing, and mathematical reasoning. Recently, NICHD-supported researchers compared the effects of ADHD treatment alone, intensive reading intervention alone, and a combined treatment for children with both ADHD and reading disability (RD). The results indicated that children with co-occurring ADHD and RD require disorder-specific treatments, and that combining treatments does not enhance their effectiveness. Rehabilitation Through the National Center for Medical Rehabilitation Research (NCMRR), NICHD fosters research and research training to enhance the health, productivity, independence, and quality of life of people with disabilities at all ages. This program supports a broad range of research, including efforts to understand the underlying biology of injury and disability, and the body's mechanisms of recovery and adaptation. Rehabilitation research investments are guided by the comprehensive five-year NIH Research Plan on Rehabilitation, developed in 2016. The plan was developed under the leadership of NCMRR in collaboration with stakeholders across NIH and other Federal agencies, as well as researchers and representatives of individuals with disabilities and practitioners. The plan identifies six priority areas: Rehabilitation across the lifespan, to ensure that interventions are designed and tested appropriately for example, including play-based rehabilitation approaches for young children and adaptive physical exercise programs for seniors; Family and community, to promote rehabilitation from hospital to home, with the full involvement of caregivers; Technology use and development, to take advantage of state of the art technology in fields including computational science, robotics, and prosthetics; Research design and methodology, to improve research approaches and study designs to help researchers generate consistent clinical data from individuals with a variety of underlying conditions; Translational science, to capitalize on advances in fundamental science and take advantage of better understanding of genomic and other cell-based, process-level contributors to plasticity and healing; Building research capacity and infrastructure, to develop the next generation of rehabilitation scientists and support interdisciplinary collaborations. NCMRR places a special emphasis on translational research to apply gains in fundamental science to creating real-world interventions that can help people with disabilities where they live and work. Two new technologies that assist in rehabilitation from disabilities, injuries or stroke now have Class II medical device clearance from the FDA. The first, an upper arm prosthetic interface, uses pattern-recognition technology to strengthen and improve the analysis of electric signals in remaining muscles after amputation; this gives an amputee greater control and movement of the prosthetic limb. The second, a Virtual Occupational Therapy Assistant software system, helps stroke survivors and others with neurological impairments with daily living tasks, such as cooking, cleaning or shopping, thus helping to reacquire these patients with once-routine activities. NCMRR takes a collaborative approach to rehabilitation science, working with other NIH ICs, Federal agencies, the business community, advocates, and other stakeholders. Recently, researchers supported by NCMRR and Centers of Disease Control and Prevention (CDC) used a large national database funded in part by other HHS agencies to assess whether children seeking mental health care after a mild Traumatic Brain Injury (mTBI) had previous mental health diagnoses, or whether the onset of the disorders was new. The scientists found that 27 percent of the total number of children in the study had a mental health diagnosis before their injury, and that an mTBI injury was associated with increased use of mental health services in all of the children, whether or not they had a previous diagnosis.

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of the significance of the proposed research; approach; innovation; investigators; and environment. The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the technological innovation of the proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the adequacy and suitability of the facilities and research environment; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget requested for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

OBJECTIVES:

To encourage biomedical, social, and behavioral research and research training directed toward greater understanding of the aging process and the diseases, special problems, and needs of people as they age. The National Institute on Aging has established programs to pursue these goals. The Division of Aging Biology emphasizes understanding the basic biological processes of aging. The Division of Geriatrics and Clinical Gerontology supports research to improve the abilities of health care practitioners to respond to the diseases and other clinical problems of older people. The Division of Behavioral and Social Research supports research that will lead to greater understanding of the social, cultural, economic and psychological factors that affect both the process of growing old and the place of older people in society. The Division of Neuroscience fosters research concerned with the age-related changes in the nervous system as well as the related sensory, perceptual, and cognitive processes associated with aging and has a special emphasis on Alzheimer's disease. Small Business Innovation Research (SBIR) program: To expand and improve the SBIR program; to increase private sector commercialization of innovations derived from Federal research and development; to increase small business participation in Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. Small Business Technology Transfer (STTR) program: To stimulate and foster scientific and technological innovation through cooperative research development carried out between small business concerns and research institutions; to foster technology transfer between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns

and women-owned small business concerns in technological innovation.

TYPES OF ASSISTANCE:

Project Grants, Project Grants (Capacity Building and Complaint Processing, Training)

USES AND USE RESTRICTIONS:

Research grants are intended to support the direct costs of a project in accordance with an approved budget, plus an appropriate amount for facilities and administrative costs. Grantees must agree to administer the grant in accordance with the regulations and policies governing the research grants program of the Public Health Service. National Research Service Awards (NRSA) (Individual) are made directly to approved applicants for research training in specified biomedical shortage areas. In addition, National Research Service Awards (Institutional) may be made to institutions to enable them to make NRSA's to individuals selected by them. Each individual who receives a postdoctoral NRSA is obligated, upon termination of the award, to comply with certain service and payback provisions. Regulations are published in the Code of Federal Regulations and 42 CFR, Part 66. SBIR Phase I grants (of approximately 6 months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. SBIR Phase II grants are for the continuation of the research initiated in Phase I and that are likely to result in commercial products or processes. Only Phase I awardees are eligible to apply for Phase II support. STTR Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential on Phase II application.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; U.S. Territories and possessions (includes institutions of higher education and hospitals); Non-Government - General; Individual/Family; Minority group; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Other private institutions/organizations; State; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Grants: Universities, colleges, medical, dental and nursing schools, schools of public health, laboratories, hospitals, State and local health departments, other public or private institutions (both for-profit and nonprofit), and individuals. National Research Service Award: Individual NRSA's may be made for postdoctoral training to applicants who hold a professional or scientific degree (M.D., Ph.D., D.D.S., D.O., D.V.M., Sc.D., D.Eng., or equivalent domestic or foreign degree) or for predoctoral training to applicants registered for doctoral research training. Institutional NRSA's may be made for both predoctoral and postdoctoral research training. Predoctoral awardees must have a baccalaureate degree. Applicants must be citizens of the United States or admitted for permanent residency. Individual NRSA awardees must be nominated and sponsored by a public or private nonprofit institution having staff and facilities suitable to the proposed research training. Nonprofit domestic organizations may apply for the Institutional NRSA. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. or its possessions. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application other than a fellowship must be assessed

for scientific merit by a scientific review group and receive approval from a national advisory council. Individual funding opportunity announcements published in the NIH Guide provide more detail on eligibility.

Beneficiary Eligibility:

U.S. Territories; Small business; Profit organization; Private nonprofit institution/organization; Other private institution/organization; Native American Organizations; Student/Trainee; Graduate Student; Scientist/Researchers; State; U.S. Citizen; Local; Public nonprofit institution/organization; Other public institution/organization; Federally Recognized Indian Tribal Governments; Any nonprofit or for-profit organization, company, or institution engaged in biomedical research. Students pursuing doctoral research training.

Credentials/Documentation:

The grants application process at NIA and NIH has now completed the transition to electronic submission. Details on registration can be found at:

<http://grants.nih.gov/grants/ElectronicReceipt/index.htm> 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Consultation from institute staff is available for all grant programs. Applicants are encouraged to visit the Internet Web sites of the 27 institutes and centers at the NIH to obtain contact information for program staff. Applicants for multi-project awards are strongly encouraged to consult program staff before applying. Applicants may obtain forms and instructions for application preparation and submission at the following Internet Web site: <http://grants.nih.gov/grants/forms.htm> When completed these applications should be submitted electronically. See:

<http://grants.nih.gov/grants/ElectronicReceipt/index.htm>. Applications are reviewed for scientific merit, evaluation of applicant qualifications, adequacy of the research environment, and significance of the proposed problem to be studied. The application form and instructions for the preparation and submission of applications to the National Research Service Awards Research Training Grants and Fellowships (NRSA) Program, PHS Form 416-1, can be obtained from the following URL (<http://grants.nih.gov/grants/funding/416/phs416.htm>). Prior to making formal application to the NRSA programs, individual NRSA applicants must be nominated and sponsored by a Federal, public or nonprofit institution having staff and facilities appropriate to the proposed research training program. Information concerning current areas of science being supported by those institutes participating in the NRSA Program at the NIH is available on the individual institute Web sites. A complete list of institutes at NIH is available at: <http://www.nih.gov/icd>. In addition, information about each institute's NRSA research topics and information about the NRSA Program can be obtained from the Division of Extramural Outreach and Information Resources, (see address above). The NRSA program is subject to the provisions of 45 CFR Part 92 for State and local governments and OMB Circular No. A-110 for nonprofit organizations. The annual NIH Small Business Innovation Research (SBIR)-Small Business Technology Transfer (STTR) Omnibus Solicitation and SBIR-STTR Contract Solicitation may be obtained electronically by accessing the following URL: <http://grants1.nih.gov/grants/funding/sbir.htm>. The solicitations include application preparation and submission guidelines and instructions, information about review considerations, and Internet hyperlinks to the SBIR-STTR application and/or or contract proposal forms. Applications to NIH's SBIR-STTR Programs must be submitted electronically through the U.S. Federal Government's Internet Web site, Grants.gov: www.grants.gov. Submission of SBIR-STTR applications through Grants.gov requires pre-registration, which typically takes 2-4 weeks to complete. Information about registration to submit applications through Grants.gov can be found at: <http://era.nih.gov/ElectronicReceipt/preparing.htm>. Applicants are encouraged to read and refer to the extensive information on electronic submission of grant applications on the NIH Electronic Submission of Grants Applications Internet Web site at: <http://era.nih.gov/ElectronicReceipt>.

Award Procedure:

Grants and Institutional NRSA's: Each application receives an initial scientific review by non-NIH scientists and a secondary review by the National Advisory Council on Aging. Individual NRSA's do not receive a secondary review by the National Advisory Council on Aging. Awards are issued by the NIA to the grantee

institution. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Not Applicable. Grants: From 6 to 9 months. National Research Service Awards: From 6 to 9 months. SBIR/STTR: About 7-1/2 months.

Appeals:

From 30 to 60 days. A principal investigator may question the substantive or procedural aspects of the review of his/her application by communicating with the staff of the Institute. A formal appeal requires the signature of the appropriate institutional official.

Renewals:

>180 Days. Grants: Renewal applications are accepted for most programs. Most individual NIH postdoctoral fellowship support is for no more than 3 years. Most individual predoctoral support is for no more than five years.

Exploratory/developmental grant awards and Small Grant awards may not be renewed.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Grant Awards are usually made annually and usually with project periods not to exceed 5 years in length. National Research Service Awards: Institutional awards may be made for up to 5 years, and individual awards may be made for as many as 3 years. SBIR: Normally, Phase I awards are for 6 months; normally, Phase II awards are for 2 years. STTR: Normally, Phase I awards are for 1 year; normally, Phase II awards are for 2 years. Method of awarding/releasing assistance: lump sum.

Reports:

Grants: Annual progress reports and reports of expenditures are required. National Research Service Awards: Institutional awards require that a statement of appointment for each trainee selected by the Program Director be submitted to the NIA for each year of training. Reports are required after termination of the awards to ascertain compliance with the service and payback provisions for each institutionally selected trainee. Individual awards require reports upon award expiration to determine compliance with the service and payback provisions.

Individual awards require reports upon award expiration to determine compliance with the service and payback provisions.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). In accordance with 45 Code of Federal Regulations, Part 74.26, for-profit (commercial) organizations are subject to audit requirements for a non-Federal audit if, during its fiscal year, it expended \$500,000 or more under HHS awards and at least one award is a HHS grant or subgrant. The regulation incorporates the thresholds and deadlines of OMB Circular No. A-133, but provides for profit organizations with two options for the type of audit that will satisfy the audit requirement: 1. a financial related audit of the HHS awards in accordance with

ASSISTANCE LISTINGS DESCRIPTIONS

Government Auditing Standards, or 2. an audit that meets the requirements of OMB Circular No. A-133. In accordance with NIH grants policy, Foreign grantees are subject to the same audit requirements as for-profit (commercial) organizations.

Records:

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 74.53 and 92.42 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 74.48 and 92.36 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 74.53(e), the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipient's personnel records for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

CRITERIA FOR SELECTING PROPOSALS:

The major elements in evaluating proposals include assessments of: the scientific merit and general significance of the proposed study and its objectives; the technical adequacy of the experimental design and approach; the competency of the proposed investigator or group to successfully pursue the project; the adequacy of the available and proposed facilities and resources; the necessity of the budget components requested in relation to the proposed project; and the relevance and importance to announced program objectives. The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the technological innovation of the proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the adequacy and suitability of the facilities and research; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget requested for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

93.867 Vision Research

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF
AUTHORIZATION:

Public Health Service Act, as amended, Title III, Part A, Section 301; Health Research Extension Act of 1985, Public Law 99-158, 42 U.S.C. 241; Title IV, Part B, Section 405; 42 U.S.C. 284; Part C, Section 455; 42 U.S.C. 285i; Health Omnibus Programs Extension Act of 1988, Section 487(d); Public Law 100-607, 42 U.S.C. 288(d); Small Business Research and Development Enhancement Act of 1992, Public Law 102-564.

OBJECTIVES:

To support eye and vision research projects that address the leading causes of blindness and impaired vision in the U.S. These include retinal diseases; corneal diseases; cataract; glaucoma and optic neuropathies; strabismus; amblyopia; and low vision and blindness rehabilitation. To increase understanding of the normal development and function of the visual system in order to better prevent, diagnose, and treat sight-threatening conditions; and, to enhance the rehabilitation, training, and quality of life of individuals who are partially-sighted or blind. To support a broad program of basic vision research through grants and cooperative agreements; to encourage high quality clinical research, including clinical trials, other epidemiological studies, and health services research; to encourage research training and career development in the sciences related to vision; and to sponsor scientific workshops in high priority research areas to encourage exchange of information among scientists. Small Business Innovation Research (SBIR) program: To increase private sector commercialization of innovations derived from Federal research and development; to encourage small business participation in Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. Small Business

ASSISTANCE LISTINGS DESCRIPTIONS

Technology Transfer (STTR) program: To stimulate and foster scientific and technological innovation through cooperative research development carried out between small business concerns and research institutions; to foster technology transfer between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Research grants and cooperative agreements provide funds for salaries, consultant costs, equipment, supplies, travel, patient costs, alterations and renovations, other expenses, and consortium/contractual costs. The scientists and institutions are under an obligation to expend grant funds prudently for the purposes as stated in the application and award document. The Conference Cooperative Agreement supports scientific meetings and workshops in high priority research areas to encourage exchange of information among scientists. The Center Core Grant is intended to enhance an institution's environment and capability to conduct vision research, to facilitate collaborative studies of the visual system and its disorders, and to attract scientists of diverse disciplines to research on the visual system. Career Development Awards include the Mentored Clinical Scientist Development Award, Mentored Patient-Oriented Research Career Development Award, Institutional Clinical Scientist Development Program, and the NIH Pathway to Independence Award. The Clinical Study Planning Grant is designed to support the development of an applied clinical research plan. NEI Research Grants for Secondary Data Analysis provide limited support for meritorious research projects that involve secondary analysis of research data generated from clinical trials, population research and other applied clinical vision research projects supported by the Institute. Bioengineering Research Grants (BRG) support basic bioengineering research whose outcomes are likely to advance health or health-related vision research. BRGs may propose to apply basic bioengineering design-directed or hypothesis-driven research to an important vision research area. Bioengineering Research Partnership grants support multidisciplinary research teams applying an integrative, systems approach to develop knowledge and/or methods to prevent, detect, diagnose, or treat diseases of the eye and visual system. NEI Translational Research Program on Therapy for Visual Disorders grants provide support to collaborative, multidisciplinary research focused on the development of novel therapies to restore or prevent the loss of function due to visual diseases and disorders. Small Business Innovation Research Phase I grants are awarded to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for research, usually initiated in Phase I, that is likely to result in commercial products or processes. Small Business Technology Transfer Research, Phase I grants are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research usually initiated in Phase I and scientific and technical merit and commercial potential on Phase II application. National Research Service Awards (NRSA), both individual and institutional, support training in vision research. Some individuals who receive an NRSA may be obligated upon termination of the award to comply with certain service and payback provisions. The NIH Extramural Loan Repayment Programs provides payback of a portion of eligible student loan debt of qualified health professionals who agree to conduct clinical research.

Applicant Eligibility:

Government - General; Federal; Interstate; Intrastate; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Sponsored organization; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; U.S. Territories and possessions (includes institutions of higher education and hospitals); Non-Government - General; Individual/Family; Minority group; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Other private

institutions/organizations; State; Anyone/general public; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Public/State-controlled institutions of higher education, private institutions of higher education, Hispanic-serving institutions, Historically Black Colleges and Universities, tribally-controlled colleges and universities, Alaska Native- and Native Hawaiian-serving Institutions, nonprofits with or without 501(c)(3) IRS status, Small Businesses, for-profit organizations, federal institutions, and State and local units of government are eligible to make application for research grants, cooperative agreements, and career development awards. Foreign institutions may apply for research grants and cooperative agreements only. The grantee institution must agree to administer the grant in accordance with prevailing regulations and policies. Candidates for the Mentored Clinical Scientist Development and Mentored-Patient Oriented Research Career Awards are restricted to those holding health professional degrees in the clinical sciences (M.D., O.D., D.D.S., D.V.M., or equivalent). Individual and institutional NRSA are provided for predoctoral and postdoctoral research training. Individual postdoctoral NRSA may be made for applicants who hold a professional or scientific degree (M.D., Ph.D., O.D., D.D.S., D.V.M., Sc.D., D.Eng., or equivalent degree). Predoctoral awardees must have completed the baccalaureate degree. All awardees must be citizens of the United States, or have been admitted to the U.S. for permanent residence prior to award. Individual NRSA awardees must be nominated and sponsored by a Federal, public or private nonprofit institution having staff and facilities suitable to the proposed research training. Federal and for-profit organizations, and State and local governments may not apply for an institutional NRSA. Refer to the NIH Program Guidelines on NRSA for further information. The Small Business Innovation grants: SBIRs can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have not more than 500 employees). Primary employment (more than one-half time) of the Principal Investigator must be with the small business at the time of the award and during the conduct of the proposed project. The research during both Phase I and Phase II must be performed in the U.S. or its possessions. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. Individuals applying for the NIH Loan Repayment Programs must be engaged in patient oriented research and be trained in a medical subspecialty as defined under Section 206 of Public Law 106-505. These individuals must be U.S. citizens, U.S. citizen nationals, or lawfully admitted for permanent residence in the U.S.; have a student loan debt which equals or exceeds 20 percent of their university compensation; have no Federal judgment lien against their property arising from a Federal debt; and owe no obligation of health professional service to the Federal government, a State, or other entity unless deferrals are granted during the length of their Loan Repayment Program service obligation.

Beneficiary Eligibility:

Federal; Small business; Profit organization; Private nonprofit institution/organization; Student/Trainee; Scientist/Researchers; State; U.S. Citizen; Local; Public nonprofit institution/organization; Any nonprofit or for-profit organization, company, or institution engaged in biomedical research.

Credentials/Documentation:

(1) Research grants and cooperative agreements: Applications for research involving the use of human subjects must include documentation that all key personnel have received training in human subject protection. Applicants may provide additional documentation to establish the scientific and technical merit and the programmatic relevance of the application. (2) Individual NRSA applications: The applicant's academic record, research experience, institutional sponsorship, and the proposed area and plan of training must be included. (3) Institutional NRSA application: The applicant institution must discuss the objectives, methodology and resources for the research training program; the qualifications and experience of staff; the criteria to be used in selecting individuals for an appointment; and a budget and justification for the grant funds requested. Costs will be determined in accordance with the appropriate OMB Circular or with HHS Regulations 45 CFR, Part 75. (4) For SBIR and STTR grants, the small business

concern must present a research plan that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. Loan Repayment Program applicants must provide certification of loan status, loan data verification, and an institutional supporting statement. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. Applicants for core grants, clinical study planning grants, cooperative agreements, small research grants for data analyses, and bioengineering research partnerships should seek preapplication coordination through contact with the National Eye Institute staff. All staff may be contacted at (301) 451-2020. Applicants for planning to submit a research project grant application requesting \$500,000 or more in direct costs for any year are required to discuss their eligibility with the NEI staff, at (301) 451-2020.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Standard application forms, as required by 45 CFR 75 and 92, must be used for this program. Information regarding the application process, access to forms, and information regarding the <http://www.Grants.Gov> site are available on the NEI web site at <http://www.nei.nih.gov>. Prior to making formal application to the NRSA programs, individual NRSA applicants must be nominated and sponsored by a federal, public, or nonprofit institution having staff and facilities appropriate to the proposed research program. NEI specific instructions for preparing applications for Core Grants, Clinical Study Planning Grants, the NEI Translational Program on Therapy for Visual Disorders, and Cooperative Clinical Research Agreements are specified in the Funding Opportunity Announcements, links to which are available at <http://www.nei.nih.gov>. SBIR and STTR Grant Solicitations and SBIR Contract Solicitation may be obtained electronically through the NIH's "Small Business Funding Opportunities" home page at <http://www.nih.gov/grants/funding/sbir.htm>.

Award Procedure:

Applications are reviewed initially for scientific and technical merit. A second level review of the programmatic relevance of applications is provided by the National Advisory Eye Council. Final approval is made by the Director, National Eye Institute. Formal award notices are transmitted to the appropriate institutional official.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Approximately nine months for Research Grants, Individual Career Development Awards, Clinical Study Planning Grants, cooperative clinical studies or conferences, Core Grants, and NRSA Institutional applications; from six to seven months for NRSA individual applications; and for SBIR, about eight months.

Appeals:

Other. A principal investigator may communicate to the staff of the National Eye Institute any concerns regarding the substantive or procedural aspects of the review of an application.

Renewals:

Other. Renewals of research grant or cooperative agreement support are by competitive application and review. Individual Career Development Awards, Clinical Study Planning Grants, NEI Translational Research Program on Therapy for Visual Disorders, and NEI Research Grants for Secondary Data Analysis are non-renewable.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Up to five years for research grants and cooperative agreements, Career Development Awards, Core Grants, individual predoctoral NRSA's, and institutional NRSA's. Up to three years for Academic Research Enhancement Awards and NRSA individual postdoctoral awards. Clinical Study Planning

Grants: one year. SBIR: Normally, Phase I awards are for six months; normally, Phase II awards are for two years. CRITERIA FOR SELECTING PROPOSALS:

The major elements in the initial scientific and technical review of most applications include an assessment of significance, approach, innovation, investigator training and experience, and the scientific environment. In addition to these criteria, in accordance with NIH policy, all applications will also be reviewed with respect to the following: the adequacy of plans to include both genders, minorities, and their subgroups as appropriate for the scientific goals of the research; the reasonableness of the proposed budget and duration in relation to the proposed research; and, the adequacy of the proposed protection for humans, animals or the environment, to the extent they may be adversely affected by the project proposed in the application. A second level review of the programmatic relevance of most applications is provided by the National Advisory Eye Council. The following criteria will be used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the technological innovation of the proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the environment; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications will be reviewed based upon the following criteria: (1) The degree to which the Phase I objectives were met and feasibility demonstrated; (2) the scientific and technical merit of the proposed approach for achieving the Phase II objectives; (3) the qualifications of the proposed principal investigator, supporting staff, and consultants; (4) the technological innovation, originality, or societal importance of the proposed research; (5) the potential of the proposed research for commercial application; (6) the reasonableness of the budget requested for the work proposed; (7) the adequacy and suitability of the facilities and research environment; and (8) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment.

93.870 Maternal, Infant and Early Childhood Home Visiting Grant Program

MIECHV Program,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Social Security Act, Title V, 511(c) (42 U.S.C. 711(c)), as amended by the Bipartisan Budget Act of 2018 (P.L. 115-123), Title VI, Subtitle A.

OBJECTIVES:

The goals of the Maternal, Infant, and Early Childhood Home Visiting Program (MIECHV Program) are to: (1) strengthen and improve the programs and activities carried out under Title V of the Social Security Act; (2) improve coordination of services for at-risk communities; and (3) identify and provide comprehensive services to improve outcomes for eligible families who reside in at-risk communities. The MIECHV Program was created to support voluntary, evidence-based home visiting services for at-risk pregnant women and parents with young children up to kindergarten entry. The MIECHV Program builds upon decades of scientific research that shows home visits conducted by a nurse, social worker, early childhood educator, or other trained professional during pregnancy and in the first years of a child's life improves the lives of children and families. Home visiting helps prevent child abuse and neglect, supports positive parenting, improves maternal and child health, and promotes child development and school

readiness. The investment provides coordinated and comprehensive high-quality voluntary, evidence-based home visiting services with a national reach. The MIECHV Program plays a crucial role in building high-quality, comprehensive statewide early childhood systems to support pregnant women, parents and caregivers, and children from birth to kindergarten entry and ultimately, to improve health and development outcomes.

TYPES OF ASSISTANCE:

Formula Grants, Project Grants

USES AND USE RESTRICTIONS:

Authorizing legislation reserves the majority of funding for the delivery of services through implementation of one or more evidence-based home visiting service delivery models that meet the HHS criteria of evidence of effectiveness with fidelity to the model selected. Per legislation, awardees (recipients) may expend no more than 25% of the grant awarded for a fiscal year for conducting and evaluating a program using a service delivery model that qualifies as a promising approach. Awardees must not submit an application with a budget request exceeding the awardee's specified total grant award ceiling. Awards to support projects will be contingent upon Congressional appropriation, satisfactory progress in meeting the projects objectives, and a determination that continued funding would be in the best interest of the Federal Government. No more than 10% of the award amount may be spent on expenditures related to administering the grant. Section 511(i)(2)(C) of the Social Security Act requires that section 504(d) (relating to a limitation on administrative expenditures) shall apply to a grant made under this section to the same extent and in the same manner as such provisions apply to allotments made under section 502(c). No more than 25% of the MIECHV grant award may be expended to support recipient-level infrastructure expenditures. Funds made available to awardees under this guidance must be used by recipients to support the delivery of home visiting services under the MIECHV program. Recipients may coordinate with and refer to direct medical, dental, mental health or legal services and providers covered by other sources of funding, for which non-MIECHV sources of funding may provide reimbursement. The MIECHV program generally does not fund the delivery or costs of direct medical, dental, mental health, or legal services; however, some limited direct services may be provided (typically by the home visitor) to the extent required in fidelity to an evidence-based model approved for use under the MIECHV Program. Section 511(j)(2)(B) also provides a 3 percent set-aside in funding for research and evaluation activities to be conducted under Section 511 (h)(3). In FY 2018, two cooperative agreement programs are funded under this authority, including the Home Visiting Research and Development Platform (HV R&D Platform) and the Home Visiting Collaborative Improvement and Innovation Network (HV CoIN). The HV R&D Platform supports a transdisciplinary research network for scientific collaboration and infrastructure building for innovative home visiting research. The HV CoIN facilitates the delivery and accelerates the improvement of home visiting and early childhood services provided by MIECHV Program recipients. Additionally, cooperative agreements are funded for innovation through the MIECHV Program. The purpose of this limited competition is to fund the development, implementation, and evaluation of innovations by awardees that strengthen and improve the delivery of MIECHV-funded coordinated and comprehensive high-quality voluntary early childhood home visiting services to eligible families. The Bipartisan Budget Act of 2018 provides authority for recipients to use a MIECHV grant for a pay for outcomes initiative. Pending future guidance from HRSA, awardees will be able to use up to 25 percent of the grant for outcomes or success payments related to a pay for outcomes initiative that will not result in a reduction of funding for home visiting services. Funds made available for this specific purpose will be available for expenditure for not more than 10 years after the funds are made available.

Applicant Eligibility:

U.S. Territories and possessions (includes institutions of higher education and hospitals); State; Eligible entities include those currently funded under the MIECHV Program: 47 states, 3 nonprofit organizations serving Florida, North Dakota, and Wyoming, and 6 territories and jurisdictions serving District of Columbia, Puerto Rico, Guam, the U.S. Virgin Islands, the Commonwealth of the Northern Mariana Islands, and American Samoa. For those states that have elected not to participate in MIECHV, nonprofit organizations with an established record of providing early childhood home visiting programs or initiatives in a state or several states are eligible to apply to carry out programs in those states.

Beneficiary Eligibility:

ASSISTANCE LISTINGS DESCRIPTIONS

Public nonprofit institution/organization; As directed in statute, awardees must give priority in providing services under the MIECHV program to the following: Eligible families who reside in communities in need of such services, as identified in the statewide needs assessment required under subsection 511(b)(1)(A); Low-income eligible families; Eligible families with pregnant women who have not attained age 21; Eligible families that have a history of child abuse or neglect or have had interactions with child welfare services; Eligible families that have a history of substance abuse or need substance abuse treatment; Eligible families that have users of tobacco products in the home; Eligible families that are or have children with low student achievement; Eligible families with children with developmental delays or disabilities; and Eligible families that include individuals who are serving or formerly served in the Armed Forces, including such families that have members of the Armed Forces who have had multiple deployments outside of the United States.

Credentials/Documentation:

Applicants should review the individual HRSA funding opportunity guidance issued under this CFDA program for any required proof or certifications of education and/or training which must be submitted prior to or simultaneous with submission of an application package. Formula and Matching Requirements:

Statutory Formula: Title , Chapter , Part , Subpart ,Public Law .Matching requirements are not applicable to this assistance listing. This program has MOE requirements, see funding agency for further details. Additional Information: This program has maintenance of effort (MOE) requirements. Per Social Security Act, Title V, 511(f), awardees must supplement, and not supplant, funds from other sources for early childhood home visitation programs or initiatives. Awardees may demonstrate compliance by maintaining non-federal funding (state general funds) for evidence-based home visiting and home visiting initiatives, expended for activities proposed in application submissions, at a level which is not less than expenditures for such activities as of the most recently completed state fiscal year. Nonprofit awardees must agree to take all steps reasonably available for this purpose and should provide appropriate documentation from the state supporting its accomplishment of the maintenance of effort/non-supplantation requirement.

The baseline for maintenance of effort is the state fiscal year prior to the fiscal year during which an application is submitted. For purposes of maintenance of effort/non-supplantation in the MIECHV Program, home visiting is defined as an evidence-based program implemented in response to findings from the most current statewide needs assessment that includes home visiting as a primary service delivery strategy, and is offered on a voluntary basis to pregnant women or caregivers of children birth to kindergarten entry. Awardees may NOT consider any Title V funding used for evidence-based home visiting as part of the maintenance of effort demonstration..

Length and Time Phasing of Assistance:

Funds awarded to a recipient for a federal fiscal year shall remain available for expenditure by the recipient through the end of the second succeeding federal fiscal year after award. Grant funds that have not been obligated for expenditure by the recipient during the period of availability for use by the recipient will be de-obligated. FY 2018 funds must be obligated prior to September 30, 2020, and liquidated by December 31, 2020. See the following for information on how assistance is awarded/released: Applicant organizations must obtain a valid DUNS number and provide that number in their application. Each applicant must also register with the System for Award Management (SAM) and continue to maintain active SAM registration with current information at all times during which it has an active federal award or an application or plan under consideration by an agency (unless the applicant is an individual or federal agency that is exempted from those requirements under 2 CFR 25.110(b) or (c), or has an exception approved by the agency under 2 CFR 25.110(d)).HRSA may not make an award to an applicant until the applicant has complied with all applicable DUNS and SAM requirements and, if an applicant has not fully complied with the requirements by the time HRSA is ready to make an award, HRSA may determine that the applicant is not qualified to receive an award and use that determination as the basis for making an award to another applicant. The Grants.gov registration process requires information in three separate systems: Dun and Bradstreet (<http://fedgov.dnb.com/webform/pages/CCRSearch.jsp>) System for Award Management (SAM) (<https://www.sam.gov>) Grants.gov (<http://www.grants.gov/>). AUTHORIZATION:

Section 511(h)(2)(A) of Title V of the Social Security Act, as added by Section 2951 of the Patient Protection and Affordable Care Act (Affordable Care Act) (Pub. L. No. 111-148), as amended by the Bipartisan Budget Act of 2018 (Pub. L. 115-123). The authorities for the Tribal Research Center for Early Childhood (TRCEC) are: (1) Maternal, Infant, and Early Childhood Home Visiting (MIECHV) as Section 511(h)(2)(A) of Title V of the Social Security Act, as added by Section 2951 of the Patient Protection and Affordable Care Act (Affordable Care Act) (Pub. L. No. 111-148), as amended by the Bipartisan Budget Act of 2018 (Pub. L. 115-123); (2) section 648 of the Head Start Act, as amended by the Improving Head Start for School Readiness Act of 2007 (42 U.S.C. 9843), and section 649 (42 U.S.C. 9844); and (3) Child Care and Development Block Grant (CCDBG) Implementation Research and Evaluation Planning Grant program as authorized by section 6580(a)(5) of the Child Care and Development Block Grant Act, as amended by Pub. L. No. 113-186, codified at 42 U.S.C. 9858m(a)(5).

OBJECTIVES:

The Tribal Maternal, Infant, and Early Childhood Home Visiting Program (Tribal MIECHV) is administered by The Administration for Children and Families (ACF) Office of Early Childhood Development (ECD) and Office of Child Care (OCC), in collaboration with the Health Resources and Services Administration (HRSA). Assistance is available to eligible Tribes (or consortia of Tribes), Tribal Organizations, and Urban Indian Organizations, to strengthen and improve maternal and child health programs, improve service coordination for at-risk communities, and identify and provide comprehensive evidence-based home visiting services to families who reside in at-risk communities. The goals of the Tribal MIECHV program are to: support the development of happy, healthy, and successful American Indian and Alaska Native (AIAN) children and families through a coordinated home visiting strategy that addresses critical maternal and child health, development, early learning, family support, and child abuse and neglect prevention needs; implement high-quality, culturally-relevant, evidence-based home visiting programs in AIAN communities; expand the evidence base around home visiting interventions with Native populations; and support and strengthen cooperation and coordination and promote linkages among various early childhood programs, resulting in coordinated, comprehensive early childhood systems. The ACF, Office of Planning, Research and Evaluation (OPRE), is administering the TRCEC, which will provide leadership and support to promote excellence in community-based participatory research and evaluation of ACF early childhood initiatives that serve Tribal communities. Settings to be considered include home visiting programs, early care and education center-based programs, home-based and family child care providers, and Head Start and Early Head Start programs. The TRCEC is expected to: (1) conduct research to identify needs and/or develop effective practices and integrated systems for ACF early childhood initiatives in tribal communities; (2) identify, validate, and/or develop measures of culturally meaningful inputs, implementation processes, and proximal and distal outcomes of those programs; (3) establish peer-learning communities for tribal research on areas of shared priority; (4) provide training and professional development to facilitate interest and competencies in research relevant to early childhood initiatives in tribal communities; and (5) provide forums to increase cultural competence and sensitivity to tribal voices in research and evaluation. It is expected that the TRCEC will coordinate with any other entities receiving Maternal, Infant and Early Childhood Home Visiting (MIECHV), Office of Head Start (OHS), and Office of Child Care (OCC) funding for related research and evaluation activities.

TYPES OF ASSISTANCE:

home visiting services to pregnant women and families with young children aged birth to kindergarten entry; establishing, measuring, and reporting on progress toward meeting performance measures in six legislatively-mandated benchmark areas; and conducting or participating in rigorous evaluation activities. Consistent with statutory authority, Home Visiting funds for the TRCEC will be used to: (a) Identify and consult with researchers and tribal community leaders, and consult with federal/national partners (including ACF and HRSA) who have been involved in conducting research and evaluation on home visiting in tribal communities; (b) Establish a national network of partnerships that provide a peer learning environment among tribes, researchers, and practitioners (e.g., program directors, teachers, home visiting staff) on issues related to the research and evaluation of MIECHV programs in tribal communities. This includes initiation, facilitation, and sustainment of activities that link partnerships and promote peer learning; (c) Identify, validate, and/or develop measures of culturally meaningful proximal and distal outcomes of Tribal MIECHV (e.g., measures related to native language development; measures of child well-being; parent/provider interaction and family relationships; measures of implementation in tribal contexts; measures of collaboration and systems building in tribal contexts; measures of parenting stress and trauma; measures of organizational/systems functioning in tribal contexts); (d) Provide training or career development opportunities for early career scientists with interdisciplinary expertise relevant to Tribal MIECHV, as well as for Tribal MIECHV staff who want to increase their understanding of and experience with research; and (e) Provide forums to increase cultural competence and sensitivity to tribal voices in research and evaluation of Tribal MIECHV.

Applicant Eligibility:

Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Specifically: Only Tribes (or a consortium of Indian Tribes), Tribal Organizations, or Urban Indian Organizations, as defined by Section 4 of the Indian Health Care Improvement Act, Public Law 94-437, are eligible applicants for the Tribal MIECHV Grant Program. Only Tribes (or a consortium of Indian Tribes), Tribal Organizations, or Urban Indian Organizations, as defined by Section 4 of the Indian Health Care Improvement Act, Public Law 94-437, are eligible applicants for the Tribal MIECHV Grant Program. For the TRCEC, eligibility is open to public and private entities that include state, city, and local governments; public, private, and state-controlled institutions of higher education; private, non-profit organizations with, and without, 501(c)(3) IRS tax status; Native American tribal governments (federally recognized) and Native American tribal organizations; and for-profit organizations that are not sole proprietorship's.

Beneficiary Eligibility:

American Indian; Infant (0-5); Child (6-15); Low Income; Other Urban; Suburban; Rural; Eligible families in at-risk AIAN communities include pregnant women, expectant fathers, parents, and primary caregivers of children aged birth through kindergarten entry, including grandparents or other relatives of the child, foster parents who are serving as the child's primary caregiver, and non-custodial parents who have an ongoing relationship with, and at times provide physical care for, the child. Specifically: Eligible families residing in at-risk American Indian/Alaskan Native communities in need of such services, as identified in a needs assessment; Low-income eligible families; Eligible families who are pregnant women under age 21; Eligible families with a history of child abuse or neglect or have had interactions with child welfare services; Eligible families with a history of substance abuse or need substance abuse treatment; Eligible families that have users of tobacco products in the home; Eligible families that are or have children with low student achievement; Eligible families with children with developmental delays or disabilities; and Eligible families who, or that include individuals serving or formerly serving in the Armed Forces, including those with members who have had multiple deployments outside the US. Eligible family: A woman who is pregnant, and the father of the child if available, or A parent or primary caregiver of the child, including grandparents or other relatives and foster parents serving as the child's primary caregiver from birth until kindergarten entry, including a noncustodial parent with an ongoing relationship with, and at times provides physical care for the child.

Credentials/Documentation:

Applicants should review the individual ACF funding opportunity announcement issued under this CFDA program for any required proof or certifications of education and/or training which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Each application will be screened to determine whether it was received by the closing date and time and whether the requested amount exceeds the award ceiling. Applications that are designated as late or those with requests that exceed the award ceiling will be returned to the applicant with a notation that they were deemed non-responsive and will not be reviewed. Applications competing for financial assistance will be reviewed and evaluated by objective review panels using the criteria described in the funding opportunity announcement. Each panel is made up of experts with knowledge and experience in the area under review. Generally, review panels are composed of three reviewers and one chairperson. Results of the competitive objective review are taken into consideration by ACF in the selection of projects for funding; however, objective review scores and rankings are not binding. They are one element in the decision-making process. Applications recommended for approval that were not funded under the competition because of the lack of available funds, may be held over by ACF and re-considered in a subsequent review cycle if a future competition under the program area is planned. These applications will be held over for a period of up to one year and will be re-competed for funding with all other competing applications in the next available review cycle. For those applications that have been deemed as approved but unfunded, notice will be given of such determination. Announcement of awards and the disposition of applications will be provided to applicants at a later date.

Award Procedure:

Results of the competitive objective review are taken into consideration by ACF in the selection of projects for funding; however, objective review scores and rankings are not binding and are one element of the decision-making process. ACF may elect to not fund applicants with management or financial problems that would indicate an inability to successfully complete the proposed project. Applications may be funded in whole or in part. Successful applicants may be funded at an amount lower than that requested. ACF reserves the right to consider a preference to fund organizations serving emerging, unserved, or under-served populations, including those located in pockets of poverty, and to consider the geographic distribution of Federal funds in its funding decisions. ACF may refuse funding for projects with what it regards as unreasonably high start-up costs for facilities or equipment, or for projects with unreasonably high operating costs. In addition, federal staff will conduct an administrative review of the applications and the results of the competitive review and will make recommendations for funding to the Director, Office of Child Care (OCC). No grant award will be made under this announcement on the basis of an incomplete application. The project period for the TRCEC will be 4 years. The initial award will be for the first 12-month budget period. Budget requests for a second through fourth year of funding within the project period should be identified in the current application (on SF-424A), and such requests will be considered in subsequent years on a noncompetitive basis. Noncompetitive continuation awards are subject to the applicant's eligibility status, the availability of funds, satisfactory progress of the grantee, and a determination that continued funding would be in the best interest of the Federal Government. The Federal share of project costs shall not exceed \$650,000 for any of the 12-month budget periods, inclusive of indirect costs. The successful grantee will be required to track the federal funds, and their associated activities, separately so that they can accounted for, on an ongoing basis, and attributed to either the Tribal MIECHV, Head Start, and Child Care portions of the project. Consistent with statutory authority: Tribal MIECHV funds (\$250,000) will be devoted to (a) activities to promote excellence in research and evaluation of MIECHV programs in tribal communities and (b) measurement development activities that will expand the evidence base around home visiting programs for AIAN populations. Head

ASSISTANCE LISTINGS DESCRIPTIONS

Start funds (\$250,000) will be devoted to research and evaluation activities to (a) foster continuous improvement in the quality of the Head Start programs and in their effectiveness in enabling participating AIAN children and their families to succeed in school and otherwise, and (b) develop, test, and disseminate new ideas based on existing scientifically valid research for addressing the needs of AIAN children and their families and communities. Child Care funds (\$150,000) will be devoted to research and evaluation activities to (a) advance the provision of resources to low-income families to find quality child care for their children, and (b) enhance the quality and supply of child care for all families including those who receive no direct assistance under the CCDF.

Tribal MIECHV grants (cooperative agreements) are generally awarded for a 5-year project period. In the first year of the project, grants will be awarded on a competitive basis. Pending successful completion of Year 1 activities, submission of a plan that meets requirements, and approval of this plan, applications will be considered on a noncompetitive continuation basis for Years 2-5 subject to availability of funds, satisfactory progress of the grantee, and a determination that continued funding would be in the best interest of the Federal Government. Grants will be awarded for 12-month budget periods with a 5-year project period. The project period for the TRCEC will be 4 years. Funds awarded to grantees under this program will be made available for expenditure through the end of the second succeeding fiscal year after award. Method of awarding/releasing assistance: other

Reports:

Grantees under this announcement will be required to submit performance progress and financial reports periodically throughout the project period. The frequency of required reporting is described in each funding opportunity announcement. Instructions on submission of reports electronically will be provided with award documents. Federal Financial Report (FFR) - Federal Cash Transaction Reports are required. Progress reports are not applicable. ACF grantees are required to submit the SF-PPR Cover Page. ACF Programs that utilize reporting forms or formats in addition to, or instead of, the SF-PPR have listed the reporting requirements. Grant award documents will inform grantees of the appropriate performance progress report form or format to use. Grantees should consult their award documents to determine the appropriate performance progress report format required under their award. Performance progress reports are due 30 days after the end of the reporting period. Final program performance reports are due 90 days after the close of the project period. The SF-PPR may be found at <https://www.acf.hhs.gov/grants>. Further instructions will be provided, as necessary, with award terms and conditions that will address specific reporting periods and due dates on an award-by-award basis. Additional information on frequency of reporting is available on the ACF Funding Opportunities web site at <https://www.acf.hhs.gov/grants>. All expenditure reports will be due on one of the standard due dates by which cash reporting is required to be submitted to PMS OR at the end of a calendar quarter as determined by the Operating Division. As a result, a recipient that receives awards from more than one OPDIV may be subject to more than one approach, but will not be required to change its current means of submission or be subjected to more than eight standard due dates. All affected ACF grantees will be required to submit an SF-425 report as frequently as is required in the terms and conditions of their award using due dates for reports to PMS. Fillable versions of the SF-425 form in Adobe PDF and MS-Excel formats, along with instructions, are available at <https://www.acf.hhs.gov/grants>. 93.876 Antimicrobial Resistance Surveillance in Retail Food Specimens

NARMS Retail Food Surveillance,

FEDERAL AGENCY:

FOOD AND DRUG ADMINISTRATION, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Section 1702(a) [42 U.S.C. 300u-1(a)] and Section 1703(a) and (c) [42 U.S.C.

300u-2(a) and (c)] of the Public Health Service Act, as amended

OBJECTIVES:

The National Antimicrobial Resistance Monitoring System (NARMS) is a U.S. public health surveillance system that tracks antibiotic resistance in enteric bacteria from humans, retail meats, and food animals. When antimicrobial drugs are used in food-producing animals, they can enrich for populations of resistant strains that reach humans via the food supply. The chief goal of the NARMS retail food surveillance program is to improve the detection of and surveillance for antimicrobial resistance among enteric bacteria in raw retail food commodities, particularly fresh retail meat. The NARMS program is looking to collaborate with institutions or organizations to enhance and strengthen antibiotic resistance surveillance in retail food specimens. Partnering with the NARMS retail food surveillance program will enable the collection of critical data for FDA policy and regulatory actions including but not limited to pre-approval safety evaluation of new animal antibiotics, determining parameters for the antimicrobial use in veterinary medicine, and the ability to provide information to promote interventions to reduce resistance among foodborne bacteria. This collaboration will address NARMS programmatic needs to implement effective surveillance and response for antibiotic resistance as recommended in the National Strategy for Combating Antibiotic-Resistant Bacteria (CARB).

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The assistance can be applied to supplies, equipment, personnel, job training, and/or travel needed to conduct retail food surveillance activities as defined in the cooperative agreement and referenced in the NARMS retail food surveillance protocol. Assistance can be applied to improving the way antibiotic resistance surveillance samples are collected and processed, improve microbiological testing standards, improve quality assurance practices, improve collaboration and coordination of surveillance activities with the FDA, improve the exchange of relevant and complete surveillance data with the FDA, improve the use of data to inform program and policy development, improve data for education on current and emerging hazards, improve awareness of antimicrobial resistance among the public, improve the identification of foodborne illness outbreaks and coordinate outbreak investigations with the FDA, improve the way surveillance data are collected and analyzed, and for conducting ad hoc pilot studies as needed for consensus definitions.

Applicant Eligibility:

Government - General; Federal; Interstate; Intrastate; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; U.S. Territories and possessions (includes institutions of higher education and hospitals); Minority group; Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; State; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Applicants should review the individual funding opportunity announcement issued under this CFDA program to see which applicant organizations are eligible to apply.

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. To apply, access the announcement through www.grants.gov. Enter the CFDA# and follow the website instructions. Applications submitted after the deadlines will not be accepted for review. The submission deadline will not be extended. Applications which do not conform to the requirements of the grant announcement will not be accepted for review. Applications may only be submitted electronically via www.grants.gov. Any applications submitted via any other means of electronic communication, including facsimile or electronic mail, will not be accepted for review. Applicants should review the individual funding opportunity announcement issued under this CFDA program for specific application procedures.

Award Procedure:

Applications will be screened upon receipt. Those that are judged to be ineligible will not be reviewed. Accepted applications will be subject to objective review for technical merit. Applications will be evaluated by an objective review committee composed of experts. Final funding decisions will be determined by the NVPO Office Director; taken into consideration are the recommendations of the review committee; program needs, stated preferences; geographic location. All applicants are notified in writing of actions taken on their applications. A Notice of Award is issued for those applications that are approved and funded. Applicants should review the individual funding opportunity announcement issued under this CFDA program to see the specific award procedures that apply.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days.

Appeals:

Not Applicable.

Renewals:

Other. Renewals are permitted as indicated in the published funding opportunity announcement issued under this CFDA program. Renewal awards may be approved pending availability of funding and evidence of satisfactory progress and compliance.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

The length of support will depend on the nature of the projects, program relevance and the availability of funds. Awards are usually made for a 12-month period with recommendation of up to 4 years of additional support. Applicants should review the individual funding opportunity announcement issued under this CFDA program to see the specific available length and time that apply. Method of awarding/releasing assistance: other

Reports:

Program reports are required as stated in the Funding Opportunity Announcement and the Terms and Conditions of award. Bi-annual Progress Reports must be submitted each year. A Final Report will be due 90 days after the end of the project period. A revised work plan must be submitted each year to indicate any service and/or partnership revisions. Federal Financial Reporting (FFR) SF425 are required annually and must be submitted via eRA Commons. Final FFR will be due 90 days after the end of the project period. The FFR has a dedicated section to report Federal cash receipts and disbursements. For recipients this information must be submitted quarterly directly to the Payment Management System (PMS) using the web-based tool. Quarterly reports are due 30 days following the end of each calendar quarter. Performance monitoring is required as stated in the Funding Opportunity Announcement and the Terms and Conditions of Award. A final

performance report is due 90 days following the end of the project period.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

HHS and the Comptroller General of the United States or any of their authorized representatives shall have the right of access to any books, documents, papers, or other records of a grantee, sub-grantee, contractor, or subcontractor, which are pertinent to the HHS grant, in order to make audits, examinations, excerpts and transcripts. In accordance with 45 CFR, Part 74.53 and 45 CFR, Part 92, grantees are required to maintain grant accounting records 3 years after the end of a project period. If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

93.877 Autism Collaboration, Accountability, Research, Education, and Support

Autism CARES,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

ASSISTANCE LISTINGS DESCRIPTIONS

Public Health Service Act - Section 399BB Programs under the Combating Autism Act of 2006 as amended by the Combating Autism Reauthorization Act of 2011 (P.L. 11232) and the Autism CARES Act of 2014 (P.L. 113157)

OBJECTIVES:

This Program supports activities to: provide information and education on autism spectrum disorder (ASD) and other developmental disabilities (DD) to increase public awareness; promote research into the development and validation of reliable screening tools and interventions for autism spectrum disorder and other developmental disabilities and disseminate information; promote early screening of individuals at higher risk for autism spectrum disorder and other developmental disabilities as early as practicable, given evidence-based screening techniques and interventions; increase the number of professionals who are able to confirm or rule out a diagnosis of autism spectrum disorder and other developmental disabilities; and increase the number of professionals able to provide evidence-based interventions for individuals diagnosed with autism spectrum disorder or other developmental disabilities.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Training grants are made to institutions of higher learning for training personnel for health care and related services for mothers and children. Research grants are for the purpose of research activities to advance the evidence base on the effectiveness of interventions and to improve the early identification and treatment for ASD and other developmental disabilities. Other project grants are designed to support activities of a demonstration nature which are designed to improve services for mothers and children.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Anyone/general public; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); For training grants: eligible applicants include public or nonprofit agencies, including institutions of higher education. For research grants: eligible applicants include any public or private nonprofit entity, including research centers or networks. Faith-based and community-based organizations, Tribes, and tribal organizations are eligible to apply. Any public or private entity is eligible for other project grants.

Beneficiary Eligibility:

U.S. Territories; Individual/Family; Specialized group (e.g. health professionals, students, veterans); Health Professional; Student/Trainee; Graduate Student; Scientist/Researchers; State; Women; Mentally Disabled; Local; Infant (0-5); Child (6-15); Youth (16-21); Public nonprofit institution/organization; Other public institution/organization; For training grants: (1) Trainees in the health professions related to MCH; and (2) mothers and children who receive services through training programs. For research grants: public or private nonprofit entities, including research centers or networks. For other projects: (1) Public or private agencies, organizations and institutions; and (2) mothers and children, and persons who receive services through the programs.

Credentials/Documentation:

Applicants should review the individual HRSA notice of funding opportunity issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Reports:

Annual program reports, annual program service reports, and special reports as required. The awardee will be required to submit performance and progress reports as well as status-federal financial reports (see the program announcement and notice of award for details for each required report). The awardee must submit a quarterly electronic Federal Financial Report (FFR) Cash Transaction Report via the Payment Management System within 30 days of the end of each calendar quarter. A Federal Financial Report (SF-425) according to the following schedule: <http://www.hrsa.gov/grants/manage/technicalassistance/federalfinancialreport/ffrscchedule.pdf>. A final report is due within 90 days after the project period ends. If applicable, the awardee must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation awardees, etc. may be subject to this requirement and will be so notified in the Notice of Award. See the notice of funding opportunity and notice of award for details for required performance monitoring.

EXAMPLES OF FUNDED PROJECTS:

2017 The National Interdisciplinary Training Resource Center plays a crucial role in providing technical assistance, building and sustaining partnerships with service systems already serving children with ASD and other developmental disabilities, translating research into evidence-based practice, and utilizing existing and developing new data systems to capture and report project outcomes. The Autism Transitions Research Project (ATRP) supports the implementation and completion of programmatic research studies that examine factors associated with healthy life transitions among adolescents and young adults with ASD who are transitioning to adulthood. The Autism Longitudinal Data Project supports the implementation and completion of research studies that examine longitudinal data on ASD and other developmental disabilities to study risk factors for these conditions, the effects of various interventions, and trajectories of child development over the life course. The Autism Field-Initiated Innovative Research Studies (Autism-FIRST) Program supports research that advances the evidence base on interventions designed to improve the health and wellbeing of children and adolescents with ASD and other developmental disabilities, with a particular focus on addressing barriers to identification, diagnosis, and services among underserved populations. The State Public Health Coordinating Center for Autism supports and assists states and jurisdictions in developing state-wide systems of care to improve the health of infants, children, and adolescents who have or are at risk for developing ASD or other developmental disabilities. 2018 The Developmental-Behavioral Pediatrics (DBP) Training Program enhances the behavioral, psychosocial, and developmental components of pediatric care by supporting DBP fellowship programs to prepare DBP fellows for leadership roles as teachers, investigators, and clinicians and to provide pediatric practitioners, residents, and medical students, with essential biopsychosocial knowledge and clinical expertise. The Autism Intervention Research Network on Behavioral Health (AIR-B) is a network of researchers seeking to advance evidence-based behavioral treatments for children with Autism Spectrum Disorder (ASD), particularly those in underserved and minority communities. The network is composed of nine sites across the country. The Autism Intervention Research Network on Physical Health (AIR-P) improves the physical health and well-being of children and adolescents with ASD and other developmental disabilities. Through research, guideline development, quality improvement efforts, and dissemination, AIR-P changes care and brings medical treatments to thousands of children and families within and beyond the network. The network is composed of ten sites across the country

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES,
DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Title IV, Part D, Subpart 2, Section 472-476, Public Health Service Act, Title III, Part A, Section 301

OBJECTIVES:

To meet a growing need for investigators trained in biomedical informatics research and data science by training qualified pre- and post-doctoral candidates; to conduct research in biomedical informatics, bioinformatics and related computer, information and data sciences; to facilitate management of electronic health records and clinical research data; to prepare scholarly works in biomedicine and health; to advance biocomputing and bioinformatics through participation in Federal initiatives relating to biomedical informatics, bioinformatics and biomedical computing; and to stimulate and foster scientific and technological innovation through cooperative research development carried out between small business concerns and research institutions, through Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) grants.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

RESEARCH GRANT PROGRAMS: Research Grants are available for fundamental and applied research in biomedical informatics and data science.

Areas of research interest include: representation, organization and retrieval of biomedical and biological knowledge, data and images; enhancement of human intellectual capacities through virtual reality, dynamic modeling, artificial intelligence, and machine learning; medical decision-making; linguistic analyses for natural language processing and understanding; informatics topics relevant to public health, consumer information and disaster information management. Research Project Grants (R01) are available for rigorous scientific research studies and experiments. From time to time, NLM issues Requests for Applications for innovative informatics research in special priority areas.

Exploratory/Developmental Grants (R21) support early, conceptual work and feasibility tests. Other research grants include Informatics Conference Grants (R13) and several NIH-wide grant programs on high priority topics such as health literacy, behavioral research, health disparity, climate change, and detection of gene environment interactions for complex human diseases. Further information on research grants is available at

<http://www.nlm.nih.gov/ep/Grants.html#research>. TRAINING GRANT

PROGRAMS: NLM's University-based Biomedical Informatics Research Training Programs (T15) promote the training of talented individuals who seek research careers in biomedical informatics, translational bioinformatics, clinical research informatics, public health informatics and data science. A competition for these institution-based training grants is announced every five years. The most recent competition was held in 2016. University-based training support may be at the pre- or post-doctoral level. Training sites recruit and choose their trainees, and are expected to have well-established computing resources, strong informatics research and education programs, experienced faculty and staff committed to research in the field of biomedical informatics and/or biomedical computing, and available courses or experience in biomedical informatics, information science, and cognitive sciences. Institutional training grants provide trainee stipends, tuition and fees, travel, and certain institutional support costs. Further information on training grants is available at <http://www.nlm.nih.gov/ep/Grants.html#training>. CAREER

DEVELOPMENT GRANT PROGRAMS: NLM offers a Career Development award (K01) to help promising junior investigators launch their research careers in biomedical informatics and data science research. NIH Pathway to Independence awards (K99/R00) are reserved for investigators who are making the transition to their first research positions. These grants can last up to five years. They include a mentored period, followed by an unmentored period, and provide both salary and a research support. Further information on career development grants is available at <http://www.nlm.nih.gov/ep/Grants.html#career>. DIVERSITY and RE-ENTRY

SUPPLEMENTS: Research supplement awards are offered to promote diversity in health-related informatics and data science research, and to promote re-entry into informatics and data science careers. Diversity and re-entry awards are issued as

ASSISTANCE LISTINGS DESCRIPTIONS

supplements to existing research grants funded by NLM. RESOURCE GRANT PROGRAMS: NLM funds cooperative agreements (UG4) to support Regional Medical Libraries (RMLs) as an integral component of the National Network of Libraries of Medicine (NN/LM). The goal of the NN/LM is to advance the progress of medicine and improve public health by providing U.S. health professionals with equal access to biomedical information, and to improve individuals access to information to enable them to make informed decisions about their health. The RMLs coordinate the operation of the network of libraries and other organizations that make up the NN/LM. NLM Information Resource Grants to Reduce Health Disparities (G08) support implementation projects that bring useful, usable health information to health disparity populations and their health care providers. NLM offers Grants for Scholarly Works (G13) to support preparation of books in the history and philosophy of biomedicine, bioethics, and public policy areas of importance to health professionals and biomedical scientists. The purpose, restrictions, funding periods and award limits vary for these grant programs and are described in the funding opportunity announcements (FOAs). Further information on resource grants is available at

<http://www.nlm.nih.gov/ep/Grants.html#resource>. SMALL BUSINESS RESEARCH & DEVELOPMENT GRANT PROGRAMS: Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) grants are made to U.S. small businesses that seek to undertake informatics and data science research and development leading to commercialization. The STTR program requires a small business applicant organization to formally collaborate with a research institution in Phase I and Phase II. SBIR Phase I grants are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I and that are likely to result in commercial products or processes. STTR Phase I grants are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I, and scientific and technical merit and commercial potential of the proposed project in Phase II application. Further information on SBIR/STTR grants is available at <http://www.nlm.nih.gov/ep/Grants.html#small>.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; U.S. Territories and possessions (includes institutions of higher education and hospitals); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Any individual(s) with the skills, knowledge, and resources necessary to carry out the proposed research as the project director/principal investigator (PD/PI) is invited to work with his/her organization to develop an application for support. Individuals from underrepresented racial and ethnic groups as well as individuals with disabilities are always encouraged to apply for NIH support. See Beneficiary Eligibility below for further details.

Beneficiary Eligibility:

U.S. Territories; Small business; Profit organization; Private nonprofit institution/organization; Native American Organizations; Health Professional; Student/Trainee; Scientist/Researchers; U.S. Citizen; School; Education (13+); Public nonprofit institution/organization; Federally Recognized Indian Tribal Governments; Research Grants are available to public or private, domestic or foreign, for profit or not-for-profit institutions or organizations with research capabilities in biomedical informatics, bioinformatics, computer sciences, information sciences, data sciences and related disciplines. Training Grants may be made to nonfederal public and nonprofit private institutions. With the exception of NIH Pathway to Independence awards, trainees must be citizens or non-citizen nationals of the United States or have been lawfully admitted to the United States for permanent residence. Resource grants (Information Resource, Scholarly Works) are open to any U.S. public or private nonprofit institution or organization. SBIR and STTR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees). To be eligible

for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council.

Credentials/Documentation:

This program is subject to the Uniform Guidelines (2 CFR 200), Subpart E - Cost Principles. These guidelines consolidate all cost principles, audit and administrative requirements for Federal grants and cooperative agreements. 2 CFR 200, Subpart E - Cost Principles applies to this program. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Generally, electronic applications are accepted for Research & Training Grants, SBIR and STTR grants, Resource Grants as well as Fellowship awards. Electronic grant submission of the SF424 (R&R) form is via <http://www.grants.gov>. For instructions on submitting grants electronically, see <http://era.nih.gov/ElectronicReceipt/>. These programs are subject to the provisions of 45 CFR Part 75 as applicable. Updates on NLM application deadlines and links to available forms can also be found at <http://www.nlm.nih.gov/ep/>.

Award Procedure:

Research, training, career development and resource applications are evaluated for merit by a committee of scientific experts and for program relevance by the Board of Regents (BOR) of the National Library of Medicine (NLM). If favorably recommended, the applications are considered for funding. An award notice is prepared when it is determined that a grant is to be paid. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score compete for available SBIR/STTR set-aside funds based on scientific and technical merit and commercial potential of the proposed research, program relevance, and portfolio balance among the areas of research.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

>180 Days. From 9-10 months after the application deadline.

Appeals:

Other. NIH policy allows a principal investigator (PI) to appeal the outcome of a review if procedural errors or factual errors entered into the review of the application. A description of the NIH Peer Review Appeal procedures is available at <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-11-064.html>. However, differences of scientific opinion that often occur between investigators and reviewers may not be contested through these procedures. In addition, communications from investigators consisting of additional information that was not available to the reviewers are not considered to be appeals. The updated NIH policy on submission of grant applications, including resubmissions, can be found at: <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html>.

Renewals:

>180 Days. Competing renewal applications follow the same review procedures as new applications; dates for submission are at <http://www.nlm.nih.gov/ep/Deadlines.html>. NIH also permits the resubmission of an application that has been revised following merit review. Deadlines for resubmissions are listed with other deadlines. CRITERIA FOR SELECTING PROPOSALS:

The standard NIH review criteria, significance, investigator, innovation, approach and environment are used as the basis of merit review. Considerations for final award decisions include level of innovation, program priority, portfolio balance, and availability of funds. For NLM resource grants, review criteria include considerations as to relevance to program objectives; impact on the management and transmission of biomedical knowledge; institutional readiness and resources available to project; expertise of project director and key personnel; scientific or technical merit of project; sustainability of what is deployed, and appropriateness of budget. For Career awards, review criteria include issues pertaining to the suitability of the candidates and their career development plan, research plan, mentors/consultants/collaborators, as well as the environment and institutional commitment to the candidates. For Training awards, review criteria include evidence of soundness in the areas of: Training Program and Environment, Training Program Principal Investigator(s), Preceptors and Mentors, Trainees, and Training Record. Comparative priorities on the above criteria are based on collective judgment of peer reviewers. The following criteria are used in considering the scientific and technical merit of SBIR/STTR Phase I grant applications: (1) The soundness and technical merit of the proposed approach; (2) the qualifications of the proposed principal investigator, supporting staff, and consultants; (3) the scientific, technical, or technological innovation of the proposed research; (4) the potential of the proposed research for commercial application; (5) the appropriateness of the budget requested; (6) the adequacy and suitability of the facilities and research environment; and (7) where applicable, the adequacy of assurances detailing the proposed means for (a) safeguarding human or animal subjects, and/or (b) protecting against or minimizing any adverse effect on the environment. Phase II grant applications are reviewed based upon similar criteria, and on the degree to which the Phase I objectives were met and feasibility demonstrated.

Reports:

Quarterly, Annual and Final programmatic reports are required in the funding opportunity announcement. The FFR Cash Transaction Reports must be filed within 30 days of the end of each quarter. Failure to submit the report may result in the inability to access grant funds. Go to www.dpm.psc.gov for additional information. Submit a quarterly electronic Federal Financial Report (FFR) Cash Transaction Report via the Payment Management System. The report identifies cash expenditures against the authorized funds for the grant. Required Quarterly, Annual, and Final Progress Reports. Grantees must provide HHS with information such as, but not limited to, project status, implementation activities initiated, accomplishments, barriers, and lessons learned in order to ensure that funds are used for authorized purposes. Such performance includes submission of the states progress toward the milestones identified in its Work Plan. HHS reserves the right to restrict funds for activities related to unmet milestones. Recipients must submit annual expenditures information through submission of a Federal Financial Report (FFR). All recipients are required to report on expenditures at least annually. Since this is a multi-year project, then recipients will be required to report on expenditures every 12 months (on annual Federal Financial Report (FFR or SF-425) and final Federal Financial Report).

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Grantees are required to maintain grant accounting records 3 years after the date they submit the final Federal Financial Report. If any litigation, claim, negotiation, audit or other action involving the award has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

Credentials/Documentation:

If applicants intend to apply as a collaborative group, a list of confirmed and potential participants need to be included as part of the application; letters of commitment from confirmed participants will also be required. Applicants must also be able to provide sufficient documentation that show their ability to advance the use of interoperable standards for the electronic exchange of health data in their identified use case, including but not limited to a project plan addressing the SOW from the FOA and proposed timeline, budget proposal on how they would use the award money, existing health IT infrastructure, certification of any current health IT module(s), and list of key personnel, including a CV. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants are expected to provide a Funding Opportunity Announcement (FOA) application that address all of the requirements as described in the FOAs statement of work (SOW). For purposes of encouraging innovation and interoperable cooperation, collaborative groups of different organizations will be considered, as well as encouraged. If this is a collaborative response, applicants should designate a primary applicant who will be the primary organization responsible for all deliverables and reports, including financial reports. A complete list of project partners (both confirmed and potential) should be included in the FOA application; if a partner is confirmed, a letter of commitment should be included.

Award Procedure:

Awarding agency will issue the FOA for a 60-day window. At the end of the 60-day application period, the awarding agency will review all applications over a 30-day window. The award review process will include award review panels comprised of subject matter experts and at least one federal employee. The awarding agency will inform all applicants in writing the status of their application (awarded, not awarded). Applicant awardees will be provided with the terms and conditions of their award, and will commence working with the awarding agency to implement their pilot. If the awardee is a collaborative (primary applicant with subawardees), all awardees will be subject to the terms and conditions of the award; however, the primary awardee will be responsible for all deliverables and reports, including financial reports. The awarding agency will provide oversight of the awards, including but not limited to quarterly reporting. These awards will be issued as Cooperative Agreements and it is the expectation of the awarding agency that the awardees work together in carrying out the activities contemplated in the agreement.

93.884 Grants for Primary Care Training and Enhancement

Primary Care Training and Enhancement; PCTE,
FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Section 747 (a) (b) of the Public Health Service Act

ASSISTANCE LISTINGS DESCRIPTIONS

OBJECTIVES:

The overarching purpose of the PCTE program is to strengthen the primary care workforce by supporting enhanced training for future primary care. In FY 2015 and FY 2016, the PCTE program focused on training for transforming health care systems, particularly enhancing the clinical training experience of trainees. The focus of this grant is to produce primary care providers who will be well prepared to practice in and lead transforming health care systems aimed at improving access, quality of care, and cost effectiveness. Activities include: (1) plan, develop, and operate a program that provides training experiences in new competencies, such as providing training relevant to providing care through patient-centered medical homes, developing tools and curricula relevant to patient-centered medical homes, and providing continuing education to primary care providers relevant to patient-centered medical homes; (2) plan, develop and operate a program for the training of physicians who plan to teach in family medicine, general internal medicine, or general pediatrics; (3) plan, develop, and operate a program for the training of physicians or physician assistants teaching in community-based settings; (4) provide need-based financial assistance in the form of traineeships and fellowships to students, residents, practicing physicians or other medical personnel, who are participants in any such program, who plan to work in, teach, or conduct research in family medicine, general internal medicine, general pediatrics, or physician assistant education; or (5) plan, develop and operate joint degree programs to provide interdisciplinary and interprofessional graduate training in public health and other health professions to provide training in environmental health, infectious disease, disease prevention and health promotion, epidemiological studies and injury control. In FY 2017, PCTE grantees were given the opportunity to request supplemental funding to be used in training related to Medication Assisted Treatment (MAT). Recipients were required to meet one of the following program requirements: 1) Integration of opioid use disorder diagnosis, prevention and treatment, emphasizing MAT, into the core curriculum of the medical education program; 2) Faculty training in opioid use disorder diagnosis, prevention and treatment, emphasizing MAT (i.e., train the trainer model); or 3) Enhancement of community-based primary care training sites to provide and train in opioid use disorder diagnosis, prevention and treatment, emphasizing MAT. This may include community preceptor training or technical assistance to initiate or expand MAT services at the primary care training site. For training physician, physician assistant and faculty in Medication-Assisted Treatment in Opioid Use Disorder. In FY 2016, the PCTE program also awarded the Academic Fields for PCTE program to improve clinical teaching and research in the fields of family medicine, general internal medicine, and general pediatrics. The program supports systems-level research, dissemination, and community of practice to advance primary care training. Prior to FY 2015 grants were awarded for the following purposes: (1) Academic Administrative Units in Primary Care-- to establish, maintain, or improve academic administrative units (which may be departments, divisions, or other entities) to provide clinical instruction in family medicine, general internal medicine, general pediatrics, and/or combined internal medicine-pediatrics; (2) Predoctoral Training in Primary Care-- to plan, develop, and operate or participate in programs that teach medical students primary care skills through experiences in family medicine, general internal medicine, general pediatrics, and/or combined internal medicine-pediatrics; (3) Residency Training in Primary Care-- to plan, develop, and operate or participate in approved residency programs in family medicine, general internal medicine, general pediatrics, and/or combine internal medicine-pediatrics; (4) Physician Faculty Development in Primary Care-- to plan, develop, and operate programs (including provision of financial assistance to trainees) that prepare physicians who teach or plan to teach in family medicine, general internal medicine, general pediatrics, and/or combined internal medicine-pediatrics training programs; (5) Physician Assistant Training in Primary Care to plan, develop, and operate or maintain programs that teach physician assistant students and that train individuals who will teach physician assistant students; (6) Interdisciplinary and Interprofessional Joint Graduate Degree -- to plan, develop, and operate joint degree programs to provide interdisciplinary and interprofessional graduate training in public health and other health professions and that teach environmental health, infectious disease control, disease prevention and health promotion, epidemiological studies and/or injury control.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: : In Academic Year 2016--2017, the Primary Care Training and Enhancement program supported the training of 2,098 primary care medicine residents and fellows, 3,109 medical students and 1,138 physician assistant students. Of the PCTE trainees, 23.4% were from underrepresented minority backgrounds and 34.2% were from disadvantaged backgrounds. During academic year 2016-2017 1,647 trainees graduated from HRSA supported PCTE projects (those funded in 2015 and 2016). The PCTE grantees partnered with 707 healthcare delivery sites to provide clinical training experiences for 7,344 students and advanced trainees from a variety of professions and disciplines incorporating

interprofessional team-based approaches. Sixty-three.six percent of the clinical sites were located in medically underserved communities, 61.7% were in primary care settings and 29.7% were in rural areas. Funds were used to deliver 100 unique continuing education courses to 2,295 faculty members and practicing providers and to develop, enhance and implement 1592different curricular activities, reaching 16,138 trainees. Grantees supported 245 faculty-focused training programs and activities, reaching 4,217 primary care faculty physicians. About 25% of training sites offered interprofessional team-based care experiences. PCTE faculty delivered 212 courses, workshops and other trainings focused on primary care topics to 2,242 trainees, who were most commonly internal medicine residents and medical students. FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

301 and 317(k)(2) of the Public Health Service (PHS) Act, [42 U.S.C]

OBJECTIVES:

The purpose of this FOA is to transition this highly-functional public health infrastructure for cancer prevention and control into new roles and functions to anticipate the nations needs over the next decade. The goals are to (1) seek efficiencies across the management and operations of cancer prevention and control programs, (2) focus on high-burden cancers with evidence-based, scalable interventions that already exist and can be broadly implemented, (3) develop organized screening programs that are more effective and efficient than current opportunistic approaches, and (4) maintain high-quality cancer registries and expand their application in prevention and screening.

Counseling Program. Rural Health Network Development Program. Delta States Rural Development Network Program Rural Health Opioid Program Small Health Care Provider Quality Improvement Program Rural Health Network Development Planning Program Rural Network Allied Health Training Program Rural Health Care Services Outreach Program Rural Communities Opioid Response Program-Planning.

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF
AUTHORIZATION:

Section 330A (f) of the Public Health Service Act, 42 U.S.C. 254(c) (e) (f), as amended by section 201, P.L. 107-251 of the Health Care Safety Net Amendments of 2002.

OBJECTIVES:

The Delta Region Community Health Systems Development Program aims to enhance health care delivery in the Delta Region through intensive technical assistance to providers in select rural communities, including Critical Access Hospitals, small rural hospitals, Rural Health Clinics, and other healthcare organizations.The Rural Health Care Coordination Network Partnership Program supports the development of formal, mature rural health networks that focus on care coordination activities for the following chronic conditions: diabetes, congestive heart failure and chronic obstructive pulmonary disease. Care coordination in the primary care practice involves deliberately organizing patient care activities and sharing information among all of the participants concerned with a patients care to achieve safer and more effective care. The Rural Outreach Benefits Counseling Program seeks to expand outreach, education and enrollment efforts to eligible uninsured individuals and families, and newly insured individuals and families in rural communities. For the purposes of this grant program, benefits counseling (outreach, education and enrollment efforts) will be limited to only public health insurance (Medicare, Medicaid and/or Childrens Health Insurance Program), qualified health plans offered through Health Insurance Marketplace and/or private health insurance plans.The Rural Health Network Development Program aims to support mature, integrated rural health care networks that have combined the functions of the entities participating in the network in order to address the health care needs of the targeted rural community. Awardees will combine the functions of the entities participating in the network to address the following statutory charges: (i) achieve efficiencies; (ii) expand access, coordinate, and improve the quality of essential health care services; and (iii) strengthen the rural health care system as a whole.The Delta States Rural Development Network Program funds organizations located in the eight Delta States, which include Alabama, Illinois, Kentucky, Tennessee, Arkansas, Louisiana, Mississippi and Missouri. Awardees in these areas aim to promote population health, through the planning, implementation, and the development of integrated health care networks. In addition, eligible entities participate in the networks to achieve efficiencies, expand access to care, as well as to coordinate, and improve the quality of essential health care services. The Rural Health Opioid Program promotes rural health care services outreach by expanding the delivery of opioid related health care services to rural communities. The program will reduce the morbidity and mortality related to opioid overdoses in rural communities through the development of broad community consortiums to prepare individuals with opioid-use disorder to start treatment, implement care coordination practices to organize patient care activities,[1] and support individuals in recovery through the enhancement of behavioral counselling[2] and peer support activities.[3] This program will bring together health care providers (i.e. local health departments, hospitals, primary care practices, and substance abuse treatment providers) and entities such as social service and faith-based organizations, law enforcement, and other community-based groups to respond multifaceted to the opioid epidemic in a rural community. The Small Health Care Provider Quality Improvement Program aims to provide support to rural primary care providers for planning and implementation of quality improvement activities. Quality health care is the provision of appropriate services to individuals and populations that are consistent with current professional knowledge, in a technically competent manner, with good communication, shared decision-making and cultural sensitivity. The ultimate goal of the program is to promote the development of an evidence-based culture and delivery of coordinated care in the primary care setting. Additional objectives of the program include improved health outcomes for patients; enhanced chronic disease management; and better engagement of patients and their caregivers.The Rural Health Network

ASSISTANCE LISTINGS DESCRIPTIONS

Development Planning Program assists in the development of an integrated health care network, specifically for entities that do not have a history of formal collaborative efforts. Health care networks can be an effective strategy to help smaller rural health care providers and health care service organizations align resources and strategies, achieve economies of scale and efficiency, and address challenges more effectively as a group than as single providers. The Rural Network Allied Health Training Program is a pilot program that will support the development of formal, mature[1] rural health networks that focus on activities that achieve efficiencies, expand access to, coordinate and improve the quality of essential health care services, and strengthen the rural health care system as a whole. This program will further support integrated rural health networks that can partner with local community colleges and other accredited educational institutions (such as vocational and technical colleges) to develop formal clinical training programs. The Rural Health Care Services Outreach Program aims to promote rural health care services by enhancing health care delivery in rural communities. Outreach projects focus on the improvement of access to services, strategies for adapting to changes in the health care environment, and overall enrichment of the respective community's health. Through a consortium of local health care and social service providers, rural communities can develop innovative approaches to challenges related to their specific health needs. The Rural Communities Opioid Response Program- Planning, supports treatment for and prevention of substance use disorder, including opioid use disorder, in rural counties at the highest risk for substance use disorder, including the 220 counties identified by the Centers for Disease Control and Prevention as being at risk for HIV and Hepatitis C infections due to injection drug use.

93.914 HIV Emergency Relief Project Grants

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Sections 2601-2610, and 2693 (42 USC 300ff-11 300ff-20, and 300ff-121), as amended by the Ryan White HIV/AIDS Treatment Extension Act of 2009 (Public Law 111-87)

OBJECTIVES:

To provide direct financial assistance to Eligible Metropolitan Areas (EMAs) and Transitional Grant Areas (TGAs) that have been the most severely affected by the Human Immunodeficiency Virus (HIV) epidemic to enhance access to a comprehensive, effective and cost efficient continuum of high quality, community-based care for low-income individuals and families with HIV and to strengthen strategies to reach minority populations. A comprehensive continuum of care includes the 13 core medical services specified in legislation and appropriate support services that assist people living with HIV (PLWH) in accessing treatment for HIV/AIDS that is consistent with the Department of Health and Human Services (HHS) Treatment Guidelines. Comprehensive HIV/AIDS care beyond these core medical services may include supportive services that meet the criteria of enabling individuals and families living with HIV to access and remain in primary medical

ASSISTANCE LISTINGS DESCRIPTIONS

care to improve their medical outcomes.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Not less than 75 percent of grant funds remaining after reserving funds for administration and clinical quality management must be used to provide core medical services, unless a waiver request related to this requirement is submitted and approved. Core medical services include: outpatient and ambulatory health services, AIDS Drug Assistance Program, AIDS pharmaceutical assistance, oral health care, early intervention services, health insurance premium and cost-sharing for low-income individuals, home health care, medical nutritional therapy, hospice services, home and community-based health services as defined under Section 2614 (c), mental health services, substance abuse outpatient care, and medical case management, including treatment adherence services. Support services are for individuals with HIV to achieve medical outcomes and may include respite care for persons caring for individuals living with HIV, outreach services, medical transportation, linguistic services and referral for health care and support services, and others. A percentage of the grant, determined by the percentage of women, infants, children and youth in the area with HIV, will be used to provide health and support services to women, infants, children, and youth with HIV disease, including treatment measures to prevent the perinatal transmission of HIV. No more than 10 percent of amounts received under a grant may be used to fund the recipients grant administration and monitoring activities, program support activities and all activities associated with recipient contract award procedures. In addition, the aggregate total of administrative expenditures for subrecipients, including all indirect costs, may not exceed ten (10) percent of the aggregate amount of all subawards. Recipients may use up to five percent of funds or \$3 million, whichever is less, for clinical quality management activities to assess the extent to which HIV health services provided to patients under the grant are consistent with the most recent Department of Health and Human Services guidelines for the treatment of HIV/AIDS. Funds may not be used to make payments for any item or service to the extent that payment has been made, or can reasonably be expected to be made, with respect to that item or service under any State compensation program, insurance policy, Federal or State health benefits program or by any entity that provides health services on a prepaid basis (except for a program administered by or providing the services to the Indian Health Service). Funds may not be used for cash payments to intended recipients of Ryan White HIV/AIDS Program (RWHAP) services, purchasing or construction of real property, or pre-exposure prophylaxis (PrEP) or non-occupational post-exposure prophylaxis (nPEP) medications or the related medical services. Additionally, the purchase of sterile needles or syringes for the purposes of hypodermic injection of any illegal drug is not allowable. Some aspects of Syringe Services Programs are allowable with HRSA's prior approval and in compliance with HHS and HRSA policy (see <https://www.hiv.gov/federal-response/policies-issues/syringe-services-programs>).

Applicant Eligibility:

CRITERIA FOR SELECTING PROPOSALS:

Applications for supplemental funds must meet nine criteria set forth in the enacting legislation: (1) contain a report concerning the dissemination of emergency relief funds and the plan for utilization of such funds; (2) demonstrate need in such area for supplemental financial assistance to combat the HIV epidemic; (3) demonstrate the existing commitment of local resources of the area, both financial and in-kind, to combat the HIV epidemic; (4) demonstrate the ability of the area to utilize such supplemental financial resources in a manner that is immediately responsive and cost-effective; (5) demonstrate that resources will be allocated in accordance with the local demographic incidence of AIDS including appropriate allocations for services for infants, children, women, and families with HIV disease; (6) demonstrate the inclusiveness of affected communities and individuals with HIV disease; (7) demonstrate the manner in which proposed services are consistent with the local needs assessment and the statewide coordinated statement of need; (8) demonstrate the ability of the applicant to expend funds efficiently by not having had, for the most recent Part A formula grant year for which data is available, more than 5 percent of grant funds unobligated at the end of the year, even if a request for carryover was granted; and (9) demonstrate success in identifying individuals with HIV and AIDS, who are unaware of their HIV/AIDS status, and provides a description of the strategy, plan, and data associated with the early identification of these individuals.

93.917 HIV Care Formula Grants

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Sections 2611-23, and 2693 of Title XXVI of the Public Health Service Act, (42 U.S.C. 300ff-31a and 300ff-121) as amended by the Ryan White HIV/AIDS Treatment Extension Act of 2009 (Public Law 111-87), and Section 311(c) of the Public Health Service Act, 42 U.S.C. 243(c).

OBJECTIVES:

To enable States and Territories to improve the quality, availability, and organization of a comprehensive continuum of HIV/AIDS health care, treatment, and support services for eligible individuals living with Human Immunodeficiency Virus (HIV) disease.

TYPES OF ASSISTANCE:

Formula Grants, Project Grants

USES AND USE RESTRICTIONS:

Not less than 75 percent of grant funds remaining after reserving funds for administration and clinical quality management must be used to provide core medical services. Core medical services include: outpatient ambulatory health services, AIDS Drug Assistance Program (ADAP), local pharmaceutical assistance, oral health care, health insurance premium and cost-sharing, home health care, home and community-based health services, hospice services, early intervention services, medical nutritional therapy, substance abuse outpatient care, mental health services, and medical case management, including treatment adherence services. The remaining 25% may be used for support services, including: non-medical case management, child care services, emergency financial assistance, food bank/home delivered meals, health education/risk reduction, housing services, linguistic services, psychosocial support services, rehabilitation services, respite care, and transportation that support a person living with HIV to achieve better health outcomes. Funds may be used to establish and operate HIV Care Consortia that shall conduct planning, funding, monitoring, and reporting on behalf of the recipient. HIV Care Consortia are categorized under the support services category. A State/Territory shall use a percentage of the grant, determined

ASSISTANCE LISTINGS DESCRIPTIONS

by the percentage of women, infants, children, and youth with HIV/AIDS in the State, to provide core medical and support services to infants, children, youth, and women living with HIV. Funds may not be used to make payments for any item or service to the extent that payment has been made, or can reasonably be expected to be made, with respect to that item or service under any State compensation program, insurance policy, Federal or State health benefits program or by any entity that provides health services on a prepaid basis (except for a program administered by or providing the services to the Indian Health Service). Funds may not be used to purchase or improve land, or to purchase, construct or make permanent improvement to any building except for minor remodeling. Funds may not be used to make cash payments to intended recipients of Ryan White HIV/AIDS Program (RWHAP) services. Funds may not be used for pre-exposure prophylaxis (PrEP) or non-occupational post-exposure prophylaxis (nPEP) medications or the related medical services. Additionally, the purchase of sterile needles or syringes for the purposes of hypodermic injection of any illegal drug is not allowable. Some aspects of Syringe Services Programs are allowable with HRSA's prior approval and in compliance with HHS and HRSA policy (see: <https://www.hiv.gov/federal-response/policies-issues/syringe-services-programs>). A State/Territory may not use more than 10 percent of amounts received under this grant for administration. A State/Territory may not use more than 10 percent of amounts received under the grant for planning and evaluation activities. When combined, a State/Territory may not use more than 15 percent on administration, planning and evaluation. Clinical Quality Management expenditures are not included in the administrative or planning and evaluation costs, but are subject to a cap of the lesser of 5 percent of amounts received under the grant or \$3,000,000. If a State receives the minimum allotment, it may not use more than the amount required to support one full-time equivalent employee for these activities. In addition, the aggregate total of administrative expenditures for subrecipients, including all indirect costs, may not exceed ten (10) percent of the aggregate amount of all subawards. Seventy-five (75) percent of grant funds must be obligated within 120 days of the budget period start date.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); All 50 States of the United States, and the District of Columbia and U.S. Territories including, the Commonwealth of Puerto Rico, Commonwealth of the Northern Mariana Islands, the Virgin Islands, Guam, American Samoa, the Republic of the Marshall Islands, Federated States of Micronesia, and the Republic of Palau.

Beneficiary Eligibility:

Individual/Family; Individuals living with HIV.

Credentials/Documentation:

Applicants should review the individual HRSA Notice of Funding Opportunity (NOFO) issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov.

Award Procedure:

As required by the legislation, RWHAP Part B Base, ADAP Base, and Emerging Communities formula awards are based on the number of reported living cases of HIV/AIDS in the State or Territory in the most recent calendar year as confirmed by CDC and submitted to HRSA. Similarly, for recipients applying for Minority AIDS Initiative (MAI) formula funds, awards are based on the number of reported living minority HIV/AIDS cases for the most recent calendar year as confirmed by CDC and submitted to HRSA. Supplemental ADAP grants are awarded by formula based on living HIV/AIDS cases to states which meet any of the criteria listed in that section of the NOFO for the purpose of providing medications or insurance assistance for people living with HIV (PLWH). The ADAP Emergency Relief

Funds (ERF) awards, for the purpose of cost containment activities for preventing, reducing or eliminating ADAP waiting lists, are disbursed via a formula based on a competitive application process with need based criteria listed in the NOFO. In a separate, competitive application process, RWHAP Part B Supplemental funds are disbursed based on criteria specified by the legislation. All qualified applications for ADAP ERF and Part B Supplemental funds will be forwarded to an objective review committee. Based on the recommendations of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions. 93.918 Grants to Provide Outpatient Early Intervention Services with Respect to HIV Disease

Ryan White HIV/AIDS Program (RWHAP) Part C Early Intervention Services (EIS),

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Sections 2651-2667, and 2693 (42 USC 300ff-51 300ff-67, and 300ff-121), as amended by the Ryan White HIV/AIDS Treatment Extension Act of 2009 (Public Law 111-87), Title , Part , Section

OBJECTIVES:

The purpose of the RWHAP Part C Early Intervention Services Program funding is to provide comprehensive HIV primary care and support services in an outpatient setting for low income, uninsured, and underserved people living with HIV (PLWH). This includes: 1) targeted HIV counseling and testing; 2) medical evaluation and clinical and diagnostic services; 3) therapeutic measures for preventing and treating the deterioration of the immune system, and for preventing and treating conditions arising from HIV/AIDS; and 4) referrals to appropriate providers of health care and support services. The purpose of the RWHAP Part C Capacity Development Program is to strengthen organizational infrastructure to respond to the changing health care landscape and to increase capacity to develop, enhance, or expand access to high quality HIV primary health care services for low income, uninsured, and underserved PLWH.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Part C recipients are expected to develop comprehensive and coordinated systems of HIV services which are available to PLWH in the local service area, especially those populations who are the hardest to reach, have the greatest unmet need, and/or the greatest gaps in HIV primary care services. These HIV service systems should ensure the progress of the target populations along the HIV care continuum with the goal of optimizing health outcomes demonstrated by retention in medical care, viral load reduction, and decreases in new HIV infections in the community. For the Part C program, no more than 10 percent of total grant funds may be expended for administrative expenses, including planning and evaluation. At least 50 percent of total grant funds must be expended for Early Intervention Services (except counseling). At least 75 percent of total grant funds, after reserving funds for clinical quality management, planning/evaluation, and administration must be expended for core medical services. For the Capacity Development Program, no more than 10 percent of the total grant funds may be expended for administrative expenses, including planning and evaluation, and excluding costs of a clinical quality management program. Administrative costs are those direct and indirect costs associated with the administration of the RWHAP Part C Capacity Development grant. For Part C and Part C Capacity Development Programs, all funds must be expended solely for carrying out the approved project in accordance with the notice of funding opportunity, the terms and conditions of the award, and the applicable cost principles. Funds may not be used for purchase, construction, or major alterations or renovations on any building or other facility; purchase or improvement of land; payments for clinical research; payments for nursing home care; cash payments to intended recipients of RWHAP services; research; foreign travel; or for any item or service to the extent that payment has been made, or reasonably can be expected to be made, with respect to that item or service under any State compensation program, insurance policy, Federal or State health benefits program or by an entity that provides health services on a prepaid basis (except for a program administered by or providing the services of the Indian Health Services). Funds may also not be used towards pre-exposure prophylaxis (PrEP) or non-occupational post-exposure prophylaxis (nPEP) medications or medical services. As outlined in the June 22, 2016 RWHAP and PrEP program letter, the RWHAP legislation provides grant funds to be used for the care and treatment of PLWH, thus prohibiting the use of RWHAP funds for PrEP medications or related medical services, such as physician visits and laboratory costs. However, RWHAP Parts C recipients and subrecipients may provide prevention counseling and information, which should be part of a comprehensive PrEP program. Additionally, the purchase of sterile needles or syringes for the purposes of hypodermic injection of any illegal drug is not allowable. Some aspects of Syringe Services Programs are allowable with HRSA's prior approval and in compliance with HHS and HRSA policy (see: <https://www.hiv.gov/federal-response/policies-issues/syringe-services->

93.919 Cooperative Agreements for State-Based Comprehensive Breast and Cervical Cancer Early Detection Programs

National Breast and Cervical Cancer Early Detection Program (NBCCEDP),

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Breast and Cervical Cancer Mortality Prevention Act of 1990, Section 301(a), Section 317(k)(3), and Section 1501, Public Law 101-354; 42 U.S.C.241a, 42 U.S.C. 247b(k)(3), and 42 U.S.C. 300K; Public Law 103-183, Public Law 101-354, 42 USC Code 241,247,300.

OBJECTIVES:

To work with official State and territorial health agencies or their designees, and tribal health agencies in developing comprehensive breast and cervical cancer early detection programs. To the extent possible, increase screening and follow-up among all groups of women in the State, tribe or territory, with special to reach those women who are of low income, uninsured, underinsured and minority, and Native Americans.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Cooperative agreements funds may be used to assure screening of women for breast and cervical cancer as an early detection preventive measure; assure appropriate referrals for follow-up services for women with abnormal screening tests and routine rescreening; develop and disseminate public education and outreach programs for the early detection and control of breast and cervical cancers; improve the education, training and skills of health professionals (including allied health professionals) in the early detection and control of breast and cervical cancers; establish mechanisms through which the States, tribes and territories can monitor the quality of breast and cervical cancer screening procedures in the State, including the interpretation of such procedures; and evaluate program activities through appropriate surveillance and monitoring. Cooperative agreement funds may not be expended for screening and follow-up services to the extent that payment has been made, or can reasonably be expected to be made, with respect to such items or services: (1) under any State compensation program, under any insurance policy or under any Federal or State health benefits program; or (2) by any entity that provides health services on a prepaid basis. Cooperative agreement funds shall not be used for treatment or treatment services. States, tribes and territories are required to make available nonfederal contributions in cash or in-kind toward such cost in an amount equal to not less than \$1 for each \$3 of Federal funds provided. Such contributions may be made directly or through donations from public or private entities. The payment for treatment services or the donation of treatment service may not be used for nonfederal contributions. States, tribes and territories may include only nonfederal contributions in excess of the average amount of nonfederal contributions made by the State, tribe or territory for the two year period preceding the first fiscal year for which the State, tribe or territory is applying to receive a cooperative agreement for a comprehensive breast and cervical cancer early detection program. In making a determination of the amount of nonfederal contributions for purposes of matching fund requirements, applicants may include any nonfederal amounts expended

pursuant to Title XIX of the Social Security Act for the purpose of screening and follow-up for women at-risk for breast and cervical cancers.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; Eligible applicants are the official State health agencies of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, the Northern Mariana Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, American Samoa, American Indian and Alaska Native tribes and tribal organizations as defined in Section 4 of the Indian Self-Determination and Education Assistance Act.

Beneficiary Eligibility:

U.S. Territories; State; Women; Low Income; Federally Recognized Indian Tribal Governments; Official State and Territorial health agencies, women especially low-income women.

Credentials/Documentation:

93.923 Disadvantaged Health Professions Faculty Loan Repayment Program (FLRP)

FLRP,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Section 738(b) of the Public Health Service Act (42 U.S.C. 738 [293b]), as amended by P.L. 105-392

OBJECTIVES:

The Faculty Loan Repayment Program (FLRP) provides loan repayment assistance to faculty members from economically and environmentally disadvantaged backgrounds with eligible health professions degree or certificates to serve at eligible academic institutions in the following disciplines: allopathic, osteopathic, podiatric or veterinary medicine; dentistry, pharmacy, respiratory therapist, optometry, nursing (RN or Advanced Practice RN), physician assistants, allied health or graduate programs in public health or behavioral and mental health for a 2-year service commitment.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Project Grants

USES AND USE RESTRICTIONS:

Faculty Loan Repayment Program (FLRP) provides funds to participants to repay qualifying educational loans consisting of principal and interest on loans incurred by the applicant while enrolled in a school in return for providing a 2-year service commitment as a full-time or part-time faculty member at one of the following accredited health profession schools: allopathic, osteopathic, podiatric or veterinary medicine; dentistry, pharmacy, optometry, nursing (Registered Nurse (RN) or Advanced Practice Registered Nurse (APRN), physician assistants, allied health or graduate programs in public health or behavioral and mental health.

Applicant Eligibility:

ASSISTANCE LISTINGS DESCRIPTIONS

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Eligible applicants must: (1) be U.S. citizens (either U.S. born or naturalized), U.S. nationals or lawful permanent residents; (2) be from an economically or environmentally disadvantaged background; (3) have a degree or certificate in one of the following health profession disciplines: allopathic, osteopathic, podiatric or veterinary medicine; dentistry, pharmacy, optometry, nursing (RN or APRN), physician assistants, allied health, or graduate programs in public health or behavioral and mental health; or are enrolled in an approved graduate training program in one of the health professions listed above, or are enrolled as full-time students (in the disciplines listed above) at an accredited health professions institution and are in the final course of study or program leading to a degree from that institution; (4) have an employment commitment from an eligible health professions school for a full-time or part-time (as defined by the school) faculty position for a minimum of 2 years; and (5) have a written agreement with an eligible health professions school that has agreed to pay full or partial match toward the principal and interest for the applicants education loans in equivalent loan repayment amounts made by HHS under FLRP. For institutions that are unable to provide matching loan repayments, applicants must provide an official letter from the employer requesting a full or partial waiver with supporting documentation justifying the undue financial hardship necessary for a waiver to be granted.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Health Professional; Education Professional; See above

Credentials/Documentation:

Applicants should review the individual HRSA Application and Program Guidance issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

FLRP awards are based on a selection tiering process that determines the sequential order of awards made to qualified applicants, which includes the amount of matching funds provided by the applicant's employing institution. There are three (3) match categories: (1) full matching of the HHS level of loan repayment, (2) partial matching of the HHS level of loan repayment (i.e., <100% match); or (3) no match. Participants will receive up to a maximum of \$40,000 for a full or part-time 2-year service commitment. Awards are made starting with full match, then to partial match (from greatest percentage match to least partial match), then to no match. Full-time applicants in each match category are given preference over part-time applicants. Payments are made to individuals via electronic direct deposit.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. (1 to 100 percent) - Institutions may submit a full match (100%), partial match (1 to 99%) or request a waiver. The employing institution is required for each year of

service to make payments in an amount equal to the amount of principal and interest payments made by the Secretary. These payments must be in addition to the recipients salary the individuals otherwise would receive. However, the Secretary may waive this requirement if it is determined that it would impose an undue financial hardship on the institution involved. A consideration for waiver will be based on required documentation submitted by the institution which must include financial statements to support hardship. Applicants receive award preference based on the funding match determined by the institution. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Participants must provide full or part-time service (as defined by the school) as a faculty member at an eligible health professions school for a period of two consecutive years beginning on the effective date of the contract. Payments are made to individuals via electronic direct deposit. . See the following for information on how assistance is awarded/released: Awards are based on a percentage of the eligible applicant's total debt. Method of awarding/releasing assistance: other

Reports:

The employing institution must complete and send a semi-annual In-Service Verification Form verifying that the participants are providing full-time or part-time continuous service at their approved health professions school.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

93.924 Ryan White HIV/AIDS Dental Reimbursement and Community Based Dental Partnership Grants

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Section 2692(b) of the Public Health Service Act, (42 U.S.C. 300ff-111(b)) as amended the Ryan White HIV/AIDS Treatment Extension Act of 2009 (Public Law 111-87).

OBJECTIVES:

Dental Reimbursement Program (DRP): To partially compensate accredited dental schools, postdoctoral dental education programs, and dental hygiene education programs for unreimbursed costs they have incurred in providing oral health services to low income, uninsured, and underserved people living with HIV (PLWH). Reimbursement will be made for documenting the number of low income PLWH served and the unreimbursed oral health costs incurred by each institution as compared with the total number of low income PLWH served and costs incurred by all eligible applicants. The purpose of the DRP is to improve access to oral health care services for low income, uninsured, and underserved PLWH, and provide clinical training for dental and dental hygiene students and dental residents to deliver oral health care to PLWH. Community Based Dental Partnership Program (CBDPP): To improve access to oral health care services for low income, uninsured and underserved PLWH in underserved geographic areas, while simultaneously providing education and clinical training for dental and dental hygiene students, dental residents, or other dental providers in community-based settings. This is achieved through multi-partner collaborations between dental and dental hygiene education programs recognized by the Commission on Dental Accreditation and community-based dental providers.

TYPES OF ASSISTANCE:

Formula Grants, Project Grants

USES AND USE RESTRICTIONS:

Dental Reimbursement Program : Funds are limited to accredited dental schools and other accredited dental education programs, such as dental hygiene programs or those sponsored by a school of dentistry, a hospital, or a public or private institution that offers postdoctoral training in the specialties of dentistry, advanced education in general dentistry, or a dental general practice residency that submit an application documenting unreimbursed costs of oral health care provided to low income PLWH. Community Based Dental Partnership Program Grants: Part F CBDPP recipients are responsible for developing or enhancing partnerships with community-based dental providers, provide oral health services, and provide training to dental and dental hygiene students and dental residents to deliver oral health care to PLWH. Funds may not be used for purchase, construction, or major alterations or renovations on any building or other facility; purchase or improvement of land; cash payments to intended recipients of RWHAP services; foreign travel; or for any item or service to the extent that payment has been made, or reasonably can be expected to be made, with respect to that item or service under any State compensation program, insurance policy, Federal or State health benefits program or by an entity that provides health services on a prepaid basis (except for a program administered by or providing the services of the Indian Health Services).

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher

education and hospitals); Applicants are limited to accredited dental schools and other accredited dental education programs such as dental hygiene programs or those sponsored by a school of dentistry, a hospital, or a public or private institution that offers postdoctoral training in the specialties of dentistry, advanced education in general dentistry, or a dental general practice residency.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization; Public nonprofit institution/organization; Low income, uninsured, and underserved people living with HIV.

Credentials/Documentation:

Applicants should review the individual HRSA notice of funding opportunity issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. Applicants for Dental Reimbursement program and recipients for the Community Based Dental Partnership Program must be accredited by the Commission on Dental Accreditation. 2 CFR 200--Uniform Administrative Requirements, Cost Principles, and Audit Requirements for HHS Awards applies to this program. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. HRSA requires all applicants to apply electronically through Grants.gov.

Award Procedure:

Dental Reimbursement Program: All qualified applicants will receive funds utilizing a formula type process dividing the unreimbursed costs for each applicant by the total unreimbursed cost across all applications, then multiplying by the amount available for the Dental Reimbursement Program. Community Based Dental Partnership Program: All qualified applications will be forwarded to an objective review committee. Based on the recommendation of the objective review committee, the HRSA program official with delegated authority is responsible for final selection and funding decisions. Notification is made in writing by a Notice of Award.

Deadlines:

93.925 Scholarships for Health Professions Students from Disadvantaged Backgrounds

Scholarships for Disadvantaged Students (SDS),

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Section 737 of the Public Health Service Act (42 U.S.C. 293a)

OBJECTIVES:

The SDS program promotes service in primary care and in medically underserved communities and diversity among health professions students and practitioners by providing grants to eligible health professions and nursing schools for use in awarding scholarships. Eligible health professions and nursing schools apply for funds to provide scholarships to students from disadvantaged backgrounds who have financial need for scholarships and are enrolled, or accepted for enrollment, as full-time students at the schools. Schools provide student scholarships and disadvantaged student recruitment and retention programs that encourage completion of school and service in primary care and in medically underserved communities. The purpose is to provide entrance into a career as a health professional to help diversify the health workforce and encourage service in primary care and in medically underserved communities.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

SDS funds awarded to schools must be used to award full or partial scholarships to eligible students enrolled in health professions programs on a full-time basis.

Scholarships may only be expended for tuition expenses, other reasonable educational expenses, and reasonable living expenses incurred while in attendance for the year. Student scholarship awards shall equal an amount no less than 50% of the students annual tuition costs up to a maximum amount of \$30,000 to cover the cost of attendance. No student can be awarded SDS funds greater than \$30,000 per year. The Secretary is required to make available at least 16 percent of the funds to schools that will provide scholarships only for nursing students. In addition, 25 percent of SDS funding is designated for graduate programs in behavioral and mental health practice. In making awards, geographical regions are also taken into consideration. Schools are required to agree that, in providing scholarships under this program, preference shall be given to students from disadvantaged backgrounds for whom the costs of attending the school would constitute a severe financial hardship. The Secretary may not make a grant to a school unless the school is carrying out a program for recruiting and retaining students from disadvantaged backgrounds and has met the eligibility criteria of demonstrating the success of outcome measures. Indirect costs are unallowable under this program.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Accredited public or non-profit private schools of medicine, nursing, osteopathic medicine, dentistry, pharmacy, podiatric medicine, optometry, veterinary medicine, chiropractic, allied health, public health, a school offering a graduate program in behavioral and mental health practice, or an entity providing programs for the training of physician assistants. 1) At least 20 percent of the total enrollment (full-time enrolled) of a program during the specified academic year must be students from disadvantaged backgrounds; and 2) At least 20 percent of the total graduates (who were full-time students) of a program during the specified academic year must have been from disadvantaged backgrounds. Faith-based and community-based organizations, Federally Recognized Indian Tribal Government and Native American Organizations are eligible to apply if all other eligibility requirements are met.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Student/Trainee; Graduate Student; Students who are citizens, nationals, or lawful permanent residents of the United States or the District of Columbia, the Commonwealths of Puerto Rico or the Northern Mariana Islands, the U.S. Virgin Islands, Guam, the American Samoa, the Republic of Palau, the Republic of the Marshall Islands, the Federated States of Micronesia; and enrolled full-time in health professions or

CRITERIA FOR SELECTING PROPOSALS:

Procedures for assessing the technical merit of grant applications have been instituted to provide an objective review of applications and to assist the applicant in understanding the standards against which each application will be judged. Critical indicators have been developed for each review criterion to assist the applicant in presenting pertinent information related to that criterion and to provide the reviewer with a standard for evaluation. Competing applications are reviewed by nonfederal reviewers for technical merit recommendations. Applications will be reviewed and evaluated against the following criteria: (1) Purpose and Need; (2) Response to Program Purpose; (3) Impact; (4) Organizational Information, Resources and Capabilities; and (5) Support Requested. See most recent Notice of Funding Opportunity for detailed review criteria.

93.926 Healthy Start Initiative

Healthy Start,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Title III, Part D, Section 330H of the Public Health Service Act, (42 U.S.C.254c-8)

ASSISTANCE LISTINGS DESCRIPTIONS

OBJECTIVES:

The purpose of this grant program is to improve perinatal health outcomes and reduce racial and ethnic disparities in perinatal health outcomes by using community-based approaches to service delivery, and to facilitate access to comprehensive health and social services for women, infants, and their families. HS grants are provided to communities with rates of infant mortality at least 1 times the U.S. national average and high rates for other adverse perinatal outcomes (e.g., low birthweight, preterm birth, maternal morbidity and mortality) in order to address the needs of high-risk women and their families before, during, and after pregnancy.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

The Healthy Start (HS) program aims to reduce disparities in infant mortality and adverse perinatal outcomes by: 1) improving women's health, 2) promoting quality services, 3) strengthening family resilience, 4) achieving collective impact, and 5) increasing accountability through quality improvement, performance monitoring, and evaluation. Healthy Start grantees continue to reduce high infant mortality rates (IMR) by assuring access to culturally competent, family-centered, and comprehensive health and social services to women, infants, and their families through a community-based participatory approach. Additionally, HS grantees foster systems integration, coordination, and collaboration to advance community change and increase collective impact. HS grantees also coordinate and align with State Title V Maternal and Child Health Block Grant programs to promote cooperation, integration, and dissemination of information with statewide systems and with other community services funded under Title V. Funds may not be used to supplant currently funded activities/services.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Eligible Project Area All applicants applying for funding under this grant notice must identify themselves as serving an urban, rural, or border community project area. A project area is defined as a geographic community in which the proposed services are to be implemented. A project area must represent a reasonable and logical catchment area, but the defined areas do not have to be contiguous. A map of the proposed project area must be included in the application. Urban Territory, population, and housing units located within an urbanized area (UA) or an urban cluster (UC), which has: o a population density of at least 1,000 people per square mile; and o surrounding census blocks with an overall density of at least 500 people per square mile. Rural To determine whether the Census tract or County for your proposed project area is defined as a rural area (RA), visit the webpage Rural Health Grants Eligibility Analyzer(<http://datawarehouse.hrsa.gov/RuralAdvisor/ruralhealthadvisor.aspx?ruralByAddr=1>) and enter the project area address. US/Mexico Border - Border communities are those communities located within 62 miles/100 kilometers of the U.S./Mexico border. In order to be considered for Border Community funding, the project area and the target population to be served both have to reside within 62 miles/100 kilometers of the U.S./Mexico border. Eligible Target Population The target population is the population that the applicant will serve within their geographic project area and will determine their eligibility. The target population may range from a single racial/ethnic group to the entire project area population. The project area for which the applicant is applying and the proposed target population within that project area must be clearly identified to confirm eligibility. Eligibility Factors Demonstrating Need HRSA/MCHB must be able to verify submitted data with the appropriate state/local government agency responsible for vital statistics. Border community applicants that cannot provide this verifiable data may use the other indicators specified in the second section below. Project data for the eligibility factors for all applicants must be included in the applications transmittal letter and in the needs assessment section of the submitted application. The existing racial/ethnic disparities in these or other perinatal indicators should

also be described in the needs assessment section of the application. Applications that do not provide this information, in the manner described within this notice of funding opportunity (NOFO), will be considered ineligible and the application will be returned without review. An applicant's target population within their proposed project area must meet the following verifiable criteria using the smallest statistical level of verifiable data available -- not to be any larger than a combination of counties (e.g. a city project should not report county-level data). HRSA-14-020, Urban and Rural Communities Using verifiable three-year average data for calendar years 2007 through 2009, the proposed project area for communities which meet the urban or rural community definition must meet the following indicators from the list below. The 2007-2009 combined three-year infant mortality rate (IMR, infant deaths per 1,000 live births over three years) must be equal to or more than 9.9 deaths per 1,000 live births (1.5 times the national average) AND there must be 20 or more infant deaths over the three years for the targeted population. If the combined 2007-2009 number of infant deaths are less than (<)20, then to be eligible the following must be met: o The 2007-2009 three-year average low birthweight (LBW) is equal to or more than 12.3% (1.5 times the national average) AND there must be 100 or more LBW births in the targeted population for the three-year period, 2007 to 2009 OR The 2007-2009 preterm births (PTB) is equal to or more than 18.6% (1.5 times the national average) AND there must be 100 or more PTB births in the targeted population for the period, 2007 to 2009 For Levels 2 and 3, if the combined 2007-2009 IMR is less than 9.9 deaths per 1,000 live births, then to be eligible the following must be met: o The applicant must demonstrate a 20% decrease in IMR in their target population for 2005-2009 (five-year combined average) and discuss how they were a significant contributor to this reduction AND meet at least one of the following criteria: The 2007-2009 three-year average low birthweight (LBW) is equal to or more than 12.3% (1.5 times the national average) AND there must be 100 or more LBW births in the targeted population for the three-year period, 2007 to 2009 OR The 2007-2009 preterm births (PTB) is equal to or more than 18.6% (1.5 times the national average) AND there must be 100 or more PTB births in the targeted population for the period, 2007 to 2009 US/Mexico Border Communities Using verifiable three-year average data for 2007 through 2009, the proposed target population for project areas which meet the border community definition (i.e., within 62 miles of the U.S./Mexico border) must have at least 1,000 births for the three year period and meet at least three (3) indicators from the list below. If vital statistics are not available from state/local government agencies, border community applicants can use other verifiable data. Percentage of women of childbearing age with diabetes is 3.1% or more; Percentage of women of childbearing age who are obese is 31.8% or more; Percentage of pregnant women entering prenatal care in the first trimester is less than 80%; Percentage of births to women who had no prenatal care is greater than 2%; Percentage of births to women who smoke is greater than 20%; Percentage of children 0-2 years old with a completed schedule of immunization is less than 60%; Percentage of children under 18 years of age with family incomes below the Federal Poverty Level exceeded 25% for 2010. If more recent verifiable poverty data is available, please provide this data and identify year and source; Percent of infants born large for gestational age (LGA) is 9.4 or greater.

Beneficiary Eligibility:

Individual/Family; Women; Infant (0-5); Service area residents, particularly women and infants in areas with significant perinatal health disparities.

Credentials/Documentation:

Applicants should review the individual HRSA notice of funding opportunity issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." Reports:

The awardee will be required to submit performance and progress reports as well as status-federal financial reports (see the program announcement and notice of award for details for each required report). The awardee must submit a quarterly electronic Federal Financial Report (FFR) Cash Transaction Report via the Payment Management System within 30 days of the end of each calendar quarter. A Federal Financial Report (SF-425) according to the following schedule: <http://www.hrsa.gov/grants/manage/technicalassistance/federalfinancialreport/ffrscchedule.pdf>. A final report is due within 90 days after the project period ends. If applicable, the awardee must submit a Tangible Personal Property Report (SF-428) and any related forms within 90 days after the project period ends. New awards (Type 1) issued under this notice of funding opportunity are subject to the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109282), as amended by section 6202 of Public Law 110252, and implemented by 2 CFR Part 170. Grant and cooperative agreement recipients must report information for each first-tier subaward of \$25,000 or more in federal funds and executive total compensation for the recipients and subrecipients five most highly compensated executives as outlined in Appendix A to 2 CFR Part 170 (FFATA details are available online at <http://www.hrsa.gov/grants/ffata.html>). Competing continuation awardees, etc. may be subject to this requirement and will be so notified in the Notice of Award. The successful applicant under this notice of funding opportunity must comply with Section 6 of HRSA SF-424 Application Guide and the following reporting and review activities: 1) Progress Report(s). The awardee must submit a progress report to HRSA on an annual basis. Further information will be provided in the award notice. 2) Performance Report(s). The Health Resources and Services Administration (HRSA) has modified its reporting requirements for SPRANS projects, CISS projects, and other grant programs administered by the Maternal and Child Health Bureau (MCHB) to include national performance measures that were developed in accordance with the requirements of the Government Performance and Results Act (GPRA) of 1993 (Public Law 103-62). This Act requires the establishment of measurable goals for Federal programs that can be reported as part of the budgetary process, thus linking funding decisions with performance. Performance measures for States have also been established under the Block Grant provisions of Title V of the Social Security Act, the MCHBs authorizing legislation. Performance measures for other MCHB-funded grant programs have been approved by the Office of Management and Budget and are primarily based

on existing or administrative data that projects should easily be able to access or collect. 1. Performance Measures and Program Data To prepare successful applicants for their reporting requirements, the listing of MCHB administrative forms and performance measures for this program can be found at: https://perf-data.hrsa.gov/mchb/DgisApp/FormAssignmentList/H49_2.HTML. 2. Performance Reporting Successful applicants receiving grant funds will be required, within 120 days of the Notice of Award (NoA), to register in HRSA's Electronic Handbooks (EHBs) and electronically complete the program specific data forms that appear for this program at: https://perf-data.hrsa.gov/mchb/DgisApp/FormAssignmentList/H49_2.HTML. This requirement entails the provision of budget breakdowns in the financial forms based on the grant award amount, the project abstract and other grant summary data as well as providing objectives for the performance measures. Performance reporting is conducted for each grant year of the project period. Grantees will be required, within 120 days of the NoA, to enter HRSA's EHBs and complete the program specific forms. This requirement includes providing expenditure data, finalizing the abstract and grant summary data as well as finalizing indicators/scores for the performance measures. 3. Project Period End Performance Reporting Successful applicants receiving grant funding will be required, within 90 days from the end of the four years and nine months project period, to electronically complete the program specific data forms that appear for this program at: https://perf-data.hrsa.gov/mchb/DgisApp/FormAssignmentList/H49_2.HTML. The requirement includes providing expenditure data for the final year of the project period, the project abstract and grant summary data as well as final indicators/scores for the performance measures.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Grantees are required to maintain grant accounting records 3 years after the date they submit the Federal Financial Report (FFR). 93.928 Special Projects of National Significance

(SPNS),

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Section 2691 of Title XXVI of the Public Health Service Act, (42 USC 300ff-101), as amended, by the Ryan White HIV/AIDS Treatment Modernization Act of 2009 (Public Law 111-87).

OBJECTIVES:

To quickly respond to the care and treatment needs of individuals receiving assistance under the Ryan White HIV/AIDS program (RWHAP). Special Projects of National Significance (SPNS) supports the development and implementation of innovative delivery models of HIV care, services, and capacity development initiatives, including the dissemination of strategies and tools for implementation by RWHAP recipients and other HIV care and treatment providers. Further, SPNS evaluates the effectiveness of these models, and promotes the replication of successful models. Areas of evaluation include design, implementation, utilization, cost, and health related outcomes of effective models. The SPNS Program also supports special programs to develop or enhance health information and technology data systems to enable RWHAP recipients and their sub-recipients or providers to report and utilize clinical data.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants

USES AND USE RESTRICTIONS:

Proposals are expected to adequately define and justify the needs, innovative nature, and evaluation methodology of the proposed model of services. Funds shall be used to create and/or evaluate innovative models of HIV care, services, capacity development initiatives, and health information and technology data systems that would likely not exist nor be evaluated without SPNS Program support, or that would extend the care model to previously underserved or uninsured populations. Funds may not be used for: charges that are billable to third party payers (e.g., private health insurance, prepaid health plans, Medicaid, Medicare); purchasing or construction of new facilities or capital improvements to existing facilities; purchasing or improving land; international travel; cash payments to intended recipients of RWHAP services; or pre-exposure prophylaxis (PrEP) or non-occupational post-exposure prophylaxis (nPEP) medications or the related medical services. Funds may not be used for outreach programs which have HIV prevention education as their exclusive purpose, or broad-scope awareness activities about HIV services that target the general public. Additionally, the purchase of sterile needles or syringes for the purposes of hypodermic injection of any illegal drug is not allowable. Some aspects of syringe services programs are allowable with HRSA's prior approval and in compliance with HHS and HRSA policy (see: <https://www.hiv.gov/federal-response/policies-issues/syringe-services-programs>).

Applicant Eligibility:

Government - General; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; U.S. Territories and possessions

93.932 Native Hawaiian Health Care Systems

Native Hawaiian Health Care Systems,

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Native Hawaiian Health Care Improvement Act (42 USC 11701 and 11714), as amended

OBJECTIVES:

To raise the health status of Native Hawaiians living in Hawaii to the highest possible level through the provision of comprehensive health promotion and disease prevention services, as well as primary health services, and to provide existing Native Hawaiian health care programs with all resources necessary to effectuate this policy.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Required Native Hawaiian Health Care Systems services under this program include outreach, health promotion, disease prevention, and primary health care services. These services will integrate traditional health concepts with western medicine so that existing barriers to health care can be removed. It is anticipated that the various components will be integrated into one comprehensive system of care and that the existing health resources of the community will be used to the greatest extent possible. Required Papa Ola Lokahi activities include coordination and updating of a comprehensive Native Hawaiian health care plan, providing training, technical assistance, and coordination for Native Hawaiian health care sites/practitioners statewide, serving as a clearinghouse, and conducting disease prevalence research.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Minority group; Specialized group (e.g. health professionals, students, veterans); Eligible entities include Papa Ola Lokahi and the Native Hawaiian Health Care Systems (Systems). The Systems: (1) organized under the laws of the State of Hawaii; (2) provide or arrange for health care services through practitioners licensed by the State of Hawaii, where licensure requirements are applicable; (3) are public or nonprofit private entities; (4) involve Native Hawaiian health practitioners significantly in the planning, management, monitoring, and evaluation of health care services; (5) are recognized by Papa Ola Lokahi (a consortium of Hawaiian and Native Hawaiian organizations) for the purpose of planning, conducting, or administering programs or portions of programs, authorized by this act for the benefit of Native Hawaiians; and (6) are certified by Papa Ola Lokahi as having the qualifications and the capacity to provide the services and meet the requirements of this Act for the benefit of Native Hawaiians.

Beneficiary Eligibility:

Minority group; Other Non-White; Hawaiian natives will benefit.

Credentials/Documentation:

Applicants should review the applicable HRSA notice of funding opportunity issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. This program is excluded from coverage under E.O. 12372.

Application Procedures:

Applicants are required to apply electronically through Grants.gov.

Award Procedure:

ASSISTANCE LISTINGS DESCRIPTIONS

Notification is made in writing by a Notice of Award.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. From 90 days to up to 6 months.

Appeals:

Not Applicable.

Renewals:

Other. Awards to support projects beyond the first budget year within the three-year project period will be contingent upon Congressional appropriation, compliance with applicable statutory and regulatory requirements, demonstrated organizational capacity to accomplish the project's goals, satisfactory performance, and a determination that continued funding would be in the best interest of the federal government.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. This program has no statutory formula. Matching Requirements: Grants may not be awarded to a Native Hawaiian Health Care System unless the entity agrees that it will make available, directly or through donations to the entity, nonfederal matching funds in an amount not less than \$1 for every \$5 of Federal funds provided. Nonfederal contributions may be in cash or in kind, fairly evaluated, including plant, equipment, or services. Amounts provided by Federal government or services assisted or subsidized to any significant extent by the Federal Government may not be included in determining the amount of such nonfederal contributions. Federal sources may be used as matching funds if received as fees, payments, or reimbursements for the provision of specific services, such as patient care reimbursements received under Medicare or Medicaid. The match requirements may be waived if the Secretary determines, in consultation with Papa Ola Lokahi, that it is not feasible for the entity to comply with the requirement. Grant funds may not be used to pay for (1) inpatient services; (2) cash payments to intended recipients of health services; or (3) purchasing or improving real property (other than minor remodeling of existing improvements to real property) or major medical equipment. The entity may not expend more than 10 percent of amounts received under the grant for administering the grant. Other requirements and limitations are set forth in the Native Hawaiian Health Care Improvement Act (42 USC 11701 - 11714). There is no matching requirement for Papa Ola Lokahi. MOE requirements are not applicable to this program. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Awards are made annually. After awards are issued, funds are released in accordance with HHS payment procedures, which may be through an Electronic Transfer System or a Monthly Cash Request System. 93.936 National Institutes of Health Acquired Immunodeficiency Syndrome Research Loan

Repayment Program

(NIH AIDS Research Loan Repayment Program; AIDS LRP),

FEDERAL AGENCY:

NATIONAL INSTITUTES OF HEALTH, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Title VI, Part 68, Section 487A, Public Law 100-607, 288-1

OBJECTIVES:

To help assure an adequate supply of trained researchers (physicians, registered nurses and scientists) with respect to acquired immunodeficiency syndrome (AIDS) at the National Institutes of Health (NIH) by providing for the repayment of educational loans for participants who agree, by written contract, to primarily engage in AIDS research as employees of the NIH.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Project Grants

USES AND USE RESTRICTIONS:

This program will provide partial repayment of educational loans incurred by physicians, registered nurses and scientists engaged, as employees of the NIH, in AIDS research. Recipients must agree by written contract to engage in such research, initially, for a minimum of 2 years; individuals who have conflicting service obligations may not participate in this program until those obligations are satisfied or have been deferred during the period of program service. Continuation contracts are available, dependent upon the level of debt and continued involvement in AIDS research, and are issued for one-year periods. Maximum program benefit is \$35,000 per year in loan repayments and \$13,650 per year in Federal tax reimbursements. Recipients must have qualified educational debt in excess of 20 percent of their annual NIH salary, which is referred to as their "debt threshold." An amount equal to half of this "debt threshold" will not be repaid by NIH and must be paid by the Program participants.

Applicant Eligibility:

Government - General; State (includes District of Columbia, public institutions of higher education and hospitals); U.S. Territories and possessions; Specialized group (e.g. health professionals, students, veterans); Eligible applicants must: (1) Be a citizen, national, or permanent resident of the United States; (2) possess a M.D., Ph.D., D.O., D.D.S., D.M.D., D.V.M., D.P.M., A.D.N., B.S.N., or equivalent degree, or hold the position of Physician Assistant; (3) have educational debt, which results from governmental or commercial loans obtained to support their undergraduate and/or graduate education in excess of 20 percent of their annual NIH salary (exclusive of special allowances of any kind) on the program eligibility date; (4) be appointed under any temporary or permanent employment mechanism in the Intramural Research Program of the NIH, so long as their employment has the potential to last a minimum of 2 years; (5) not have an existing service obligation to Federal, State, or other entities, unless deferred during period of program service; (6) submit an application to participate in the Loan Repayment Program; and (7) submit to the Secretary for Health and Human Services, at the time of application, a signed contract agreeing to engage in AIDS research at the NIH for a minimum of 2 years.

Beneficiary Eligibility:

Scientist/Researchers; AIDS researchers who have unpaid educational loans will benefit from this program.

Credentials/Documentation:

Applicants must submit documentation of the following, as appropriate: 1) Copies of loan applications and agreements from governmental or commercial educational loans that are being considered for repayment; 2) copies of the standard student budget from schools attended during period when debt was incurred; and 3) other documentation as required by law. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants must access and submit the Loan Repayment Program application electronically via the website

ASSISTANCE LISTINGS DESCRIPTIONS

www.lrp.nih.gov; seek qualified employment with a sponsoring Institute or Center (IC) of the NIH. Once an application has been submitted, the Loan Repayment Committee reviews it at a regularly scheduled review meeting and a determination of loan repayment recipients is made.

Award Procedure:

The NIH Loan Repayment Committee (LRC) will review, rank, and approve or disapprove applications recommended for program participation by each IC. Applications approved for program participation by the LRC will be notified by the Program Director. The Secretary, or her/his designee, will sign the service contract of program participants, provide a copy to the participant, and notice of the amount of approved loan repayment.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days. The approximate time for approval/disapproval is three months.

Appeals:

From 90 to 120 days. Employees of the NIH who are not approved as a result of this process may ask for reconsideration through the standard appeal procedures available to NIH employees.

Renewals:

From 60 to 90 days. At the conclusion of the initial two-year contract, participants may apply and be recommended for subsequent one-year continuation contracts under the application and approval procedures specified above.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Assistance is available for a minimum 2-year period. One-year, continuation contracts are available for individuals whose educational debt exceeds that maximum repayable amount for 2-years. Payments are made directly to lenders, following each quarter of the participant's satisfactory service, unless otherwise agreed upon by the participant and Secretary of Health and Human Services. Method of awarding/releasing assistance: quarterly

Reports:

A year-end summary is provided for inclusion in the OITE annual report. Program participants must be certified quarterly as to having satisfactorily performed their research assignments. Program participants must be certified quarterly as to having satisfactorily performed their research assignments.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. Records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). In accordance with 45 Code of Federal Regulations, Part 74.26, for-profit (commercial) organizations are subject to audit requirements for a non-Federal audit if, during its fiscal year, it expended \$500,000 or more under HHS awards and at least one award is a HHS grant or subgrant. The regulation incorporates the thresholds and deadlines of OMB Circular No. A-133, but provides for profit organizations with two options for the type of audit that will satisfy the audit requirement: 1. a financial related audit of the HHS awards in accordance with Government Auditing Standards, or 2. an audit that meets the requirements of OMB Circular No. A-133. In accordance with NIH grants policy, Foreign grantees are subject to the same audit requirements as for-profit (commercial) organizations.

Records:

The NIH will maintain applicant records for 3 years after rejection and participant records for 6 years after completion of final service obligation. Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted.

Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 74.53 and 92.42 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 74.48 and 92.36 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 74.53(e), the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel record for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

93.938 Cooperative Agreements to Support Comprehensive School Health Programs to Prevent the Spread of HIV and Other Important Health Problems

(SHEPSA),

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, 42 USC Code 241(a) & 243(b).

OBJECTIVES:

To improve the health and well-being of youth and prepare them to be healthy adults.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants

USES AND USE RESTRICTIONS:

Cooperative Agreement funds may be used to support personnel, purchase equipment, supplies, services, and travel directly related to the program activities and consistent with the scope of this program. Cooperative agreement funds are used to help schools prevent sexual risk behaviors that result in HIV infection, especially among youth who are at highest risk. For example, cooperative agreement recipients implement and integrate effective policies and educational strategies to reduce risk behaviors that lead to HIV infection among youth; implement strategies to reduce disparities among sub-populations of youth disproportionately affected by HIV infection and other health problems related to sexual risk behaviors; evaluate the implementation and effectiveness of strategies to reduce risks for HIV infection among youth in schools for the purposes of programmatic improvement and long-range planning. CDC believes that the specific scope and content of HIV education programs in schools should be locally determined and should be consistent with parental and community values. CDC supports local decision-making by providing sound scientific information to grantees who work directly with schools, communities, and parents. Funds may be expended for written materials, pictorials, audiovisuals, questionnaires or survey instruments, and educational group sessions related to HIV education for youth, school, and college populations if approved in accordance with the document "Content of AIDS-Related Written Materials, Pictorials, Audiovisuals, Questionnaires, Survey Instruments, and Educational Sessions in Centers for Disease Control Assistance Programs." Cooperative agreement funds are also used to build state education and state health agency partnership and capacity to implement and coordinate school health programs across agencies and within schools. The expected outcome of this effort is to help schools reduce chronic disease risk factors, including tobacco use, poor nutrition, and physical inactivity. For example, cooperative agreement recipients implement and integrate effective policies, environmental changes, and educational strategies to reduce unhealthy behaviors; leverage resources to avoid duplication at the state and local levels; evaluate school health capacity-building efforts while implementing effective strategies to reduce priority health risks. Funds may not be used to conduct research projects, provide direct delivery of patient care or treatment services, and purchase or disseminate condoms. Although public health may have an assurance role in clinical testing and screening, funds are not to be used to provide clinical testing or screening services. Funds may not be used for purchasing computer equipment, office equipment or furnishing, renting or leasing office space, or to support construction or renovation unless specifically approved.

93.942 Research, Prevention, and Education Programs on Lyme Disease in the United States

(Lyme Disease),

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act, Section 301, 42 USC Code 241(a).

OBJECTIVES:

To develop, implement and evaluate practical and effective measures for the primary and secondary prevention of Lyme disease in the United States.

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants)

USES AND USE RESTRICTIONS:

Funding opportunities are made available to develop disease surveillance, conduct ecological and epidemiological studies, develop prevention and control activities, develop better diagnostic tests, and develop and disseminate educational materials and programs. Cooperative Agreements include funds for direct costs, i.e., personnel, travel, equipment, supplies, necessary to carry out an approved project as well as funds for the reimbursement of applicable indirect costs. Unallowable costs, such as reimbursement of pre-award costs, as well as those for which prior written approval is required, are indicated in the Health & Human Services (HHS) Grants Policy Statement (<https://www.hhs.gov/sites/default/files/grants/grants/policies-regulations/hhsgrs107.pdf>).

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Sponsored organization; Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); Public and nonprofit organizations able to provide services to geographical areas where Lyme disease is endemic or found to be newly emerging in the continental United States. Thus, universities, colleges, research institutions, State and local health departments, and private nonprofit organizations are eligible.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization; Native American Organizations; State; Physically Afflicted (e.g. TB, Arthritis, Heart Disease); Local; Sponsored organization; Public nonprofit institution/organization; Other public institution/organization; Federally Recognized Indian Tribal Governments; States, political subdivisions of states, and

other public and nonprofit private entities and the general public who may be exposed to the threat of Lyme disease in certain geographical areas.

Credentials/Documentation:

Nonprofit organizations are corporations or associations no part of whose net earnings may lawfully inure to the benefit of any private shareholder or individual. Proof of nonprofit status must be submitted by private nonprofit organizations with the application or, if previously filed with PHS, the applicant must state where and when the proof was submitted. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. This program has no preapplication requirements.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. To apply to a published funding opportunity, applications must be submitted electronically through Grants.gov (<https://www.grants.gov>) using the SF-424 Research and Related (R&R) forms and the SF-424 (R&R) Application Guide. Detailed application instructions are included in the Notice of Funding Opportunity (NOFO) for federal assistance. Online information can be found at HHS/CDC's Office of Financial Resources, Funding, Grants internet page: <https://www.cdc.gov/grants/index.html>. This program is subject to the provisions of 45 CFR 92 for State and local governments and OMB Circular No. A-110 for nonprofit organizations.

Award Procedure:

Upon receipt, applications will be evaluated for completeness and responsiveness by the HHS/CDC Office of Grant Services and agency extramural program office. HHS/CDC will not review incomplete and non-responsive applications. After review and approval, a notice of grant award (NoA) is prepared and processed, along with appropriate notification to the public. Initial award provides funds for first budget period (usually 12 months) and NoA indicates support recommended for the remainder of the period of performance, allocation of Federal funds by budget categories, and special conditions, if any.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Approximately 3 to 6 months.

Appeals:

Not Applicable.

Renewals:

Other. Cooperative agreement periods of performance are typically for 3 to 4 years. Subject to availability of funds, after initial awards, projects may be renewed non-competitively contingent upon satisfactory progress by the recipient (as documented in required reports) and the determination that continued funding is in the best interest of the Federal government.

Formula and Matching Requirements:

Statuary formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act., Title 42, Section 301(a) and 317

OBJECTIVES:

To work with State health agencies and other public and private nonprofit organizations in planning, developing, integrating, coordinating, or evaluating programs to prevent and control chronic diseases; assist in monitoring the major behavioral risks associated with the 10 leading causes of premature death and disability in the United States including cardiovascular diseases; and, establish new chronic disease prevention programs like Racial and Ethnic Approaches to Community Health (REACH), State Nutrition, Physical Activity and Obesity Programs (NPAO) DP08-819/DP13-1317: Purpose - The purpose of the program is to 1) support community use of traditional foods and sustainable ecological approaches for diabetes prevention and health promotion in American Indian and Alaska Native communities; and 2) engage communities in identifying and sharing the stories of healthy traditional ways of eating, being active, and communicating health information and support for diabetes prevention and wellness. CDC-RFA-DP13-1305, State Public Health Actions to Prevent and Control Diabetes, Heart Disease, Obesity and Associated Risk Factors and Promote School Health, supports statewide implementation of cross-cutting approaches to promote health and prevent and control chronic diseases and their risk factors. Four chronic disease prevention programs (Diabetes; Heart Disease and Stroke Prevention; Nutrition, Physical Activity, and Obesity; and School Health) are included in this FOA. State Health Departments are funded under this FOA to address the following goals: Short/Intermediate Term Goals: Improve state, community, worksite, school, and early childhood environments to promote and reinforce healthful behaviors across the lifespan related to diabetes, cardiovascular health, physical activity, healthful foods and beverages, obesity, and breastfeeding; Improve effective delivery and use of quality clinical and other preventive services aimed at preventing and managing diabetes and hypertension; and Increase community-clinical linkages to support prevention, self-management, and control of diabetes, hypertension, and obesity. Long Term Goals: Improved prevention and control of hypertension Improved prevention and control of diabetes Improved prevention and control of overweight and obesity The FOA has two components: 1) A basic non-competitive component to support health promotion, epidemiology, and surveillance activities and targeted strategies that will result in measurable impacts to address school health, nutrition and physical activity risk factors, obesity, diabetes, and heart disease and stroke prevention in all 50 states and the District of Columbia. These efforts will be supported by core public health activities such as partnership engagement, workforce development, guidance and support for programmatic efforts, strategic communication, surveillance and epidemiology, and evaluation; and 2) A competitive enhanced component to build on and extend the activities supported with basic funding to achieve even greater reach and impact. Thirty-two states were funded under the enhanced Component to implement evidence and practice-based interventions to improve physical activity and nutrition, reduce obesity, and prevent and control diabetes, heart disease, and stroke with a focus on high blood pressure. The enhanced component includes implementation of evidence-based strategies that are more extensive and wider-reaching than those implemented in the basic component. States funded for this enhanced component must implement interventions at scale in order to reach large

segments of the population in the state (e.g., through school districts, early care and education (ECEs), worksites, and state and local governmental agencies) and in partnership with organizations that may or may not have worked with state departments of health in the past (e.g., large employers, public housing, the education sector, health insurers, and large health systems).

TYPES OF ASSISTANCE:

93.946 Cooperative Agreements to Support State-Based Safe Motherhood and Infant Health Initiative Programs

Safe Motherhood and Infant Health (Reproductive Health),

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Public Health Service Act; Safe Motherhood, Section 317K; Prenatal and Postnatal Health, Section 317L, 42 USC Code 247b-12 and 13.

OBJECTIVES:

To promote optimal and equitable health in women and infants through public health surveillance, research, leadership, and partnership to move science to practice. In carrying out this mission, the Division of Reproductive Health: 1) Enhances the ability of others to identify and address male and female reproductive issues and infant health issues by providing technical assistance, consultation, and training worldwide; 2) supports national and state-based surveillance systems to monitor trends and investigate health issues; 3) conducts epidemiologic, behavioral, demographic and health services research; and 4) works with partners to translate research findings into health care practice, public health policy, and health promotion strategies.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

PRAMS: The Pregnancy Risk Assessment Monitoring System, is a surveillance project of the Centers for Disease Control and Prevention (CDC) and state health departments. PRAMS collects state-specific, population-based data on maternal attitudes and experiences before, during, and shortly after pregnancy. PRAMS provides data for state health officials to use to improve the health of mothers and infants; allows CDC and the states to monitor changes in maternal and child health indicators (e.g., unintended pregnancy, prenatal care, breastfeeding, smoking, drinking, infant health); and enhances information from birth certificates used to plan and review state maternal and infant health programs. The PRAMS sample is chosen from all women who had a live birth recently, so findings can be applied to the state's entire population of women who have recently delivered a live-born infant. PRAMS not only provides state-specific data but also allows comparisons among participating states because the same data collection methods are used in all states. SID/SUID (Sudden infant Death/Sudden Unexplained Infant Death): The SUID Case Registry aims to generate public health surveillance information about SUID at the national, state, and local levels that is more detailed than what is currently available. Instead of creating an entirely new system, the SUID Case Registry enhances the National Center for Child Death Review program and their Case Reporting System. The SUID Case Registry generates public health surveillance information that can comprehensively describe the circumstances and events surrounding SUID cases. This will allow researchers, medicolegal investigators, and program prevention planners to better understand characteristics associated with SUID, evaluate case investigation practices, and ultimately prevent infant deaths. Validation of Prenatal Substance Use Screening Tools: The purpose of this research is to validate and compare the performance of the most promising substance abuse screening tools that are already available in the literature (for example, the 4Ps-plus, the 5Ps, the Substance Use Risk Profile Pregnancy Scale (SURP-P), the CRAFFT, the NIDA Quick Screen) and can be used among pregnant women seeking medical services (e.g. antenatal or delivery care) in clinical settings in the United States. Medicaid Expansion and Reproductive Health Care for Women: The intent of this FOA is to study the use of medical services and health outcomes among low-income women of reproductive age (15-44 years), before and after expansion of Medicaid eligibility. This research will require linkage of state Medicaid data with other key maternal and child health datasets including, but not limited to, birth certificates, death certificates, and hospital discharge data. Perinatal Quality Collaboratives: This FOA will support states to enhance the capabilities of state-based perinatal quality collaboratives to improve the quality of perinatal care in their states, including but not limited to: reducing early elective deliveries, increasing use and documentation of use of antenatal

ASSISTANCE LISTINGS DESCRIPTIONS

steroids, increasing breastfeeding rates, and reducing central line-associated blood stream infections in neonates. Module B will continue to support the work of the 3 states that have successfully expanded their Perinatal Quality Collaborative through an existing FOA, CDC-RFA- DP11-1110, that ends September 29, 2014, and will support expansion of PQC projects and formal mentoring and capacity building for Module A awardees. Maternal and Child Health Capacity Building: The program promotes and improves the health and well-being of women, children, and families by building capacity at state, local, and tribal levels and to use and apply sound epidemiologic research and scientific information to maternal and child health programs and policies through collaborations with partners. Special Interest Project (SIP)/Progestin contraception and HIV risk: Clinical and laboratory follow-up of a cohort of HIV-infected and uninfected women: The purpose of this SIP is to establish a cohort of HIV-infected and HIV-uninfected women on different types of progestin-containing contraception to assess differences in women's continuation with a given method and the effects of long-term progestin use on markers of HIV risk and efficacy of ART. Also the project will support laboratory studies to analyze the effects of progestin on HIV shedding, inflammatory/immune markers in the genital tract, and the interaction of progestin with antiretroviral therapy on contraceptive and ART efficacy. Objectives in the topic area of Family Planning and HIV Prevention intend to Increase the proportion of pregnancies that are intended; increase the proportion of sexually experienced persons who received reproductive health services; reduce pregnancy rates among adolescent females; and reduce the rate of HIV transmission among adolescents and adults. Teen Pregnancy Prevention: The program is supporting public and private entities to fund medically accurate and age appropriate evidence-based or innovative program models to reduce teen pregnancy. The purpose of the program is to reduce teen pregnancy by working directly with publicly funded clinics to increase access to and use of reproductive health services among vulnerable youth. Activities include building the capacity of staff and clinical providers, establishing partnerships with youth-serving systems, and developing communication efforts. The primary target population is 15- to 19-year-olds, the age group among whom the majority of teen births occur; however, since the Society of Adolescent Health and Medicine and the United Nations Family Planning Association define adolescents as 15-24, the target age group may be expanded. Development and Testing of a Clinic-Based Intervention to Increase Dual Protection against Unintended Pregnancy and STDs among High Risk Female Teens: The purpose of this funding opportunity is to develop and evaluate a clinic-based intervention addressing access to, motivation for, and adherence to dual protection strategies that concurrently protect against unintended pregnancies and sexually transmitted diseases (STDs), including human immunodeficiency virus (HIV) among high risk 15-19 year old females.

93.958 Block Grants for Community Mental Health Services

Mental Health Block Grant (MHBG),

FEDERAL AGENCY:

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES
ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF
AUTHORIZATION:

Public Health Service Act, Subpart I and III, Title XIX, Part B

OBJECTIVES:

To provide financial assistance to States and Territories to enable them to carry out the State's plan for providing comprehensive community mental health services to adults with a serious mental illness and to children with a serious emotional disturbance; monitor the progress in implementing a comprehensive community based mental health system; provide technical assistance to States and the Mental Health Planning Council that will assist the States in planning and implementing a comprehensive community based mental health system.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Funds may be used at the discretion of the State to achieve the described objectives except for certain requirements. State plans must meet prescribed criteria. Services under the plan will be provided only through appropriate, qualified community programs (which may include community mental health centers, child mental-health programs, psychosocial rehabilitation programs, mental health peer-support programs and mental-health primary consumer- directed programs). Services under the plan will be provided through community mental health centers only if the

93.961 One-Time Funding in Support of the Vermont All-Payer ACO Model

FEDERAL AGENCY:

CENTERS FOR MEDICARE AND MEDICAID SERVICES, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Social Security Act, section 1115A

OBJECTIVES:

The purpose of this single source funding opportunity for the One-Time Funding in Support of Vermonts All-Payer ACO Model (Model) cooperative agreement is to provide Vermont with the start-up costs of the Model to assist Vermont in accomplishing the health outcomes, financial, and ACO scale targets required of Vermont under the Model. A single-source award to the Agency for Human Services will enable CMS to expeditiously provide assistance to Vermont for the following specific activities: connect Medicare Fee-for-Service beneficiaries with community-based resources, coordinate transitions across care settings with appropriate involvement of the Medicare Fee-for-Service beneficiary's primary care provider, coordinate care across providers, support health promotion and self-management by Medicare Fee-for-Service beneficiaries, and support practice improvement and transformation. These activities are necessary for Vermont to achieve the goals of the Model. We note that the other components of the Model (e.g., Vermont-specific Medicare ACO initiative and statewide health outcomes, financial, and ACO scale targets) are governed by a separate State Agreement into which Vermont and CMS have entered.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

* Connect patients with community-based resources. Examples include the following.* Develop and maintain up-to-date local information about formal and informal resources beyond those covered by Medicare, including peer and community-based programs.* Assist and support access to community resources based on individual patient needs and goals. Community resources include transportation services for patients with restricted mobility, nutritional counseling and support, housing subsidies, and food assistance.* Coordinate transitions across care settings with appropriate involvement of the patient's primary care provider. Examples include the below.* Develop and maintain collaborative relationships between providers such as hospital emergency departments, hospital discharge departments, and primary care providers.* Reconcile medication.* Plan follow-up with primary care provider and other necessary providers.* Review post-discharge care management plan with patient.* Coordinate care across providers. Examples include the following.* Schedule appointments and perform outreach to support attendance at scheduled treatment and human services appointments.* Monitor treatment progress, implementation of the care management plan, and medication adherence.* Coordinate with other providers to monitor individuals health status and participation in treatment.* Support health promotion and self-management by patients. Examples include the following.* Provide health education specific to a patient's chronic conditions.* Identify health and life goals and develop of self-management plans with the patient.* Provide health promoting lifestyle interventions including but not limited to nutritional counseling, obesity reduction, and increasing physical activity.* Teach patients to use their durable medical equipment.* Review medications.* Ensure patients are following self-management plans.* Support practice improvement and transformation. Examples include the below.* Meet nationally recognized patient medical home standards.* Respond to data to reduce variation and improve care.* Collaborate with community-based care coordinators to identify and link community-based services for high risk patients.

Applicant Eligibility:

Intrastate; This single source funding opportunity provides Vermont with the necessary start-costs of the Model and is open to Vermonts Agency for Human Services (Agency). The Agency is uniquely positioned to meet the objectives of this funding opportunity based on its existing knowledge of the Model, its regulatory authority over healthcare in Vermont and its role in administering the Vermont All-payer ACO Model, its existing partnerships and collaborations with Vermont providers, and its resources and ability to deploy the funding immediately. Knowledge of the Model: the Agency is intimately familiar with the objectives of the Model. The Agency was a key member of the discussions between Vermont and CMS during the development of the Model; the Agency's Secretary and staff dedicated significant time, energy, and resources over the past year in partnering with CMS to establish the Model's financial, health outcomes, and ACO scale targets. This existing familiarity and knowledge of the Model will help the Agency to expediently deploy the upfront investment in the Model offered under this funding opportunity announcement. Authority and role in administering the Model: The Agency is responsible for ensuring that changes in Vermont's health system improve the conditions and well-being of Vermonters. The Agency has broad Vermont healthcare authority to improve the health of Vermonters and control the rate of growth in healthcare costs. Additionally, the Agency is a signatory to the Vermont All-payer ACO Models State Agreement and will be supporting the State in achieving its obligations under the State Agreement. The Agency can effectively complement this funding opportunity with its existing authority and role in administering the Model to ensure the funding is effectively used in achieving the Model's goals. Existing partnership and collaboration: The Agency is located in Vermont and has existing relationships and a history of collaboration with Vermont providers and community-based resources that would benefit from this funding opportunity. The Agency has also been working with these stakeholders for their input through the development of the Model. Resources and ability to implement immediately: The Agency has the staff to implement this award immediately to support providers engaging in care coordination and linking beneficiaries to community-based resources.

Beneficiary Eligibility:

State; CMS is committed to achieving better care for individuals, better health for populations, and reduced expenditures for Medicare, Medicaid, and CHIP. Through the Innovation Center, CMS strives towards these goals by testing innovative payment and service delivery models. CMS believes that states can be critical partners of the federal government and other health care payers to facilitate the design, implementation, and evaluation of community-centered health systems that can deliver significantly improved cost, quality, and population health performance results for all state residents, including Medicare, Medicaid, and CHIP beneficiaries. States have policy and regulatory authorities, as well as ongoing relationships with commercial healthcare payers, health plans, and providers that can accelerate delivery system reform. CMS has previously partnered with states to accelerate delivery system reform through initiatives such as the State Innovations Model (SIM). SIM provides state-based healthcare transformation efforts with funding to test the ability of states to utilize policy and regulatory levers to accelerate multi-payer health care transformation. Selected states have been working with state-based payers, including Medicaid and commercial payers, and providers to design and implement care delivery and payment reform. States participating in SIM were selected through two rounds of public Funding Opportunity Announcements released on August 23, 2012 (Round 1) and May 22, 2014 (Round 2). Additionally, CMS has released guidance to SIM state participants in which CMS indicated that in certain instances it will consider state proposals for Medicare's alignment with state multi-payer payment and care delivery models. According to that guidance, CMS indicated that CMS would assess such proposals with consideration of the following principles: 1) patient-centered, 2) accountable for total cost of care, 3) transformative, 4) broad-based, 5) feasible to implement, and 6) feasible to evaluate. Vermont was one state that approached CMS with a desire for Medicare's alignment with the states payment and care delivery model, and Vermont publicly released its proposal on January 25, 2016. CMS reviewed Vermont's proposal and determined that it met the requirements necessary to explore in detail a potential Vermont-specific model. In October 2016, CMS and the State of Vermont entered into a State Agreement on the Vermont All-payer ACO Model. Under the Model, CMS will test whether health and care delivery for Vermont residents improve and healthcare expenditures for beneficiaries across payers (including Medicare fee-for-service, Vermont Medicaid, Vermont

ASSISTANCE LISTINGS DESCRIPTIONS

Commercial Plans, and Vermont Self-insured Plans) decrease if a) the aforementioned payers offer Vermont ACOs risk-based arrangements tied to health outcomes and healthcare expenditures; b) the majority of Vermont providers and/or suppliers enter into such risk-based arrangements; and c) the majority of Vermont residents across payers are aligned to an ACO bound by such arrangements. Start-up funding through a Cooperative Agreement will assist Vermont in achieving the above goals of the Model. As part of the Model, Vermont providers will participate in a Vermont-specific Medicare ACO initiative (the Vermont Medicare ACO Initiative), and CMS will provide \$9.5M in start-up costs to assist Vermont providers with care coordination and bolster their collaboration with community-based resources. In return, Vermont commits to achieving statewide health outcomes, financial, and ACO scale (percentage of Vermont residents aligned to an ACO) targets both for Medicare and across all significant healthcare payers. CMS believes that care coordination and collaboration with community-based resources will be necessary in order to achieve the financial, health outcomes, and ACO scale targets required under the Model. The start-up costs of the Model that CMS is providing to Vermont through a Cooperative Agreement will support such care coordination and collaboration with community-based resources, and will better enable Vermont to achieve the Models financial, health outcomes, and ACO scale targets.

Credentials/Documentation:

Employer Identification Number: All applicants must have a valid Employer Identification Number (EIN) assigned by the Internal Revenue Service. **Dun and Bradstreet (D&B) Data Universal Numbering System (DUNS number):** All applicants must have a Dun and Bradstreet (D&B) Data Universal Numbering System (DUNS) number in order to apply. The DUNS number is a nine-digit identification number that uniquely identifies business entities. Obtaining a DUNS number is free. To obtain a DUNS number, access the following website: www.dunandbradstreet.com or call 1-866-705-5711. See Section IV, Application and Submission Information, for more information on obtaining a DUNS number. **System for Award Management (SAM)** All applicants must register in the System for Award Management (SAM)* database (<https://www.sam.gov/portal/public/SAM/>) in order to be able to submit an application at <http://www.grants.gov>. In order to register, applicants must provide their DUNS and EIN numbers. Each year, organizations and entities, registered to apply for Federal grants through Grants.gov must renew their registration with SAM. Each year organizations and entities must renew their registration with SAM. Failure to renew SAM registration prior to application submission will prevent an applicant from successfully applying via Grants.gov. Similarly, failure to maintain an active SAM registration during the application review process can prevent CMS from issuing your agency an award under this program. Applicants should begin the SAM registration process as soon as possible after the announcement is posted to ensure that it does not impair your ability to meet required submission deadlines. Applicants must successfully register with SAM prior to submitting an application or registering in the Federal Funding Accountability and Transparency Act Sub-award Reporting System (FSRS) as a prime awardee user; awardees may make sub-awards only to entities that have DUNS numbers. Organizations must report executive compensation as part of the registration profile at <https://www.sam.gov/portal/public/SAM/> by the end of the month following the month in which this award is made, and annually thereafter (based on the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109-282), as amended by Section 6202 of Public Law 110-252 and implemented by 2 CFR Part 170). 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. **Application Materials:** Application materials will be available for download at <http://www.grants.gov>. Please note that HHS requires applications for all announcements to be submitted electronically through <http://www.grants.gov>. For assistance with <http://www.grants.gov>, contact support@grants.gov or 1-800-518-4726. At Grants.gov, applicants will be able to download a copy of the application packet, complete it off-line, and then upload and submit the application via the Grants.gov website. Specific instructions for applications submitted via <http://www.grants.gov>:* You may access the electronic application for this project

at <http://www.grants.gov>. You must search the downloadable application page by the CFDA number.* At the <http://www.grants.gov> website, you will find information about submitting an application electronically through the site, including the hours of operation. HHS strongly recommends that you do not wait until the application due date to begin the application process through <http://www.grants.gov> because of the time needed to complete the required registration steps.* The applicant must be registered in the System for Award Management (SAM) database in order to be able to submit the application. Applicants are encouraged to register early, and must have their DUNS and EIN/TIN numbers in order to do so.* **Authorized Organizational Representative:** The Authorized Organizational Representative (AOR) who will officially submit an application on behalf of the organization must register with grants.gov for a username and password. AORs must complete a profile with Grants.gov using their organizations DUNS Number to obtain their username and password at http://grants.gov/applicants/get_registered.jsp. AORs must wait one business day after successful registration in SAM before entering their profiles in Grants.gov. Applicants should complete this process as soon as possible after successful registration in SAM to ensure this step is completed in time to apply before application deadlines.* When an AOR registers with Grants.gov to submit applications on behalf of an organization, that organizations E-Biz POC will receive an email notification. The email address provided in the profile will be the email used to send the notification from Grants.gov to the E-Biz POC with the AOR copied on the correspondence.* The E-Biz POC must then login to Grants.gov (using the organizations DUNS number for the username and the special password called M-PIN) and approve the AOR, thereby providing permission to submit applications.* Any files uploaded or attached to the Grants.gov application must be PDF file format and must contain a valid file format extension in the filename. Even though Grants.gov allows applicants to attach any file formats as part of their application, CMS restricts this practice and only accepts PDF file formats. Any file submitted as part of the Grants.gov application that is not in a PDF file format, or contains password protection, will not be accepted for processing and will be excluded from the application during the review process. In addition, the use of compressed file formats such as ZIP, RAR, or Adobe Portfolio will not be accepted. The application must be submitted in a file format that can easily be copied and read by reviewers. It is recommended that scanned copies not be submitted through Grants.gov unless the applicant confirms the clarity of the documents. Pages cannot be reduced in size, resulting in multiple pages on a single sheet, to avoid exceeding the page limitation. All documents that do not conform to the above specifications will be excluded from the application materials during the review process.* After you electronically submit your application, you will receive an acknowledgment from Grants.gov that contains a Grants.gov tracking number. CMS will retrieve your application package from Grants.gov. Please note that applicants may incur a time delay before they receive acknowledgment that the application has been accepted by the Grants.gov system. Applicants should not wait until the application deadline to apply because notification by Grants.gov that the application is incomplete may not be received until close to or after the application deadline, eliminating the opportunity to correct errors and resubmit the application. Applications submitted after the deadline, as a result of errors on the part of the applicant, will not be accepted.* After CMS retrieves your application package from Grants.gov, a return receipt will be emailed to the applicant contact. This will be in addition to the validation number provided by Grants.gov. Applications cannot be accepted through any email address. Full applications can only be accepted through <http://www.grants.gov>. Full applications cannot be received via paper mail, courier, or delivery service. All grant applications must be submitted electronically and be received through <http://www.grants.gov> by 3:00 pm Eastern Daylight Time on the applicable due date. Applications not successfully submitted to Grants.gov by the due date and time will not be eligible for review. All applications will receive an automatic time stamp upon submission and applicants will receive an email reply acknowledging the applications receipt. Please be aware of the following: 1) Search for the application package in Grants.gov by entering the CFDA number. This number is shown on the cover page of this announcement. 2) If you experience technical challenges while submitting your application electronically, please contact Grants.gov Support directly at: www.grants.gov/customersupport or (800) 518-4726. Customer Support is available to address questions 24 hours a day, 7 days a week (except on Federal holidays). 3) Upon contacting Grants.gov, obtain a tracking number as proof of contact. The tracking number is helpful if there are technical issues that cannot be resolved. To be considered timely, applications must

The minimum program progress narrative report elements are as follows:i.Program Name;ii.Project Director Name;iii.Reporting Period;iv.Data and Reporting Requirements (refer to Section I.6.b Data and Reporting Requirements for the required data elements);v.Additional Metrics Proposed by Applicant (if applicable);vi.Budget Status - include amounts for planned expenditure, actual expenditure, and deficit/surplus;vii.Project description - short summary;viii.Progress on Goals Status on goals that were previously projected to be completed in this reporting period, including explanation of and remediation plans for any goals not met; ix.Accomplishments Specific tasks that were accomplished during this reporting period;x.Project Goals - Goals projected to be completed during the next reporting period; andxi.Issues - Issues that must be addressed for the project to be successful.Quarterly progress reports are due 30 days after the end of the quarterly period. The final progress report is due 90 days after the end of the project period. The Grantee must also agree to cooperate with any federal evaluation of the Model. The Federal Financial Report (FFR or Standard Form 425) has replaced the SF-269, SF-269A, SF-272, and SF-272A financial reporting forms. Recipient must utilize the FFR to report cash transaction data, expenditures, and any program income generated (if applicable for the program). As detailed above, award recipient must agree to cooperate with any federal evaluation of the model and performance results and provide required quarterly and final reports in a form prescribed by CMS. Reports will be submitted electronically. These reports will include how cooperative agreement funds were used, describe project or model progress, and describe any barriers, delays, and measurable outcomes. CMS will provide the format for project or model reporting and technical assistance necessary to complete required report forms. Successful applicant must also agree to respond to requests that are necessary for the evaluation of the Model Design, pre-testing assistance, or Model Testing efforts and provide data on key elements of model performance and on results from the cooperative agreement activities. As detailed above. Successful applicants must submit reports to Federal Funding Report and meet Payment Management System reporting requirements. Vermont will submit to CMS quarterly reports on the statewide financial targets and annual reports on the statewide health outcomes and ACO scale targets as stipulated outside of this cooperative agreement but in the Models State Agreement. CMS will continuously monitor Vermonts performance on the statewide financial, health outcomes, and ACO scale targets as stipulated under the Models State Agreement.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Award recipient is required to maintain proper records including financial records, supporting documents, statistical records, and all other records pertinent to the program for the duration of the award, and retain these for a minimum of three years. If any litigation, claim, negotiation, audit, or other action involving the award has been started before the expiration of the three years, the records should be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular three year period, whichever is later.

93.965 Coal Miners Respiratory Impairment Treatment Clinics and Services

Black Lung Clinics Program (BLCP) and the Black Lung Center of Excellence (BLCE),

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Sec. 427(a) of the Federal Mine Safety and Health Act of 1977, as amended (30 U.S.C. 937)

OBJECTIVES:

The Black Lung Clinics Program, aims to reduce the morbidity and mortality associated with occupationally-related coal mine dust lung disease (CMDLD) through the provision of medical, outreach, educational, and benefits counseling services to coal miners and their families. Under the Black Lung Center of Excellence, the primary objective is to strengthen the operations of the BLCP awardees and their ability to examine and treat respiratory and pulmonary impairments in active and inactive coal miners through improved data collection and analysis and to contribute to the body of knowledge on the health status and needs of U.S. coal miners.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants

USES AND USE RESTRICTIONS:

USES: Screening, diagnosis and treatment services to active, inactive, disabled, and retired coal miners, including provision of the following services: education and outreach; medical case management; compensation counseling; DOL medical exams in accordance with the authorizing legislation; patient data collection and analysis; and other treatments that may relieve symptoms.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); The BLCP is open to any state or public or private entity that meets the requirements of the program. This includes faith-based and community-based organizations as well as federally-recognized Tribes and Tribal organizations. The requirements may be met by a state, a single entity in a state, or a newly-formed consortium within a state. In addition to the 50 states and the District of Columbia, applicants can be located in the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, the Territories of the Virgin Islands, Guam, American Samoa, the Compact Free Association Jurisdictions of the Republic of the Marshall Islands, the Republic of Palau, and the Federated States of Micronesia, if they meet eligibility requirements. Foreign entities are not eligible for HRSA awards, unless the authorizing legislation specifically authorizes awards to foreign entities or the award is for research. This exception does not extend to research training awards or construction of research facilities. The BLCE is open to BLCP recipients awarded funding under the HRSA-17-023/Black Lung Clinics Program notice of funding opportunity and that are involved in the operation of fixed-site and/or mobile clinic facilities for the analysis, examination and treatment of respiratory and pulmonary impairments in active and inactive coal miners, assuming they meet the requirements of the BLCE.

Beneficiary Eligibility:

Physically Afflicted (e.g. TB, Arthritis, Heart Disease); Per 42 CFR Part 55a, a coal miner is defined as: Any individual who works or has worked in or around a coal mine or coal preparation facility in the extraction or preparation of coal. The term also includes an individual who works or has worked in coal mine construction or transportation in and around a coal mine, to the extent that the individual was exposed to coal dust as a result of employment.

Credentials/Documentation:

Applicants should review the individual HRSA notice of funding opportunity issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Data on Performance Measures must be included in the Annual Performance Report. Cash reports are not applicable. Financial status reports are required no later than 90 days after the end of each budget period. Performance monitoring is not applicable. Quarterly expenditure reports required, no more than 30 days after the end of each quarter. Monitoring activities include routine and ongoing communication between CDC and awardees, site visits, and awardee reporting (including work plans, performance, and financial reporting). Consistent with applicable grants regulations and policies, CDC expects the following to be included in post-award monitoring for grants and cooperative agreements: Tracking awardee progress in achieving the desired outcomes. Ensuring the adequacy of awardee systems that underlie and generate data reports. Creating an environment that fosters integrity in program performance and results. Monitoring may also include the following activities: Ensuring that work plans are feasible based on the budget and consistent with the intent of the award. Ensuring that awardees are performing at a sufficient level to achieve outcomes within stated timeframes. Working with awardees on adjusting the work plan based on achievement of outcomes, evaluation results and changing budgets. Monitoring performance measures (both programmatic and financial) to assure satisfactory performance levels.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

None

Records:

Financial records, including documents to support entries on accounting records and to substantiate charges to each grant, must be kept readily available for review by personnel authorized to examine HHS grant accounts. Records must be maintained for three years after the end of a budget period. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

93.968 Funding in Support of the Pennsylvania Rural Health Model

N/A.

FEDERAL AGENCY:

CENTERS FOR MEDICARE AND MEDICAID SERVICES, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

Social Security Act, section 1115A

OBJECTIVES:

The purpose of this single source funding opportunity for the Funding in Support of Pennsylvanias Rural Health Model (Model) cooperative agreement is to provide Pennsylvania with the start-up and initial implementation funding component of the Model to assist Pennsylvania in accomplishing the health outcomes, financial, and rural hospital scale targets required of Pennsylvania under the Model. A single-source award to the State of Pennsylvania through first, the Pennsylvania Department of Health and later, the Rural Health Redesign Center once legislatively established, will enable CMS to expeditiously provide assistance to Pennsylvania for the following specific activities: model oversight, global budget administration, data analytics, technical assistance, and quality assurance. These activities are necessary for Pennsylvania to achieve the goals of the Model. We note that the other components of the Model (e.g., health outcomes, financial, and rural hospital scale targets) are governed by a separate State Agreement into which Pennsylvania and CMS have entered

TYPES OF ASSISTANCE:

ASSISTANCE LISTINGS DESCRIPTIONS

Cooperative Agreements

USES AND USE RESTRICTIONS:

Model Oversight: provide oversight, approve global budgets and transformation plans. Advise on and approve changes to operational and payment mechanisms. Global Budget Administration: Set the precise methodology to set the global budgets for each participating rural hospital, with contributions from all payers participating in the model. Data Analytics: perform ongoing reporting and analysis in support of Model financial targets, population health outcomes and quality metrics. Provide stakeholders with regular reports to inform decision-making. Securely collect and store data from payers and providers. Clean data for performance reporting and budget calculation. Technical Assistance: provide strategic and operational technical assistance to support care delivery transformation. Convene hospitals to share best practices on care management and implementation. Quality Assurance: provide an annual assessment of compliance with transformation plan and global budget targets. Recommend corrective action plans where needed. Contract with an independent outcome evaluation group to provide board and CEO with rigorous evaluation of Models progress against population health, quality of care, and cost targets. Engage stakeholders through an advisory panel for input on program policy and outcomes.

Applicant Eligibility:

State; This single source funding opportunity provides Pennsylvania with the necessary start-up funding for the Model and is open to Pennsylvanias Department of Health and later the Rural Health Redesign Center. First, the Pennsylvania Department of Health is uniquely positioned as the initial applicant under this funding opportunity to meet the objectives of this funding opportunity based on its existing knowledge of the Model, its regulatory authority over healthcare in Pennsylvania, and its capacity to administer the Pennsylvania Rural Health Model including operationalizing the Rural Health Redesign Center, and its existing partnerships and collaborations with Pennsylvania providers. Knowledge of the Model: The Pennsylvania Department of Health is intimately familiar with the objectives of the Model. Pennsylvanias Department of Health was a key member of the discussions between Pennsylvania and CMS during the development of the Model; the Pennsylvanias Secretary of Health and staff dedicated significant time, energy, and resources over the past year in partnering with CMS to establish the Models financial, health outcomes, and rural hospital scale targets. This existing familiarity and knowledge of the Model will help the Pennsylvania Department of Health to expediently deploy the start-up funding offered under this funding opportunity announcement and successfully operationalize the Rural Health Redesign Center. Authority and role in administering the Model: The Pennsylvania Department of Health is responsible for ensuring that changes in Pennsylvanias health system improve the conditions and well-being of Pennsylvanians. The Pennsylvania Department of Health has broad healthcare authority to administer the payments under the model and to improve the health of Pennsylvanians and control the rate of growth in healthcare costs. Additionally, the Pennsylvania Department of Health is a signatory to the Pennsylvania Rural Health Models State Agreement and will be supporting the State in achieving its obligations under the State Agreement. Existing partnership and collaboration: The Pennsylvania Department of Health is located in Pennsylvania and has existing relationships and a history of collaboration with Pennsylvania providers, payers, and community-based resources that would benefit from this funding opportunity. Pennsylvanias Department of Health has also been working with these stakeholders for their input and participation throughout the development of the Model. Second, the Rural Health Redesign Center as the second applicant, will also be uniquely positioned to meet the objectives of this funding opportunity. Pennsylvanias Department of Health will legislatively create the Rural Health Redesign Center as an independent entity with authority over the implementation of the Pennsylvania Rural Health Model. The RHRC will approve hospital transformation plans, global budgets, exception adjustments and changes to operational and payment mechanisms associated with the Model as defined under the State Agreement. The RHRC will also establish and build strong relationships with Pennsylvania rural hospitals as the rural hospitals implement the Model. The RHRC will continue to strengthen these relationships as it implements the activities required under the Model. Similar to Pennsylvanias Department of Health, the RHRC will be uniquely positioned to support this Model as it will be legislatively created solely to provide implementation support for the Model.

Beneficiary Eligibility:

State; CMS is committed to achieving better care for individuals, better health for

populations, and reduced expenditures for Medicare, Medicaid, and CHIP. Through the Innovation Center, CMS strives towards these goals by testing innovative payment and service delivery models. CMS believes that states can be critical partners of the federal government and other health care payers to facilitate the design, implementation, and evaluation of community-centered health systems that can deliver significantly improved cost, quality, and population health performance results for all state residents, including Medicare, Medicaid, and CHIP beneficiaries. States have policy and regulatory authorities, as well as ongoing relationships with commercial healthcare payers, health plans, and providers that can accelerate delivery system reform. CMS has previously partnered with states to accelerate delivery system reform through initiatives such as the State Innovations Model (SIM) program. SIM provides state-based healthcare transformation efforts with funding to test the ability of states to utilize policy and regulatory levers to accelerate multi-payer health care transformation. Selected states have been working with state-based payers, including Medicaid and commercial payers, and providers to design and implement care delivery and payment reform. States participating in SIM were selected through two rounds of public Funding Opportunity Announcements released on August 23, 2012 (Round 1) and May 22, 2014 (Round 2). Additionally, CMS has released guidance to SIM state participants in which CMS indicated that in certain instances it will consider state proposals for Medicares alignment with state multi-payer payment and care delivery models. According to that guidance, CMS would assess such proposals with consideration of the following principles: 1) patient-centered, 2) accountable for total cost of care, 3) transformative, 4) broad-based, 5) feasible to implement, and 6) feasible to evaluate. Pennsylvania was one state that approached CMS with a desire for Medicares alignment with the states payment and care delivery model, and Pennsylvania submitted its proposal to CMS on May 23, 2016. CMS reviewed Pennsylvanias proposal and determined that it met the requirements necessary to explore in detail a potential Pennsylvania-specific model. CMS, the Governor of Pennsylvania and Pennsylvanias Department of Health, will enter into a State Agreement on the Pennsylvania Rural Health Model. Under the Model, CMS will test the effect of deliberate care delivery transformation of rural acute care hospitals and critical access hospitals (CAHs) on quality and costs of care. The Model places these hospitals on all-payer, prospective global budgets for inpatient and outpatient services. As part of the State Agreement, Pennsylvania committed to legislatively creating the Rural Health Redesign Center (the RHRC) to operate the Model. This funding opportunity offers \$5M in start-up funding to the Pennsylvania Department of Health to operationalize the RHRC. The RHRC will be the central independent entity operating the Model and supporting hospitals through technical assistance, data analytics, monitoring, and evaluation. This funding opportunity also offers the RHRC (once operationalized by the Pennsylvania Department of Health) to apply for an additional \$10 million to begin implementing activities under the Model. In return, Pennsylvania commits to achieving health outcomes, financial, and Rural Hospital scale (number of Rural Hospitals participating in the Model) targets both for Medicare and across all significant healthcare payers as defined in the State Agreement. CMS believes that model oversight, global budget administration, data analytics, technical assistance, and quality assurance will be necessary in order to implement the Model and achieve the financial, health outcomes, and rural hospital scale targets required under the Model. First, CMS will provide start-up funding to the Pennsylvania Department of Health for 12 months from the date of award. Then, CMS will provide the Rural Health Redesign Center, through a separate cooperative agreement award, with initial implementation funding for 36 months from the date of award. These cooperative agreement awards will support operationalizing the Rural Health Redesign Center and initial Model implementation efforts, and will better enable Pennsylvania to achieve the Models financial, health outcomes, and rural hospital scale targets as defined under the State Agreement

Credentials/Documentation:

Employer Identification Number: All applicants must have a valid Employer Identification Number (EIN) assigned by the Internal Revenue Service. Dun and Bradstreet (D&B) Data Universal Numbering System (DUNS number): All applicants must have a Dun and Bradstreet (D&B) Data Universal Numbering System (DUNS) number in order to apply. The DUNS number is a nine-digit identification number that uniquely identifies business entities. Obtaining a DUNS number is free. To obtain a DUNS number, access the following website: www.dunandbradstreet.com or call 1-866-705-5711. See Section IV, Application and Submission Information, for more information on obtaining a DUNS number.

ASSISTANCE LISTINGS DESCRIPTIONS

System for Award Management (SAM) All applicants must register in the System for Award Management (SAM)* database

(<https://www.sam.gov/portal/public/SAM/>) in order to be able to submit an application at <http://www.grants.gov>. In order to register, applicants must provide their DUNS and EIN numbers. Each year, organizations and entities, registered to apply for Federal grants through Grants.gov must renew their registration with SAM. Each year organizations and entities must renew their registration with SAM. Failure to renew SAM registration prior to application submission will prevent an applicant from successfully applying via Grants.gov. Similarly, failure to maintain an active SAM registration during the application review process can prevent CMS from issuing your agency an award under this program. Applicants should begin the SAM registration process as soon as possible after the announcement is posted to ensure that it does not impair your ability to meet required submission deadlines. Applicants must successfully register with SAM prior to submitting an application or registering in the Federal Funding Accountability and Transparency Act Sub-award Reporting System (FSRS) as a prime awardee user; awardees may make sub-awards only to entities that have DUNS numbers. Organizations must report executive compensation as part of the registration profile at <https://www.sam.gov/portal/public/SAM/> by the end of the month following the month in which this award is made, and annually thereafter (based on the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109-282), as amended by Section 6202 of Public Law 110-252 and implemented by 2 CFR Part 170). 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications will be submitted electronically through GrantSolutions in response to the Funding Opportunity Announcement (FOA). Applications will be submitted electronically through GrantSolutions in response to the Funding Opportunity Announcement (FOA). Application Materials: Application materials will be available for download at <http://www.grants.gov>. Please note that HHS requires applications for all announcements to be submitted electronically through <http://www.grants.gov>. For assistance with <http://www.grants.gov>, contact support@grants.gov or 1-800-518-4726. At Grants.gov, applicants will be able to download a copy of the application packet, complete it off-line, and then upload and submit the application via the Grants.gov website. Specific instructions for applications submitted via <http://www.grants.gov>: You may access the electronic application for this project at <http://www.grants.gov>. You must search the downloadable application page by the CFDA number. At the <http://www.grants.gov> website, you will find information about submitting an application electronically through the site, including the hours of operation. HHS strongly recommends that you do not wait until the application due date to begin the application process through <http://www.grants.gov> because of the time needed to complete the required registration steps. The applicant must be registered in the System for Award Management (SAM) database in order to be able to submit the application. Applicants are encouraged to register early, and must have their DUNS and EIN/TIN numbers in order to do so. Authorized Organizational Representative: The Authorized Organizational Representative (AOR) who will officially submit an application on behalf of the organization must register with grants.gov for a username and password. AORs must complete a profile with Grants.gov using their organizations DUNS Number to obtain their username and password at http://grants.gov/applicants/get_registered.jsp. AORs must wait one business day after successful registration in SAM before entering their profiles in Grants.gov. Applicants should complete this process as soon as possible after successful registration in SAM to ensure this step is completed in time to apply before application deadlines. When an AOR registers with Grants.gov to submit applications on behalf of an organization, that organizations E-Biz POC will receive an email notification. The email address provided in the profile will be the email used to send the notification from Grants.gov to the E-Biz POC with the AOR copied on the correspondence. The E-Biz POC must then login to Grants.gov (using the organizations DUNS number for the username and the special password called M-PIN) and approve the AOR, thereby providing permission to submit applications. Any files uploaded or attached to the Grants.gov application must be PDF file format and must contain a valid file format extension in the filename. Even though Grants.gov allows applicants to attach any file formats as part of their

application, CMS restricts this practice and only accepts PDF file formats. Any file submitted as part of the Grants.gov application that is not in a PDF file format, or contains password protection, will not be accepted for processing and will be excluded from the application during the review process. In addition, the use of compressed file formats such as ZIP, RAR, or Adobe Portfolio will not be accepted. The application must be submitted in a file format that can easily be copied and read by reviewers. It is recommended that scanned copies not be submitted through Grants.gov unless the applicant confirms the clarity of the documents. Pages cannot be reduced in size, resulting in multiple pages on a single sheet, to avoid exceeding the page limitation. All documents that do not conform to the above specifications will be excluded from the application materials during the review process. After you electronically submit your application, you will receive an acknowledgement from Grants.gov that contains a Grants.gov tracking number. CMS will retrieve your application package from Grants.gov. Please note that applicants may incur a time delay before they receive acknowledgement that the application has been accepted by the Grants.gov system. Applicants should not wait until the application deadline to apply because notification by Grants.gov that the application is incomplete may not be received until close to or after the application deadline, eliminating the opportunity to correct errors and resubmit the application. Applications submitted after the deadline, as a result of errors on the part of the applicant, will not be accepted. After CMS retrieves your application package from Grants.gov, a return receipt will be emailed to the applicant contact. This will be in addition to the validation number provided by Grants.gov. Applications cannot be accepted through any email address. Full applications can only be accepted through <http://www.grants.gov>. Full applications cannot be received via paper mail, courier, or delivery service. All grant applications must be submitted electronically and be received through <http://www.grants.gov> by 3:00 pm Eastern Daylight Time on the applicable due date. Applications not successfully submitted to Grants.gov by the due date and time will not be eligible for review. All applications will receive an automatic time stamp upon submission and applicants will receive an email reply acknowledging the applications receipt. Please be aware of the following: 1) Search for the application package in Grants.gov by entering the CFDA number. This number is shown on the cover page of this announcement. 2) If you experience technical challenges while submitting your application electronically, please contact Grants.gov Support directly at: www.grants.gov/customersupport or (800) 518-4726. Customer Support is available to address questions 24 hours a day, 7 days a week (except on Federal holidays). 3) Upon contacting Grants.gov, obtain a tracking number as proof of contact. The tracking number is helpful if there are technical issues that cannot be resolved. To be considered timely, applications must be received by the published deadline date. However, a general extension of a published application deadline that affects all State applicants or only those in a defined geographical area may be authorized by circumstances that affect the public at large, such as natural disasters (e.g., floods or hurricanes) or disruptions of electronic (e.g., application receipt services) or other services, such as a prolonged blackout. This statement does not apply to an individual entity having internet service problems. In order for there to be any consideration there must be an effect on the public at large. Grants.gov complies with Section 508 of the Rehabilitation Act of 1973. If an individual uses assistive technology and is unable to access any material on the site including forms contained with an application package, they can email the Grants.gov contact center at support@grants.gov or call 1-800-518-4726. Form of Application Submission The application must include all contents described below, in the order indicated, and conform to the following specifications: o Use 8.5 x 11 letter-size pages (one side only) with 1 margins (top, bottom, and sides). Other paper sizes will not be accepted. This is particularly important because it is often not possible to reproduce copies in a size other than 8.5 x 11. o All pages of the project and budget narratives must be paginated in a single sequence. o Font size must be at least 12-point with an average of 14 characters per inch (CPI). o The Project Narrative must be double-spaced. o The Budget Narrative may be single-spaced and should follow the justifications and table formats provided in Appendix A, Guidance for Preparing a Budget Request and Narrative in Response to SF 424A. o Tables included within any portion of the application should have a font size of at least 12-point with a 14 CPI and may be single spaced. o The project abstract is restricted to a one-page summary which may be single-spaced. o The application may not exceed 45 pages. Although tables are counted towards the page limitation, the additional required documentation, including Standard Forms and Project Abstract is excluded from the page limitation. The following standard forms are found in the Grants Application

Award Procedure:

Applications will be forwarded to a review panel. The review panel will evaluate the proposal based on how well applicant addresses the evaluation criteria outlined in the FOA. Based on the advice of the review panel, the CMS selection official will approve the selected application and issue a Notice of Award. Successful applicant will receive a Notice of Award (NoA) signed and dated by the CMS Grants Management Officer that will set forth the amount of the award and other pertinent information. The award will also include standard Terms and Conditions. Applicant should be aware that special requirements could apply to cooperative agreement awards based on the particular circumstances of the effort to be supported and/or deficiencies identified by the review panel.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

The period of performance will be 12 months from the date of award for Pennsylvania Department of Health and 36 months from the date of award for the Rural Health Redesign Center. Method of awarding/releasing assistance: quarterly

Reports:

The Grantee must submit quarterly progress reports as well as a final progress report. CMS will provide a reporting template for all progress reports. Each quarterly progress report must include the information outlined below. A separate reporting template will be provided by CMS for the final progress report. The purpose of the final progress report is to summarize the grantees progress throughout the entire project period to include overarching lessons learned, unanticipated challenges or successes, etc. All reports must be submitted to www.grantsolutions.gov. The minimum program progress narrative report elements are as follows: i. Program Name; ii. Project Director Name; iii. Reporting Period; iv. Data and Reporting Requirements (refer to Section I.6.b Data and Reporting Requirements for the required data elements); v. Additional Metrics Proposed by Applicant (if applicable); vi. Budget Status - include amounts for planned expenditure, actual expenditure, and deficit/surplus; vii. Project description - short summary; viii. Progress on Goals Status on goals that were previously projected to be completed in this reporting period, including explanation of and remediation plans for any goals not met; ix. Accomplishments Specific tasks that were accomplished during this reporting period; x. Projected Goals - Goals projected to be completed during the next reporting period; and xi. Issues - Issues that must be addressed for the project to be successful. Quarterly progress reports are due 30 days after the end of the quarterly period. The final progress report is due 90 days after the end of the project period. The Grantee must also agree to cooperate with any federal evaluation of the Model. The Federal Financial Report (FFR or Standard Form 425) has replaced the SF-269, SF-269A, SF-272, and SF-272A financial reporting forms. Recipient must utilize the FFR to report cash transaction data, expenditures, and any program income generated (if applicable for the program). As detailed above, award recipient must agree to cooperate with any federal evaluation of the model and performance results and provide required

quarterly and final reports in a form prescribed by CMS. Reports will be submitted electronically. These reports will include how cooperative agreement funds were used, describe project or model progress, and describe any barriers, delays, and measurable outcomes. CMS will provide the format for project or model reporting and technical assistance necessary to complete required report forms. Successful applicant must also agree to respond to requests that are necessary for the evaluation of the Model Design, pre-testing assistance, or Model Testing efforts and provide data on key elements of model performance and on results from the cooperative agreement activities. As detailed above. Successful applicants must submit reports to Federal Funding Report and meet Payment Management System reporting requirements. Pennsylvania will submit to CMS quarterly reports on the financial targets and annual reports on the health outcomes and rural hospital participation and payer scale targets as stipulated outside of this cooperative agreement but in the Models State Agreement.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Award recipient is required to maintain proper records including financial records, supporting documents, statistical records, and all other records pertinent to the program for the duration of the award, and retain these for a minimum of three years. If any litigation, claim, negotiation, audit, or other action involving the award has been started before the expiration of the three years, the records should be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular three year period, whichever is later

93.969 PPHF Geriatric Education Centers

Geriatric Workforce Enhancement Program (GWEP),

FEDERAL AGENCY:

HEALTH RESOURCES AND SERVICES ADMINISTRATION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF
AUTHORIZATION:

GEC: Public Health Service Act, Title VII, Section 753(a), Health Professions Education Partnerships Act of 1998, Public Law 105-392 as amended by the Patient Protection and Affordable Care Act of 2010, Public Law 111-148., GWEP: Section 750 and 753(a) of the Public Health Service Act, Health Professions Education Partnerships Act of 1998, Public Law 105-392 as amended by the Affordable Care Act of 2010, Public Law 111-148; and Section 865 of the Public Health Service Act.

OBJECTIVES:

The purpose of this cooperative agreement program is to establish and operate geriatric education centers that will implement the Geriatric Workforce Enhancement Program (GWEP) to develop a health care workforce that maximizes patient and family engagement and improves health outcomes for older adults by integrating geriatrics with primary care. A GWEP: a) improves the training of health professionals and individuals in geriatrics, including geriatric residencies, traineeships, or fellowships; b) develops and disseminates curricula relating to the treatment of the health problems of elderly individuals; c) supports the training and retraining of faculty to provide instruction in geriatrics; d) supports continuing education of health professionals who provide geriatric care; e) provides students with clinical training in geriatrics in nursing homes, chronic and acute disease hospitals, ambulatory care centers, and senior centers; or f) establishes traineeships for individuals who are preparing for advanced education nursing degrees in geriatric nursing, long-term care, gero-psychiatric nursing or other nursing areas that specialize in the care of the elderly population. Special emphasis is on providing the primary care workforce with the knowledge and skills to care for older adults and on collaborating with community partners to address gaps in health care for older adults through individual, system, community, and population level changes. Interprofessional collaboration is an essential component of all project activities, and medicine must be one of the professions included in all interprofessional activities.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants

USES AND USE RESTRICTIONS:

Projects must develop collaborations with at least one non-profit community organization and one primary care facility to ensure integrated delivery systems. Grantees must use funds for the following activities: 1. Develop and implement integrated geriatrics and primary care health care delivery systems to provide clinical experiences for trainees with the goal of improving comprehensive, coordinated care for older adults; 2. Partner with, or create as appropriate, community-based outreach resource centers to address the learning and support needs of older adults, their families and their caregivers. Such programs must address local needs, taking into account available care settings, social resources, and community culture. Topics in addressing psychosocial needs, disease self-

management, patient engagement, and population health are encouraged; and 3. Provide training to individuals who will provide care to older adults within the context of the above focus areas. Categories of individuals may include: patients, families, caregivers, direct care providers, primary care providers, students, residents, fellows, and faculty. 4. In addition, projects may include Alzheimers disease and related dementias education and training for patients, families, caregivers, direct care providers, and health professions students, faculty, and providers. Restricted Uses: Student support through stipends, tuition, and fees from other funding sources is not eligible for support. The exception to this restriction is individuals who are preparing for advanced education nursing degrees in geriatric nursing, long-term care, gero-psychiatric nursing or other nursing areas that specialize in the care of the elderly population. These individuals are eligible for traineeship support. Funds may not be used for the constructions of buildings or the acquisition of land. Indirect costs under training awards to organizations other than State, local or American Indian tribal governments will be budgeted and reimbursed at 8 percent of modified total direct costs rather than on the basis of a negotiated rate agreement, and are not subject to upward or downward adjustment. Funds may not be used for trainee costs, the constructions of buildings or the acquisition of land.

93.981 Improving Student Health and Academic Achievement through Nutrition, Physical Activity and the Management of Chronic Conditions in Schools

Improving Student Health and Academic Achievement through Nutrition, Physical Activity and the Management of Chronic Conditions in Schools,

FEDERAL AGENCY:

CENTERS FOR DISEASE CONTROL AND PREVENTION, HEALTH AND HUMAN SERVICES, DEPARTMENT OF

AUTHORIZATION:

This program is authorized under sections 301(a) and 317(k)(2) of the Public Health Services Act.

OBJECTIVES:

This program supports evidence-based strategies and activities to reduce the risk of children and adolescents developing chronic disease in the future, manage chronic conditions prevalent in student populations (asthma, diabetes, epilepsy, food allergies, oral health) and improve academic success. Long-term outcomes include: (1) increasing the number of students who consume nutritious food and beverages, (2) increasing the number of students who participate in daily physical activity, and (3) reducing chronic health issues among students and improving health outcomes in schools.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Assistance can be used to pay for employee salaries, overheads, travel costs, and other expenses directly related to achievement of the strategies and activities listed in the FOA towards the purpose of fulfilling obligations related to providing technical assistance to CDC and its awardees. This assistance may be used to strengthen state education agencies and Local Education Areas infrastructure, professional development and training, and technical assistance to support program and policy implementation related to improving the school nutrition environment, physical education and physical activity, and managing chronic health conditions among students.

Applicant Eligibility:

Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; State; The intent of this funding opportunity announcement (FOA) is to improve the health and educational outcomes of youth/adolescents through the implementation of evidence-based strategies and activities within school settings. Funding eligibility is limited to state education agencies or equivalents since these agencies have the greatest likelihood of reaching Local Education Areas, schools and the youth/adolescents they serve

AUTHORIZATION:

Section 1848(s)(6) of the Social Security Act, as added by section 102 of the Medicare Access and Childrens Health Insurance Program Reauthorization Act of 2015.

OBJECTIVES:

In accordance with section 1848(s)(6) of the Social Security Act, as added by section 102 of the Medicare Access and Childrens Health Insurance Program Reauthorization Act of 2015, this funding opportunity will be used for developing, improving, updating or expanding quality measures for use in the Quality Payment Program under the Merit-Based Incentive Payment System and/or Advanced Alternative Payment Models. Recognizing the benefits of measure development by external stakeholders with

TYPES OF ASSISTANCE:

Formula Grants (Cooperative Agreements), Salaries and Expenses

USES AND USE RESTRICTIONS:

Funds are to be used for measure development activities to provide for a fully developed measure suitable for use in the CMS Quality Payment Program. Funds may be used to secure technical measure development expertise with external (to the recipient) experts. Funds should be used in accordance with generally accepted measure development principles.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Specialized group (e.g. health professionals, students, veterans); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Other private institutions/organizations; Anyone/general public; Clinical specialty societies, clinical professional organizations, patient advocacy organizations, educational institutions, independent research organizations, health systems, and other entities engaged in quality measure development. For this funding opportunity, the above categories are referenced collectively as entity or entities. The language, engaged in quality measure development, pertains to each of the above referenced entities. Entities must: 1) demonstrate, or partner with an organization with demonstrated, quality measure development expertise 2) be engaged in quality measure conceptualization, development, or evaluation 3) be involved in developing evidence-based clinical practice guidelines. Otherwise eligible entities must not be actively receiving federal funding for quality measure development, implementation, maintenance, or public reporting activities for quality measures. However, such an entity may be a sub-recipient on one or multiple applications.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Profit organization; Private nonprofit institution/organization; Quasi-public nonprofit organization; Other private institution/organization; Anyone/general public; Public nonprofit institution/organization; Other public institution/organization; Quality Payment Program provides new opportunities to improve care delivery by supporting and rewarding clinicians as they find new ways to engage patients, families, and caregivers and to improve care coordination and population health management. The quality measures in MIPS and APMs serve as the mechanism for measuring the improved care delivery. With this funding opportunity, CMS is engaging eligible entities to develop the quality measures as a way of enhancing

the measure portfolio with additional measures for specialties. An enhanced measure portfolio helps to ensure that a higher percentage of providers can use quality measurement to improve their practice. This results in consumers making more informed decisions regarding their healthcare and overall health care quality improvements. The ultimate beneficiaries from this work are providers, consumers, healthcare stakeholders, and anyone interested in quality as the quality measures developed better reflect the complexity and diversity of our healthcare system and improve the quality of healthcare for everyone.

Length and Time Phasing of Assistance:

Approval of a project includes determination of support for the authorized project period (not to exceed five years). Awards to support the project are usually made on an annual basis. At the time of initial award, the grant provides funds for the conduct of the project during the first budget period (usually 12 months) and the Notice of Award (Form PHS-1533) indicates the support recommended and expected to be made available for the remainder of the project beyond the approved initial project period. Funds are disbursed via the Payment Management System Electronic Transfer System for domestic and foreign grantees. Loan Repayment Program Awards are for two years with the opportunity for renewal. Method of awarding/releasing assistance: other

Reports:

For most projects, Federal Financial Reports (FFR), Form SF425, must be filed 90 days after each competitive segment is completed. Reports must be provided to FIC staff in accordance with the CFR Title 42 Part 52 - Grants for Research Projects and the CFR Title 45 Part 75 - Uniform Administrative Requirements for grants and cooperative agreements. The grantee is responsible for annual progress reports. These reports are required for program analysis as part of all continuation applications. In addition, a final report must be filed within 120 days of the termination of the grant. The final report includes an account of progress made toward achievement of the originally stated aims; a list of the significant results; and a list of publications and inventions resulting from the projects. All grantees should use the Research Performance Progress Reporting (RPPR) forms to submit the annual progress report. For the final projects report and the final FFR at the end of the project period, the RPPR format is highly recommended, but the older 2590 form may be used for all grants and cooperative agreements. Performance is monitored annually by the NIH/Fogarty Center program staff.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FFR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FFR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FFR to NIH. See 45 CFR 75 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 75 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 75, the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: Fiscal Year 2017: FIC made six awards for the Fogarty Global Health Training Program (D43), with NIH partners at NIMH, NINDS, ORWH, and NHLBI. Built upon the successes of the historic Global Health Program for Fellows and Scholars, this new program provides opportunities for pre-doctoral/pre-professional degree students and post-doctoral/post-professional degree students from the U.S. and LMICs to spend a year of mentored research at an established research site in an LMIC. The FY17 class has 86 trainees with expertise covering a range of medical, nursing, and veterinary disciplines. Fogarty, with partners in the National Cancer Institute (NCI) and the Office of Behavioral Social Science Research (OBSSR), also made new awards in its International Tobacco: Health Research and Capacity Building program (R01). This program supports trans-disciplinary research on the international tobacco epidemic and focuses on reducing the burden of morbidity and mortality caused by tobacco use in LMICs. Fiscal Year 2018: FIC has published three concepts on their website of potential new programs for FY18. These include the Role of Stigma in HIV/AIDS Prevention, Treatment and Care in Low and Middle-Income Countries; The Partnership Initiative for Health Professional Education and Research in Selected PEPFAR Countries; and the African Association for Health Professional Education and Research. The latter two concepts follow from the very successful Medical Educational Partnership Initiative (MEPI) program supported by PEPFAR and administered through FIC at NIH and HRSA from 2012-2016, which supported leading African Medical Universities to improve the quality, quantity and retention of medical personnel to address the ongoing HIV epidemic in Africa. Fogarty anticipates that it will continue to make new awards in its ongoing programs in International Research Ethics Education and Curriculum Development, Global Infectious Diseases Research Training, mHealth Research Exploratory Awards, HIV/AIDS Research Training, US and LMIC individual career development awards, Brain Disorders across the Lifespan Research, and others. Information on all our programs is available on our website: www.fic.nih.gov. Fiscal Year 2019: Fiscal Year 2019: FIC will make new awards in the Non-Communicable Diseases Across the Lifespan program, which is currently competing. We have also posted a concept on our website for the continuation of the HIV Research Training Program. We will make new awards in all the ongoing programs mentioned above.

REGULATIONS, GUIDELINES, AND LITERATURE:

Guidelines for these awards are outlined in the following: the grant program legislation, terms and conditions cited in the Notice of Grant Award; the restrictions on the expenditure of Federal funds in appropriations acts, to the extent those restrictions are pertinent to the award, 45 CFR Part 75, as applicable; and the NIH Grants Policy Statement.

HOMELAND SECURITY, DEPARTMENT OF

97.005 State and Local Homeland Security National Training Program

FY 2014 Homeland Security National Training Program National Domestic Preparedness Consortium (NDPC) and Continuing Training Grants (CTG),

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Section 1204 of the Implementing Recommendations of the 9/11 Commission Act of 2007, Public Law 110-53, 6 USC Code 1102.

OBJECTIVES:

The Homeland Security National Training Program (HSNTP), consisting of the National Domestic Preparedness Consortium (NDPC) and Continuing Training Grants (CTG) program plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. (<http://www.fema.gov/national-preparedness-goal>) The objective of the HSNTP is to support nationwide training initiatives and further the mission of FEMA. In order to achieve the intended objective of the HSNTP, all training developed with HSNTP funds must support FEMA's all-hazards mission and reflect the following key priority areas: use of existing training mechanisms; linking training to exercise activities; incorporating the core capabilities identified in the National Preparedness Goal and the National Preparedness System components; and utilizing an adult learning and national delivery approach whereby curriculum is delivered via an integrated, collaborative approach. Where possible, efforts will be made in the development and delivery of training programs to support the implementation of risk driven, capabilities-based State Homeland Security Strategies to address capability targets set in urban area, state, and regional Threat and Hazard Identification and Risk Assessments (THIRAs). The capability levels assessed in the State Preparedness Report (SPR) should be used to inform planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.

TYPES OF ASSISTANCE:

Cooperative Agreements, Project Grants

USES AND USE RESTRICTIONS:

Provides funding through cooperative agreements to the National Domestic Preparedness Consortium, and Continuing Training Grants program for the purpose of the development and delivery of all-hazards training for Federal, State, local, and tribal emergency responders. 97.007 Homeland Security Preparedness Technical Assistance Program

(HSPTAP).

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Homeland Security Act of 2002, Section 503(b)(2)(G), Public Law 107-296, 6 USC Code 313(b)(2)(G)). Department of Homeland Security Appropriations Act, 2016, Title V, Section 543, Public Law 114-113

OBJECTIVES:

The Homeland Security Technical Assistance Program (HSPTAP) is established to build State, local, tribal and territorial (SLTT) capabilities to prevent, protect against, respond to, and recover from major events, including threats or acts of terrorism. This overarching programmatic goal of building state and local capabilities will be achieved through various means and methods, each one aimed at making achieving the National Preparedness Goal and furthering our collective efforts to remain a safe and secure nation. Specific program activities anticipated for achieving this goal will include, but will not be limited to: production and dissemination of written products relating to emerging homeland security issues and established or model state homeland security efforts; providing educational seminars for apprising newly appointed Governors Homeland Security Advisors of federal homeland security doctrine, best-practices and established principles; facilitating calls, meetings, or discussions amongst representatives from key stakeholder groups on a regular basis which serve to share information, knowledge, experiences, and practices relating to current and emerging homeland security issues; and, convening trainings, workshops, and other meeting opportunities designed to bring together in a common forum nationwide HSAs, state, local and tribal Emergency Management Directors, as well as other professional organizations in the public and private sectors and to inform partners on the impacts of federal homeland security legislation, regulations and policies on the states. Each recipient will conduct these specific activities to support either State Emergency Management Directors, Homeland Security Advisors to further build State, local, tribal and territorial (SLTT) capabilities. An additional key purpose for the HSPTAP is that the program also furthers the building of a national system of emergency management capabilities that can effectively and efficiently utilize the full measure of the Nation's resources to respond to catastrophic incidents, including natural disasters, acts of terrorism, and other man-made emergencies or events. HSPTAP recipients will conduct activities that bring together the collective perspectives of state and local elected officials and the private sector to provide a broad-based sounding board on homeland security issues for all national stakeholders. The program will serve to establish, provide, and maintain a forum

ASSISTANCE LISTINGS DESCRIPTIONS

for organizations to exchange ideas, conduct targeted discussions, as well as to provide technical assistance to governors offices, associations and organizations on all relevant homeland security policy areas. Finally, HSPTAP will engage the recipient organizations which can work closely with FEMA to develop, transfer, and institutionalize pertinent knowledge at the State and local level for addressing current public policy challenges facing State EM Directors, HSAs and other state and local emergency management officials. HSPTAP recipients, through collaboration with FEMA and other national, regional, state and local entities, will facilitate focused and enhanced communication and coordination among all disciplines and levels of government to address the complex challenges of developing and implementing homeland security policies and practices including: intelligence sharing; State homeland security organization, structure and governance; communications interoperability; critical infrastructure protection; and all hazards disaster prevention, protection, mitigation, preparedness, response and recovery to include areas of emergency management, homeland security, fire, law enforcement, Emergency Management Services (EMS), agriculture, National Guard, emergency communications, and public works. In sum, in addition to building state and local capabilities, the activities conducted under the HSPTAP are structured to address the full spectrum of mission areas, national priorities, and core capabilities outlined in the National Preparedness System and are critical to achieving the National Preparedness Goal. II. 97.008 Non-Profit Security Program

NSGP,

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Implementing Recommendations of the 9/11 Commission Act of 2007, Public Law 110-53, Section 2003 of the Homeland Security Act of 2002, Public Law 107-296, 6 USC Code 604.

OBJECTIVES:

NSGP seeks to integrate the preparedness activities of nonprofit organizations that are at high risk of a terrorist attack with broader state and local preparedness efforts. In FY 2018, multiple funding allocations have been appropriated for nonprofit organizations located inside or outside of FY 2018 Urban Area Security Initiative (UASI) designated urban areas. As in previous fiscal years, the Nonprofit Security Grant Program - Urban Area (NSGP-UA) will be a competitive grant program that funds nonprofits located in UASI-designated urban areas. Under the Nonprofit Security Grant Program - State (NSGP-S), each state will receive an allocation for nonprofit organizations located outside of FY 2018 Urban Area Security Initiative (UASI)-designated urban areas.

TYPES OF ASSISTANCE:

Formula Grants, Project Grants

USES AND USE RESTRICTIONS:

NSGP grant recipients and subrecipients may only use NSGP grant funds for the purpose set forth in the grant award, and must use funding in a way that is consistent with the statutory authority for the award. Grant funds may not be used for matching funds for other Federal grants or cooperative agreements, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. In addition, Federal funds may not be used to sue the Federal Government or any other government entity. Pre-award costs are allowable only with the prior written approval of DHS/FEMA and if they are included in the award agreement. To request pre-award costs a written request must be included with the application, signed by the

Authorized Organizational Representative of the entity. The letter must outline what the pre-award costs are for, including a detailed budget break-out of pre-award costs from the post-award costs, and a justification for approval. The following information outlines general allowable and unallowable NSGP costs guidance. In FY 2018, the total amount of funds distributed under this grant program will be \$ 60,000,000. Each nonprofit organization must apply through their respective State Administrative Agency (SAA) for up to \$150,000 for NSGP-UA or up to \$100,000 for NSGP-

Applicant Eligibility:

Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; The SAA is the only entity eligible to apply for FY 20187 NSGP funds on behalf of eligible nonprofit organizations (as described under section 501(c)(3) of the Internal Revenue Code of 1986) determined to be at high risk of terrorist attack and for NSGP-UA, organizations must be located within one of the designated FY 2018 UASI-designated Urban Areas. Eligible nonprofit organizations must provide their applications to their respective SAA in order to be considered for FY 2018 funding. SAAs, are encouraged to notify and actively inform eligible nonprofit organizations of the availability of the FY 2018 especially organizations that have not previously applied for or received NSGP funding. It is important to ensure that ALL eligible nonprofit organizations are afforded an opportunity to seek funding. Criteria for determining eligible applicants that are at high risk of terrorist attack include, but are not limited to: Identification and substantiation of current or persistent threats or attacks (from within or outside the U.S.) by a terrorist organization, network, or cell against the applicant based on their ideology, beliefs, or mission Symbolic value of the site(s) as a highly recognized regional and/or national or historical institution(s) that renders the site a possible target of terrorism Role of the applicant nonprofit organization in responding to or recovering from terrorist attacks Findings from previously conducted threat and/or vulnerability assessments Integration of nonprofit preparedness with broader state and local preparedness efforts Complete and feasible IJ that addresses an identified risk, including the assessed threat, vulnerability, and consequence of the risk, and proposes building or sustaining a core capability identified in the Goal History of prior funding under NSGP. Not having received prior year funding is a positive factor when calculating the state score of the application; see Section E. Application Review Information Review and Selection Process for additional information.

Beneficiary Eligibility:

Private nonprofit institution/organization; Interstate; State; Local; The FY 2018 NSGP provides funding support for physical security enhancements and other security activities to nonprofit organizations that are at high risk of a terrorist attack.

Credentials/Documentation:

Award Procedure:

Federal review process for completeness, adherence to programmatic guidelines, feasibility, and how well the IJ (project description and justification) addresses the identified risk.. State Review: Application packages are submitted by the nonprofit organization the SAA and the UAWG based on the established criteria. Applications must be submitted by the nonprofit organization to the SAA prior to the states deadline , to ensure adequate time for a State review of nonprofit applications. As part of the State Review, the SAAs must: Conduct an eligibility review, in coordination with the UAWG; Verify that the nonprofit is located within a FY 20187 UASI- designated urban area; Review and score all complete application packages (including mission statements and vulnerability assessments)

ASSISTANCE LISTINGS DESCRIPTIONS

using the NSGP Scoring Worksheet provided by DHS/FEMA; see Appendix E NSGP Investment Justification Scoring Worksheet; Note: A bonus point will be added to the state score for all organizations that have not received NSGP funding in previous years; this will be the final state score; Validate the organization type listed in the IJ by assessing the central purpose of the organization described in the Mission Statement, as either 1) Ideology-based/Spiritual/Religious; 2) Educational; 3) Medical; or 4) Other; and Prioritize all NSGP IJs by ranking each IJ. Each IJ will receive a unique rank (#1 [one] being the highest ranked through the total number of applications the SAA scored). The SAA will base the ranking on the SAAs subject matter expertise and discretion with consideration to the following factors: o Need: The relative need for the nonprofit organization compared to the other applicants; and o Impact: The feasibility of the proposed project and how effectively the proposed project addresses the identified need. Submit the scores from the state review along with the prioritized list of all NSGP projects to DHS/FEMA using the SAA Prioritization Tracker. Retain the mission statements and vulnerability assessments submitted by each nonprofit organization. Federal Review The highest-scoring IJs from each submitting urban area (at least one from each urban area) are reviewed by a panel made up of DHS/FEMA HQ Program Analysts and Regional Program Analysts or Grants Management Specialists. Federal staff will verify that the nonprofit is located within a FY 20187 UASI-designated urban area. In order to determine the number of applications that will advance to the Federal Review FEMA will: 1) Oorganize applications by state then by urban area in rank order (based on the state scores) from highest to lowest score; and. 2) Select the highest scored projects equal to 150% of the available funding.. AAt least one IJ from each submitting Urban Area is guaranteed to be a part of the federal review pool and each IJ in the federal pool will be reviewed by two federal reviewers using the NSGP Investment Justification Scoring Worksheet. Final Score To calculate an applications final score, the sum of the applicants state score and the average of the two Federal reviewers scores will be multiplied: By a factor of three for nonprofit groups that are at a high risk of terrorist attacks due to their ideology, beliefs, or mission; By a factor of two for medical and educational institutions; and By a factor of one for all other nonprofit organizations. All final application scores will then be sorted in descending order, regardless of urban area, and applicants will be selected from highest to lowest until available FY 2018 7 NSGP funding has been exhausted. In the event of a tie during the funding determination process, priority will be given to nonprofit organizations that have not received prior year funding, then those ranked highest by their SAA. DHS/FEMA will use the final results to make funding recommendations to the Secretary of DHS. All final funding determinations will be made by the Secretary of DHS, who retains the discretion to consider other factors and information in addition to DHS/FEMAs funding recommendations. For NSGP-S, DHS/FEMA HQ Program Analysts will review the IJs recommended by the SAA to ensure that all proposed investments are allowable. DHS/FEMA will select nonprofits for funding as prioritized by the SAA unless proposed projects are unallowable. If recommended IJs include unallowable projects, DHS/FEMA will decide to either partially fund the IJ or select the next prioritized IJ. Should additional NSGP-S funding remain unobligated after reviewing all State submissions, FEMA will use the SAA scores, in part, to determine how the remaining balance of funds will be allocated. Submissions will be selected for funding until the remaining balance of funds is exhausted. All final funding determinations will be made by the Secretary of Homeland Security, who retains the discretion to consider other factors and information in addition to DHS/FEMAs funding recommendations. For both NSGP-UA and NSGP-S, fFinancial Review DHS/FEMA HQ Grants Management Specialists will conduct a financial risk assessment using the following criteria: Allowability, allocability, and financial reasonableness of the proposed budget and investment information. Whether the recipient meets the financial and legal requirements listed in 2 C.F.R. Part 200. Prior to making a Federal award with a total amount of Federal share greater than the simplified acquisition threshold, currently \$150,000, DHS/FEMA is required to review and consider any information about the applicant that is in the designated integrity and performance system accessible through SAM (currently FAPIS). An applicant, at its option, may review information in the designated integrity and performance systems accessible through SAM and comment on any information about itself that a Federal awarding agency previously entered and is currently in the designated integrity and performance system accessible through SAM. DHS/FEMA will consider any comments by the applicant, in addition to the other information in the designated integrity and performance system, in making a judgment about the applicants integrity, business ethics, and record of performance under Federal

awards when completing the review of risk posed by applicants as described in 2 C.F.R. 200.205 Federal awarding agency review of risk posed by applicants.

Section 652(c) of the Post-Katrina Emergency Management Reform Act of 2006 (Public Law 109-295), 6 U.S.C. 752(c), requires any State that receives Federal preparedness assistance to submit an SPR to FEMA. States submitted the most recent SPR in December 2011 thus satisfying this requirement in order to receive funding under the FY 2017 NSGP.Biannual Strategy Implementation Reports (BSIR). Grantees are responsible for completing and submitting the BSIR reports, as a complement to the programmatic performance report/SF-PPR. The BSIR is due within 30 days after the end of the reporting period (July 30 for the reporting period of January 1 through June 30; and January 30 for the reporting period of July 1 through December 31). The Grants Reporting Tool (GRT) is the system in which NSGP recipients will submit their BSIR information. Recipients should go to the following link and follow the links to create a new account as needed: <https://www.reporting.odp.dhs.gov/>. This report is used to track the progress toward the completion of projects.For more information, refer to the FY 2017 NSGP Notice of Funding Opportunity (NOFO). Federal Financial Report (FFR) Recipients must report obligations and expenditures ported on a quarterly basis through the FFR (SF-425) to DHS/FEMA. Recipients must file the FFR electronically using the Payment and Reporting Systems (PARS). A FFR must be submitted quarterly throughout the period of performance, including partial calendar quarters, as well as for periods where no grant award activity occurs. The final FFR is due 90 days after the end of the performance period. Future awards and fund drawdowns may be withheld if these reports are delinquent, demonstrate lack of progress, or are insufficient in detail.The Federal Financial Reporting Form (FFR) is available online at: <https://www.grants.gov/web/grants/forms/post-award-reporting-forms.html#sortBy=1>, SF-425 OMB #4040-0014. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund drawdowns may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS. Grant Close-Out Process. Within 90 days after the end of the period of performance, or after a Grant Adjustment Notice (GAN) has been issued to close out a grant, whichever comes first, grantees must submit a final FFR and final progress report detailing all accomplishments throughout the period of performance. After these reports have been reviewed and approved by FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds that will be deobligated, and address the requirement of maintaining the grant records for three years from the date of the final FFR. The grantee is responsible for returning any funds that have been drawn down but remain as unliquidated on grantee financial records. Monitoring. Grant recipients will be monitored periodically by FEMA staff, both programmatically and financially, to ensure that the project goals, objectives, performance requirements, timelines, milestone completion, budgets, and other related program criteria are being met. Monitoring may be accomplished through either a desk-based review or on-site monitoring visits, or both. Monitoring will involve the review and analysis of the financial, programmatic, performance, compliance and administrative processes, policies, activities, and

other attributes of each Federal assistance award and will identify areas where technical assistance, corrective actions and other support may be needed.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Grant records shall be retained for a period of 3 years from the day the recipient submits its final expenditure report. If any litigation, claim, negotiation, audit, or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later. Grant records include financial and program/progress reports, support documents, statistical records, and other documents that support the activity and/or expenditure of the recipient or sub-recipient under the award.

CRITERIA FOR SELECTING PROPOSALS:

Prior to allocation of any Federal preparedness awards in FY 2018, recipients must ensure and maintain adoption and implementation of NIMS. DHS/FEMA describes the specific activities involved in NIMS implementation in the NIMS Implementation Objectives <https://www.fema.gov/implementation-guidance-and-reporting>. DHS/FEMA developed NIMS Guideline for Credentialing of Personnel to describe national credentialing standards and to provide written guidance regarding the use of those standards. This guideline describes credentialing and typing processes, and identifies tools which Federal Emergency Response Officials (FEROs) and emergency managers at all levels of government may use both routinely and to facilitate multijurisdictional coordinated responses. Although state, local, tribal, and private sector partners, including nongovernmental organizations are not required to credential their personnel in accordance with these guidelines, DHS/FEMA strongly encourages them to do so in order to leverage the federal investment in the Federal Information Processing Standards (FIPS) 201 infrastructure and to facilitate interoperability for personnel deployed outside their home jurisdiction. Additional information is available from the NIMS Guideline for the Credentialing of Personnel. Nonprofit subrecipients are not required to maintain adoption and implementation of NIMS. Incident management activities require carefully managed resources (personnel, teams, facilities, equipment and/or supplies). Utilization of the standardized resource management concepts such as typing, credentialing, and inventorying promote a strong national mutual aid capability needed to support delivery of core capabilities. Recipients should manage resources purchased or supported with DHS/FEMA grant funding according to NIMS resource management guidance. Additional information on resource management and NIMS resource typing definitions and job titles/position qualifications is available on DHS/FEMAs website under <http://www.fema.gov/resource-management-mutual-aid>. Nonprofit subrecipients are not required to maintain adoption and implementation of NIMS.

97.022 Flood Insurance

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

The National Flood Insurance Act of 1968, 42 U.S.C. 4001 et seq. authorized the National Flood Insurance Program (NFIP), Title 13, Public Law 90-448, 44CFR USC Code Subchapter B.

OBJECTIVES:

To enable personal and business property owners and renters to purchase flood insurance coverage for buildings and/or contents in low-to-moderate flood risk areas, as well as in high-risk flood zones to reduce taxpayer provided federal disaster assistance and to promote wise floodplain management practices in the Nation's high-risk flood zones.

TYPES OF ASSISTANCE:

Insurance

USES AND USE RESTRICTIONS:

The maximum limits of flood insurance coverage for a building and/or personal property, eligible building types, and more detailed additional flood insurance information is contained in the Flood Insurance Manual available online at <https://www.fema.gov/flood-insurance-manual>. In a Regular Program Community the residential building limit is \$250,000 and non-residential building limit is \$500,000. The residential contents limit is \$100,000 and the non-residential contents limit is \$500,000. Lower limits apply to a limited number of Emergency Program buildings and buildings in Alaska, Guam, Hawaii and U.S. Virgin Islands and are listed in the Flood Insurance Manual. The Flood Disaster Protection Act of 1973, as amended by the Flood Insurance Reform Act of 1994, requires flood insurance purchased as a condition of any form of Federal or federally-related financial assistance, including Federal grants, disaster assistance, SBA low-interest disaster assistance loans, and mortgage loans from federally regulated lending institutions and FHA, Farm Credit Administration, VA or guaranteed mortgages secured by buildings in high-risk flood zones, which are called the Special Flood Hazard Areas (SFHAs). Communities having one or more identified SFHAs must enter into the NFIP within 1 year of the official identification of the SFHAs or be denied Federal financial assistance for acquisition or construction purposes within those areas. Federally regulated conventional sources (i.e., banks, savings and loan associations, or similar lending institutions) are permitted to make conventional loans secured by improved real estate or Manufactured Housing located or to be located in SFHAs of a nonparticipating community which has been formally identified as flood-prone for more than 1 year, but Federal disaster assistance for acquisition or construction purposes will not be available in the event of flood or flood-related property damage. The conventional lender is statutorily required to notify the borrower, before making a loan in such an area, that Federal flood insurance and disaster assistance will not be available to the property. The Coastal Barrier Improvement Act of 1990 amended the Coastal Barrier Resources Act of 1982 by greatly enlarging the acreage included in the designated coastal barrier resources system unit. The 1990 Act also added "otherwise protected areas."

ASSISTANCE LISTINGS DESCRIPTIONS

"Otherwise protected areas" are defined as an undeveloped coastal barrier within the boundaries of an area established under Federal, State, or local law, or held by a qualified organization, primarily for wildlife refuge, sanctuary, recreational or natural resource conservation purposes. The 1982 Act prohibits the sale of new flood insurance on or after October 1, 1983 for new construction or substantial improvements of structures located on any coastal barrier with the Coastal Barrier Resources System designated by this Act. The 1990 Act prohibits the sale of new flood insurance on or after November 16, 1990 for new construction or substantial improvements of structures located on any new coastal barrier within the Coastal Barrier Resources System designated or modified by this Act. It also prohibits the sale of new flood insurance on or after November 16, 1991 for new construction or substantial improvements of structures located in an otherwise protected area that are not used in a manner consistent with the purpose of the otherwise protected area. Subsequent pieces of legislation have added or deleted areas. Also, the Secretary of the Interior is authorized to make technical revisions and modifications to the boundaries of such units as may be necessary.

Applicant Eligibility:

Government - General; Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Federal flood insurance can be made available in any community (a State or political subdivision thereof with authority to adopt and enforce floodplain management measures for the areas within its jurisdiction) that adopts and enforces floodplain management measures consistent with the National Flood Insurance Program regulations.

Beneficiary Eligibility:

Individual/Family; Homeowner; Land/Property Owner; Residential and business property owners, renters and state owned property.

Credentials/Documentation:

Same as Applicant Eligibility. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Community officials must submit an NFIP eligibility application form, which is available from the FEMA, together with: copies of adopted floodplain management measures meeting the minimum standards of 44 CFR Section 60.3(a), 60.3(b), 60.3(c), 60.3(d), and/or 60.3(e), as appropriate for the type of flood hazards identified; a list of any incorporated communities within the applicant's boundaries; and estimates of population and, by kind, of buildings situated in the known flood-prone areas of the community. Such Applications should be submitted to the Mitigation Directorate, FEMA, Washington, DC 20024.

Award Procedure:

FEMA reviews the application and if complete, designates the community as participating. The community is informed of its admission, and notice is published in the Federal Register. Residents and property owners may then purchase flood insurance through any property insurance agent or broker.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. For complete applications, a maximum of 10 working days is allowed for review and notification. Communities with one or more identified special flood hazard areas must enter the program within 1 year after the identification of those areas or else prohibitions against Federally related financial assistance for acquisition or construction purposes in identified special flood hazard areas take force. Once the community does qualify, after the prescribed date, these prohibitions are removed. Adequate floodplain management measures must be in effect within 6 months of the date that the special flood hazard area is identified and within 6 months of the date flood water surface elevations are provided.

Appeals:

Other. Communities are allowed to appeal flood-prone identification and are also given an opportunity to appeal proposed flood elevation determinations for new construction and substantial improvement of existing structures in the special flood hazard areas. Notice of the proposed elevations is published in the Federal Register

and is sent directly to the local governments. Following notification to the local government, the notice of proposed flood elevation determinations is published twice during a 10-day period in a prominent newspaper. The local community and its individual residents then have 90 days following the second newspaper notice to submit any scientific or technical data that tend to negate or contradict FEMA's findings. If a conflict in data exists and cannot be resolved at the community level, the community consolidates all individual appeals for review by FEMA. FEMA shall resolve the appeals by consultation with officials of the local government, or by submission of conflicting data to an independent scientific body, or by administrative hearings.

97.023 Community Assistance Program State Support Services Element (CAP-SSSE)

(CAP-SSSE),

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF
AUTHORIZATION:

The National Flood Insurance Act of 1968, Public Law 90-448, 42 USC Code 4001 et seq.

OBJECTIVES:

To provide, through a Cooperative Agreement, a means to ensure that communities participating in the National Flood Insurance Program (NFIP) are achieving flood loss reduction goals of the NFIP. CAP-SSSE funds are to be used by States to provide technical assistance to NFIP communities, to evaluate community implementation/performance of NFIP floodplain management activities, and to build State and community floodplain management expertise and capacity. The CAP-SSSE program supports the Mitigation Mission Area Capabilities and Targets described in the National Preparedness Goal (NPG) under Planning and Risk and Disaster Resilience Assessment.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

CAP-SSSE funds are used for activities that support the NFIP. Such activities include the fostering of effective floodplain management programs in participating communities and assisting non-participating communities in enrolling in the NFIP.

Applicant Eligibility:

Government - General; The Cooperative Agreement is only available to the state or territorial agency so designated by the Governor, as the state or territorial National Flood Insurance Program State Coordinating Agency. The CAP-SSSE is administered through the Mitigation Division of each FEMA Regional Office. FEMA's Regional Offices will contact eligible States to negotiate a mutually acceptable grant agreement. Funding is made available when the grant agreement is

negotiated and agreed upon. Continued participation in the CAP-SSSE is dependent upon completing activities described in the grant agreement. The SSSE is designed to utilize the floodplain management capabilities of individual States in a cost effective cooperative agreement with FEMA. A State's participation in the SSSE is voluntary and is contingent upon need and skill level capability.

Beneficiary Eligibility:

State; Local; The direct beneficiary of the CAP-SSSE is the individual State receiving financial assistance. In addition, participating NFIP communities and local governments which receive flood plain management and flood loss reduction assistance provided by the State are also (indirect) beneficiaries as a consequence of the services they receive.

Credentials/Documentation:

A State's participation in the CAP-SSSE is voluntary and is contingent upon need and skill level capability as determined by FEMA. In addition, applicant states are required to provide any relevant documentation contained in the grant agreement package provided by FEMA. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. FEMA's ten Regional Offices will provide each State Governor's Office with the grant application package. The Cooperative Agreement is only available to that state or territorial agency so designated by the Governor, as the state or territorial National Flood Insurance Program State Coordinating Agency. The CAP-SSSE is administered through the Mitigation Division of each FEMA Regional Office. FEMA's Regional Offices will contact eligible States to negotiate a mutually acceptable grant agreement. Funding is made available when the grant agreement is negotiated and agreed upon. Continued participation in the CAP-SSSE is dependent upon completing activities described in the grant agreement. The SSSE is designed to utilize the floodplain management capabilities of individual States in a cost effective cooperative agreement with FEMA. A State's participation in the SSSE is voluntary and is contingent upon need and skill level capability.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Application deadline and other information are contained in the application/program guidance. Include any other application procedures not found above.

Award Procedure:

Applications are reviewed by FEMA Regional Office program and administrative staff. Any issues or concerns noted in the application will be negotiated with the successful applicant prior to the award being issued.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. 30-60 days, Refer to Program Guidance.

Appeals:

Other. Appeals can be made to the appropriate FEMA Regional Office.

Renewals:

Stewart B. McKinney Homeless Assistance Act of 1987, as amended, Title 3, Section 301, Public Law 100-77, 42 USC Code 11331-11346.

OBJECTIVES:

Program funds support the National Preparedness Goal (NPG) by complementing actions undertaken to achieve an all-of-Nation preparedness approach that optimizes the use of available resources. When a disaster strikes, it is often the poor or those with economic vulnerabilities who suffer the most. By providing emergency economic assistance that keeps people off the streets, from being evicted from their homes, or with groceries to prevent hunger, the EFSP prepares a population that could otherwise be even more adversely impacted by a disaster situation and mitigates potential burdens imposed on recovery efforts to assist such people. For additional details on the NPG, please refer to <http://www.fema.gov/pdf/prepared/npg.pdf>.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Food and related expenses (such as transporting food/food preparation and serving equipment); mass shelter; other shelter (such as hotels and motels); and rent/mortgage and/or utility assistance limited to one month. For a complete listing on eligible and ineligible costs under this program, refer to the current Phase (fiscal year): Responsibilities and Requirements document, issued by the Emergency Food and Shelter Program National Board.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Since funds are initially distributed to jurisdictions based on either a National Board formula or recommendations from State Set-Aside Committees, there is no application process for jurisdictions. All jurisdictions are considered within the National Board formula and all jurisdictions in an individual State may be considered by the State Set-Aside Committee for either initial or additional (if the jurisdiction had previously been selected by the National Board) funding. At the local level, following award notification by the National Board to the jurisdiction, a Local Board is formed. The Local Board then advertises the availability of the funds to local nonprofit agencies and governments. The Local Board must conduct a local application process for agencies to apply for funding. The Local Board selects which local nonprofit and governmental organizations are to receive funding and submits their selections via a Local Board Plan to the National Board.

Beneficiary Eligibility:

Anyone/general public; Public nonprofit institution/organization; Other public institution/organization; The law directs that the Local Boards, which manage the program at the local level, shall "determine which private nonprofit organizations or public organizations of the local government in the individual locality shall receive grants to act as service providers." The range of participant groups on the Local Boards include the affiliates of the National Board membership which consists of American Red Cross, Catholic Charities USA, The Jewish Federations of North America, National Council of Churches of Christ in the USA, The Salvation Army, and United Way Worldwide, with a local government representative replacing FEMA. Also participating are thousands of independent nonprofits (such as Community Action Agencies and Food Banks and food pantries) which provide food and/or shelter services. Due to the broad category of people in need of such emergency services, the providers can include specialized groups such as domestic violence shelters and organizations providing food or shelter to: AIDS patients, handicapped individuals, the elderly, homeless veterans, non-wards of the State teenage runaways, and many other groups with emergency

food and shelter needs. As noted earlier, the decisions on selections are made through the consensus of the Local Board as they have assessed their community's most urgent needs. It is important that such agencies use these funds to supplement, not replace, their current efforts. This program is intended to supplement ongoing programs and allow them to extend and expand upon their existing services.

Credentials/Documentation:

The program employs a Local Recipient Organization Certification Form. This form certifies an applicant's status (i.e., that it is a nonprofit or government agency capable of delivering eligible services) and that it will abide by the program guidelines (both on eligible spending and reporting requests), and comply with other fiscal and program rules so stipulated. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. There is no application process for local jurisdictions since the award notification to local jurisdictions is based on either a National Board formula or recommendations from State Set-Aside Committees. The local jurisdiction (i.e., Local Board) must conduct a local application process for local agencies to apply for funding.

Award Procedure:

At the local level, following award notification by the National Board, a Local Board is formed. The Local Board then advertises the availability of the funds to local nonprofit agencies and governments. The Local Board must conduct a local application process for agencies to apply for funding. The Local Board selects which agencies are to receive funding and submits their selections via a Local Board Plan to the National Board. The National Board confirms all pertinent information has been submitted and disburses funds directly to the awarded local agencies.

97.030 Community Disaster Loans

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Robert T. Stafford Disaster Relief and Emergency Assistance Act, Section 417, 42 USC Code 5184.

OBJECTIVES:

To provide loans subject to Congressional loan authority, to any local government that has suffered substantial loss of revenues in an area in which the President designates a major disaster in order to assist communities affected by an incident to recover effectively in accordance with PPD-8. The funds can only be used to maintain existing functions of a municipal operating character and the local government must demonstrate a need for financial assistance.

TYPES OF ASSISTANCE:

Direct Loans

USES AND USE RESTRICTIONS:

Loans are made only to local governments or other political subdivisions of the State, and are based on need. The funds cannot be used to meet the non-federal share of any Federal program, finance capital improvements, or repair or restore public facilities. Applicants must be in a designated major disaster area and must demonstrate that they meet the specific conditions of FEMA Disaster Assistance Regulations 44 CFR Part 206, Subpart K, Community Disaster Loans. To be eligible, the applicant must demonstrate: 1) a substantial loss of revenues as a result of a major disaster; 2) a need for financial assistance to perform its governmental functions. For traditional CDLs, the amount of the loan is based on the demonstrated need and equal to 25% of applicants Operating Budget or \$5 million, whichever is lower. The interest rate is the U.S. Treasury rate for 5-year maturities on the date the Promissory Note is executed, adjusted to the nearest 1/8th. When applicable, if an applicant can demonstrate unusual circumstances involving financial hardship, the Assistance Administrator of the Disaster Assistance Directorate may approve a rate equal to the 5-year maturity rate plus 1 per centum, adjusted to the nearest 1/8th, and further reduced by one-half. The term of the loan is usually 5 years, but may be extended. Interest accrues on the funds as they are disbursed. When applicable, the Assistance Administrator of the Disaster Assistance Directorate may cancel repayment of all or part of the loan if the revenues of the applicant in the 3 fiscal years following the financial year of the disaster are insufficient to meet the operating budget because of disaster-related revenue losses and un-reimbursed disaster related operating expenses.

Applicant Eligibility:

Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Applicants must be in a designated major disaster area and must demonstrate that they meet the specific conditions of FEMA Disaster Assistance Regulations 44 CFR Part 206, Subpart K, Community Disaster Loans. 97.032 Crisis Counseling

(CCP).

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Robert T. Stafford Disaster Relief and Emergency Assistance Act, Section 416, Public Law 93-288

OBJECTIVES:

The Crisis Counseling Assistance and Training Program (CCP) supports the Recovery core capability and mission area as defined in the National Preparedness Goal. It accomplishes this by assisting individuals and communities in recovering from the challenging effects of natural and human-caused disasters through the provision of community-based outreach and psycho-educational services. The CCP goals are to: Reach large numbers of people affected by disasters through face-to-face outreach to shelters, homes, and other locations. Assess the emotional needs of survivors and make referrals to traditional behavioral health services when necessary. Identify tangible needs and link survivors to community resources and disaster relief services. Provide emotional support, education, basic crisis counseling, and connection to familial and community support systems. Train and educate CCP staff and other community partners about disaster reactions, appropriate interventions, and CCP services. Develop partnerships with local disaster and other organizations. Work with local stakeholders to promote community resilience and recovery. Collect and evaluate data to ensure quality services and justify program efforts. Leave behind a permanent legacy of improved coping skills, educational and resource materials, and enhanced community

ASSISTANCE LISTINGS DESCRIPTIONS

linkages.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

The Crisis Counseling Assistance and Training Program (CCP) provides supplemental funding to States, U.S. Territories and Federally recognized tribes for technical assistance and training as well as short-term crisis counseling services to individuals impacted by a Presidentially-declared major disaster that includes Individual Assistance. CCP services involve the counseling goals of assisting disaster survivors in understanding their current situations and reactions, mitigating additional stress, assisting survivors in reviewing their options, promoting the use or development of coping strategies, providing emotional support and encouraging linkages with other individuals and agencies who may help survivors recover to their pre-disaster level of functioning. The CCP is comprised of the Immediate Services Program (ISP) and the Regular Services Program (RSP). The Immediate Services Program grant provides 60 days of services from the declaration date and enables the State or local agency to respond to the immediate behavioral health needs of people affected by the disaster. The Regular Services Program grant provides up to nine months of crisis counseling, outreach, consultation and education services to people affected by a disaster. Funding for the ISP and RSP programs is considered separate and distinct as these are two different grants.

Applicant Eligibility:

Federally Recognized Indian Tribal Governments; U.S. Territories and possessions; State; States are eligible for grants. If the Governor determines, during an assessment of the need for crisis counseling services, that because of unusual circumstances or serious conditions within the State or local mental health network, the State cannot carry out the crisis counseling program, he/she may identify a public or private mental health agency or organization to carry out the program or request the Department of Homeland Security's Federal Emergency Management Agency (FEMA) Regional Director to identify, with assistance of the Secretary of the Department of Health and Human Services (DHHS), such an agency or organization.

Beneficiary Eligibility:

Individual/Family; In order to be eligible for services under this program, an individual must be a resident of the designated disaster area or must have been in the designated area at the time the disaster occurred.

Credentials/Documentation:

Grant awards will be determined in accordance with OMB Circulars A-102 for State and local governments. States are eligible for grants. (DUA),

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Robert T. Stafford Disaster Relief and Emergency Assistance Act, Section 410, Public Law 93-288

OBJECTIVES:

The Disaster Unemployment Assistance (DUA) Program supports the NPG Mission Area of Recovery and the specific capability target of Economic Recovery. DUA accomplishes this by providing temporary benefits to individuals whose employment or self-employment has been lost or interrupted as a direct result of a major disaster and who are not eligible for regular unemployment insurance (UI).

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Project Grants

USES AND USE RESTRICTIONS:

The Disaster Unemployment Assistance (DUA) program provides weekly benefits and re-employment assistance services to individuals unemployed as a direct result of a Presidentially-declared major disaster that includes Individual Assistance. Funds are used for benefit payments to individuals and project administrative costs to States. DUA weekly benefits and re-employment assistance require proof of employment eligibility, proof of employment or self-employment to assist in determining a Weekly Benefit Amount (WBA). Aliens must prove they are "qualified aliens" (as determined by the Immigration and Naturalization Service) in order to be eligible to receive a federal public benefit.

Applicant Eligibility:

Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); State; The State Workforce Agency (SWA) applies for Disaster Unemployment Assistance funds to provide to eligible beneficiaries.

Beneficiary Eligibility:

Individual/Family; Refer to program guidance.

applicant.

Credentials/Documentation:

Cost will be determined in accordance with FEMA Disaster Assistance Regulations, 44 CFR Part 206 and Part 13, and the FEMA Schedule of Equipment Rates. Grant awards will be determined in accordance with OMB Circulars No. A-102 and No. A-87 for States, local governments and Indian Tribes. Awards made to Institutions of Higher Education, Hospitals and other Non-Profit Organizations will be required to follow the requirements of OMB Circulars No. A-110 and No. A-21. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. The State Governor makes a request for a Presidential declaration of an emergency or a major disaster through the FEMA Regional Director. Requests for assistance must be made by the Governor in accordance with FEMA Disaster Assistance Regulations, 44 CFR 206.36, except as provided in Part 206.35(d) for emergency declarations involving primarily Federal responsibility.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. A Presidential Disaster or Emergency Declaration must be issued, which is then followed by a Request for Public Assistance through the Governor's Authorized Representative to the Regional Director of FEMA.

Award Procedure:

Funds are allocated from the President's Disaster Relief Fund for use in a designated emergency or major disaster area. The FEMA Regional Director approves grants from this allocation on the basis of project applications for eligible applicants. States are responsible for distributing funds to applicants. As a condition of receiving assistance under the Stafford Act, applicants are encouraged to take mitigation measures to reduce future losses from natural hazards.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. From 1 day to 6 weeks. A Request for Assistance must be submitted by the applicant at the Applicants' Briefing or within 30 days of designation of an emergency declaration or major disaster declaration for the Public Assistance Program.

Appeals:

Other. Any determination made under the Public Assistance Program may be appealed. All appeals must be made through the State and the appropriate FEMA Regional Office listed in Appendix IV of the Catalog. The appeal deadlines are: 60 days from receipt of notification of the action being appealed.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title Robert T. Stafford Disaster Relief and Emergency Assistance Act, Chapter 42, Part 5121-5206, Subpart ,Public Law 93-288. Matching Requirements: Percent: 25%. Requirement: Matching requirements are voluntary. The Federal share of the grant is not less than 75 percent with the State and local governments responsible for the remainder. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

The length of the assistance period varies depending on the type of work or service. Reimbursement for small projects under \$125,500 is made based on the Federal estimate of costs. For projects over the \$125,500, reimbursement of actual eligible costs is made as the costs are incurred. The \$125,500 limit is adjusted annually to reflect the Consumer Price Index. When purchase of insurance is required, the applicant is obliged to maintain the policy for the economic and useful life of the repairs or of the insured property, whichever is the lesser. Also,

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. This program is eligible for coverage under E.O. 12372,

ASSISTANCE LISTINGS DESCRIPTIONS

"Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Rather than require applicants to submit a separate pre-application in order for FEMA and the State to identify the need for assistance, FEMA will employ the administrative and Mitigation plans in this manner. When States submit plans for review and indicate their intention to apply for assistance to implement one or more projects described in it, FEMA will use the plan to identify a need for funding assistance, and to discourage applications that are unlikely to be funded. An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. A Presidential Disaster or Emergency Declaration must be issued, which is then followed by an application for the HMGP through the Governor's Authorized Representative to the Regional Administrator of FEMA.

Award Procedure:

Funds are allocated from the President's Disaster Relief Fund for use in a designated emergency or major disaster area. The FEMA Regional Administrator approves grants from this allocation on the basis of project applications from eligible applicants. Applicants are responsible for distributing funds to sub-applicants.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Refer to HMA program guidance document.

Appeals:

Other. An eligible applicant or subapplicant may appeal any determination previously made related to an application for or the provision of Federal assistance according to procedures set forth in 44CFR Section 206.440.

ASSISTANCE LISTINGS DESCRIPTIONS

Fiscal Year 2017: Colorado and Kentucky communities maintained and further enhanced preparedness capabilities as measured by the twelve programmatic benchmarks. FEMA and Army will conduct a full-scale exercise at each site to evaluate community response capabilities and coordinated hazard-specific plans. Colorado revised and issued an updated CSEPP Recovery Plan based on the results of the previous years exercise. Both States enhanced alert and notification approaches through adoption of the Integrated Public Alert and Warning System. Both states initiated public outreach and education campaigns and conducted training across emergency management disciplines. Kentucky will test actions outlined in their revised recovery sampling and analysis plan addressing post-accident coordination. Fiscal Year 2018: Colorado and Kentucky communities will maintain and further enhance preparedness capabilities as measured by the twelve programmatic benchmarks, which include a full-scale exercise at each site, upgraded and expanded emergency communication and alerting systems, training across emergency management disciplines, and coordinated hazard-specific planning. Fiscal Year 2019: Colorado and Kentucky communities will maintain and further enhance preparedness capabilities as measured by the twelve programmatic benchmarks, which include a full-scale exercise at each site, upgraded and expanded emergency communication and alerting systems, training across emergency management disciplines, and coordinated hazard-specific planning.

97.042 Emergency Management Performance Grants

ASSISTANCE LISTINGS DESCRIPTIONS

EMPG,

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

The Department of Homeland Security Appropriations Act, 2017, Public Law 115-31, Post-Katrina Emergency Management Reform Act of 2006 (PKEMRA), Public Law 109-295, 6 USC Code 762. Earthquake Hazards Reduction Act of 1977, Public Law 95-124, 42 USC Code 7701. National Flood Insurance Act of 1968, Public Law 90-448, 42 USC Code 4001. Robert T. Stafford Disaster Relief and Emergency Assistance Act, Public Law 93-288, 42 USC Code 5121.

OBJECTIVES:

The FY 2018 Emergency Management Performance Grant Program (EMPG) is set against the backdrop of a year in which the United States faced numerous and unprecedented homeland security challenges. These included the three major hurricanes that devastated parts of Texas, Florida, and much of Puerto Rico and the U.S. Virgin Islands, as well as massive wildfires across the State of California. In addition to these natural disasters, the Nation also responded to multiple incidents as part of the evolving threat landscape, including witnessing the first known terrorist attack executed against mass transportation on our soil; cyberattacks against critical port infrastructure; and mass casualty events involving both vehicles and active shooters. The National Preparedness Goal (the Goal) defines what it means to be prepared for such diverse and complicated events. The National Preparedness System is the instrument the Nation employs to build, sustain, and deliver the core capabilities needed to achieve the goal of a more secure and resilient Nation. The development and sustainment of these core capabilities is not exclusive to any single level of government or organization, but rather requires the combined effort of the whole community. To that end, the FY 2018 EMPG represents one part of a comprehensive set of measures authorized by Congress and implemented by the Administration. Among the five basic homeland security missions noted in the DHS Quadrennial Homeland Security Review, the EMPG supports the goal to Strengthen National Preparedness and Resilience. The purpose of EMPG is to provide Federal funds to states to assist state, local, territorial, and tribal governments in preparing for all hazards, as authorized by Section 662 of the Post-Katrina Emergency Management Reform Act (6 U.S.C. 762) and the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.). Title VI of the Stafford Act authorizes DHS/FEMA to make grants for the purpose of providing a system of emergency preparedness for the protection of life and property in the United States from all hazards and to vest responsibility for emergency preparedness jointly in the Federal Government, states, and their political subdivisions. The Federal Government, through EMPG, provides direction, coordination, and guidance, and provides necessary assistance, as authorized in this title, to support a comprehensive all-hazards emergency preparedness system. The FY 2018 EMPG will provide Federal funds to assist state, local, tribal, and territorial emergency management agencies to obtain the resources required to support implementation of the National Preparedness System and the National Preparedness Goal (the Goal) of a secure and resilient Nation.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

DHS grant funds may only be used for the purpose set forth in the grant, and must be consistent with the statutory authority for the award.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); State (includes District of Columbia, public institutions of higher education and hospitals), U.S. Territories and possessions (includes institutions of higher education and hospitals) All 56 States and territories, as well as the Republic of the Marshall Islands and the Federated States of Micronesia, are eligible to apply for FY 2018 EMPG funds. Either the SAA or the States EMA is eligible to apply for EMPG funds. Either the SAA or the EMA is eligible to apply directly to FEMA for EMPG funds on behalf of each state or territory. However, only one application will be accepted from each state or territory.

Beneficiary Eligibility:

U.S. Territories; State; Local; Federally Recognized Indian Tribal Governments; Funding under this program is ultimately used by emergency management

organizations and programs of States, the District of Columbia, territories and possessions of the United States, local, and Indian Tribal governments.

Credentials/Documentation:

All EMPG Program applicants are encouraged to use the template to submit a required Work Plan that outlines the States emergency management sustainment and enhancement efforts, including new and ongoing projects, proposed for the EMPG Program period of performance. The Work Plan consists of a Program and Budget Narrative, Personnel Data Table, Training Data Table, Exercise Data Table, and Grant Activities Outline. EMPG Regional Program Managers will work closely with States to monitor Work Plans during the performance period and may request further documentation from the recipients to clarify the projected work plan. In addition, EMPG Regional Program Managers must approve final Work Plans before States may draw down EMPG Program funds. Grant funds will be released on a rolling basis upon approval of the States final Work Plan. 2 CFR 200, Subpart E - Cost Principles applies to this program. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Requirements for Federal Awards applies to this program. Application deadline and other information are contained in the FY2018 EMPG Program Notice of Funding Opportunity (NOFO). Applying for FY 2018 EMPG Program funds requires a two-step process. Step 1: initial submission to determine eligibility and Step 2: full application. Applicants are encouraged to initiate Step 1 immediately after the NOFO is published but no later than May 2018. This involves submitting a complete Standard Form 424 to grants.gov Successful completion of this step is necessary for FEMA to determine eligibility of the applicant. Late submissions of Step 1 to grants.gov could result in applicants missing the application deadline in Step 2. Once FEMA has determined an applicant to be eligible, applicants can proceed to Step 2 which involves submitting the full application package via the Non Disaster (ND) Grants system. The submission deadline for the full application package is June 20, 2018.

Award Procedure:

Applications or plans are reviewed by DHS/FEMA program and administrative staff. Any issues or concerns noted in the application will be negotiated with the successful applicant prior to award being issued.

Reports:

In addition to the Quarterly Performance Progress Reports, recipients are responsible for completing and submitting a BSIR biannually. The BSIR is due within 30 days of the end of the reporting period. The summer BSIR is due July 30 for the January 1 through June 30 reporting period, and the winter BSIR is due on January 30 for the July 1 through December 31 reporting period. Updated obligations and expenditure information must be provided within the BSIR to show progress made toward meeting strategic goals and objectives as well as how expenditures support Planning, Organization, Equipment, Training and Exercise (POETE) activities. Accordingly, reports should include project-level details by subrecipient to explain how expenditures support gaps identified in the recipients THIRA and SPR. Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund draw downs may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS. Grant Close-Out Process. Within 90 days after the end of the period of performance, or after a Grant Adjustment Notice (GAN) has been issued to close out a grant, whichever comes first, grantees must submit a final FFR and final progress report detailing all accomplishments throughout the period of performance. After these reports have been reviewed and approved by FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds that will be deobligated, and address the requirement of maintaining the grant records for three years from the date of the final FFR. The grantee is responsible for returning any funds that have been drawn down but remain as unliquidated on grantee financial records. For more information, please see the FY2018 EMPG Program Notice of Funding Opportunity (NOFO). Recipients are responsible for providing updated performance reports to FEMA using a Microsoft Word (Word) document summary attached in ND Grants, and this must be done on a quarterly basis. As explained in the Standardized Programmatic Reporting section below, the Quarterly Performance Progress Reports must be based on the approved EMPG Work Plan and are due no later than 30 days after the end of the quarter (i.e., on January 30, April 30, July 30, and October 30). Recipients must complete the summary of activities and submit it as an attachment to the ND Grants system. Recipients are required to report quarterly on progress toward completing activities and projects approved in their EMPG Work Plans, how expenditures support maintenance and sustainment of core capabilities, and progress made toward implementing the National Preparedness System. This includes reporting on the following information: List of completed training courses and exercises and the Training and Exercise Data Table (templates are available in Appendix C FY 2017 EMPG Work Plan). Percent completion of the Training and Exercise Plan (TEP) outlined in the FY 2017 EMPG Work Plan (templates are available in Appendix C FY 2017 EMPG Work Plan). Federal

Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund draw downs may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS. Grant Close-Out Process. Within 90 days after the end of the period of performance, or after a Grant Adjustment Notice (GAN) has been issued to close out a grant, whichever comes first, grantees must submit a final FFR and final progress report detailing all accomplishments throughout the period of performance. After these reports have been reviewed and approved by FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds that will be deobligated, and address the requirement of maintaining the grant records for three years from the date of the final FFR. The grantee is responsible for returning any funds that have been drawn down but remain as unliquidated on grantee financial records. For more information, please see the FY2018 EMPG Program Notice of Funding Opportunity (NOFO). EMPG recipients will be monitored programmatically and financially biannually and as needed by DHS/FEMA staff to ensure that activities, project goals, objectives, performance requirements, timelines, milestone completion, budgets, and other related program criteria are being met. Monitoring may be accomplished through either a desk-based review, onsite monitoring visits, or both. Monitoring will involve the review and analysis of the financial, programmatic, performance, compliance and administrative processes, policies, activities, and other attributes of each Federal assistance award and will identify areas where technical assistance, corrective actions, and other support that may be needed. As part of its grant oversight responsibility, DHS/FEMA is conducting a series of grant effectiveness case studies jointly with grant recipients to highlight how states and urban areas have used Federal grants to improve preparedness. The purpose of the project is to better understand the factors that jurisdictions consider when determining which grant projects to fund, as well as document key findings and success stories that will help both grant recipients and DHS/FEMA more effectively communicate the importance of Federal grant programs to policymakers and the public. Although not mandatory, grantees are encouraged to participate given the mutual benefits to be gained from this collaborative effort.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Grant records shall be retained for a period of 3 years from the day the recipient submits its final expenditure report. If any litigation, claim, negotiation, audit, or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later. Grant records include financial and program/progress reports, support documents, statistical records, and other documents that support the activity and/or expenditure of the recipient or sub-recipient under the award.

Grantees who have not submitted their Work Plan as part of their application will not be issued an award until such Work Plan is received, reviewed, and approved by the appropriate FEMA Regional Office. Grantees will be notified by their EMPG Regional Program Manager should any component of the EMPG Program application require additional information. For more information, refer to the FY2018 EMPG Program Notice of Funding Opportunity (NOFO).

97.043 State Fire Training Systems Grants

National Fire Academy State Fire Training Grants,

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Section 7(f) of the Federal Fire Prevention and Control Act of 1974 (Pub. L. No. 93-498), as amended, (15 U.S.C. 2206(f)), Public Law 93-498, 15 USC Code 2206(f)), Homeland Security Act of 2002, Public Law 107-296, U.S.A. Patriot Act of 2001, Public Law 107-56, Federal Fire Prevention and Control Act of 1974, Title 21, Public Law 93-498

OBJECTIVES:

The NFA promotes the professional development of the fire and the emergency response community and its allied professionals. NFA supports State and local training organizations to fulfill their obligation to the career and volunteer fire and emergency services. NFA also develops, delivers, and manages educational and training programs having a national focus that are outside State and local training missions or that exceed State and local capabilities because of cost or audience. The programs are designed to support PPD-8 through training programs which support State and local response agencies to prevent, mitigate, prepare for, and respond to local, regional, and national emergencies. NFA training helps to strengthen the States abilities to meet individual training mandates and bridge the gaps in their training programs with delivery of NFA courses and programs.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Grant funds are to be used within each State to deliver NFA training

courses/programs and for marketing, administrative costs, and electronic feedback of student data. Each State Fire Training System (State) will receive a total of \$20,000 with \$15,000 earmarked for delivery of NFA training programs and \$5,000 for marketing, administrative costs, and electronic feedback of student data. DHS grant funds may only be used for the purpose set forth in the grant, and must be consistent with the statutory authority for the award. Grant funds may not be used for matching funds for other federal grants / cooperative agreements, or for lobbying or intervention in federal regulatory or adjudicatory proceedings. In addition, federal funds may not be used to sue the federal government or any other government entity. Federal employees are prohibited from serving in any capacity (paid or unpaid) on any proposal submitted under this program. Federal employees may not receive funds under this award. States must use funds for the purpose of delivering NFA-developed courses. Pre-award costs are allowable only with the written consent of DHS and such costs must be reflected in the award agreement. See program guidance for information on eligibility. Applicant eligibility is restricted to the 50 State Fire Training Systems.

Applicant Eligibility:

Other public institution/organization; Representatives from the 50 State Fire Training Systems.

Beneficiary Eligibility:

State; Local; Specialized Group; fire and emergency response personnel.

Credentials/Documentation:

Credentials: Applicants must provide a work plan that includes a narrative project description along with the proposed costs for the project. (Allowable costs are determined by reference to OMB Circular No. A-87). The work plan will be used as a guide by the program office to approve / disapprove payment requests, therefore, the plan must be specific and must align with the amount of funding requested / received for the project description. Documentation: All beneficiaries / students must submit the standard FEMA Form 75-5 (long form) to the State or sponsoring host organization prior to the start of the class. 2 CFR 200, Subpart E- Cost Principles applies to this program. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. FEMA participates in the Administrations e-government initiative. As part of that initiative, all applicants must file their application using the Federal electronic storefront portal Grants.gov. Eligible applicants must apply through this portal, accessible on the Internet at <http://www.grants.gov>. Only applications made through www.grants.gov will be accepted. The on-line application requires (among other documentation), the Standard Forms 424, Project Narrative, and Budget. For complete information on all required forms, attachments, submission instructions / requirements, deadlines, and other procedural information, refer to program guidance.

Award Procedure:

The application will be reviewed and recommended for funding by the DHS/FEMA/USFA/NFA Project Officer based on the program criteria identified in the announcement / guidance. Notification of award is made through the electronic Non Disaster Grant System (NDGrants). Once an award has been approved, a notice is sent to the authorized grantee official. Awards are subject to certain administrative, national policy, and cost principle requirements delineated in both 2 CFR and 44 CFR. For complete information on the award procedure, and CFR (and other) requirements, refer to program guidance.

97.044 Assistance to Firefighters Grant

(Fire Grants),

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

The Federal Fire Prevention and Control Act of 1974, Public Law 112-239, 15 USC Code 2229 et seq.

OBJECTIVES:

The purpose of the AFG Program is to enhance the safety of the public and firefighters with respect to fire and fire-related hazards by providing direct financial assistance to eligible fire departments, nonaffiliated EMS organizations, and State Fire Training Academies (SFTA) for critically needed resources to equip and train emergency personnel to recognized standards, enhance operational efficiencies, foster interoperability, and support community resilience.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

AFG grants are both competitive and discretionary and are direct financial assistance awards to support firefighting and EMS operations and safety, vehicle acquisition and regional projects. Specific activities funded include professional training, wellness and fitness programs, equipment, personal protective equipment, modifications to facilities for first responder safety, other equipment and supplies that support firefighting and EMS operations and safety; firefighting vehicles, and emergency vehicles. Grants also are awarded for the Fire Prevention and Safety program are awarded to support activities to protect the public from fire and fire-related hazards. Specific activities funded include general public education and awareness; code enforcement and awareness; fire and arson investigation; national, state, and regional programs and studies; and firefighter safety and research and development. Grants for the Staffing for Adequate Fire and Emergency Response (SAFER) grant program are awarded to help fire departments and volunteer firefighter interest organizations to increase the number of frontline firefighters in their community and to enhance the capabilities of local fire departments to equip with staffing, response, and operational standards established by the NFPA and OSHA (NFPA 1710 and/or NFPA 1720 and OSHA 1910.134).

Applicant Eligibility:

Government - General; Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; U.S. Territories and possessions (includes institutions of higher education and hospitals); Specialized group (e.g. health professionals, students, veterans); Eligible applicants for AFG are limited to fire departments, nonaffiliated EMS organizations, and State Fire Training Academies. These organizations operating in any of the 50 States plus the District of Columbia, the Commonwealth of the Northern Mariana Islands, the Virgin Islands, Guam, American Samoa, and Puerto Rico are eligible for funding. A "fire department" is defined as an agency or organization that has a formally recognized arrangement with a State, territory, local, or tribal authority (city, county, parish, fire district, township, town, or other governing body) to provide fire suppression to a population within a fixed geographical area on a first-due basis. A "nonaffiliated EMS organization" is defined as a public or private nonprofit emergency medical services organization that provides direct emergency medical services, including medical transport, to a specific geographic area on a first-due basis but is not affiliated with a hospital and does not serve a geographic area where emergency medical services are adequately provided by a fire department. A State Fire Training Academy is defined as the primary state fire training academy,

ASSISTANCE LISTINGS DESCRIPTIONS

agency, or institution, for each state; which provides entity-wide delivery of fire training (and EMS training if applicable) as specified by legislative authorization, by general statutory authorization or charter, or is ad-hoc in nature with the general acceptance of the fire service. A listing of eligible State Fire Training Academy organizations and institutions can be found at:

<http://www.usfa.fema.gov/fireservice/>.

Beneficiary Eligibility:

U.S. Territories; Specialized group (e.g. health professionals, students, veterans); State; Local; The ultimate beneficiaries of this program are the local or tribal communities serviced by the applicants, including, but not limited to, local businesses, homeowners and property owners. Additionally, children under 16 years of age, senior citizens, and firefighters would be the beneficiaries since these groups are the targeted "risk groups" for the fire prevention program.

Credentials/Documentation:

Each applicant must certify: 1) that they are an eligible applicant, as defined above; 2) as to the characteristics of their community, i.e., urban, suburban, or rural; 3) to the population size of the community served; and, 4) to their department type, i.e., volunteer, combination, or career (where applicable). Eligible applicants for the AFG program are limited to fire departments, nonaffiliated EMS organizations, and State fire training academies operating in any of the 50 States plus the District of Columbia, the Commonwealth of the Northern Mariana Islands, the Virgin Islands, Guam, American Samoa, and Puerto Rico. A "fire department" is defined as an agency or organization that has a formally recognized arrangement with a State, territory, local, or tribal authority (city, county, parish, fire district, township, town, or other governing body) to provide fire suppression to a population within a fixed geographical area on a first-due basis. A "nonaffiliated EMS organization" is defined as a public or private nonprofit emergency medical services organization that provides direct emergency medical services, including medical transport, to a specific geographic area on a first-due basis but is not affiliated with a hospital and does not serve a geographic area where emergency medical services are adequately provided by a fire department. A State Fire Training Academy is defined as the primary state fire training academy, agency, or institution, for each state; which provides entity-wide delivery of fire training (and EMS training if applicable) as specified by legislative authorization, by general statutory authorization or charter, or is ad-hoc in nature with the general acceptance of the fire service. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is excluded from coverage under E.O. 12372. There is no preapplication form required under this grant program.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The application deadline and other relevant information are contained in the application and in the program-specific guidance and application kits.

Award Procedure:

Submitted applications are reviewed by peer review panelists and then by DHS program and administrative staff. Any issues or concerns noted in the application will be negotiated with the successful applicant prior to the award being issued.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. Refer to the program guidance and application kit document.

Appeals:

Other. Applicants whose grant requests are not recommended for funding after the peer review panel evaluation may request a reconsideration of that decision. Such a request may be successful if it is determined that the rating criteria were not appropriately applied, or there was a flaw in the competitive process that unfairly disadvantaged the applicant, or there was human error in the processing of the grant application. Requests for reconsideration must be submitted in writing within 30 days of the date of the notification of denial.

Renewals:

Other. The AFG award period of performance is 1 year. Grantees may request an

extension if they are unable to fulfill their grant obligations before the end of the 1-year period. Such requests will be considered and approved based on the written justification.

Formula and Matching Requirements:

Statutory Formula: Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. Applicants who protect a population of over 1,000,000 are required to provide a nonfederal cost-share of not less than 15 percent of the total award. Applicants who protect a population between 20,000 and 1,000,000 are required to provide a nonfederal cost-share of not less than 10 percent of the total award. Applicants who protect a population of less than 20,000 are required to provide a nonfederal cost-share of not less than 5 percent of the total award. No waivers of this requirement will be granted except for fire departments of Insular Areas as provided for in 48 U.S.C. 1469a. This program has MOE requirements, see funding agency for further details. Additional Information: This program also has a Maintenance of Effort (MOE) in that grantees are required to maintain operating expenditures during the grants period of performance in the areas funded by a grant at a level equal to or greater than the average of their operating expenditures in the 2 years preceding the year in which the grant is received. This requirement is intended to ensure that the Federal funds are used to supplement, not supplant, existing resources. In addition, this program will allocate more than \$100 million in grants during the current fiscal year..

Length and Time Phasing of Assistance:

Grants are available during the period of performance, which is 1 year. Refer to the FOA for specific details. Method of awarding/releasing assistance: other

Reports:

Grantees are required to submit semiannual financial and performance reports. The "Progress Reports" must include a narrative statement that details the progress of each award. Reports are due 30 days after the end of the sixth month of the performance period. Final financial and performance reports are due 90 days after the expiration or termination of grant award. Refer to program guidance. Refer to program guidance. Refer to program guidance.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grantees are required to maintain and retain backup documentation such as bids, quotes, and cost/price analyses on file for Federal auditors. The required documentation for federally funded purchases should include specifications, solicitations, purchase orders, invoices, cancelled checks, copies of competitive quotes or proposals, and basis for selection.

Records:

Grant records shall be retained for a period of 3 years from the day the recipient submits its final expenditure report. If any litigation, claim, negotiation, audit, or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later. 97.045 Cooperating Technical Partners

(CTP),

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Flood Insurance Act of 1968, 42 USC Code 4101. Biggert-Waters Flood Insurance Reform Act of 2012, National Flood Insurance Reform Act of 1994, Flood Disaster Protection Act of 1973

OBJECTIVES:

The Cooperating Technical Partners (CTP) Program exists to strengthen and increase the effectiveness of the National Flood Insurance Program (NFIP) through fostering strong Federal, State, Tribal, regional and local partnerships to reduce flood losses and promote community resiliency. The CTP Program supports Strengthening National Preparedness and Resilience, one of five basic missions of the DHS2014 Quadrennial Homeland Security Review. Additionally, the program supports the National Mitigation Framework within the Presidential Policy Directive (PPD-8). The objectives of the CTP Program primarily support the mission and objectives of the NFIPs Flood Hazard Mapping Program through FEMA's flood hazard identification and assessment programs including the Risk MAP (Mapping, Assessment, and Planning) initiative. The vision for Risk MAP is to deliver quality data that increases public awareness of flood hazard risk and leads to action that reduces flood risk to life and property. Risk MAP develops flood hazard data and maps for communities that have never had identified risks as well as building on effective flood hazard data and flood insurance rate maps. FEMA collaborates with a variety of stakeholders to achieve the following goals under Risk MAP: Flood Hazard Data- Address gaps in flood hazard data to form a solid foundation for risk assessment, floodplain management, and actuarial soundness of the NFIP. Public Awareness/Outreach- Ensure that a measurable increase of the public's awareness and understanding of risk results in a measurable reduction of current and future vulnerability. Hazard Mitigation Planning- Lead and support States, local, and Tribal communities to effectively engage in risk-based mitigation planning resulting in sustainable actions that reduce or eliminate risks to

life and property from natural hazards. Enhanced Digital Platform- Provide an enhanced digital platform that improves management of Risk MAP, steward of information produced by Risk MAP, and improves communication and sharing of risk data and related products to all levels of government and the public. Alignment and Synergies- Align Risk Analysis programs and develop synergies to enhance decision-making capabilities through effective risk communication and management. Information about Risk MAP (including goals, strategies, progress and success stories), can be found on FEMA's website at <http://www.fema.gov/risk-mapping-assessment-planning>. FEMA through the CTP Program seeks to build upon and enhance the existing capabilities of CTPs to increase local involvement in, and ownership of flood hazard identification, flood map maintenance, risk assessment, and risk communication to encourage responsible floodplain management and support their jurisdictional responsibilities as participating members of the NFIP. They assist in the development and maintenance of flood risk data and Flood Insurance Rate Maps (FIRMs) and other risk related products, as well as other assistance in advancing their local and FEMA's goals and objectives of Risk MAP and the NFIP program. Partnerships developed through FEMA's CTP Program are in the best interest of State and local communities, the NFIP and the general public. FEMA is responsible for establishing and updating minimum Federal criteria and holds the final decision making responsibility for issuing the FIRMs and any revisions/updates, however, there are several mutually beneficial reasons for creating these partnerships to help produce risk identification and assessment data, and other products in support of the NFIP.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Assistance may be used for costs associated with Community Engagement and Risk Communication, Program Management, Technical Risk Analysis and Mapping, Letter of Map Revision (LOMR) Delegation and Special Project activities as delineated in the FY 2018 Notice of Funding Opportunity. Allowable costs are determined by reference to the OMB Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Use of funds must be consistent with the statutory authority for the award. Restrictions: The recipient must have in-house staff capabilities in the appropriate technical area for the activity approved in the award. If the work for any portion of a mapping activity is contracted, the recipient of the award must have in-house staff with the technical capability to monitor the contractor(s) and approve the product(s) developed by the contractor(s). Applicants must meet the eligibility criteria outlined in the FY 2018 Notice of Funding Opportunity. This criteria includes (but is not limited to) the requirement that potential partners have existing processes and/or systems in place to support mapping or data collection activities that contribute to flood hazard identification and that potential partners have the demonstrated capability and capacity to implement, or contract, the activities for which funding is being sought.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals; Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Only qualified CTPs are eligible for federal assistance awards through this program. Eligible recipients generally include entities who already perform certain functions in flood risk analysis, flood hazard identification, flood risk communication and mitigation processes in States and local communities to reduce flood losses and protect life and property from the risk of future flood damage. Specifically, eligible CTPs include three main groups: (1) NFIP-participating communities, as defined in 44 CFR 59 (typically this includes State, Tribal and local governments), who are in good standing with the NFIP (i.e., not on probation or suspended); (2) State, local and regional governmental agencies, such as water management districts, river authorities, municipal utility districts, State Universities, etc., whose activities support floodplain management and flood mitigation actions within the NFIP communities they serve; and (3) non-profit organizations whose primary mission is to support the ability of NFIP communities to more effectively understand and manage their flood risk. In accordance with Section 1361 of the National Flood Insurance Act of 1968 (42 U.S.C. 4102), these entities and organizations must have existing facilities and services to carry out studies and investigations with respect to land management and use, flood control,

ASSISTANCE LISTINGS DESCRIPTIONS

flood zoning and flood damage prevention in flood-prone areas, floodways, building codes and permits, and associated laws, regulations and ordinances. For additional information, see the Eligibility Criteria in the Funding Opportunity Announcement.

Beneficiary Eligibility:

U.S. Territories; Specialized group (e.g. health professionals, students, veterans); Small business; Private nonprofit institution/organization; Anyone/general public; State; Local; Federally Recognized Indian Tribal Governments; State, local, specialized group, small business, general public.

Credentials/Documentation:

Potential partners/applicants must meet the criteria outlined in the FY2018 Notice of Funding Opportunity, including (but not limited to): evidence that they have sufficient technical capability (including credentials or certifications) and capacity necessary to perform program activities, a signed Partnership Agreement with the appropriate FEMA office (Region or HQ), and meet the eligibility requirements. Applicants must be NFIP participating communities in good standing. Documentation: Allowable costs are determined by reference to OMB Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. For complete information on credentials and documentation, please refer to program guidance. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. All applicants should consult with the appropriate FEMA awarding office (i.e., Regional office or HQ) for application information and technical assistance. Non-profits should also consult with FEMA HQ for pre-approval, application information and/or technical assistance. Environmental impact information is not required for this program.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. FEMA participates in the Administrations e-government initiative. As part of that initiative, all applicants must file their application using the Federal electronic storefront portal Grants.gov. Eligible applicants must apply through this portal, accessible on the Internet at <http://www.grants.gov>. For complete information on all required forms, attachments, submission instructions / requirements, deadlines, and other procedural information, please refer to program guidance.

Award Procedure:

Qualified FEMA programmatic staff (regional and/or Headquarters), with sufficient program knowledge and expertise in floodplain mapping, flood risk assessment, flood risk communication and floodplain management, review and select CTP projects for funding. Applications are reviewed to ensure compliance with the eligibility criteria and selected primarily on FEMA's priorities and the availability of FEMA funds (i.e., funding is not guaranteed to new or existing applicants). FEMA considers the following elements when prioritizing funding for and selecting CTPs for awards: program priorities, past performance, technical capability and capacity, and partner contribution. Applications are also reviewed by qualified FEMA grants management staff to ensure compliance with grants management principles, such as administrative requirements and cost principles. Applicants/applications that do not meet eligibility or submission requirements are removed from consideration. Any issues or concerns noted in the application will be negotiated with the successful applicant prior to the award being issued.

97.046 Fire Management Assistance Grant

(FMAG),

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND
SECURITY, DEPARTMENT OF

AUTHORIZATION:

Robert T. Stafford Disaster Relief and Emergency Act, Section 420, Public Law
93-288, 42 USC Code 5187.

OBJECTIVES:

The Fire Management Assistance Grant Program is authorized by the Stafford Act and amended by the Disaster Mitigation Act of 2000. Grants are provided to States, Indian tribal and local governments for the mitigation, management and control of any fire burning on publicly (non-federal) or privately owned forest or grassland that threatens such destruction as would constitute a major disaster. The funds are primarily used for fire suppression services (response) but also for essential assistance (emergency protective measures) as described in Section 403 (42 U.S.C. 5170b) of the Stafford Act. This includes, but is not limited to evacuation and sheltering, police barricading, equipment and supplies, and other costs related to fire suppression operations and administration in support of these operations. Of the 32 core capabilities described in the National Preparedness Goal, Second Edition, 2015, this program fits into several including Fire Management and Response), Physical Protective Measures, Public Information and Warning, Infrastructure Systems, and On-Scene Security, Protection, and Law Enforcement categories.

TYPES OF ASSISTANCE:

Project Grants, Provision of Specialized Services

USES AND USE RESTRICTIONS:

Fire Management Assistance Grants are made in the form of cost-sharing grants for the mitigation, management, and control of any fire on publicly (nonfederal) or privately owned forestland or grassland that threatens such destruction as would constitute a major disaster. The Fire Management Assistance Grant Program, authorized by the Stafford Act and amended by the Disaster Mitigation Act of 2000, provides for the mitigation, management and control of fires that threaten such destruction as would constitute a major disaster.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; U.S. Territories and possessions (includes institutions of higher education and hospitals); State governments and Indian tribal governments are eligible for fire management assistance grants. The State or Indian tribal government may be the Recipient. The Recipient is the government entity that receives the award and is accountable for the use of funds provided.

Beneficiary Eligibility:

State; Federally Recognized Indian Tribal Governments; The State Government and/or Indian tribal government, acting as the Recipient is the government to which

the grant is awarded and which is accountable for the use of the funds provided. Other State entities, Indian tribal governments and local governments are eligible to apply as subrecipients.

Credentials/Documentation:

A State or Indian Tribal Government must apply by completing an SF 424 (Application for Federal Assistance) and must have applied for and received approval for a Fire Management Assistance Declaration. In addition, the Applicant must also provide documentation that shows they have met the Fire Cost Thresholds for the calendar year in which the fire was declared, and must have prepared, submitted, and received approval for a State Administrative Plan and a Hazard Mitigation Plan. Costs are determined in accordance with FEMA Regulations and 44 CFR Part 204. Federal funds will be awarded to subrecipients in accordance with State law and procedure and in compliance with 44 CFR Part 204. Grant awards are managed in accordance with 2 CFR part 200. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is excluded from coverage under E.O. 12372. A FEMA-State Agreement and/or Indian tribal Agreement for the Fire Management Assistance Grant Program (the agreement) is signed by the Governor/Indian tribal government and the Regional Administrator at the beginning of the calendar year or after a State's first fire management assistance grant declaration in a calendar year. The agreement is amended for subsequent approvals of assistance for the remainder of the year. This agreement contains the terms and conditions for requesting and receiving assistance.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. A State Governor, or Governor's Authorized Representative, may request a fire management assistance declaration from the FEMA Regional Administrator. To expedite the request, the State may submit a request via telephone to the Regional Administrator, followed by a confirming message or letter. The FEMA Regional Administrator renders a decision on the State's request and notifies the State and FEMA Headquarters of the approval or denial of the request. This decision may be relayed by telephone, to be followed by a written determination.

Award Procedure:

To receive fire management assistance grant funds a State or Indian Tribal Government must complete and submit an SF 424 (Request for Federal Assistance), and must have applied for and received approval for a Fire Management Assistance Declaration. The Recipient must also provide documentation that shows they have met the Fire Cost Thresholds for the calendar year in which the fire was declared. The Applicant must submit its application within 9 months of the declaration (with a possible 6 month extension). The Regional Administrator has 45 days from receipt the State's grant application or an amendment to the State's grant application, including attached supporting Project Worksheet(s), to review and approve or deny the grant application or amendment; or to notify the recipient of a delay in processing funding.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. From 1 hour to 72 hours.

Appeals:

Other. States may appeal the denial of a fire management assistance declaration and may also appeal any other decision related to the fire management assistance grant program. To appeal a denied fire management assistance declaration the Governor or GAR may appeal the decision in writing within 30 days after the date of the denied declaration. The State submits the request to the FEMA Administrator through the Regional Administrator. The Administrator will reevaluate the State's request and notify the State of the final determination within 90 days of receipt of the appeal. An eligible applicant, subrecipient, or recipient may appeal any determination FEMA makes related to an application for the provision of Federal assistance. The applicant or subrecipient makes the appeal in writing through the recipient to the Regional Administrator after reviewing and evaluating all subrecipient appeals. The appeal is submitted to the Regional

ASSISTANCE LISTINGS DESCRIPTIONS

Administrator and includes documented justification supporting the appellant's position, the monetary figure in dispute and the provisions in Federal law, regulation, or policy with which the appellant believes the initial action was inconsistent. The Regional Administrator will render a determination on first appeals for fire management assistance grant-related decisions within 90 days following receipt of the appeal or requested additional information. In the event the Regional Administrator denies the appeal, the applicant may submit a second-level appeal to the Deputy Associate Administrator of the Office of Response and Recovery (formerly the Assistant Administrator for the Recovery Directorate) at FEMA Headquarter Office (for second appeals). Within 90 days following receipt of a second appeal, the Deputy Associate Administrator, will notify the grantee in writing of the final decision or of the need for additional information. If the decision is to grant the appeal, the Regional Administrator will take appropriate implementing action. The decision of the Deputy Associate Administrator at the second appeal level is the final decision of FEMA.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. Fire Management Assistance Grants may be available to States on a 75 percent Federal/25 percent nonfederal cost-sharing basis when the State's application demonstrates either of the following: total eligible costs for the declared fire meet or exceed the individual fire cost threshold or total costs of all declared and non-declared fires in a given calendar year meet the cumulative fire cost threshold. The individual fire cost threshold for a State for FY 2018 is the greater of \$100,000 or five percent x \$1.43 x state population. The cumulative fire cost threshold for a State FY 2017 is the greater of \$500,000 or three times the five percent x \$1.46 x State population. Both formulas are adjusted annually for inflation using the Consumer Price Index for All Urban Consumers published annually by the Department of Labor. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

There are two time-related periods. The first is the incident period which is the time interval during which a declared fire occurs. Generally costs must be incurred during the incident period to be eligible for assistance. The incident period varies from a week to more than a month depending on the severity of the declared fire. The second time interval is the Period of Performance. Grant funds are normally available for three years following a fire management assistance grant declaration with time extensions possible. This Period of Performance is stated in the SF-424 Application for Federal Assistance. Method of awarding/releasing assistance: other

Reports:

Within 90 days of the Performance Period expiration date, the State must submit a Financial Status Report (FEMA Form 425) which reports all costs incurred within the incident period and all administrative costs incurred within the performance period. The performance period, defined on the SF-424, may be 9 months from the close of the incident period and may be extended for an additional 3 months by the Regional Administrator. During the performance period the Grantee will submit the subgrants, which document eligible costs; FEMA will review the eligibility of costs, and process, obligate, and close-out the grant. Refer to program guidance. Refer to program guidance. Refer to program guidance.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. These audits are due to the cognizant Federal agency, submitted through the Federal Audit Clearinghouse, not later than 9 months after the end of the grantees fiscal year.

Records:

Grant records must be retained for a period of 3 years from the day the recipient submits its final expenditure report. If any litigation, claim, negotiation, audit, or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year

period, whichever is later. Grant records include financial and program/progress reports, support documents, statistical records, and other documents that support the activity and/or expenditure of the recipient or sub-recipient under the award.

97.048 Federal Disaster Assistance to Individuals and Households in Presidential Declared Disaster Areas

(IHP),

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended, Public Law 106-390, 42 USC Code 5174.

OBJECTIVES:

To provide financial assistance, and if necessary, direct services to individuals and households affected as a direct result of a Presidentially declared major disaster or emergency, who have uninsured or under-insured, necessary expenses and serious needs and are unable to meet such expenses or needs through other means. This program supports disaster recovery by providing the financial means or direct services to disaster survivors for Temporary Housing, Repair Assistance, Replacement Assistance, or Permanent or Semi-permanent Housing Construction in addition to financial assistance to address Other Needs.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Project Grants

USES AND USE RESTRICTIONS:

Restricted to Presidential-declared disasters or emergencies, such as an earthquake, hurricane, tornado, wildfire, or flood, etc. Program activates only after issuance of a presidential declaration. Housing Assistance, either Financial or Direct, may be provided for the following: (1) Temporary Housing, (2) Home Repair, (3) Home Replacement and (4) Permanent or Semi-permanent Housing Construction. Assistance not used for the specified purpose will be required to be returned. Other Needs Assistance may be provided for: (1) Medical, (2) Dental, (3) Child Care, (4) Funeral, (5) Personal Property, (6) Transportation, and (7) Other Miscellaneous Expenses. Assistance not used for the specified purpose will be required to be returned. If the State is providing for other needs under Section 408(f) of the Stafford Act, please refer to CFDA 97.050.

Applicant Eligibility:

Individual/Family; Individuals and households, in areas declared an emergency or major disaster by the President, who have necessary expenses and serious needs

they are unable to meet through insurance or other means, are eligible to apply for this program. All needs must be caused by the disaster. Basic conditions of eligibility include: the individual or a member of the household must be a citizen of the United States, a non-citizen national, or a qualified alien. Housing Assistance: 1) Temporary Housing Assistance - proof of primary residence, proof of occupancy, disaster-caused displacement, and/or paid receipts for Rent or Lodging Expenses; 2) Repair - primary residence, proof of occupancy and ownership, disaster caused home damage; 3) Replacement - primary residence, proof of occupancy and ownership, home destroyed by the disaster; 4) Permanent or Semi-permanent Housing Construction - primary residence, proof of occupancy and ownership, disaster-caused home damage, home is located in an insular area outside the continental United States and in other locations in which no alternative housing resources are available, and types of temporary housing assistance are unavailable, infeasible, or not cost-effective. Other Needs Assistance: 1) Medical: disaster-caused expenses, and/or paid receipts (bills) for medical treatment; 2) Dental: disaster-caused expenses, and/or paid receipts (bills) for treatment; 3) Child Care: disaster caused expenses; 4) Funeral: disaster-caused expenses, and/or paid receipts (bills) for services; 5) Personal Property: proof of ownership; disaster-caused personal property damage; 6) Transportation: proof of ownership, vehicle complies with State laws, disaster-caused vehicle damage; 7) Other Necessary Expenses and Serious Needs: the expense or need must be caused by the disaster and approved by FEMA.

Beneficiary Eligibility:

Individual/Family; Local; Individual/Family; Homeowner (located within an area which has been designated as a disaster area by Presidential declaration).

Credentials/Documentation:

Restricted to Presidential-declared disasters or emergencies, such as an earthquake, hurricane, tornado, wildfire, flood, etc. The Other Needs Assistance provision of the Individuals and Households Program activates only after issuance of a presidential declaration. Other Needs Assistance may be provided for the following: 1) Medical, 2) Dental, 3) Child Care, 4) Funeral, 5) Personal Property, 6) Transportation, and 7) Other Miscellaneous Expenses. Assistance not used for the specified purpose will be required to be returned. If FEMA is administering the Other Needs Assistance, please refer to CFDA 97.048.

Applicant Eligibility:

Individual/Family; Individuals and households, in areas declared an emergency or major disaster by the President, who have necessary expenses and serious needs they are unable to meet through insurance or other means, are eligible for Other Needs Assistance. Basic conditions of eligibility include: the individual or a member of the household must be a citizen of the United States, a non-citizen national, or a qualified alien. 1) Medical: disaster-caused expenses, and/or paid receipts (bills) for medical treatment; 2) Dental: disaster-caused expenses, and/or paid receipts (bills) for treatment; 3) Child Care: disaster-caused expenses; 4) Funeral: disaster-caused expenses, and/or paid receipts (bills) for services; 5) Personal Property: proof of ownership, disaster-caused personal property damage; 6) Transportation: proof of ownership, vehicle complies with State laws, disaster-caused vehicle damage; and 7) Other Necessary Expenses and Serious Needs: the expense or need must be caused by the disaster and approved by FEMA.

Beneficiary Eligibility:

Individual/Family; Individual/Family; expenses/losses must have occurred within an area which has been designated as a disaster area by Presidential declaration.

Credentials/Documentation:

FEMA Disaster Assistance Regulations at 44 CFR Part 206. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Based on damage assessments and an agreement to commit state funds and resources to the long-term recovery, the State Governor or Indian Tribal Chief Executive makes a request (through the FEMA Regional Director) for a Presidential Declaration for an emergency or major disaster. Requests for assistance must be made in accordance with FEMA Disaster Assistance Regulations, 44 CFR 206, except as provided in Part 206.24(d) for

97.056 Port Security Grant Program

(PSGP),

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Maritime Transportation Security Act of 2002, Section 102, Public Law 107-295, 46 USC Code 70107.

OBJECTIVES:

The FY 2018 Port Security Grant Program (PSGP) is set against the backdrop of a year in which the United States faced numerous and unprecedented homeland security challenges. These included the three major hurricanes that devastated parts of Texas, Florida, and much of Puerto Rico and the U.S. Virgin Islands, as well as massive wildfires across the State of California. In addition to these natural disasters, the Nation also responded to multiple incidents as part of the evolving threat landscape, including witnessing the first known terrorist attack executed against mass transportation on our soil; cyberattacks against critical port infrastructure; and mass casualty events involving both vehicles and active shooters. The National Preparedness Goal (the Goal) defines what it means to be prepared for such diverse and complicated events. The National Preparedness System is the instrument the Nation employs to build, sustain, and deliver the core capabilities needed to achieve the goal of a more secure and resilient Nation. The development and sustainment of these core capabilities is not exclusive to any single level of government or organization, but rather requires the combined effort of the whole community. To that end, the FY 2018 PSGP represents one part of a comprehensive set of measures authorized by Congress and implemented by the Administration. Among the five basic homeland security missions noted in the

ASSISTANCE LISTINGS DESCRIPTIONS

DHS Quadrennial Homeland Security Review, the PSGP supports the goal to Strengthen National Preparedness and Resilience.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

The FY 2018 PSGP is one of the Departments FY 2018 grant programs that directly support maritime transportation infrastructure security activities. PSGP is one tool in the comprehensive set of measures authorized by Congress and implemented by the Administration to strengthen the Nations critical infrastructure against risks associated with potential terrorist attacks. The vast majority of U.S. maritime critical infrastructure is owned and/or operated by State, local, and private sector maritime industry partners. PSGP funds available to these entities are intended to improve port-wide maritime security risk management; enhance maritime domain awareness; support maritime security training and exercises; and to maintain or reestablish maritime security mitigation protocols that support port recovery and resiliency capabilities. PSGP investments must address U.S. Coast Guard identified vulnerabilities in port security and support the prevention, detection, response, and/or recovery from attacks involving improvised explosive devices (IED) and other non-conventional weapons. PSGP grant recipients and sub-recipients may only use PSGP grant funds for the purpose set forth in the grant, and must be consistent with the statutory authority for the award. Grant funds may not be used for matching funds for other Federal grants/cooperative agreements, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. In addition, Federal funds may not be used to sue the Federal government or any other government entity. Federal employees are prohibited from serving in any capacity (paid or unpaid) on any proposal submitted under this program. Federal employees may not receive funds under this award. In FY2018 , the total amount of funds distributed under this grant program will be \$100,000,000. The FY 2018 PSGP funds will be allocated based on the funding priorities outlined in FY 2018 PSGP Notice of Funding Opportunity (NOFO).

Applicant Eligibility:

Government - General; Non-Government - General; Quasi-public nonprofit institution/organization; Pursuant to the Maritime Transportation Security Act of 2002, as amended (MTSA), DHS established a risk-based grant program to support maritime security risk management. Funding is directed towards the implementation of AMSPs, Facility Security Plans (FSP), and Vessel Security Plans (VSPs) among port authorities, facility operators, and state and local government agencies that are required to provide port security services. In administering the grant program, national, economic, energy, and strategic defense concerns based upon the most current risk assessments available will be considered.

Beneficiary Eligibility:

Specialized group (e.g. health professionals, students, veterans); Private nonprofit institution/organization; Critical national seaports and terminals.

Credentials/Documentation:

Prior to, or along with, an application for assistance 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is excluded from coverage under E.O. 12372. For more information, refer to the FY 2018 PSGP Notice of Funding Opportunity (NOFO).

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applying for an award under this program is a multi-step process. To ensure that an application is submitted on time applicants are advised to start the required steps well in advance of their submission. Failure to comply with any of the required steps before the deadline for submitting the application may disqualify the application from funding. The steps involved in applying for an award under this program are:

1.Applying for, updating, or verifying their Data Universal Numbering System (DUNS) Number and Employer ID Number (EIN); 2.Updating or verifying their System for Award Management (SAM) Registration; 3.Establishing an Authorized Organizational Representative (AOR) in Grants.gov; 4.Submitting an initial application in Grants.gov; and 5.Submitting the final application in the ND Grants system.

Award Procedure:

Initial Screening. FEMA will conduct an initial review of all 2018 PSGP applications to ensure each application is complete. All complete applications will be provided to the applicable COTP for further review. Field Review. Field-level reviews will be managed by the applicable COTP in coordination with the Gateway Directors of the U.S. Department of Transportation (DOTs) Maritime Administration (MARAD) and appropriate personnel from the AMSC, to include owner/operators of MTSA regulated facilities and vessels, as well as Federal, State, and local agencies, as identified by the COTP. To support coordination of and regionalization of maritime security grant application projects with State and Urban Area homeland security strategies, as well as other State and local security plans, AMSC members representing State and local agencies should coordinate the results with the applicable State administrative agency or agencies and State homeland security advisor(s). Field reviews for all Groups occur immediately following the initial screening. Each specific project is scored for compliance with criteria enumerated in the previous section and the COTP/MARAD provides a prioritized list of eligible maritime security risk mitigation projects for funding within each port area. The COTP will use the COTP Field Review Form to review all projects. After completing field reviews, COTPs will submit the field review project scores, any associated comments, and prioritized lists to FEMA who will begin coordination of the national review process. Following the COTP field review, a national review, led by FEMA, will convene. The national review encompasses a detailed administrative/financial review of applications recommended for funding, as well as a review by subject matter experts from DHS and other Federal partners that validates and normalizes the COTP field review results. The national review will also have the ability to recommend partial funding for individual projects and eliminate others that are determined to be duplicative or require a sustained Federal commitment to fully realize the intended risk mitigation. In addition, the national review will validate proposed project costs. Decisions to reduce requested funding amounts or eliminate requested items deemed inappropriate under the scope of the FY 2018 PSGP will take into consideration the ability of the revised project to address the intended PSGP priorities and whether it will achieve the intended risk mitigation goal. Historically, PSGP has placed a high priority on providing full project funding rather than partial funding.

Deadlines:

May 21, 2018 - June 22, 2018. All applications must be received by the established deadline. The Non-Disaster (ND) Grants System has a date stamp that indicates when an application is submitted. Applicants will receive an electronic message confirming receipt of the full application. In general, DHS/FEMA will not review applications that are received after the deadline or consider them for funding. DHS/FEMA may extend the application deadline on request for an applicant who can demonstrate that good cause exists to justify extending the deadline. Good cause for an extension may include ongoing technical problems outside of the applicant's control that prevent submission of the application by the deadline, or other exigent or emergency circumstances. Applicants experiencing technical issues must notify the respective FEMA Headquarters (HQ) Program Analyst prior to the application deadline. Applicants should contact the Centralized Scheduling and Information Desk (CSID) for FEMA HQ Program Analyst contact information.

CSID can be reached by phone at (800) 368-6498 or by e-mail at askcsid@fema.gov, Monday through Friday, 9:00 a.m. – 5:00 p.m. ET.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. The FY 2018 PSGP has a cost share requirement. The non-Federal entity contribution can be cash or third-party in-kind, with the exception of construction activities, which must be a cash-match (hard). All applicants will be required to commit to the cost share requirement at the time of application. All public sector and non-governmental, nonprofit PSGP award recipients meaning recipients other than private, for-profit entities must provide a non-Federal entity contribution

ASSISTANCE LISTINGS DESCRIPTIONS

supporting 25 percent (25%) of the total of all project costs. The non-Federal entity contribution should be specifically identified for each proposed project. The non-Federal contribution, whether cash or third-party in-kind, has the same eligibility requirements as the Federal share (e.g. operational costs for routine patrol are ineligible; operational costs for overtime to conduct an approved exercise may be eligible as part of the investment justification) and must be justified as part of the project within the investment justification. For example, if the Federal award for a public sector recipient requires a 25 percent (25%) cost share and the total project cost is \$100,000, then: Federal share is 75 percent of \$100,000 = \$75,000 Recipient cost share is 25 percent of \$100,000 = \$25,000 Private, for-profit PSGP award recipients must provide a non-Federal entity contribution supporting 50 percent (50%) of the total of all project costs. The non-Federal entity contribution should be specifically identified for each proposed project. The non-Federal contribution, whether cash or third party in-kind, has the same eligibility requirements as the Federal share (e.g. operational costs for routine patrol are ineligible, and operational costs for overtime to conduct an approved exercise may be eligible as part of the investment justification) and must be justified as part of the project within the investment justification. For example, if the Federal award for a public sector recipient requires a 50 percent (50%) cost share and the total project cost is \$100,000, then: Federal share is 50 percent of \$100,000 = \$50,000 Recipient cost share is 50 percent of \$100,000 = \$50,000 Exceptions to the cost match requirement may apply. Please see Appendix A FY 2018 PSGP Funding Guidelines for details. For example, the cost share requirements for projects that have a port-wide benefit need only to be funded at the public sector matching fund level of 25 percent. These projects must be certified by the COTP as having a port-wide benefit. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

The period of performance is 36 months. For more information, refer to the FY 2018 PSGP Notice of Funding Opportunity (NOFO). Awards are subject to the Cash Management Improvement Act for payment and/or reimbursement of expenditures. Method of awarding/releasing assistance: Grantees must accept their grant awards no later than 90 days from the award date. The grantee shall notify the awarding agency of its intent to accept and proceed with work under the award, or provide a written notice of intent to decline. Funds will remain on hold until the grantee accepts the award through official correspondence (e.g., written, electronic signature, signed letter or fax to GPD) and all other conditions of award have been satisfied, or the award is otherwise rescinded. Failure to accept the grant award within the 90 day timeframe may result in a loss of funds. Method of awarding/releasing assistance: other

Reports:

Recipients are required to submit various financial and programmatic reports as a condition of award acceptance. Future awards and funds drawdown may be withheld if these reports are delinquent. Recipients must report obligations and expenditures on a quarterly basis through the FFR (SF-425) to FEMA. Recipients must file the FFR electronically using the Payment and Reporting System (PARS). A FFR must be submitted quarterly throughout the period of performance, including partial calendar quarters, as well as for periods where no grant award activity occurs. The final FFR is due 90 days after the end of the performance period. Future awards and fund drawdowns may be withheld if these reports are delinquent, demonstrate lack of progress, or are insufficient in detail. The Federal Financial Reporting Form (FFR) is available online at: <https://www.grants.gov/web/grants/forms/post-award-reporting-forms.html#sortBy=1,SF-425> Recipients are responsible for providing updated performance reports on a biannual basis as an attachment in ND Grants. The PPR should include the following: Status Summary: Provide a brief narrative of the overall project status; Identify accomplishments and milestones achieved as they relate to the approved project; and Describe any potential issues that may affect project completion. Best Practices / Lessons Learned Summary, which describes any best practices or lessons learned identified to date through the program. The purpose of this information is to develop and enhance guidance materials, tools, templates, and lessons learned and best practices summaries. Issues List, which identifies any program-related challenges that may require assistance or impact successful and on time completion of the funded project. Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS. Grant Close-Out Process. Within 90 days after the end of the period of performance, or after a Grant Adjustment Notice (GAN) has been issued to close out a grant, whichever comes first, grantees must submit a final FFR and final progress report detailing all accomplishments throughout the period of performance. After these reports have been reviewed and approved by FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds that will be deobligated, and address the requirement of maintaining the grant records for three years from the date of the final FFR. The grantee is responsible for returning any funds that have been drawn down but remain as unliquidated on grantee financial records. Grant recipients will be monitored on an annual and as needed basis by recipients will be monitored on an annual and as needed basis by FEMA staff, both programmatically and financially, to ensure that the project goals, objectives, performance requirements, timelines, milestone completion, budgets, and other related program criteria are being met. Monitoring may be accomplished through either a desk-based review or on-site monitoring visits, or both. Monitoring will involve the review and analysis of the financial, programmatic, performance, compliance and administrative processes, policies, activities, and other attributes of each Federal assistance award and will identify areas where technical assistance, corrective actions and other support may be needed.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503

Records:

Grant records shall be retained for a period of 3 years from the day the recipient submits its final expenditure report. If any litigation, claim, negotiation, audit, or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later. Grant records include financial and program/progress reports, support documents, statistical records, and other documents that support the activity and/or expenditure of the recipient or sub-recipient under the award.

CRITERIA FOR SELECTING PROPOSALS:

Prior to making a Federal award, the Federal awarding agency is required by 31 U.S.C. 3321 note, 41 U.S.C. 2313, and 2 C.F.R. 200.205 to review information available through any OMB-designated repositories of government-wide eligibility qualification or financial integrity information. Therefore application evaluation criteria may include the following risk based considerations of the applicant: (1) financial stability; (2) quality of management systems and ability to meet management standards; (3) performance history managing Federal awards; (4) reports and findings from audits; and (5) ability to effectively implement statutory, regulatory, or other requirements. The PSGP uses a risk-based methodology for making funding decisions whereby each Port Areas relative threat, vulnerability, and consequences from acts of terrorism are considered. This approach helps ensure that program funding is directed toward those port areas that present the highest risks in support of the Goal of a secure and resilient Nation. PSGP will only fund those eligible projects that close or mitigate maritime security risk vulnerabilities gaps as identified in the applicable AMSP, FSP, VSP, and/or Alternative Security Programs. Projects that enhance business continuity and resumption of trade within the Port Area will also be considered for funding. FY 2018 PSGP applications will be evaluated through a three-part review and selection process. There are five core PSGP criteria applied throughout the process: 1. Projects that support development and sustainment of the core capabilities in the Goal and align to PSGP-specific priorities identified in Appendix A FY2018 PSGP Funding Guidelines. PSGP Priorities are ranked and weighted based on alignment with Core Capabilities (CC) across the five mission areas of the Goal. Each IJ will be given a score based on how well it addresses each of the PSGP Priorities. The following scale point shall be used: 0=None; 1=Minimal; 3=Moderate; 9=Significant/Gap Filled 2. Projects that address priorities outlined in the applicable AMSP, FSP, and Vessel Security Plan (VSP), as mandated under the MTSA or the Port-Wide Risk Mitigation Plans (PRMP). AMSP Priorities are the top three Transportation Security Incidents (TSI) (46 USC Sec 70101(6) ranked and correspondingly weighted. Each IJ will be given a score (using the same scale as the National Priorities module) based on how well it addresses one or more TSI within the context of the five mission areas of the Goal: Prevention, Protection, Mitigation, Response, and Recovery. The following scale shall be used: 0=None; 1=Minimal; 3=Moderate; 9=Significant/Gap Filled 3. Projects that address additional maritime security priorities based on the COTPs expertise and experience within the specific Port Area. The final COTP rankings will normally mirror the composite score ranking; however, there may be unique circumstances where the COTP may override the composite rankings by ranking a project higher or lower on the composite ranking. 4. Projects that are eligible and feasible (based on the available period of performance). In addition, a recipients past performance demonstrating competent stewardship of Federal funds may influence funding decisions. Investment justifications should justify the scope, breadth, and cost of a project, as well as a timeline for completing the project as required within this NOFO. Projects failing to demonstrate these minimum funding considerations may result in being denied funding. The following scale shall be used: 0=No Funding Recommended; 1=Funding Recommended 6.5. Projects submitted by a public sector applicant, or projects otherwise certified by the COTP as having a port-wide benefit (See Appendix A for further information), will have their final score increased by a multiplier of 10 percent.

97.057 Intercity Bus Security Grants

Intercity Bus Security,

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Department of Homeland Security Appropriations Act, 2017, Public Law 110-53, 6 USC Code 1182. 1531 of the Implementing Recommendations of the 9/11 Commission Act of 2007, Public Law 110-53, 6 USC Code 1531.

OBJECTIVES:

The FY 2018 Intercity Bus Security Grant Program (IBSGP) is set against the backdrop of a year in which the United States faced numerous and unprecedented homeland security challenges. These included the three major hurricanes that devastated parts of Texas, Florida, and much of Puerto Rico and the U.S. Virgin Islands, as well as massive wildfires across the State of California. In addition to these natural disasters, the Nation also responded to multiple incidents as part of the evolving threat landscape, including witnessing the first known terrorist attack executed against mass transportation on our soil; cyberattacks against critical port infrastructure; and mass casualty events involving both vehicles and active shooters. The National Preparedness Goal (the Goal) defines what it means to be prepared for such diverse and complicated events. The National Preparedness System is the instrument the Nation employs to build, sustain, and deliver the core capabilities needed to achieve the goal of a more secure and resilient Nation. The development and sustainment of these core capabilities is not exclusive to any single level of government or organization, but rather requires the combined effort of the whole community. To that end, the FY 2018 IBSGP represents one part of a comprehensive set of measures authorized by Congress and implemented by the Administration. Among the five basic homeland security missions noted in the DHS Quadrennial Homeland Security Review, the IBSGP supports the goal to Strengthen National Preparedness and Resilience.

97.061 Centers for Homeland Security

(COE),

FEDERAL AGENCY:

SCIENCE AND TECHNOLOGY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Homeland Security Act of 2002, Section 1205, Public Law 107-296, 6 USC Code 188(b).

OBJECTIVES:

The Office of University Programs (OUP) funds and manages critical homeland security-related research and education at U.S. colleges and universities through its Centers of Excellence Program (COE). The DHS COEs are university consortia that work closely with DHS Components and their partners to conduct research, develop and transition mission-relevant science and technology, educate the next generation of homeland security technical experts, and train the current workforce in the latest scientific applications. COE research teams address a range of technical and scientific challenges identified by DHS Components. In addition to the core COE research program, OUP supports workforce development programs that build and train current homeland security professionals and educate the next generation of science and engineering students. The primary customers for OUP are S&T Directorates divisions, DHS Components, and Federal, State, and local government agencies. All Centers of Excellence work closely with academia, industry, DHS components and first-responders to develop customer-driven research solutions to on the ground challenges as well as provide essential training to the next generation of homeland security experts. The research portfolio is a mix of basic and applied research addressing both short and long-term needs. The COE extended network is also available for rapid response efforts.

97.067 Homeland Security Grant Program

(HSGP),

FEDERAL AGENCY:

FEDERAL EMERGENCY MANAGEMENT AGENCY, HOMELAND SECURITY, DEPARTMENT OF

AUTHORIZATION:

Department of Homeland Security Appropriations Act of 2017, Public Law 114-4, Homeland Security Act of 2002, Public Law 107-296

OBJECTIVES:

The FY 2018 Homeland Security Grant Program (HSGP) is set against the backdrop of a year in which the United States faced numerous and unprecedented homeland security challenges. These included the three major hurricanes that devastated parts of Texas, Florida, and much of Puerto Rico and the U.S. Virgin Islands, as well as massive wildfires across the State of California. In addition to these natural disasters, the Nation also responded to multiple incidents as part of the evolving threat landscape, including witnessing the first known terrorist attack against mass transportation on our soil; cyberattacks against critical port infrastructure; and mass casualty events involving both vehicles and active shooters. The National Preparedness Goal (the Goal) defines what it means to be prepared for such diverse and complicated events. The National Preparedness System is the instrument the Nation employs to build, sustain, and deliver the core capabilities needed to achieve the goal of a more secure and resilient Nation. The development and sustainment of these core capabilities is not exclusive to any single level of government or organization, but rather requires the combined effort of the whole community. To that end, the FY 2018 HSGP represents one part of a comprehensive set of measures authorized by Congress and implemented by the Administration. Among the five basic homeland security missions noted in the DHS Quadrennial Homeland Security Review, HSGP supports the goal to Strengthen National Preparedness and Resilience. The recently released 2018-2022

ASSISTANCE LISTINGS DESCRIPTIONS

FEMA Strategic Plan creates a shared vision for the field of emergency management and sets an ambitious, yet achievable, path forward to unify and further professionalize emergency management across the country. The Homeland Security Grant Program supports the goal of Ready the Nation for Catastrophic Disasters. We invite all of our stakeholders and partners to also adopt these priorities and join us in building a stronger Agency and a more prepared and resilient Nation. Within this broader construct, the objective of the FY2018 HSGP is to provide funds to eligible entities to support state, local, tribal, and territorial efforts to prevent terrorism and other catastrophic events and to prepare the Nation for the threats and hazards that pose the greatest risk to the security of the United States. State Homeland Security Program (SHSP): The SHSP supports state, tribal, territorial, and local preparedness activities that address high priority preparedness gaps across all core capabilities that support terrorism preparedness. Urban Area Security Initiative (UASI): The UASI program assists high-threat, high-density Urban Areas in efforts to build, sustain, and deliver the capabilities necessary to prevent, protect against, mitigate, respond to, and recover from acts of terrorism. Operation Stonegarden (OPSG): The OPSG Program supports enhanced cooperation and coordination among Customs and Border Protection (CBP), United States Border Patrol (USBP), and Federal, state, local, tribal, and territorial law enforcement agencies. The OPSG Program provides funding to support joint efforts to secure the United States borders along routes of ingress from international borders to include travel corridors in states bordering Mexico and Canada, as well as states and territories with international water borders.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Civil Defense/Disaster Prevention and Relief/Emergency Preparedness DHS grant funds may only be used for the purpose set forth in the grant, and must be consistent with the statutory authority for the award. Grant funds may not be used for matching funds for other Federal grants/cooperative agreements, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. In addition, Federal funds may not be used to sue the Federal government or any other government entity. Pre-award costs are allowable only with the written consent of DHS and if they are included in the award agreement. For additional information on allowable activities, please refer to <http://www.fema.gov/grants>. Federal employees are prohibited from serving in any capacity (paid or unpaid) on any proposal submitted under this program. Federal employees may not receive funds under this award. There may be limitations on the use of HSGP and THSGP funds for the following categories of costs: Management and Administration Planning Organization Equipment Training Exercises Maintenance and Sustainment Critical Emergency Supplies Construction and Renovation. For additional details on restrictions on the use of funds, please refer to the FY 2018 HSGP and THSGP Notices of Funding Opportunity. Funds Transfer Restriction: The recipient is prohibited from transferring funds between programs (includes SHSP, UASI, and OPSG). Recipients are allowed to submit an investment/project where funds come from multiple funding sources (i.e., SHSP/UASI); however, recipients are not allowed to divert funding from one program to another due to the risk-based funding allocations, which were made at the discretion of DHS/FEMA. Awards made to the SAA for HSGP carry additional pass-through requirements. Pass through is defined as an obligation on the part of the SAA to make funds available to local units of government, combinations of local units, tribal governments, or other specific groups or organizations. The SAAs pass through requirement must be met within 45 days of the award date. Four requirements must be met to pass through grant funds: There must be some action to establish a firm commitment on the part of the SAA; The action must be unconditional on the part of the awarding entity (i.e., no contingencies for availability of SAA funds); There must be documentary evidence (i.e., award document, terms and conditions) of the commitment; and The award terms must be communicated to the official recipient. The SAA must obligate at least 80 percent (80%) of the funds awarded under SHSP and UASI to local or Tribal units of government within 45 days of receipt of the funds. The recipient must pass through 100 percent of OPSG allocations to eligible jurisdictions. Receipt of funds occurs when the recipient accepts the award or 15 days after the recipient is notified of the award, whichever comes first. The signatory authority of the SAA must certify in writing to DHS/FEMA that pass-through requirements have been met. A letter of intent (or equivalent) to distribute funds is not considered sufficient. The pass through requirement does not apply to SHSP awards made to the District of Columbia, Guam, American Samoa, the U.S. Virgin

Islands, and the Commonwealth of the Northern Mariana Islands. The Commonwealth of Puerto Rico is required to comply with the pass-through requirement and its SAA must also obligate at least 80 percent (80%) of the funds to local units of government within 45 days of receipt of the funds. Any UASI funds retained by the SAA must be used to directly support the designated Urban Areas in the state. The SAA must propose an investment describing how such UASI funds it retains will be used to directly support the Urban Area. Under SHSP, the SAA may retain more than 20 percent (20%) of SHSP funding for expenditure made by the state on behalf of the local unit(s) of government. This may occur only with the written consent of the local unit of government, specifying the amount of funds to be retained and the intended use of funds. If a written consent agreement is already in place from previous fiscal years, DHS/FEMA will continue to recognize it for FY 2018. If modifications to the existing agreement are necessary, the SAA should contact their assigned Headquarters Program Analyst. Per section 2006 of the Homeland Security Act of 2002, as amended, (6 U.S.C. 607), DHS/FEMA is required to ensure that at least 25 percent (25%) of grant funding appropriated for the HSGP and THSGP are used for law enforcement terrorism prevention activities. DHS/FEMA meets this requirement, in part, by requiring all SHSP and UASI recipients to ensure that at least 25 percent (25%) of the combined HSGP funds allocated under SHSP and UASI are dedicated towards law enforcement terrorism prevention activities, as defined in 6 U.S.C. 607. The LETPA allocation can be from SHSP, UASI or both. This requirement does not include award funds from OPSG. The 25% LETPA allocation is in addition to the 80% pass through requirement to local units of government and Tribes. The recipient must pass through 100 percent (100%) of OPSG allocations to eligible jurisdictions. The recipient is prohibited from obligating or expending funds provided through this award until each unique and specific county-level or equivalent Operational Order/Fragmentary Operations Order budget has been reviewed and approved through an official electronic mail notice issued by DHS/FEMA removing this special programmatic condition. Risk MethodologyBased upon the requirements of the Homeland Security Act of 2002, as amended, DHS/FEMA continues to use risk to determine final HSGP allocations. DHS/FEMA defines risk as: potential for an unwanted outcome resulting from an incident, event, or occurrence, as determined by its likelihood and the associated consequences (see <http://www.dhs.gov/xlibrary/assets/dhs-risk-lexicon-2010.pdf>). The DHS/FEMA risk methodology is focused on three elements:Threat the likelihood of an attack being attempted by an adversary;Vulnerability the likelihood that an attack is successful, given that it is attempted; andConsequence the effect of an event, incident or occurrence.The risk methodology determines the relative risk of terrorism faced by a given area taking into account the potential risk of terrorism to people, critical infrastructure, and economic security. The analysis includes threats from violent domestic extremists, international terrorist groups, and individuals inspired by terrorists abroad.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); All 56 states and territories, which includes any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands, are eligible to apply for SHSP funds. The State Administrative Agency (SAA) is the only entity eligible to submit HSGP applications to DHS/FEMA, including those applications submitted on behalf of UASI and OPSG applicants. Tribal governments may not apply directly for HSGP funding; however, funding may be available to tribes under the SHSP and OPSG through the SAA.Elaborate high-risk Urban Areas for the FY 2018 UASI program have been determined through an analysis of relative risk of terrorism faced by the 100 most populous Metropolitan Statistical Areas (MSAs) in the United States. Sub-awards will be made by the SAA to the designated Urban Areas.Elaborate subrecipients under the FY 2018 OPSG Program are local units of government at the county level or equivalent level of government and Federally-recognized tribal governments in states bordering Canada or Mexico and states and territories with international water borders. All applicants must have active ongoing USBP operations coordinated through a CBP sector office to be eligible for OPSG funding.Under the FY 2018 OPSG Program, subrecipients eligible to apply for and receive a subaward directly from the SAA are divided into three Tiers. Tier 1 entities are local units of government at the county level or equivalent

and Federally-recognized tribal governments that are on a physical border in states bordering Canada, states bordering Mexico, and states and territories with international water borders. Tier 2 eligible subrecipients are those not located on the physical border or international water but are contiguous to a Tier 1 county. Tier 3 eligible subrecipients are those not located on the physical border or international water but are contiguous to a Tier 2 eligible subrecipient. Tier 2 and Tier 3 eligible subrecipients may be eligible to receive funding based on border security risk as determined by the USBP, as described in Section E of the 2018 NOFO.

Beneficiary Eligibility:

U.S. Territories; State; Local; U.S. Territories, State, Local THSGP: In order to be eligible to receive THSGP funding, recipients must be directly eligible Tribes. Directly eligible Tribes are Federally recognized Tribes that meet the criteria set forth in Section 2001 of the Homeland Security Act of 2002, as amended (6 U.S.C. 601). Federally recognized Tribes are those Tribes appearing on the list published by the Secretary of the Interior pursuant to the Federally Recognized Indian Tribe List Act of 1994 (Pub. L. No. 103-454) (25 U.S.C. 479a-1). Per 6 U.S.C. 601(4), a directly eligible Tribe is any Federally recognized Indian Tribe that meets the following criteria: (A) Any Indian Tribe - (i) that is located in the continental United States; (ii) that operates a law enforcement or emergency response agency with the capacity to respond to calls for law enforcement or emergency services; (iii) a that is located on or near (50 miles) an international border or a coastline bordering an ocean (including the Gulf of Mexico) or international waters; b that is located within 10 miles of a system or asset included on the prioritized critical infrastructure list established under section 210E(a)(2) [of the Homeland Security Act of 2002, as amended] or has such a system or asset within its territory; c that is located within or contiguous to one of the 50 most populous metropolitan statistical areas in the United States; or d the jurisdiction of which includes not less than 1,000 square miles of Indian country, as that term is defined in section 1151 of title 18, United States Code; and (iv) that certifies to the Secretary [of Homeland Security] that a State has not provided funds under section 2003 [UASI] or 2004 [SHSP] of [the Homeland Security Act of 2002, as amended] to the Indian Tribe or consortium of Indian Tribes for the purpose for which direct funding is sought; and (B) A consortium of Indian Tribes, if each Tribe satisfies the requirements of subparagraph (A). In summary, directly eligible Tribes must meet the requirements set forth in (A)(i), (A)(ii), and (A)(iv). Tribes must also meet one of the requirements set forth in (A)(iii): either (A)(iii)(a), (A)(iii)(b), (A)(iii)(c), or (A)(iii)(d). Finally, under subparagraph (B), a consortium may also be eligible to be a recipient if each Indian Tribe in the consortium meets the criteria for a directly eligible Tribe under subparagraph (A). In FY 2018, applicants must self-certify as to whether they meet the eligibility requirements. Self-certification will be provided on the THSGP Eligibility Certification Form as part of the application Investment Justification (IJ). Additionally, DHS/FEMA will verify grant recipient eligibility against this criteria. Any questions regarding an applicant's proximity to a Critical Infrastructure (CI) site, as described in the eligibility criteria, may be directed to the State Administrative Agency (SAA) for the state with which the Tribal Nation shares a border. Length and Time Phasing of Assistance: The Period of Performance is 36 months. For more information, refer to the FY 2018 HSGP and THSGP Notice of Funding Opportunity. The period of performance outlined above support the effort to expedite the outlay of grant funding and provide economic stimulus. Agencies should request waivers sparingly, and they will be granted only due to compelling legal, policy, or operational challenges. Method of awarding/releasing assistance: Based on project need.

Credentials/Documentation:

As part of the FY 2018 HSGP application process for SHSP and UASI funds, applicants must develop formal investment justifications (IJs) that address the proposed investments. Each IJ must demonstrate how proposed investments: Support terrorism preparedness; Support closing capability gaps or sustaining capabilities identified in the 2017 THIRA/SPR process and national priorities as outlined in the National Preparedness Report; and Engage and/or impact the whole community, including children, older adults, pregnant women, and individuals with limited English proficiency, individuals with disabilities and others with access and functional needs, and ensure the protection of civil rights in the building, sustainment, and delivery of core capabilities. Each IJ must explain how the proposed investments will support the applicant's efforts to: Prevent a threatened or an actual act of terrorism; Prepare for all hazards and threats, while explaining the nexus to terrorism preparedness; Protect citizens, residents, visitors,

and assets against the greatest threats and hazards, relating to acts of terrorism; and/or Respond quickly to save lives, protect property and the environment, and meet basic human needs in the aftermath of an act of terrorism or other catastrophic incidents. Applicants must propose at least one, and may include up to 10 investments. Within each investment in their IJ, applicants must propose at least one project to describe the activities they plan to implement with HSGP funds. There is no limit to the number of projects that may be submitted. Any projects funded with HSGP funds that are not included in the application must subsequently be included in the first Biannual Strategy Implementation Report (BSIR). Of the proposed HSGP-funded investments, one (1) single investment must be in support of a designated fusion center. Recipients must coordinate with the fusion center when developing a fusion center investment prior to submission. Of the proposed HSGP-funded investments, at least one (1) investment must be in support of the state or territory's cybersecurity efforts. Recipients must limit the use of HSGP funds for projects that support the security and functioning of critical infrastructure and core capabilities as they relate to terrorism preparedness and may simultaneously support enhanced preparedness for other hazards unrelated to acts of terrorism. All emergency communications investments must describe how such activities align with their Statewide Communication Interoperable Plan (SCIP). Recipients must coordinate with their Statewide Interoperability Coordinator (SWIC) and/or Statewide Interoperability Governance Body (SIGB) when developing an emergency communications investment prior to submission to ensure the project supports the statewide strategy to improve emergency communications and is compatible and interoperable with surrounding systems. Projects should describe how the proposed investment supports closing capability gaps or sustaining capabilities identified in the THIRA/SPR process. As part of the FY 2018 OPSG application process, each eligible local unit of government at the county or Federally-recognized tribal government level must develop a strategic plan called a Concept of Operations (CONOP)/Application, which is a formal proposal of action to address a specific situation and forms the basis for Operations Orders, in coordination with state and Federal law enforcement agencies, to include, but not limited to CBP/USBP. CONOPs that are developed at the county level should be inclusive of city, county, tribal, and other local law enforcement agencies that are eligible to participate in OPSG operational activities, and the CONOP/Application should describe participating agencies in the Executive Summary. CONOP/Application details should include the names of the agencies, points of contact, and individual funding requests. All CONOPs/Applications must be developed in collaboration with the local USBP sector office, the SAA and the local unit of government. Requests for funding in CONOPs/Applications must be based on risks and the operational enforcement support requirements of its corresponding USBP Sector. Sector offices will forward the CONOPs to USBP Headquarters for vetting and coordination. Applicants will forward corresponding OPSG Applications to the SAA for submission to FEMA. USBP Headquarters will reconcile all submitted CONOPs with the OPSG Applications. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. All applications must be received by the established deadline. The Non-Disaster (ND) Grants System has a date stamp that indicates when an application is submitted. Applicants will receive an electronic message confirming receipt of the full application. In general, DHS/FEMA will not review applications that are not received by the deadline or consider them for funding. DHS/FEMA may, however, extend the application deadline on request for any applicant who can demonstrate that good cause exists to justify extending the deadline. Good cause for an extension may include technical problems outside of the applicant's control that prevent submission of the application by the deadline, or other exigent or emergency circumstances. If you experience technical issues, you must notify the respective Headquarters Program Analyst as soon as possible.

Award Procedure:

FY 2018 SHSP funds will be allocated based on two factors: minimum amounts as legislatively mandated, and DHS/FEMAs risk methodology. THIRA/SPR results do not impact grant allocation or award. Each state and territory will receive a minimum allocation under SHSP using thresholds established in the Homeland Security Act of 2002, as amended. All 50 States, the District of Columbia, and the Commonwealth of Puerto Rico will receive 0.35 percent of the total funds allocated for grants under Section 2003 and Section 2004 of the Homeland Security Act of 2002, as amended. Each of the four territories (American Samoa, Guam, the Northern Mariana Islands, and the U.S. Virgin Islands) will receive a minimum allocation of 0.08 percent of the total funds allocated for grants under Section 2003 and 2004 of the Homeland Security Act of 2002, as amended. FY 2018 UASI funds will be allocated based on DHS/FEMAs risk methodology. THIRA/SPR results do not impact grant allocation or award. Eligible candidates for the FY 2018 UASI program have been determined through an analysis of relative risk of terrorism faced by the 100 most populous Metropolitan Statistical Areas (MSAs) in the United States, in accordance with the Homeland Security Act of 2002, as amended. Prior to making a federal award, FEMA is required by 31 U.S.C. 3321 note, 41 U.S.C. 2313, and 2 C.F.R. 200.205 to review information available through any OMB-designated repositories of government-wide eligibility qualification or financial integrity information. Therefore, application evaluation criteria may include the following risk-based considerations of the applicant: (1) financial stability; (2) quality of management systems and ability to meet management standards; (3) history of performance in managing federal award; (4) reports and findings from audits; and (5) ability to effectively implement statutory, regulatory, or other requirements.
